Tom Reed says he managed to get through the first two years in college "by doing odd jobs here and there." Tom also did some pretty "odd jobs" while Speaker. His quorum counting business was a very odd job. We wouldn't cast any reflection on Tom, who, outside of his politics, is a capital fellow, but there are a good many Republican statesmen who made themselves solid by "doing odd jobs."

According to the Philadelphia Inquirer "Tom Reed's eloquent silence is bothering the opposition more than all the speeches of all the other aspirants put together." Perfectly indifferent to what Benj. Harrison and others may say, Tom isn't even talking through his hat. Masterly silence is a good thing at the The STAR's want column will bring right time. BOLD ROBBERY

At Mesers. Rehder & Co.'s Store on Fourth

One of the boldest robberies committed in this city for some time past was perpetrated last Tuesday night about 11 o'clock. It was the same old story. Messrs. J. H. Rehder & Co., who carry on a dry goods and gents' clothing business just north of Fourth street bridge, had their windows filled with goods for show. The Wilmington cyclists who took part in the races at Charlotte Monday afternoon, Messrs. Rawlings, Rankin, Wright, Sawyer, Springer, Bunting and Turrentine, and "rooters" H. D. Springer and Louis H. They were delighted with their visit to the "Queen City" and say the courteous manner in which they were treated couldn't have been surpassed anywhere. They were disappointed in the circular track and have challenged the Charlotte boys for a race on the turnpike here for week after next, which is likely to be accepted. They reported having done exceedingly well considering the circumstances, in all the races, and are confident of winning on

There was a large congregation of sorrowing relatives and sympathetic friends, and a long cortege followed the remains to the grave in Oakdale cemetery. There were many beautiful floral offerings which were placed upon the grave after the conclusion of the services. The pall-bearers were Messrs. R. W. Wallace, Walker Taylor, A. J. Howell, Jr., E. S. neendiary Attempt. An attempt was made Tuesday night to burn a house in the southeastern part of the city, occupied by Mrs. Mary Mintz, a widow. About 11 o'clock p. m. fire was discovered in the kitchen, but it was extinguished by some of the neighbors with buckets of water, before it had made much headway. A hole about three feet square was burned in the floor. After the fire was extinguished a number of lightwood splinters, saturated with keroses oil, were found under the kitchen. Mrs. Mintz and a five-year-old child were the only occupants of the house at the time, her two older daughters being at work in the cotton factory, on the night force. The

house is the property of Mr. John M.

They Indorse The Star. Dr. E. Porter was in the city yesterday. He fully indorses the position of the STAR on the proposed silver convention or conference to be held in Raleigh. Mr. W. G. Burkhead, of Columbus, who was here a day or two since, also expressed his unqualified approval of the STAR's position, which is not in accord with the views of those Democrats who favor a convention to be composed of Democrats, Republicans and Populists. Dr. Porter and Mr. Burkhead are both earnest advocates of free silver, but they consider it a Democratic measure, and cannot see where benefit can accrue to the Democratic party by "conferring" with Republicans and Populists.

Mr. B. G. Empie (our Brooke) is in the Inter-State shoot at Charlotte. In the opening events Tuesday, his scores were as follows: 17 out of 20; 13 out of 15; 20 straight, and 19 out of 20. THE HABIT OF SAVING

[Atlanta Constitution] The French suffer less from panics and depressions than any other people on the globe, and it is because thrift is the basis of their prosperity.

In France nearly every person saves something for a rainy day. The habit is almost universal, and those who earn the least are sure to be found in the great saving class. The French savings banks have more than 8,000,000 deposi-tors, and their deposits amount to about \$500,000,000 and this large sum is made up of small amounts.

The French schools teach the children to save money, and the most frequent prize given to a bright child is a savings bank book with a small sum to the credit of the owner. This is given where in this country we would give a medal or a book.

When a community has a lot of money deposited in savings banks it is easy to borrow money without going to outside capitalists. The local banks are prepared to loan to home people at a moderate interest. In large cities and factory towns of the Eastern States the savings banks are the great saleguards of the poor wage earners against hard times, and if the saving habit was as general here as in France our people would have passed the recent financial depres-

sion without seriously feeling it. Every child should be taught the importance of saving, without being avaricious or niggardly. We need more thrift. The average American wageearner wasts enough in his lifetime to make him comfortable in his o'd age. We should take a lesson from the French in this respect. They know how to enjoy life, and at the same time work hard and save money.

One Cent a Word, Hereafter advertisements to go in our 'Business Locals" department will be charged one cent per word for each insertion; but no advertisement, however short, will be taken for less than 20 cents.
