Organize a Company. There should be a State Baseball League next year, and Wilmington ought to take the initiative. It is the largest city in the State and has more true lovers of the "American game" than any other. The very large attendance at Hilton Park during the past few days to witness the contest between the colored clubs shows that Wilmington appreciates and will patronize liberally a good game of ball; and if we could have such games between clubs composed of whites the at-

tendance would be much larger. Let us get up a stock company. Fix the value of shares at \$10,00 each, payable 'in monthly instalments of \$2.00. Work should be begun at once, and overflow is not yet entirely passed, but \$2,000 should be raised. The STAR will take two shares. How many other subscribers will take two or more shares?

The happy couple will take a bridal tour to New York and other cities, and will be at home, in this city, after September 20th, Mr. Morrelle is well and favorably known to almost everybody in Wilmington, and Miss Jenkins is a near relative to Mrs. Andrew J. Fire Insurance Company,

of Charlotte, N. C.

The CAROLINA MUTUAL is a strong NORTH CAROLINA Company. It is, however, a stock company, and issues absolutely non-participating and non-assessable policies. Its mutual feature consists in a charter provision, that one-third of its directors must be POLICY-HOLDERS who are NOT stockholders elected by the POLICY-HOLDERS: this is a very strong point, the policy-holders who have great interests at stake, have a share and will always know its condition. MUTUAL deposits all premiums received at this agency to their credit with the WILMINGTON SAVINGS AND TRUST COMPANY. This makes it practically a local company. The directors of the company are:
