Chicago trade and provision market. -- Cotton spots and futures |-- Bradstreet's report of the business situation. New York markets: Money on call has been easy, ranging from 1 to 11/2 per cent., last loan at 1 and elosing offered at 1 per cent; cotton steady; middling gulf 8 9-16 cents; middling uplands, 8 5- 16cents; Southern flour dull and weak; common to fair extra \$2.00 @3.00; good to choice do. \$3.10@4.20: wheat-spot moderately active and firmer: No. 2 red in store and at elevator 661/4@ 6634c; afloat 68@6814 cents; corn-spot dull but steady; No. 2 at elevator 41% cents; spirits turpentine quiet and steady at 301/2@31 cents; rosin quiet and steady.

It is generally believed in Florida that Governor Mitchell will not go gunning until after the 25th inst.

If manager Bowden could manage to "pull" Governor Mitchell off he might "pull off" the fight in Florida somewhere out of the woods.

There are large deposits of anthracite coal in the State of Senora, Mexico, for the development and working of which a company is being organized in St. Louis.

The Sultan of Turkey had a big time in his establishment the other day, a sort of "present arms" affair. His 167 wives were vaccinated. It was a taking performance all round

There are now 130,561,910 gallons of whiskey in bond, which ought to come out the 1st of May. The tax on it amounts to \$117,523,719, which would give the Treasury a big lift if

Kaiser William has a good deal of gall for Mr. Bismarck. He recently vetoed a prize awarded to the author of the Foundation of the German Empire by William the First, because the author gave too much credit to Bismarck.

Chicago now claims a population of two millions. When it comes to making claims Chicago was never backward in coming forward. If she needs any more, after the hard times pass, she'll stretch her city limits and take 'em in.

"Maryland, my Maryland," seems to be doing pretty well not withstanding the hard times. The Sun almanac shows that there was an increase of \$10,000,000 in the value of taxable property in 1893. Six millions of this was in the city of Baltimore.

Senator Voorhees says he wouldn't be surprised if the Senate amend the Wilson bill so as to provide for a tax on firearms and cartridges. While the Senate is about it we trust some humane Senator will suggest the eminent propriety of including firecrackers and a double tax on " aby-wak-

The following Democratic Senaators are said to be opposed to the individual income tax: Messrs. Brice, Caffrey. Camden. Faulkner, Gibson, Gorman, Gray, Hill, Lindsay, McPherson, Vilas, Murphy Smith, White, of California, and White, of Louisiana. If this be so it is a dead cock in the pit.

Some of the jails in Michigan are not half as well guarded as they should be. When the sheriff of one of the counties, who had charge of an empty jail, returned the other night from some social festivities, he found his jail inhabited by three tramps who had broken in, built a fire and were making themselves at

John L. Sullivan has been knocked out again, but this time it was by his wife, who tapped him on the noggin with an Indian club. It happened at Buffalo. He came home filled with forty-rod pizen, began to abuse her, and as she is somewhat muscular herself and clever with the club, she tapped him on the head | condition. It is splendidly located in a hard enough to lay him out unconscious for an hour or two. Mrs. Sullivan was very sorry, for she The spring term begins January 80th. so was John.

-- The Charlotte News is authority for the statement that policeman Killough, of that town, "weighs nearly 200 pounds, and every bit muscle," In accepting the enormous aggregate of muscle without a grain of salt, the STAR must be permitted to ask how this poor fellow manages to live, without flesh, bone, or blood. Killough's life must be a sad

THE COTTON CROP.

Traders Reducing Estimates in Proportion to the Falling Off in Interior Receipts. Messrs. Clapp & Co., of New York, in

their "Weekly Market Letter," January

The trade generally appear to be reducing their crop estimates in proportion to the falling off in interior receipts. Seventy three and a half per cent. of the cotton yearly coming in sight fordinarily occurs the first four months of a crop year or before January 1. But few weeks usually elapse before the interior movement talls off sharply. The world's visible supply is now around the maximum (which was reached February 26 1891, when 4,720.872 bales were in sight in the United States, affoat and in Europe). Spinners' reported takings in Manchester and on the continent are liberal and fully up to general expectations. Southern and Northern spinners are reported as slowly increasing their

Speculation has broadened; outside trade is more scattered and more gener-More confidence and better prices seem to be expected by the better element of the cotton trade as well as the grower and factor who continue to be very bullish. Exports about keep pace with the general movement in proportion to average seasons. The Indian crop is reported as fully equaling an average. About a year ago the crop was considered as about 1,200,000 bales, against 1,467,000 for 1891-'2.

'The Day We Celebrate."

This is the s-tieth anniversary of the birth of the most active and youthful looking citizen (of his age) of Wilmington. He is one of the old-timers, but you would never think so from his appearance. On the contrary, if one should form an opinion of his age by his step and bearing it would place him away down among the boys. He has one peculiarty-while he may not always remember his own age, he knows that of every other man in town.

The Observer's View.

The Charlotte Observer also received a "card" from Mr. Marion Butler in reference to the special printed in a number of papers about the Goldsboro hairpulling. It printed part of it and added

this comment: "Following the excellent example of the Wilmington STAR in the same case, we omit so much of the card as is merely denunciatory of the correspondent who sent out the special. The ends didn't intend to hit him so hard, and M. Rhodes, A. M., President, Littleton, of justice are met in the publication of the foregoing."

FIRES YESTERDAY.

Luther Memorial Building Burned-Loss Estimated at \$5,000, With Insurance for Half the Amount-A Residence on Princess Street on Fire-The Flames Speedily Exunguished-A Dwelling and a Store Burned.

The Luther Memorial Building was destroyed by fire yesterday about one o'clock.

At 12.45 o'clock fire was discovered on the roof of the residence of Mrs. L. M. Williams, No. 510 Princess street. Some of the neighbors who discovered the fire ran to the Atlantic Engine House, a block and a half distant. About the time they reached the engine house an alarm was turned in from box No. 32, corner of Sixth and Princess streets, for a fire in the Luther Memorial Building on the same corner.

The engines reached the scene and put out the first fire in short order. The damage to Mrs. Williams' house was a hole about five feet square burned in the shingle roof, and a general flooding of the interior. There was no insurance on this building, nor on Mrs. Williams'

But the Luther Memorial Building fire was a fierce and stubborn one. The steeple was in a blaze before the fire was discovered, and for some time the water supply was weak and the streams did not reach the roof of the building. A stiff breeze was blowing from the West, and every one expected to see the Lutheran parsonage. which was scorching with the intense heat, consumed also. A few cottages just back of the Memorial building caught from sparks, but the flames were extinguished by a bucket brigade, which did good service.

The heat from the fire was very intense, the tin roof being red hot, and the Fire Department could do but little except protect the adjoining property by keeping it soaked with water.

About 1 o'clock the steeple fell with a crash, crushing the roof and causing the flames to leap high.

At the time the fire was discovered the Parochial School, with about forty scholars, was in session, and it is due to the coolness of Miss. Florence L. Bonitz and her assistant, Miss Annie Stemmerman, that there was no panic among the scholars. They marched out of the building safely, carrying their books

The building was erected about ten years ago for St. Paul's Evangelical Lutheran Church Sunday School and the Parochial (day) school, and was also used for church festivals, concerts and entertainments. It was a handsome structure, built of the best material, and everybody regrets the loss. The building was insured for \$2,500, about half what it cost, and there was \$300 insurance on the fixtures and furniture; all in the Etna of Hartford, with Messrs. Atkinson & Son. A piano and organ were saved, and part of the school furniture; but the library was a total loss.

It is supposed that the fire originated from sparks from a tinner's fire-pot which was left by the workmen who were repairing the roof and had gone to dinner.

The school committee, which consists of Messrs. John Rehder, chairman; L Hansen, L. Vollers, C. Schulken, and H. Gerdts, met yesterday afternoon, and decided that the Parochial school will continue. The children will meet at the church Lecture room at the usual time of opening.

The fire last night at 11.30 o'clock was on the corner of Seventeenth and Market streets in a two-story dwelling and store adjoining, owned and occupied by Wm. Swann, colored. Both buildings were burned down; on account of the distance to the nearest hydrant-seven blocks-the firemen could not get water to put out the fire. The dwelling was insured for \$1,000; furniture, \$300; store, \$100, and stock therein, \$300. Most of the goods in the store were saved. The insurance was in companies represented by Messrs. Atkinson

The buildings might have been saved water had been available.

COTTON FACTS AND FIGURES.

- Sales in Wilmington yesterday at 7%c for middling.
