FRIDAY MORNING, SEP. 7. 1894

WASHINGTON NEWS. Free Salt-Campaign Book Issued by the Democratic Congressional Committee-The Holland Submarine Tornedo Boat-The Cruiser Raleigh Ready for Trial.

By Telegraph to the Morning Star. WASHINGTON, Sept. 6 .- The Treasury Department has decided that salt imported from England is entitled to free importation into the United States under the new tarlff, notwithstanding the fact that several of the dependences of Great Britain impose duties on that commodity when imported from the United States. Section 608 of the new tariff treats of this subject.

The Democratic Congressional Campaign Committee will issue their campaign book September 19th. A

list of the contents is as follows: What the Democratic Congress did; Cause of the panic of 1893; Not caused by fear of tariff legislation; Labor day law; Alien contract labor law-its repeal; Chinese immigration: Immigration. Tariff schedules and tables showing schedule rates and articles upon which duties had been reduced 100 per cent. or less; Somers' statistics on woollen cloths; Income tax provisions; McMillan's report on the income tax; Scott Wilkes' speech on the intax; Tax on luxuries and wealth repealed by the Republicans; Sugar duties: Trust provisions, of tariff laws; Carlisle's letter to the Senate on the sugar tax; Mills speech on the tariff; Appropriations - Sayers' speech and tables; Reforms in departments-Dockery commission, etc.; Diplomatic relations; Indian appropriation bill; Democracy and its relations to Union soldiers: Pigott's speech on populism: Abuses of civil service reform, by numerous speeches; Democratic platform of 1892; Cleveland's letter of acceptance; Cleveland's letter to Wilson; Cleveland's letter to Catchings; Taxation of greenbacks law; Sherman silver law; Silver statistics—Exports and imports of gold and silver, production of gold and silver, price of silver dollars in gold, price of silver dollars in bullion; Currency tables-Character and amount outstanding; Commercial statistics-Exports and imports of the United States to and from the United Kingdom.

The Committee has received advices of the results of the nominating conventions in 131 districts which are now Democratic. Ninety-seven Representatives have been re-nominated and only 34 districts chosen new Democratic candidates.

Plans for the new Holland submarine torpedo boat, prepared by the inventor, have been considered by the Board of Bureau Chiess of the Navy Department and sent to the Bureau of Construction to ascertain whether any changes are necessary. In a week or ten days the board will meet again to consider the report of the Construction Bureau, and preparations for building the vessel will probably be initiated without delay.

Everything is in readidess for the trial trip of the new cruiser Raleigh. She has had a successful machinery trial at Norfolk and can go to sea whenever the date for her official test is set. Much interest attaches to the trial of the Raleigh because she is the first vessel built at a Government navy yard by the Government since the war. Her twin, the Cincinnati, was constructed synchronically at the Brooklyn Navy Yard and has gone up Long Island Sound for her dock trial. The Raleign was built at

GRAIN AND PROVISIONS.

Wheat Dull-Corn Strong and Higher-Pork Products Firm at Better Prices. By Telegraph to the Morning Star.

CHICAGO, September 6.-The last half hour's trade in wheat to-day saved the market from being characterized as one of the dullest on record. Up until that time the range covered but onefourth of a cent range, whilst a good, stiff undertone to prices was quite apparent. The announcement of unusually small estimates of to-morrow's arrivals started the crowd to covering. The Continental cables, with advances at all points except Antwerp, having arrived a short time previous had put the temper of the trade in a fit state for buying, so that when shorts and sellers of calls undertook to cover they had as accessories the scalpers and the bulls generally. The news was for the most part in favor of higher prices. The strength in corn exerted a good influence in preserving the tone of wheat early. December wheat opened at 56 %c, advanced to 57%c, closing at the outside-%@1c higher than yesterday. Cash wheat was steady. Sales were made mostly at yesterday's prices. The strength in futures caused corresponding firmness in the

Corn-The tip that the Government would give a very low average in the condition of corn in its forthcoming report and fixing the figures from 55 per cent. to 59 per cent., against 69.1 per cent. on the tenth of August, which has been in circulation for several days, was the subject of much talk in this market to-day. It received great credence and caused considerable buying, with the result of producing a material advance in prices and a firm undertone to the action. The belief that the report has leaked had many believers, it being remarkable that those people who seemed to be posted on previous occasions were the ones that had the figures to-day. The close was strong within 1/3c of the top. May corn opened from 54% 655c, sold at 54% c, advanced to 561/3c, closing at 561/3c. Trading in cash corn was steady at unchanged prices. The close was nominally higher with the futures.

The strength in corn was reflected in oats, the trade here, however, being of a lifeless character until the final activity in the other grains led to some covering by shorts. The close was firm at a gain of 36%c over yesterday for May. Cash oats were strong, prices ruling

¼c higher than yesterday. Provisions-At the opening of the market for the product the tone was good and prices were bound upward, but the packers were unanimous in their opposition to an advance, their offerings carrying values off very materially. Later in the session the sudden spurt in grain acted sympathetically on provisions and a partial recovery was made. The close was 10c higher than yesterday for January pork, 21/2c higher each for January lard and ribs.

CONDITION OF BUSINESS.

THE MANUFACTURER'S RECORD SAYS IT IS ENCOURAGING.

Trade Revival in the South-New Indusrial Enterprises-I's Increasing Prosperity Attracting Attention of Capitalists and Manufacturers.

By Telegraph to the Morning Star BALTIMORE, Sept. 6 .- The Manufacturer's Record of this week says: The encouraging condition of business and the extent of its revival in the South are shown by the bank clearings of several Southern cities, notably Birmingham, Louisville, Memphis and Jacksonville. At the three cities last named the increase for the week ending August 25th, was 202, 189 and 90 per cent. respectively over the corresponding week of '93, while at Birmingham the clearings increased over 400 per cent., indicating to what extent manufacturing industries are being affected.

Special reports received by the Manufacturers' Record during the past week nelude the construction of forty miles of new railroad in Alabama and twelve miles in Tennessee, the opening of three more coal mines in Alabama, and the formation of a line of twenty-five barges for the Mississippi river trade; two steamship lines, one coastwise and one to the West Indies; a number of sales of and in small tracts to settlers and the sale of 30,000 tons of Tennessee phos-

phate by a single corporation. Throughout the entire South there is a better feeling in business circles than has been seen for the last two or three years, and reports from all over the country show that the increasing prosperity of the South is attracting wide attention from capitalists, manufacturers and farmers.

The rehabilitation of Southern railroads is making good progress, and with earnings steadily increasing there is a tendency towards large expenditures for the improvement of road beds, an increase in rolling stock and for the building of new lines, especially short feeders and branch roads.

Among the leading industrial enterprises reported for the week, are a \$100,-000 phosphate company, organized in Baltimore to operate in Florida; a \$30,-000 phosphate company, \$10,000 machine works, water works and a flour mill in Georgia; a packing house, shoe factory, brick works, electric light plant and quarrying company in Alabama; a \$100,009 manufacturing company and \$50,000 boat building company in Louisiana; a barrel factory, knitting mill and flour mill in North Carolina; a \$350,-000 cotton mill addition to one of the most prosperous mills in the State; a quarrying company, sewerage plant, electric light plant and gold mine in South Carolina; water-works, paper mill and wood-working plant in Tennessee, and a large number of miscellaneous enterprises in all the different States. An increase in building interests is reported and a lnumber of large buildings are to be constructed in various parts of the South, including a

\$150,000 jail and three hotels in Georgia KNIGHTS OF PYTHIAS.

Proceedings of the Supreme Lodge.

By Telegraph to the Morning Star. WASHINGTON, September 6 .- The question of allowing certain lodges to use a translation of the ritual into German was the special order for consideration before the Pythian Supreme Lodge this morning. Both the majority and minority reports were read and discussion followed. The majority report was adopted-yeas 79, navs 36. And thus the German question was settled adversely to the use of the German

anguage. The special order for to-morrow at 10 o'clock will be the report of the council of administration recommending the non-recognition of the Pythian sisters. A time has not been fixed for the final disposition of the temperance question, although it is expected that the action taken will only be a ratification of that taken yesterday in committee of the

The proceedings shows that since the decision of the Kansas City Supreme Lodge against any but the English ritual, but one lodge-a "Lodge in Birmingham, Ala," has surrendered its charter on that account.

WILD-CAT INSURANCE.

Collapse of the Anchor Fire Insurance Co., of West Virginia.

[By Telegraph to the Morning Star.] WHEELING, W. VA., Sept. 6 .- The Anchor Fire Insurance Company, one of the numerous wild-cat insurance companies chartered in West Virginia, collapsed this morning, judgments for over five thousand dollars being issued against it in favor of Springfield, Mass., and Chicago policy holders. C. C. E. Merwin, the present promoter of the scheme, is missing, as is also about \$40,000 which the company is supposed to have collected off of premiums. The concern did an underground business in nearly every State in the Union, but wrote no polices whatever in West Virginia and was not umenable to West Virginia laws.

SOUTHERN RAILWAY CO.

The Chairman of the Beorganization Committee Denies Knowledge of the Chattanooga Story.

By Telegraph to the Morning Star. NEW YORK, Sept. 6.-Charles B. Coster, chairman of the Reorganization Committee of the Richmond & West Point Terminal and Warehouse Company, now the Southern Railway Company, said of the dispatch from Chattanoaga asserting that the Rothschilds and the Vanderbilts furnished the money for financing the new company: "This is the first I have heard of it. As the writer of the dispatch knows all about it, he will have to be applied to to fur-

SUGAR: PLANTERS

In Convention at New Orleans Declare in Favor of Alliance With the Republican Party on National Issues.

[By Telegraph to the Morning Star.] NEW ORLEANS, LA., Sept. 6 .- The Sugar Planters' Convention in this city to-day was the most remarkable gathering in many years, and the first serious break in the Democratic party in twenty years is now actually threatened. The convention declared in favor of an alliance with the Republican party on national issues, and two and possibly three congressional districts, comprising the sugar region are endangered to the Democrats. There were possibly three hundred representative men present at the convention, and as nearly all of them are men of wealth and large influence and with power to control a considerable following, the action they have taken cannot be underestimated. * The meeting was called to order by Richard McCall, one of the leading planters of the Third district, and Mr. E. N. Pugh, of Ancension, a near relative of Justice Nicholls was made chairman.

Mr. John Dymond was the only speaker who strenuously opposed secession from the Democratic party. Messrs. Howell, Weems, Kernechan and Wilkinson, brother of Collector Wilkinson were appointed a committee to propose a plan for the collection of the bounty on this year's crop. The committee reported and their report was adopted.

The committee then took up the po-litical question. Messrs. McCall, Pugh, Kernechan, Ware and others advised an alliance with the Republican party. They said that they had been betrayed by the Democrats and only hope of protection for sugar lay in the joining of hands with the Republicans. They realized the full import of breaking with the Democratic party, but feeling that the negro question was no longer an issue and that the white race would forever govern the Southern country, they said they had reached the conclusion that self-preservation required an affiliation with a party that would give them the protection necessary for the prosperity of the inwhich is the backbone of the State.

A committee was appointed on resolutions and it may be said that the gentlemen on it are among the wealthiest and best known in the State.

The committee reported elaborate resolutions, setting forth that the white people of Louisiana and planters for many years had been loyal to the Democratic party, through victory and defeat, but that the State had been be trayed, and a blow struck at its chief industry by that party, that threatened its absolute ruin, and that the nomination of protection candidates and their election had become a necessity. The resolutions were adopted by a rising vote. It was decided to meet again on the 17th of September, in this city, when the plans of the sugar planters will be perfected. It was also decided to nominete candidates in the three sugar districts, and to affliate with the Republicans.

SUIT FOR DIVORCE

Instituted by Jas Coleman Drayton Against His Wife, a Daughter of Wm

By Telegraph to the Morning Star. NEW YORK, Sept. 6.- The Times this norning says: "James Coleman Dray ton has instituted proceedings to get a divorce from his wife, Charlotte Augusta Drayton, a daughter of William Astor, of the family of which John Jacob Astor was the founder. Drayton seeks a legal separation upon statutory grounds. Hallett Alsop Borrowe is named as the co-respondent. It will be remembered that in March, 1892, in London, Mr. Drayton challenged Mr. Borrowe to fight a duel. The challenge was declined. Action has been brought in the Court of Chancery of the State of New Jersey, papers being filed at Trenton on June 27th.

SPOTS AND FUTURES

The New York Sun's Review of the Sitution in Cotton-The Financial Chronicle's Crop Report.

By Telegraph to the Morning Star. NEW YORK, September 6.-Cotton advanced one to three points, but lost this, and declined four to seven points, closing barely steady. Sales 87,300 bales. Liverpool advanced 1-16d on the spot, and two and a half to three points for future delivery, with spot sales of 12,000 bales. In Manchester yarns were less active, as high prices checked business: some makes of cloth were dearer. The Bombay receipts for the week were 4,000 bales, against 3,000 for the same time last year. Total since January 1st. 1,548,000 bales, against 1,519,000 during the same time last year. New Orleans advanced three to four points, but lost this and declined three points. Port receipts for the week are estimated at 40,000 bales, against 27,-000 for this week last year. To-day the port receipts were 5,357 bales, against 3,-765 this day last week and 5,685 last year. Thus far this week 31,023 bales, against 17,907 thus far last week. Houston receipts 3,255 bales, against 3,983 this day last week and 1,101 last year. Spot cotton here was quiet and steady at unchanged prices. Sales 450 bales for export and 611 for spinning. Delivered on contracts, 400; Southern spot markets were steady or firm with a rather

better business in some cases. To-day's features: After a trifling advance early in the day due to a rise in Liverpool and some covering prices declined owing to general realizing. The weather South was more favorable. The receipts at the ports were not so large as had been expected, but the arrivals at Houston were liberal. It was a narrow market and a little realizing offset any bullish factors for the moment. New Orleans was selling. The cotton goods situation is steadily improving. Manchester is stronger and the receipts at the ports are disappointing to the bears. The Financial and Commercial Chronicle issued its September cotton crop report. It places the crop for the year ending September 1, 1894, at 7,527,211 boles with exports 5,231,494 bales. Stock on hand 183,737 bales. The crop in the previous year was 6,717,142 bales.

When paby was sick, we gave her Castorta When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

THE CHOLERA SCARE.

One of the Physicians in Attendance Says It is a Genuine Case - No Change in the Condition of the Quarantined Peo-

By Telegraph to the Morning Star. CUMBERLAND, MD., September 6 .-Dr. C. R. Ohr, one of the attendants of Peter Walther(who died last night from a supposed attack of cholera), in an interview this morning states that the case was one of genuine Asiatic cholera-the genuine epidemic character of 1854.

WASHINGTON, September 6.-Dr. E T. Duke, Secretary of the Board of Health, of Cumberland, Md., has telegraphed the Marine Hospital Service in egard to the supposed case of Asiatic holera discovered on a train arriving there, in the person of John Peter Walther, an immigrant from Bavaria, who sailed from Bremen recently. The Surgeon General has called for full particulars. There have been no cases of cholera reported from Bavaria to the Marine Hospital Service, and the Surgeon General is inclined to regard the case as one of the many isolated cases resembling cholera which occur from time to time Had it been true Asiatic cholera it is extremely improbable that the victim could have been afforded temporary relief so as to enable him to pass quarantine, as the report states.

PITTSBURG, PA., September 6.-A careful investigation made this morning by the Leader, of the facts surrounding the reports of the death of an immigrant, John Walther, at Cumberland last night, gives no ground for the assertion that death was due to Asiatic

cholera. Dr. J. Guy McCandless, of Bureau of Health, stated this morning that he had received a report from the inspectors sent to look after the quarantined companions of the dead man and that every member of the party was well and no signs of the least sort of disorderly conduct were evi-

Superintendent Baker, of the Pittsburg Bureau of Health, was also seen and stated that he had a report that there was no change in the condition of the quarantined people and no signs of any lisease. Superintendent Baker left for Shaner station at 10 o'clock to look after the quarantined immigrants and took with him an immense amount of disinfectants.

Superintendent Patton, of the Baltimore & Ohio Railroad, to whose energetic course and prompt action are due ill of the precautions taken, said that his report from Shaner was of a kind to allay all fear of cholera in the party quarantined there.

COUNTERFEITERS CAUGHT

And Lodged in Jail at Manning, South

Carolina, By Telegraph to the Mcrning Star

CHARLESTON, S. C. September 6 .-A special to the News and Courier, from Manning, S. C., says: Joe Henry Lloyd and Charles L. Wilson, both white, were arrested last night and lodged in jail for counterfeiting by deputy Charles I. Emanuel. Mr. Emanuel says he found seven moulds for counterfeiting, in all denominations, from a nickle to one dollar. It is thought that there are several more who will be arrested in a few days. The counterfeit money has g around here for abou

ARKANSAS ELECTION. Democrats Sweep the State-Clark's Ma-

jority 30,000.

By Telegraph to the Morning Star LITTLE ROCK, ARK., Sept. 6.—Trustworthy but incomplete returns from the State election indicate that Clark's majority will reach 30,000. The Democrats have elected their State and county tickets in all except Nevada, Pike, Greene, Cleburne and Stone counties, in which the Populists have majorities. White and Lowan are also yet in doubt with the indications in favor of the Populist. The Republicans did not carry a single county. The Legislature will no doubt elect James H. Berry to succeed himself to the United States

INDICTMENTS FOR MURDER Against Parties Charged with the Recent

Lynching in Tennessee.

By Telegraph to the Morning Star. MEMPHIS, Sept. 6 .- The grand jury this morning returned indictments for murder in the first degree against W. S. Richardson, J. D. Laxton and E. T. Atkinson in connection with the lynching of six negro prisoners near Millington Friday night. There are six counts in each bill. Richardson, Laxton and Atkinson were out on bail, but were re-arrested and jailed this morning after the finding of the indictments. Ed. Smith, a farmer living near Kerrville, has also been arrested charged with the same

LATE FOREIGN NEWS.

SLOW POOGRESS OF THE WAR IN THE

EAST. Chinese and Japanese Armies Confronting Each Other in Cores-Operations Delayed by Heavy Rains-Japanese Threaten an Attack on Shanghai-Advices from Hayti-Alleged Attempt Against the Life of the President.

By Cable to the Morning Star

LONDON, Sept. 6.-A Tokia dispatch to the Central News says that the last reports from the front tell of heavy rains which have impeded military operations. The streams of the Corean peninsula have risen rapidly and much of the adjacent low-land is partially flooded. The Japanese officers say it is not likely that any important battle will be fought until the floods subside. Occasional skirmishes have taken place, they say, but neither side has tried recently to bring about a decisive action. The Japanese regulars in Corea now number 30,000. Some 10,000 of these troops, comprising a strong Cavalry force, have been detailed for the scouting service and the protection of the main armies' lines of supply and communication. Some 18,000 Japanese occupy a strong position at Ping Yang. They have thrown up earthworks and mounted heavy guns. The Chinese army, with about 20,000 men have taken a position facing the Japanese. Scouting parties from the two camps have met frequently and each exchanged shots. The spirit of the Japanese troops is said to be all that could be desired. The Marquis of Saiongi, President of the Department of Imperial Orders, has arrived in Corea with a large suite. His mission is to convey to the Corean King the congratulations of the Emperor in view of Corea's achievement of her indepen

dence. The Shanghai correspondent of the Central News says: "Otori, the Japanese Minister to Corea, has taken extreme measures to move the King of Corea to grant a comprehensive railway concession in favor of Japanese contractors. Minister Otori is trying also to obtain exclusive mining rights for the Japanese. Despite Japanese denials that there has been a general en gagement, many wounded are arriving at Seoul. It is impossible to learn from Japanese sources whether they were in jured in skirmishes or pitched battle.

PARIS, September 6.-The Haytien Minister has received the following tele-gram from Port Au Prince: There has been an attempt against the life of the President. The authors have been shot Perfect quiet prevails.

LONDON, Sept. 6.-A Shanghai dispatch says the Japanese have threatened to withdraw their promise not to molest Shanghai unless the Kiang-Nan arsenal there be closed. The motive for the threat is not apparent, but it is surmised that the Japanese are anxious to provoke British interference. The Kiang-Nan arsenal is now in a state of inactivity. and under any citcumstances its produc tive capacity is small.

Coreans attacked fifty foragers recently, captured thirty and handed them over to the Chinese. The troops now coming from Japan are landed at Chemulpo. Twelve mountain guns and twelve mortars have been taken ashore at that point. September 4, and the Japanese was off

the southern coast of Corea. Captain Von Hanneken has been apcointed Inspector of the Chinese coast

defences. The Tokio correspondent of the Central News has added to his afternoon dispatch the statement that the reports of great Chinese victories in Corea are pure fictions.

LONDON, Sept. 6.—At to-day's sitting the Trades Union Congress approved the introduction of a bill giving rural laborers holding land allotments a guarantee of tenure for the same. A resolution was passed declaring that employers ought to be legally punished for importing extra labor into any locality where the existing supply is sufficient to meet the needs of the district. It was also resolved that promoters of public works should be compelled to provide suitable dwellings with thorough sanitary apartments for their workmen, A keen fight is proceeding over the election of secretary for the ensuing

The Socialists are confident of electing Tom Mann, and the Moderates are hopeful of re-electing Commoner Fenwick. A section of the delegates support Sam Woods.

The big strike of the coat-makers in New York City was practically settled last evening. The fight was short and hard. It was directed squarely against the sweating system and the workers gained the day.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live beter than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs. Its excellence is due to its presenting

in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from very objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not eccept any substitute if offered.

A FAST PACER.

Robert J. Beats the World's Record in Hi Match with Joe Patchen. By Telegraph to the Morning Star.

INDIANAPOLIS, September 6 .- 1n. dianapolis now holds the world's pacing record and came within a fraction of a second of the world's trotting. Robert J. made the second heat in his match with Joe Patchen for \$5,000 in 2.021/4. being the fastest mile ever paced. The three heats averaging in speed 2.03% making the fastest three heats ever paced. The time by quarters of the second mile was: First quarter, 3014; second, 1.0114; third, 1.3014; fourth, 2.0214. In this heat Joe Patchen went like the wind and forced Robert I. to make a spurt of speed almost at the wire that was phenomenal. Col. Taylor, of St. Louis, the owner of the black stallion, had said before the race that if the gelding won he would have to beat his time at Fort Wayne, which was 2.03%. The black came under the wire in exactly that time. In the first he had made the mile in 2.04 flat.

RAILROAD WRECK

On the Lehigh Valley Road-One Man Killed and Another Fatally Injured.

By Telegraph to the Morning Star. WILKESBARRE, Pa., Sept. 6 .- On the Lehigh Valley Railroad just outside the city limits this morning a local freight train was going at the rate of twenty miles an hour when one of the driving shafts on the engine broke and the engine was thrown over against a train passing on another track. The engine was demolished and many cars were piled up, blocking the road for a long distance. From under the wreck was taken the mangled body of Frank Gorman, of Wilkesbarre, with his skull crushed to a pulp. He was not a train hand, but it is supposed he was stealing a ride to Pittston. Fireman Miley Reade was fatally hurt. Engineer Frank Weaver saved his life by leaping from his engine before the crash came.

BANK FAILURE.

It Had Been Anticipated and Will Not Cause Much Distress By Telegraph to the Morning Star.

HARRISBURG, PA., Sept. 6 .- The Middletown National Bank, at Middletown, of which Chas. W. Raymond is President, closed its doors to-day. The cause of the failure is supposed to be the discounting of the paper of certain corporations and individuals who find it impossible to pay. The capital is \$85,-000; surplus \$21,000 and undivided profits \$5,000 according to its last report, with average deposits of \$160,000 and an average discount of \$200,000. The failure has been anticipated and will not cause much distress.

Where Lies the Danger?

So Say the Various City Boards

of Health. THE ANSWER HAS BEEN FOUND

Evidence That Even Impure Vegetables and Tainted Meat are Not So Bad as Food Undigested.

There has been a great deal said in the papers about adulterated foods. Every large city has a Board of Health that carefully inspects the fruits and vegetables that come into the city. This is all very well, but it does not reach the source of the trouble, from which men and women suffer. No food is healthy if it is not digested. If the sweetest and freshest vegetables form acid or gas in the stomach they are poisonous. A boiling, rosting mass of food in the stomach that is not and cannot be digested becomes simply rank poison, no matter how pure and good the food may have been before it was eaten, so that the trouble is not so much with the foods as it is with our power of digesting them and turning them into pure blood, flesh, muscle nerve; brain and bone.

What is the lesson from these clear and often unthought truths? Look to your digestion! Food will help you it is the right kind, providing you digest it. If not, any food will injure and poison. It is here that science has come to the rescue. The discovery of a process of artificially digested food has actually been made so that the stomach becomes relieved of the necessity of overwork, and so that perfect digestion can take place without effort, The discovery of this pre-digested food has aroused a great deal of attention in medical and scientific circles, and now that it is being manufactured and put up in a form to that people can obtain it. it has worked a revolution in the subject of foods. It is known to the public as Paskola. Increased weight, treedom from dyspepsia, and the pleasing sense tion of healthy acting organs are certain to be found by all who use this great re-digested food. This has been strikingly illustrated in the case of Mrs. Charles Bock, who is

sides at No. 284 24th street, Detroit, Mich. She said "I had been feeling sick for the months. My strength and flesh were so fearfully reduced that I could not leave my room for weeks. My appetite was poor and it seemed ... though I could not find all. thing that would restore my strength. appetite or health. My complex was very sallow during this time, my salker eyes were surrounded by deep, black or cles, and my nervons system was a badly shattered that the faintest name

would send me into hysterics. "One day while I was suffering very much and felt pretty despondent my husband brought me a bottle of that great pre-digested food Pask-val commenced its use and in four days I not only ate heartily, but I gained sufficient strength to leave my resont and look after my usual duties. By the time the first bottle was con-Wesley Warner was hanged for the sumed I had gained five pounds, the eyes, and my complexion showed a marked improvement. I continued the use of Paskola and have gained 141 pounds, am attending to my householdduties, and believe I owe it all to Paskola, and that any others who may be suffering like myself may receive the same wonderful benefits."

Such statements as the above confirm what the best scientists, doctors and inv sicians have already learned, rame v. that Paskola, the pre-digester fund. which is justly so popular, does accomplish what was never before known in the history of the world. A pamphlet giving full particulars re-

tion to the Pre-Digested Food Co., 30 Reade St., N. Y. City.
