There is a great stir in some portions of the city of Brooklyn, N. Y., attributed to an invasion of fleas which is making the burgers hustle.

The Philadelphia Record has found a good name for the Louisiana sugar planters who decided to flop over into the Republican party. It calls them the "bounty jumpers" of poli-

The mystery as to how folks got on this earth, has been solved by a St. Louis man who says the first people on this earth were switched off from the planet Mars, and couldn't get back. Their friends up there have been hunting them ever since they got lost. This may account for these supposed signal lights that have lately been discovered on Mars.

If the "contingency" should arise Hon. Chauncey M. Depew would consent to run as the Republican candidate for Governor of New York. If the "contingency" should arise the Hon. Benjamin Harrison would consent to run as the Republican candidate for President of the United States. The contingency in both cases is if they should be able to command votes enough to secure the nomination. But in that case commanding votes enough to be elected would be a much more difficult mat-

The St. Louis Republic has been giving the opinions of several scientists as to what is to become of the last man. According to some he is to be drowned, others frozen into a solid chunk, others burned up by the fires of the sun into which the earth will drop, while others say that beginning with the year 3,000, we will begin to shrival up and peg out with almost electric rapidity. We haven't studied up much on this thing, but from the lay out here presented, we don't want to be any of the last man.

We are under obligations to Mr. Richard H. Edmonds, editor of the Baltimore Manufacturers' Record, for a very valuable pamphlet, entitled "Facts About the South," in which he furnishes a vast amount of information as to the progress, resources and attractions of the South for the investor of capital and the home-seeker. Mr. Edmonds, by the way, is doing an intelligent and great work for the South. He is not a boomer, but'a gatherer and presenter of solid facts and figures.

The Chinese authorities promised the American Consul at Shanghai not to treat cruelly those two suspected Japanese spies who were turned over to them. They didn't treat them cruelly; they just chopped their heads off. When the Chinese want to treat anybody cruelly they only disembowel him, run hot irons through him, cut him up in pieces and take their time about it so he may have the full benefit and note the methods of operation. But when they want to deal kindly and gently they just chop the head off.

A Hungarian barber who wagered that he could shave fifteen men in a running rathroad car in twenty-nine minutes, without cutting a man, won his money and shaved three more men within the time. Some barber in this country might do that, but we would advise him to pick out men with McKinley cheeks.

An Eastern paper asks what is to be "the future of wool" under the new tariff. The future of wool is to be woven, and worn by a good many people who couldn't afford to wear it under the McKinley tariff.

Some artist has presented the Secretary of the Treasury with a new design for a five-dollar bill, with "wings on it." We don't like that. The few five-dollar bills that come our way fly too fast now.

Seventeen transatlantic cables have been laid. Of these ten have worn out, leaving seven in use. The ten worn out represent \$30,000,000 lying on the floor of the ocean.

THE COTTON OUTLOOK.

Estimates of the Crop-It May Be 10,000,000 Bales, but Is More Likely to Be Much Less

The factors expect to do a larger business this year than formerly, says the Augusta Chronicle, and are sanguine that last year's receipts will be overreached if the present crop prospects hold out. And unless some unforeseen disaster occurs before the crop is gathered, it will exceed last year's crop by a million or a million and a half bales.

These are the figures of conservative cotton men who have studied the situation, and who, for years, have made a business of studying the crop. They believe the outlook is a great deal better than at this time last year; but disagree with the somewhat exaggerated reports that have been sent out from various points in the South. One report which gained currency

through the press-it was given out by some cotton firm-placed the estimate of this year's yield at 10,000 bales. This, conservative cotton men believe to be extravagant. Last vear's vield reached seven and a half million bales, and it was not such a bad crop. This year the best estimates are that the total yield in bales will be between eight and nine million

Of course there is a great deal of uncertainty attached to any estimate that might be made of the coming crop. While it is practically made, a storm or an early frost might destroy at least half million bales.

Said a prominent cotton factor yesterday: "No cotton man, no matter how well posted, can talk with certainty about the cotton outlook. The possibility and probability of rains and early frost furnish so many wide opportunities for a change in the situation that it will be several weeks before anything can be said with definiteness.

"The greatest danger which we have to fear is an early frost. Such a calamity might cut off the crop to the extent of a half a million bales; therefore in speaking of it, it is necessary to allow a wide margin for such occurrences.

"It is just simply guess work to talk about what the crop will be. We can only tell what it is now. Speaking from the present outlook, the future will be good." I expect a crop of between eight and nine million bales."

THE DIPHTHERIA CURE.

Further Proof of the Efficacy of the New Diphtheria Cure.

In advance of other Southern papers, the STAR gave, s short time since, some interesting facts concerning the new diphtheria cure. Here is something er which confirms previ to the success of the remedy:

BERLIN, Sept. 9.-The diphtheria cure of Dr. Behring, of Berlin, a disciple of Professor, Koch, has been explosted at the Bullapest Medical Congress and was indersed by many of the delegates present, including Professors Heubner, of Berlin, and Roux, of Paris. Professor Roux said he had applied the remedy at the Children's Hospital, in which, up to last year, 60 per cent. of the cases of diphtheria ended fatally. This year, he added, he had inoculated over 400 children with the serum and the mortality sank from 60 to 15 per cent. After a few injections the malady changes almost instantly to fever and then soon disappears.

Lunar Eclipse.

The journalistic astronomers inform us that there will be a partial eclipse of the moon next Friday, September 14th, which will be visible at Charleston. The moon will enter the earth's shadow Friday night at 9.55 o'clock, the middle of the eclipse will be at 10.31 o'clock and the moon will leave the earth's shadow at 11,27 o'clock. The magnitude of the eclipse will be a trifle less than onefourth of the moon's diameter on the northern limb. The point of the first contact with the shadow will be the north point of the moon's limb.

Lindsay Laughs.

A correspondent of the Raleigh News and Observer reports Judge Russell as saving, while iu Washington recently, that the "Republicans and Populists offered him the nomination for Congress but he did not want it. The Democrats, said he, will elect every nominee, I doubt whether Settle will be re elected. His vote on the silver question will make him too big a pill for the Populists to swallow. He laughed at the prediction in the Post that Ransom and Jarvis would be defeated by fusionists."

gloomy, yet we had a creditable display, especially when the inclement weather is considered. This year, there is a buoyancy in com-

SENATOR JARVIS

Addressed the Democratic Voters of Pender at Burgaw Yesterday-Was in the City Last Night-Will Leave for Raleigh This Morning.

Senator Thos. J. Jarvis reached the city last night from Burgaw, where he spoke to about five hundred of Pender county's faithful Democrats. The court house was filled and the aisles crowded with people standing. He began his speech at 2 p. m. by touching on State politics, showing the chances for overwhelming success if the Democrats would do their full duty. He then reviewed National politics, saying the party had literally carried out every pledge-both the financial and the economical pledge-having saved over twenty million dollars on pensions alone. The tariff bill, he said, was the best that could be had, and in every way the party leaders had stuck close to the platform. He favored tariff reform outright, and gave his views favoring bimetalism.

He spoke yesterday for about two hours and a quarter. His address was able and was listened to attentively throughout. The meeting was very enthusiastic.

Many old Democrats called to see Senator Jarvis last night at The Orton and gave him a hearty hand-shake. He

will leave this morning for Raleigh. Knocked Down by a Street Car and

Severely Hurt. A gentleman from Robeson county (whose name is withheld by his own request) was knocked down and severely hurt by a street car, corner of Front and Market streets, vesterday morning about 9 o'clock. He was hurrying to the steamer Wilmington, lying at the foot of Market street, to take the boat for Southport and says that he did not hear or see the car until it was within two feet of him. He endeavored to get out of the way of the car but was struck and knocked down, sustaining a severe scalp wound. Drs. Shepard and Russell dressed the wound and the injured man returned to The Orton, where he remained until last evening, when he left

for his home.

Speaking at Southport, The Democratic nominee for Congress, Hon. Jas. A. Lockhart, addressed a crowd of Brunswick county's voters yesterday, at Southport. He was introduced by Mr. Geo. H. Bellamy and made an impressive and winning speech. He was followed with speeches by Mr. Sol. C. Weill and Mr. J. I. Meares of this city. The speeches were heartily applauded.

I have made a parallel comparison with Webster's Unabridged; and with the Century, published also in parts, costing me \$2.50 per volume; or. complete, \$60. I find the American Encyclopædic Dictionary superior in many respects to

both for its intrinsic merit and its price.

Webster's Unabridged, and for genera purposes equal to the Century. The type is distinct and full, the illustrations numerous, the derivation of words scholarly and accurate, the definitions exceedingly complete and verified by many extracts from leading modern authors, the encyclopædic information very full, the diacritical marks plain, with prominent equivalents at bottom of

each page. I unhesitatingly endorse the First Part of this Dictionary as meeting the requirements of the scholar and filling the wants of the general reader and man of business needing general information in a compact and reliable presentation. No one need fear that his money will be misspent, who invests in this work.

TRIBUTE OF RESPECT.

Resolved. That the Carolina Yacht Club deeply regrets and deplores the death of J. McRee Cowan, by which it has lost a most valuable member, at all times active and earnest in promoting its welfare; who for many years held office therein, being at the time of his death its Purs.r, and was ever faithful and courteous in the discharge of his duties, enjoying in a marked degree the sincere regard and esteem of his fellow-members.

Resolved, That as a mark of respect the flag over the Club House be set at half mast for the remainder of the season, and that a blank page of the minute book be dedicated to his memory, whereon shall be inscribed his name, the offices held by him, and the date of his deatih.

Resolved, That a copy of these resolutions be sent to the relatives of our deceased member, with the ten-ler of our sincere sympathy.
