A Point For Advertisers. The proprietors of Paine's Celery Compound, Warner's Safe Cure and Paskola spend hundreds of thousands of dollars every year in advertising, and their agents are experts. Not one of them inserts an advertisement on Sunday. Why? Because everybody else advertises Sunday. The know they can get a better position on any other day of the week. The STAR has tried to impress this point on Wilmington advertisers, but they seem to think that the best way to make their advertisements description of the Queen's dolls when she was a tot. GRAND JURY'S REPORT

Exbmitted to Judge Hoke at the April Term of the Superior Court for New

Hanover County. The grand jury having concluded its labors made its report yesterday, and was discharged. The report is as

SUPERIOR COURT, April term, 1895. To His Honor Judge Hoke: We, your grand jury, beg to report that we have faithfully and diligently investigated every matter brought before us by the Solicitor or upon information, and have found twenty-five true

bills, five not true bills, and have made

one presentment. We have visited the county jail and county home, and after consultation with some of the pastors of this city, who have taken marked interest in the Associated Charities of the county, and also with some of the County Commissioners, we have decided in connection with our report to submit some regulations, which we would recommend be adopted for the future government of

these institutions. We find the county jail crowded with nearly twice the number of prisoners in the colored ward for which the jail was was built, and in this crowded state, with no change of clothes, and no facilities for bathing, and inadequate ventilation, vermin abound and foul disease and death must result if some change is not made before the hot weather comes. No humane man would herd dumb animals so closely and in such an atmosphere. We blame no one, as Mr. King, the jailor, has done everything in his power with the means at his hand to ameliorate

their condition. We would recommend that the county should furnish cheap clothes to every prisoner admitted, retaining his own clothes and returning same to him upon release, keeping the prison clothes thoroughly clean. We would also recommend that bathing facilities be provided and that all the prisoners be required to bathe at least twice a week, and that steps be taken to exterminate the vermin that infest the premises and that no more prisoners be admitted to any ward than the number for which the ward was

The County Home we find possibly as well conducted as could be expected under the present system of management, but in our judgment the present system, from a charitable point of view, is radically defective, and even from a business point of view is capable of great im-

provement. The county has built and is maintaining an extensive plant, but it remains, so far as the white poor are concerned comparatively empty and great difficulty has been found in inducing persons, although alone in the world and absolutely dependent, to consent to go to the Home under the present management, and additional money has to be given to support outside of the Home, Charity experts everywhere have come to the conclusion that public institutions ought to be humanely and kindly conducted and thus outdoor reliefs can be reduced to a minimum.

In our County Home we find the superintendent's family occupying a large two-story building with eight large rooms, while the male and female white patients occupy only the two wings, and no accommodation whatever for children. The superintendent has free of rent a good farm and free labor, except for the obligation of giving them food and clothes. The inmates make no complaint about the food except that those working in the fields complained of receiving only two meals a day. We could not find that the superintendent had given them any clothes or shoes and some did not have enough filthy rags on them to conceal their persons. The sexes have not been properly separated and immorality of the grossest kind has

In view of these facts we would recommend. 1. To cut off the Home from the

farm, leaving only enough ground for the proper appearance of the Home, the recreation of the inmates, and a vegetable garden in immediate connection with the Home.

2. At some suitable site upon the farm erect a simple farmer's house with necessary outbuildings. 8. Rent out the farm to the highest bidder, due regard being had to responsibility and humanity, giving the farmer as now the labor of the prisoners and requiring occasional inspection to see that

he feeds and clothes them properly. 4. Employ at a salary a suitable super ntendent of the Home, making the selection entirely upon moral grounds and executive ability, The superintendent should have for the use of his tamily the four rooms on the lower floor of the central building, reserving for children or others the upper rooms. 5. The prisoners of the Home to be at

the expense of the county, and each in mate to have clothes furnished either is lieu of or in addition to their own, so that they could have proper changes and avoid the vermin which are so prevalent there now.

6. Bathing facilities should be supplied, and bathing at least every week W. H. CHADBOURN, Foreman.

SUPERIOR COURT.

Cook vs. Meares-Russell and Edwards Plead for Cook-Rountree Holds the Fort for Meares-The Court Decides That Meares Is the Duly Commissioned and Qualified Judge-Appeal to the Supreme Court.

After opening Court Judge Hoke ansounced that he had examined the cerified copies of proceedings of the Legislature, as handed up for his finding by counsel on both sides, and that they seemed to be the same, with the exception of one that went a little further than the other. He found as facts, that the election of Mr. Cook took place on the 11th day of February, and that the act creating the Criminal Circuit became a law two days later on

Upon which finding Col. Edwards, of counsel for relator, Charles A. Cook, asked for an intimation from the Court as to whether he should address the Court on the question of the right of the Legislature to elect a Judge of the Circuit. The Court replied that it would be pleased to hear from counsel on all questions involved in the case, but that he was rather of the opinion that the Legislature had the right to name the ludge of the Court after it was in existence, but that he wished to hear argument, especially on the right of the Governor of the State to fill the vacancy, and as to whether a vacancy existed at the time of the appointment of the Hon.

O. P. Meares as Judge. Col. Edwards then addressed the Court in a lengthy and exhaustive argument in support of the position of the relator. Mr. Geo. Rountree followed on behalf of Judge Meares, making a splendid argument and quoting numerous authorities. A number of his fellow-members

Judge Russell, representing Mr. Cook made a good speech, plausible and ingenious, and closed the argument at

about 5 o'clock. The Court then rendered its decision, that the relator, Chas, A. Cook, is not entitled to the Judgeship, and that O. P. Meares is the duly qualified and legally appointed Judge of the Criminal Circuit Court until his successor is elected by the next General Assembly. From this decision counsel for relator appealed to the Supreme Court.

The case has excited a great deal of interest throughout the State and will continue to attract attention until it is finally decided. This it is thought will be done at the present term of the Supreme Court.

Other cases disposed of in the Supe rior Court yesterday were as follows: The jury in the case of Beverly Scott vs. S. H. Fishblate, after remaining out over twenty-four hours, returned a ver-

dict in favor of the defendant. Final decree was made in the case of Junius Davis, receiver, vs. John Haar, Jr., et al, and Junius Davis, receiver, vs. Peter Mohr and wife and

The Court will meet to-morrow at 10

o'clock and take up the remaining cases on the calendar.

AUDIT AND FINANCE. The Bond of City Clerk and Treasurer Rice Rejected Upon Opinion of the City Attorney That It Does Not Meet Require-

ments of the Law The Board of Audit and Finance met in adjourned session yesterday after-

The chairman, Mr. Calder, said that he had called the Board together for the purpose of receiving the opinion of the City Attorney upon the bond tendered by F. B. Rice in the Fidelity and Deposit Co.

City Attorney Sutton, in his opinion, recited objections to the bond and said that it is insufficient to meet the require-

ments of the law. After the opinion had been read by the clerk, Chairman Calder said that it justified the action of the Board and made it impossible to accept the bond. Mr. McQueen moved that the bond be rejected. The motion was seconded by

Mr. Hanby and was adopted. The \$10,000 bond was not taken up, Mr. Rice asking that it be deferred until he had furnished a bond in place of the one rejected by the Board. Mr. Rice asked, also, if a bond from a surety company would be accepted if it conformed to the requirements of the law. He was assured that it would.

The following resolution was then adopted: Resolved, That it is the sense of this Board that if a bond of a reliable security company is presented complying with the requirements as set forth in the opinion of the city attorney to the Board such a bond should be accepted.

On motion of Mr. McQueeu the compensation of the Clerk of the Board, Capt. John Cowan, was fixed at \$1,000 per year. He stated that this was all the law allowed and that it required a man of judgment and intelligence to perform the duties of the office properly. Mr.

The Board adjourned subject to the call of the chairman.

Clerk of Court Young Refuses to Qualify a Magistrate Appointed by the Governor-The Penitentiary Squabble-Light Front -Republican Mass Meeting.

Star Correspondence. RALEIGH, N. C., April 20. Mr. George F. Kennedy, who was appointed a magistrate by the Governor in place of an appointee of the Legislature who failed to qualify and who Clerk of the Court Young refused to qualify when application was made, to day went before Mr. Young and demanded that he be given the oath of office. Mr. Young refused and cited Mr. Kennedy to chapter 288 of the Acts of 1885, which Mr. Young says gives a magistrate ninety days in which to qualify. It is very likely that Mr. Kennedy will enter suit against Mr. Young. Marshburn, the man who was appointed by the Legislature, was in the city yesterday and failed to qualify. Mr. Kennedy says that that he would not accept the office.

Marshburn has told several of his friends State Treasurer Worth, who has teen riding a very high horse for the past few days, came down a few degrees yesterday. Mr. Worth told your correspondent Thursday that he did not intend to pay any penitentiary vouchers until the courts decided which of the two claimants was the legally elected one. To-day he said that he would continue to pay the expenses of the penitentiary as usual. I ventured to ask, was the matter of the different officers' salaries included? The Treasurer hesitated and finally said he was not prepared to speak about this matter. I s well known that Mr. Marion Butler influenced Mr. Worth in this action. Mr. Butler left the city and Mr. Worth got weak in the knees when the pressure was applied.
