It is said that the Sugar Trust was behind the planters' bolt in Louisiana. The Trust is afraid of free sugar. Vicksburg, Miss., is a dry town now. It used to be a river town, but now it is only at high water that the boats can get within three miles of the town. The islet of Massowa, in the red sea, to which Italy is sending her anarchists, is said to be one of the hottest places on earth. Giving them a sort of forestate of the hereafter, as it were. It is said that Levi P. Morton is in the lead for the Republican nomination for Governor of New York. He has the machine with him and a bar, both potent agencies in a Republican convention. Among the casualties reported in one of the Chinese-Japanese disputes, Gen. Yeh and Lieut. Gen. Sho lost their hats. Their heads were not in them, which makes it a less serious matter for Yeh and Sho, who are both of them. It takes eleven men, at a cost of \$50,000 per annum to report the proceedings of United States Senate and House for the Congressional Record, but that's a small matter compared to what it costs to print the stuff they report, one-half of which, if not more, is trash. "Maine's favorite son," T. B. Reed, Esq., proposes to do considerable stumping between this and November. He is billed for States East and West as far as the Pacific. This will give Tom a chance to see the boys and do some whooping up for himself. The theatre managers refuse to make dates for Madeline Pollard and the Actors' Union protests against her going on the stage as an insult to the profession. If Madeline can't get the boards and insists on showing herself she will have to run a side show of her own. Madeline and the Col. should both retire, for the public are tired, to put it mildly, of both. To stop raids on his watermelon patch and catch the raiders an Arkansas farmer injected poison into some of his finest melons. It worked, for when he went out to reconnoitre next morning he found two dead boys and a dead man—his son, a neighbor's son and a farm hand. About that time the neighbor whose son was poisoned came over and pumped a handful of buckshot into the poisoner's head. Hon. Chauncey M. Depew, who has returned from Europe, says he is not a candidate for Governor of New York. The nomination was offered him before going to Europe, but the acceptance would have necessitated his giving up his European trip, but he couldn't afford that for the doubtful honor of running as the Republican candidate for Governor, with the probabilities largely in favor of his being walloped.

Senator Sherman is quoted as giving expression to the oracular opinion that the country will "adjust itself to the new tariff." Of course it will. And the new tariff will adjust itself to the country, and with this double, reciprocal adjustment, the country will manage to jog along in spite of the calamity howlers.

The Hartford Courant, Rep., thinks that "with the right kind of a ticket, the right kind of a committee and the right kind of a canvass," the Republicans might stand some chance of carrying New York this Fall. But where can the Republicans expect to get all this?

If the Louisiana sugar planters were not piggish they would be satisfied with the protection they now have on sugar, which is equivalent to 1 1/2 cents a pound. But after a fellow gets a taste of protection once it is right hard to cure him of sucking eggs.

A Chicago astronomer thinks he has discovered a patch of grass about fifty miles long and thirty miles wide on the moon. If there is anything that a Chicago man can't find, when he starts out to look for it, it's worth hunting for.

A new sect has been started in Missouri in whose principles is not to pay the preachers. There are a good many congregations who wouldn't have far to go to be in full accord with that sect on that point.

Wheeler Zimmerman has scooped in \$20,000 since he has been in Europe. "Time is money," but the less time he makes the more money.

A trust on tacks has just been organized in Boston. It expects to be at-tacked but doesn't propose to be sat upon.

MEETING—L'Arrioso Club. MEETING—Dem. Ex. Com. D. L. GORE—Bagging and ties. MARKET NOTICE—Stall renting. LOCAL DOTS.

Items of Interest Gathered Here and There and Briefly Noted. WILMINGTON WELCOME WEEK.

In the National league Baltimore still stands first, with New York second and Boston third. A call is issued for a special meeting of L'Arrioso German Club, to be held at The Orton this evening at 8 o'clock.

And now the telegraph informs us that Viceroy Li Hung Chang has been deprived of his "three-eyed peacock feather." Blessed Tony! The Executive Committee of Wilmington Welcome Week will hold its first meeting to-night at the office of the S. A. L., on Front street.

A meeting of the Democratic Executive Committee of this county will be held at the Court House, Saturday, Sept. 22nd, at 3 o'clock p. m. Sophie Kelly, colored, charged with being a nuisance, was sent up to the Criminal Court, yesterday, by Justice Bunting, under bond of \$50.

Mr. Jno. Maunder is having a building erected on Mulberry between Water and Front streets, which he expects to move into by the 1st of October. Messrs. Dozier & Lee will occupy his old stand.

A telegram to the Weather Bureau station here last night at 10 o'clock ordered the information signal to be displayed, for a storm central in Georgia moving northeast. High south winds, shifting to northwest, were indicated. The same signal was ordered at stations along the coast from Jacksonville, Fla., to Norfolk, Va.

LOCKHART AND MARTIN.

They Meet at Charlotte, and Lockhart Shows the Difference Between a Man of Sense and a Political Crack.

Mr. Lockhart and Rev. Prof. Martin, his competitor, met in joint discussion at Charlotte Monday night. The Observer says Mr. Martin was badly used up by our Democratic standard-bearer. It gives the following summary of Mr. Lockhart's speech:

Mr. Lockhart was vociferously cheered as he mounted the stand. He discussed the political issues of the day in a plain, practical, reasonable way, as he said at the outset he intended to do, and made a most favorable impression on all who heard him.

Mr. Martin's speech, bearing its utter absurdity on its face, Mr. Lockhart did not waste much time in replying to it. He viewed the financial legislation of the country ever since the war. He showed clearly that the responsibility for all legal legislation the country was suffering from was due to the Republican party. In the latter part of the speech the Republicans had passed the national banking system, in 1865 an act exempting money from circulation was passed in the interest of people who had wealth when true men were in the field, fighting their country's battles. In '67 the Republican Congress made all bond issues payable in gold, for which measure not a single Democrat voted. In 1873 silver was surreptitiously demonetized. In February, '75, the Republican Congress, at the last moment, knowing a Democratic Congress was to follow in the coming March, passed the resumption act, almost criminal under the circumstances under which it was passed. The following Democratic Congress repealed and modified this resumption act. The same Congress provided that the greenback currency should be brought down to a certain limit, and the volume, as it exists to-day, is as fixed by that Congress.

Mr. Lockhart denied that the Democrats had extended the national banking system, as Mr. Martin had asserted. He said that Democrats in the last Congress had reduced expenditures \$50,000,000 over the preceding Republican Congress, and quoted Mr. Josephus Daniels as saying the Interior Department expenditures had been cut down over \$20,000,000.

He said solemnly that a minister of the gospel, as Mr. Martin was, should not go about making such an untruthful statement as that Congress had done nothing for the benefit of the people. Mr. Martin, somewhat nettled here, stepped into the discussion, and Mr. Lockhart, taking advantage of his opportunity, to the great delight of the crowd, made him admit that the taxing of incomes was the latter part of the benefit of the people. The making of all money taxable, Mr. Martin also reluctantly admitted, was beneficial.

Mr. Martin, claiming that the Democratic party was responsible for the panic, Mr. Lockhart quoted a recent Iowa speech of Gen. Weaver, the highest of Populistic authority, who said with great directness that the Democratic party was not so responsible. Never has any Congress that has so much to contend for, accomplished so much for the benefit of the people, the speaker asserted amid applause. In the woolsen schedule of the new tariff bill alone there has been a saving to the people of \$164,000,000.

Mr. Lockhart spoke with great eloquence and power at times, and aroused his hearers to a high pitch of enthusiasm. This was especially so when he said no Democrat had ever represented the Sixth district in Congress, and come away with the slightest suspicion of a stain on his garments. He himself in succeeding as he would, and a line of good and true men, from Ashe to Sydenham B. Alexander, felt the responsibility resting on him, and would endeavor to be true to his trust. [Great applause.]

Mr. Lockhart said he stood by every word in the State platform regarding silver. He believed in gold and silver, the money of the Constitution, supplemented by such paper issues as might safely be floated alongside of them. He was for a sound currency.

He said every Populist in Congress voted against the repeal of the State bank tax that Mr. Martin was so indignant about. He showed that the Populists in Congress proposed to appropriate in their various bills nearly \$40,000,000, four times as much money as there was on the face of the earth.

Mr. Lockhart's speech cannot be reported in full but it was a splendid effort and is of the vote-making kind. His ridicule of some of Mr. Martin's wild theories was highly amusing.

Citizens Building and Loan Association.

The annual meeting of the Citizens Building and Loan Association was held last night in the City Court room.

The meeting was called to order by W. H. Chadbourne, president. Mr. J. D. Bellamy, Jr., secretary and treasurer, read the minutes of last meeting, which were approved. A. J. Marshall and Geo. M. LeGrand were appointed a committee to canvass the shares represented, and reported 1,441 shares represented by proxy and in person.

The President announced the meeting organized for the transaction of business, there being a quorum present. A very flattering report of the financial standing of the Association was read by the secretary.

After the transaction of routine business all of the old officers were re-elected for the ensuing year, as follows: W. H. Chadbourne, President; H. G. Smallbones, Vice-President; Jno. B. Bellamy, Jr., Secretary.

Directors—W. H. Chadbourne, W. A. Riach, E. A. Northrop, H. G. Smallbones, Jas. H. Chadbourne, Jr., J. W. Jackson, J. T. Riley, Tim. Donlan, John McEntee, Marsden Bellamy, A. G. Haakins, W. W. Hodges and T. J. Pratt. Attorney—Marsden Bellamy. Upon motion the meeting adjourned.

Funeral of Mrs. E. C. Craft. The funeral of Mrs. E. C. Craft took place Sunday afternoon at 3 o'clock from Grace Methodist E. church. Rev. C. W. Norman, the pastor, conducting the services. The church was crowded with sorrowing friends and relatives. The remains were thence followed by a long funeral train to Oakdale cemetery, where they were laid to rest under a mound of flowers. The pall bearers were Messrs. C. D. Foard, H. T. King, W. H. Gates, F. R. Hawes, Eugene Philyaw and Jno. A. Everett, Jr.

Senator Ransom will speak at Burgaw, Monday, October 1st. It is hoped the Democratic Executive Committee of this county will invite him to speak in Wilmington on the night of October 1st. He is a grand orator, and a speech from him here would have a good effect.

COTTON FACTS AND FIGURES. Spot cotton quiet and steady at New York at 6 1/2c; steady at Wilmington at 6 1/4c for middling. Receipts here yesterday 1773 bales; same day last year, 459. Receipts from Sept. 1st, this year, 7,393 bales. New York futures closed steady and 3 to 5 points lower than closing quotations Monday. September opened at 6.48 and closed 6.47; October, 6.47 and closed 6.44; November, 6.33 and closed 6.48; December, 6.53 and closed 6.52; January, 6.63 and closed 6.58; February, 6.70 and closed 6.64; March, 6.75 and closed 6.69; April, 6.81 and closed 6.75.

The Boston Commercial Bulletin says: In actual cotton there is a fair and steady demand for spot lots, and very little cotton to supply it; consequently the price is firm. From the South there is not very much doing. Spinners are operating very gingerly in the expectation of lower prices. It is believed that strict midding at 7c. would meet their views and result in considerable business.

A BROKEN LEG. Accident to a Boat Hand on the Steamer Caps Fear. The steambot Cape Fear from Fayetteville, arrived here yesterday about one o'clock p. m., having been delayed on her trip by low water. Upon her arrival, one of the deck hands, Irving Deadman, colored, was sent to the Marine hospital with a broken leg, the result of an accident to Deadman near White Hall. The boat was coming round a bend in the river with a flat in tow, and Deadman was ordered to make another turn of the towing-rope around the timber-head. In doing this his left leg was caught near the ankle by the rope and crushed against the timber-head. Dr. Ennett, of White Oak, who was aboard, examined the limb and found that the foot was only hanging by the skin. He did what he could to relieve the man's sufferings.

At the Marine Hospital the foot was amputated, and last night the injured man was as well as could be expected. Delegates Appointed. OPERA HOUSE. Milton Nobles Played to a Large House. The popular and talented composer and actor, Milton Nobles, pleased and highly entertained a large audience at the Opera House last night by presenting his new play "For Revenue Only; or, a Third Party Movement."

This play is an original production of Mr. Nobles, raring with his several other productions, and in which he still heads the roll and wins for himself fresh laurels of praise well merited. His company are all strong supporters, and most talented like himself.

It is useless to say that the entire play was much enjoyed by the audience, and that Mr. Nobles will always have a cordial welcome by his many old friends in this city.
