The new cruiser Minneapolis, built by the Cramps, is pronounced the fastest war-ship afloat. On her recent trial trip she made 26.57 miles an hour, and also made her builders a premium of \$402,500. She's a daisy, an opinion in which the Cramps doubtless agree.

Senator Davis, of Minnesota, is looming up as a possible Republican candidate for the Presidency, on the strength of his manly telegram to the Minnesota strikers, refusing to support Senator Kyle's resolution. In that telegram he showed that he had the right kind of sand in him.

The present indications point to one of the biggest corn crops ever raised in the West. The manager of the Rock Island Road, which runs through Iowa, Kansas and Nebraska, says, if nothing happens more corn will be raised along his lines than they can haul in two years. The probable yield in Kansas is put at 275,000,000 bushels, 40,000,000 bushels more than the extraordinary crop of 1888.

In the contingency that the labor question be a looming issue in the next Presidential campaign, the Philadelphia Times suggests for Presi dent Cushman K. Davis, of Minnesotar for Vice President. John B Gordon, of Georgia, as an ideal ticket. But there is no probability, while the labor question will be a factor, that it will be such a looming one as to suggest the nomination of Presidential candidates on that issue.

The first strike on record occurred in Rome 300 years B. C. It was a strike of the flute players who got miffed because they were refused permission to participate in a banquet in Jupiter's temple. They struck and the Romans couldn't get any wind for their religious celebrations which were in progress about that time. That was a bad state of affairs, but the flute players who had gene to the village of Tibur were bamboozled into filling up on wine, and when good boozy were huddled into carts and wheeled back to Rome, where they compromised with them and gave them permission to participate in the banquets on condition that they would play at the sacrifices. So the first strike turned out better than most strikes do now.

lesult of the Election Held Yesterday for Delegates to the County Convention to Assemble in Wilmington Next Satur-

The Democratic primary elections yesterday absorbed the attention of nearly everybody in the city. Great interest was manifested by the supporters of the two tickets in the field for delegates to the county convention, which meets Saturday, and the excitement at times reached a high pitch. But everything passed off pleasantly.

The most remarkable result, probably, ever known here, is that in the Fifth Ward, which is entitled to 21 delegates. Of these the Reform Democrats elected 18, their vote ranging from 201 to 199; the Regular Democrats elected 6, their vote ranging from 200 to 199, and 14 delegates tied on a vote of 198. So, only 19 delegates are elected, and the question arises, what is to be done about the other 2 delegates in order to give the Ward its full representation of 21 delegates.

Presumably, this question will have to be settled by the County Convention, if an agreement cannot be reached by the Ward delegation.

THE FIRST WARD. elected the following delegates to the County Convention:

Reform Delegates-Eugene 'V Allen, William L Duke, Robert J Strickland, John A Barnes, Frank Meier, Michael H Kelley, Andrew J Mott, William H Strauss, Charles L Oller, S Hill Terry, John Barry, Charles H Ganzer, Thomas P Sykes, William R Smith, Frederick T Skipper, J. P. Wells, Theodore Schroder, William H Holloway.

HARRIS' LITHIA WATER

Harris' Lithia Springs, S. C.

A water that contains about onethird more Lithia than the Buffalo Lithia Water, and has not an equal in the United States.

Read what the most noted Physicians of South Carolina have to say for the Harris Lithia Water:

After a long and varied experience in the use of dineral Waters from many sources, both foreign and domestic, I am fully persuaded that the Harris Lithia Water possesses efficacy in the treatment of afflictions of the Kidneys and Bladder unequalled by any other Water of which I have made trial.

This opinion is based upon observation of its effects on my patients for the past three years, during which time I have prescribed it freely and almost unifurmly with bonefit in the medicable maladies above men tioned. When failure to relieve has occured, I have im pated it to insufficient use of the Water, for my expe

rience teaches me that from one to two quarts daily should be taken from two to four weeks, to seure its full remedial effects. A. N. TALLY, M. D. Columbia, S. C., October 8th, 1892. CAMDEN, January 26 1892. T. Harris, Esq., Harris' Spring, S. C.: Dear Sir:—I find great benefit from the use of your Lithia Water. I consider it a fine tonic, a general regulator of the digestion, as well as very efficacious in those diseases for which Lithia is considered somewhat of a specific.

JUDGE J. B. KERSHAW. My wife has been using your Lithia Water anp is very much benefitted. I consider it in every respect equal to the famous Buffalo Lithia Water.
