THE COMMITTEE QUESTION.

The Question as to the Legality of the Organization of the County Committee -Correspondence Between Mr. Weill and Chairman Simmons.

The following correspondence on a subject which has been agitating the minds of New Hanover Democrats for some days explains itself :

WILMINGTON, N. C., July 27, 1894. Hon. F. M. Simmons, Chairman Democratic Executive Committee, Raleigh,

My DEAR SIR:-A question has been raised in this county as to the proper and lawful method of selecting the Executive Committee of this county under the plan of organization of our party, and was referred to me for my opinion as a member of the State Executive Committee.

Section 1 of the plan of organization provides for the election of five persons in each township for an Executive Committee of the township.

Section 2 provides for a meeting of all the Executive Committeemen elected in the several townships on the day of the County Convention, or at such time and place as a majority of all the Executive Committeemen in the various townships shall select; and section 2 further provides that at such meeting of all the Executive Committeemen of the various townships, those present, such being a quorum, shall select an Executive Comnittee for the county, to consist of not less than five members.

Section 9 provides what shall constitute a quorum when all the township Executive Committees have a meeting for the purpose of electing a County Executive Committee.

The township Executive Committees did not meet on the day of our County Convention for the purpose of electing County Executive Committee. There are forty Executive Committeemen elected in this county-five each from eight wards and townships. I therefore decided that it would require twentyone of the forty to sign a call for a meet ing of all members of the various township Executive Committees, and after giving due notice to all not signing the call, for the members to meet and according to Section 2, of plan, to first determine how many should constitute the County Executive Committee, not less than five. I further decided that a majority of the townships would have to be represented in the meeting before any business could be legally transacted.

The law is too plain to my mind to admit of any other construction, but I do not wish to give any one the opportunity of saying that my opinion is a partisan one, and therefore ask that upon receipt of this you will wire me if above sections, namely: 1, 2 and 9 agree with mine, and I will be also obliged if you will write me any further views you have upon the question at length.

Every one here feels that as the head of our party you will construe the party

ROOMS DEMOCRATIC STATE EXECUTIVE COMMITTEE, RALEIGH, N. C., August 1, 1894.

Mr. Sol. C. Weill, Wilmington, N. C .: My DEAR SIR-I understand from the statement of yourself and that of Mr. Green, with reference to the controversy over the election of the County Executive Committee of New Hanover: First, that there was no meeting of the several township executive committees for the purpose of electing a county executive committee held on the day of your late county convention, and that no meeting of said committees called by a majority of said committees has since been held, If this is a correct inference of fact from these statements, and I think it is, there has been no legal meeting of the township eqecutive committees for the purpose of electing a county executive committee.

Second, I further understand from these statements that the several township executive committees met separately at some other time than the day of the meeting of your county convention, and at different places, and selected from the body of their respective committees in some cases one and others two persons, and it is contended that these persons, so selected, became, by virtue of this selection, either members of the County Executive Committee or entitled to repre sent their respective townships in any meeting of the township committees convened to elect a County Executive Committee. That these persons as selected as aforesaid did not become members of the County Executive Com mittee seems to me clear, and for the reason, that the plan of organization does not authorize the township committees to act in this manner separately, out expressly requires them to meet together and after determining the number of its members, elect this important committee, in joint session, and after mutual consultation. On the other hand, conceding that these committees did meet and that their meeting was according to the plan and legal, and that these persons, so selected, have the right to represent their respective townships, and being the only representatives from their townships, had the right to cast the whole vote of the committee electing them still it does not appear that this meeting elected or attempted to elect a County Exective Committee, but I infer from your statements, that these gentlemen so assembled proceeded upon the assumption that they constituted a County Executive Committee by virtue of their selection by their respective township committees, acting separately, in pursuance of a practice that had grown into a custom in their county. It therefore seems to me that there was no legal meeting of these committees and if there was a legal meeting, there was no election by the meeting of the County Executive Committee by it. Speaking with reference to the proper method of calling a meeting of these committees to

gest: Section 1, plan of organization, requires the township committees to convene at the meeting of the County Convention, or at a time and place that a majority of them may elect. The word "them" in this section refers to the committees and not to the members thereof, and the call for such a meeting must be by a majority of the committees. When the committees have assembled in meeting, thus legally called, if a majority are represented, though by but one member from each, there would be a quorum under Section 9, and those present, whether one or more, would cast the vote of their township, just as in our County Conventions.

The plan of organization is the law of the party in every county in the State, and no county has a right to abrogate it and set up a law or plan of its own. If the party in any county sets up a plan in conflict with the party's plan, it rests npon the general acquiescence of the party in that county and cannot endure when that sanction is withdrawn and the party method is insisted on. In conclusion, I sincerely hope, in the interest of party harmony and success, you may be able to compromise and adjust your differences. If you cannow do so however, by an amicable agreement, l am convinced that the least friction will result from a strict adherence to the plan and ways prescribed by the party.

I am, yours truly, F. M. SIMMONS, Chairman. Sections 2 and 9 referred to in the above correspondence are as follows:

"Section 2. The several township Executive Committees shall convene at the meetings of the several County Conventions, or at any time and place that a majority of them may select, and shall elect a County Executive Committee, to consist of not less than five members, one of whom shall be designated as chairman, who shall preside at all of the committee meetings.

"Section 9. In cases where all the ownship Executive Committees are required to meet for the purpose of electing County Executive Committees, said meetings shall be deemed to have a quorum when a majority of such townships shall be represented in said meeting."

CORBETT AT HOME.

The Champion in New York-Says He Will Fight P. Jackson in This Country or Any Other.

NEW YORK, August 1,-James J. Corbett, the pugilist, arrived in New York to-day, tresh from his tour in the old country. He was accompanied by his wife, his father and mother; his trainers, Billy Delaney and Jim McVey; his sparring partner, Prof. John Donaldson; his private secretary, Bud Woodthorpe, Bobby Gaylor and several members of his "Gentleman Jack" theatrical

In speaking of his trip Corbett said: "I have had a most enjoyable three months abroad. I was well received wherever I went and made many friends

mong our English cousins. "I came back to this country for the express purpose of meeting Peter Jackson. I will remain in this city until August 14th, and if Jackson wants to fight he has only to appear here. I will see him whenever he comes and within five minutes the whole thing can be settled. "It has been said that I would meet Jackson only in Jacksonville, Fla. That is not true. I will meet him wherever he wants to meets me, in this country or any other. Obviously the fight can-

not come off at once. "While I think that I look pretty, am by no means in good form. dinners have been too much for me, Yesterday I tried to do some rope skipoing on the deck and found that I could not last at all. It will take just about six months for me to get in prime form, but then I shall be ready for Jackson." Corbett's idea is to have a time named and then wait for a certain length of time for offers. Then Jackson and he can fight before the club which makes the best offer. Corbett appeared to be in fine condition. His complequon is clear, his movements are agile and his eyes shine with remarkable brightness.

Neill Archie McLean. The nomination of Neill Archie McLean for Solicitor of the Seventh Judicial District, which was effected on the 427th ballot, at Fayetteville, yesterday, will give general satisfaction. There were several other excellent names before the convention, and the persistence with which their friends stood by them as long as there was hope, is worthy of all praise. But none of them was the superior of McLean in all or any of the qualifications necessary for a proper discharge of the duties of the position to which they aspired.

McLean comes from sturdy Irish stock; he is a straight Democrat; a fine lawyer; an excellent speaker; and, withal a man of strong common sense.

Rest assured, the voice of the eloquent Scotchman will be heard during the present campaign. He will call the clans together, and he will expound the tenets of true Demogracy. Old Robeson, "his native heath" and his home, will roll up a majority for McLean and the whole ticket that will astonish Republicans and Populists alike.

With high consideration, very truly Chairman of the Democratic County Executive Committee.

Very respectfully,

there appears a card signed by J. W. Branch, Andrew Blair, W. F. Newton and J. T. Brown, relative to the composition of the Executive Committee of the Fifth Ward of which I am a member. The use of my name by them appears without my consent or authority, and the information they furnish is misleading-a misstatement, and at variance with the facts. They have been exceedingly anxious to have me resign and have brought all the pressure to bear on me they could to attain this end—but I still hang on. If I have attended none of the meetings of my Ward Committee, it is because they have been very careful to keep me in ignorance of time and place they have been held, and this weak attempt of my brother committeemen to "put me in a hole," with the public will not be accepted, except by those, who, for their own ends wish it were so, and by the very credulous. The facts are these: I said to Mr. Branch that I was anxious to have Mr. Walker Taylor on the committee to fill the vacancy caused by the tie vote, and he agreed with me, for obvious reasons, that it would be a wise thing to do. The other two members also assented, but when certain envoys from an adjoining ward coached them for awhile, they finally decided upon the selection of Mr. Hall instead of Mr. Taylor. All that I have ever said about resignation was that if it were necessary for me to resign in order to get Mr. Taylor on the committee. I would do so. But Mr. Taylor is not on the committee. and I have at no time, either verbally or by letter, tendered my resignation as an Executive Committeman from the Fifth Ward, nor have I authorized any one else to act for me. I signed the call for the meeting on Saturday in the full
