DEATH OF A STRANGER

A gentleman arriving in the city yesterday from visiting friends in Bladen county, told a STAR reporter of the sad death of a stranger in a strange place. On last Sunday afternoon an unknown man, well dressed, bearing every trace of a gentleman and Christian, was found in a school house on Dr. David Gillespie's place, near Westbrook's, dangerously sick with intermittent fever, and so feeble he could not go farther. As soon as this news spread through the neighborhood, a bed was carried to the school house and kind women ministered to him and gave him the best nursing and attention. He ralwhich they have almost monopolized lied enough to give his name, which he said was "Predeaux;" that he was making his way to Lumberton to see a friend, and became so sick while on the road that he crawled into the school house for shelter. He said he was a commercial traveller by profession and was with a firm named Huntto their failure, and had been out of work since. His father lives in Syracuse, N. Y., and he has a wife and two children in Brockton, Mass. He benoon and was buried by the kind people of the neighborhood Wednesday afternoon. He had undoubtedly been in Wilmington, as envelopes with The Purcell's card on them were found in his pocket, and a recommendation D. Williams and Miss Ruth Williams, of from R. G. Dun & Co., and letters addressed on the envelope "Mr. -- Miller," and inside "Dear Husband." He was a Magnolia, and Miss Laura L. Hartsell, fine looking man, rather stout, well of Goldsboro, were among the arrivals dressed, was apparently very religious, five feet ten inches high, gray eyes and - Mr. Samuel P. RALEIGH, N. C., Sept. 12. Mr. Thes. B. Yancey succeeds Elmo Shaffer, a son of Col. A. W. Shaffer, resigned, as clerk in the postoffice. Mr. Yancey was appointed from Washington, having passed a successful examination before the Civil Service Board. The next term of the Criminal Court

An order has been issued by Vice

President Baldwin, of the Southern Railway, granting all employes who have been in the service a year a vacation and transportation for themselves and family to visit the Atlanta Exposition. This is quite magnanimous on the part of the Southern.

The action of Republicans and Populists joining in for the silver convention occasioned all kinds of talk. Nearly everybody looks at it in a different light. Some say it means a new party. Treasurer Worth is in full accord with the movement. He says all silver men have got to get together to accomplish anything. He also suggested, with a smile, that this was the accepted time. The most important work of the negro convention was the adoption of the resolutions, which were unanimously passed by a rising vote. They were conspicuous by an absence of any reference derogatory to the fusion movement. This seems strange since nearly every speaker on the floor yesington, dealers in telt and straw hats, up | terday either tackled the fusion movement or declared in favor of straight Republicanism. BLACKSTOCKINGS VS. QUICKSTEPS Game Won by the Charlotte Team-Sec

11 to 6. The Charlotte colored team "wiped up" the Blackstockings of this city in the first of the third series of three games for \$100. The Charlotte Observer gives the following account of the game:

The Quicksteps took the first game of the series from Wilmington yesterday by a score of 11 to 6. The game was witnessed by about 800 people, and was interesting from start to finish. The Quicksteps played rather yellow in the first few innings, but after that they settled down and put up a gilt-edge article of ball, outplaying their opponents at all points.

The infield work of the Quicksteps was of a high order and worthy of special mention. Their work, with a lew exceptions, was clean and fast, five louble plays being recorded to them. Stevenson got mad because the man-agement would not do as he said, and took his doll rags and went home, refusing to "play in their backyard any more." He was not missed, however, as Worthen played first in good style. Robinson, at second, and Williams, at short, played their positions well, but Harris at third was the star of the occasion, accepting eleven chances, some very difficult, without an error. Aside from a little wildness, Daniels' pitching was first-class, while Holt caught a good game under the circumstances.

For Wilmington, the features were Goss' home run in the first inning and the base-running of Schenck. NEW YORK TRUCK MARKET. Full and Reliable Reports of Markets For

The Sesson for Making Jellies and Preserves. Scuppernong grapes, now in season and abundant and cheap, make delicious jellies and preserves. To make jelly, stem the grapes carefully and wash well. Put them into a preserving kettle, cover, and heat slowly. Stir frequently and cook until the fruit is well broken and has boiled. Take from the fire and squeeze through a jelly bag. Measure the juice into a porcelain kettle and set upon the stove to boil. For each pint of juice allow one pound of granulated sugar, and while the juice is boiling place the sugar on tin pans

and put it in the oven, stirring often. When the juice has boiled steadily twenty minutes add the hot sugar and stir rapidly until it dissolves. It will make a hissing sound as it falls in and melt quickly. Let the jelly boil up once and take from the stove. Have the glasses heated by standing them in hot water and pour the liquid jelly into them. When it is perfectly cold cover the glasses. Jelly of two colors and different flavors may be made with the back grapes by separating the pulp and skin of the grapes and cooking each one by itself. One will be

purple and the other amber. Grapes make an excellent spiced fruit. To prepare them, pick from the stems seven pounds of ripe grapes and separate the pulp from the skin. Put the skins into a preserving kettle over the fire with enough water to prevent them from burning. In another kettle place the pulp and cook until it will press easily through a sieve to remove the seeds. Add the strained pulp to the skins with half a pint of sharp vinegar and one ounce each of whole cloves, allspice and cinnamon. Boil together until it is thick

Pear Preserves .- To every three pounds of fruit allow one and one-half pounds of sugar and a half pint of water. Peel the pears and lay them in cold water to keep them from turning dark before they are wanted. When the syrup is boiling, put the pears in and cook until they look clear or a fork can be stuck into them easily. Have the jars standing in a pan of hot water and carefully fill them with the fruit. Pour the hot syrup over them, filling the jars to the top. Cover and seal. In making brandy pears, Bartletts are the only variety that will give entire satisfaction when brandied, as they have a more decided flavor than any other Select firm but ripe pears, peel, and boil in a weak syrup until they can be pierced with a straw.
