ness, the cotton industry in England is year, but they were not far enough adnot at present prosperous, and has not vanced when the cold came along to rebeen so for several seasons, British ceive any material damage. The Savanmanufacturers depend largely upon the nah crop is not a very large one, amounting to not more than forty or fifty acres. but this will not come on for ten days or of China and other Eastern countries, two weeks yet, and the outlook is that the fruit will go considerably lower in price than it is at present. In fact there is no reason why it should not go just as low as it has in years past.

"The quality of the berries this year is fully as good if not better than it was last year, and already large quantities of them have been shipped out of Florida. In New York they are now selling wholesale at 40 cents per quart, whereas the first berries sent there sold at from \$1.50 to \$3.00 a quart. There is no reaadvance they would be in a position to son to believe that the crop this year will fall short in any respect to what it was last year and the year before.

"The other vegetable crops and fruit crops, Mr. Putzel says, are progressing very favorably and the outlook is a good one. There has, of course, been a great setback with all of the crops on account of this season's cold weather, but the farmers have replanted all the crops that were destroyed, and there is no reason to believe that the crops in all lines this year will not be as good and as plentiful as they have been heretofore."
