About 30,000 Indians are said to be now engaged in farming and stock raising. That's better than raising hades and scalps.

Australia has a population about 5,000,000 and claims that she has room for and could support 95,-000,000 more. Texas could come mighty near doing that and then leave room enough for lots of bicycle

As things look now Durrant, the San Francisco girl murderer, will achieve a hanging, but notwithstanding his lawyers confidently assert colored. The building was set on fire that they will aquit him. If they do on the outside. Fortunately the fire they will at the same time acquit themselves very handsomely.

"Ned" was one of the equine war reminiscences that took part in the Louisville R. A. R. parade. Ned is | Scott's Hill circuit, Union, Sept 28th somewhat of a veteran, but he has his match in "Morgan," a Kentucky horse which was ridden by General Morgan, and is now, aged 40 years, enjoying the evening of life up to his eyes in blue grass and clover.

The thief is not confined to any particular class of society. Among the 4,000 professional and non-professional, expert and amateur thieves arrested in Paris the first six months of this year were a Princess, a Countess, and the daughter of a

reigning Prince. Mr. Chauncey M. Depew learned while in Europe that a hundred men in England had within a year pocketed \$500,000,000 in cold cash by the sale of stocks and shares in South African gold mining compa nies. At this rate somebody was probably pretty badly soaked,

If this thing keeps on the Ameri- PERSONAL PARAGRAPHS cans will achieve the reputation of being lacking in courtesy to our British cousins. Dunraven came over here with his boat and Iselin's fellows scooped him so bad that the Britishers haven't got done ravin' about it yet. And then at the international athletic games in New York last week the American athletes scooped everything, and didn't give the Englishmen who came over to contest with them a chance even to wife. come in good second. The Americans won eleven clean victories

On his arrival at New York, from Europe, the other day Boss Croker was blandly approached by a newspaper man who desired him to make some remarks on politics in general and the situation in New York in particular, to which the accommodating Mr. Croker replied: "I find that the fun and enjoyment of life is outside of politics, and I intend to stay out." And yet there is a very strong suspicion that the old stager will occasionally take a whack at politics and have some fun, too.

The Washington Star quotes prominent politician as saying that Senator Brice is one of the most ambitious men in this country, and has his eye dead set on the Presidency. The aforesaid politician volunteered the information that Mr. Brice had already spent \$200,000 in manipulating things to his notion and will, if necessary to carry the State, spend \$1,000,000. All of which may be taken with a good deal of salt.

The report that Senator Vest, of Missouri, while in Europe had changed his views on the silver question, was thus emphatically denied by him on his arrival at New York. I firmly believe in the free and un limited coinage of silver as against the single gold standard. I wish it distinctly understood that I have not in the least departed from my principles on the silver question.

It is said that Li Hung Chang has the finest collection of smoking utensils in the world, but doesn't smoke. This is a lie. He smokes a pipe the stem of which is about four feet long and from under the cloud of smoke he raises tries to read through the fellow he has any business with.

THE-SILVER CONVENTION

LEADING DEMOCRATS AND POPULISTS IN CONFERENCE.

Kinston Fire Bugs-Marriage in Baleigh-Cotton Opening Rapidly-Directors For the Atlantic and North Carolina Railroad Appointed By Gov. Carr-Senator Butler's Resolution Adopted By the Conference-Democrats Hold a Caucus-No Action Taken.

[Star Correspondence.]

RALEIGH, September 24. Mr. E. Clinton Potter, travelling agent of the Norfolk and Southern and the Eastern Carolina Dispatch, with headgarters at Norfolk, was united in marriage to-day to Miss Lula Ellis, of this city, daughter of Dr. R. B. Ellis. Mr. Potter was cashier in the Internal Revenue office in this city under ex-Collector Elisha White s administration. Mr. J. Walter Myatt, of Polenta, who brought the first bale of cotton to the Raleigh market, has brought thirty-one

bales so far. Cotton is opening rapidly everywhere. Yesterday Sheriff Hodges, of Lenoir county, arrived in the city and carried before Judge Cable papers relating to habeas corpus proceedings brought by Red Joyner, colored, who was put in Kinston jail last week without bail by a magistrate, on the charge of being an accomplice in the incendiary burning of Kinston. It will be remembered that the town was fired many times about the month of February. Detectives were put on the track and a number of arrests made. Three negroes are now

in jail and three out on \$1,000 bonds. The negroes in jail squealed and "told on" Red Joyner. Their evidence was very strong, putting most of the blame on Joyner. He thought that he should be allowed the privilege of giving bond as the others, and took out habeas corpus proceedings. Judge Cable fixed his bond at \$1,000, and the sheriff says he can give it.

Last week quite a sensation was created in Kinston by the arrest of three prominent citizens. They were the first white men implicated. A trial before a magistrate failed to incriminate them and they were released. Detectives are full speed by some giant, four times still at work.

The prevailing opinion is that the houses were burned for insurance, and vention will be called to order promptly at 11 a. m. in Metropolitan hall. "If the occasion demands it by large attendance we will go elsewhere," said he.

I ran on a "maresnest" this morning while seeking Judge Whitaker's office. As the door flew open there sat around in a kind of family circle Senator Butler and Ed Chambers Smith, Walter Henry and Captain Ashe, Spier Whitaker and Congressman Shuford, and other gentlemen whose features could not be distinguished. They were evidently in conference. "Harmony" might have been a subject of discussion. I told a gentleman this morning about the gathering, and he remarked that fusion was now

All hands seem to think that the convention will result in one grand, sweet, harmonious song, pledging every man to support only silverites for National and State officers in-all elections in the future. Leading men of both parties tell the STAR'S correspondent that this will

be done. Logue Harriss told me to-day that they would have to do more than this or sit down upon him. (It is very likely that they will) As has been said in the STAR, Logue has an arm full of resolutions. The leading one is to pledge every man to support the nominee of the silver party. Logue says he will be there. Among the advance guard who have arrived are Claudius Dockery and S. Smith, of Rockingham, J. J. Mott, Congressman Shepard, J. F. Click, o the Hickory Mercury, Cy Thompson, W. A. Guthrie and others.

Governor Carr, as chairman of the Board of Internal Improvements, to-day appointed directors of the Atlantic and forth Carolina Railroad. Following are the appointees: W. S. Chadwick, E Foy, W. T. Keogh, Chas. Dewey, Euich Wadsworth, W. L. Kennedy, Sam. La-tham, W. W. Carraway. The State's proxy is W. T. Dortch.

[Special Star Telegram.] About one hundred delegates are here, a majority being Populists and Republicans. Jarvis, Harry Skinner, Buck Kitchen, Senator Westmoreland and others are on the scene. A conference of leading silverites from each of the three parties was held this afternoon in the City Hall. Resolutions were introduced by Captain Ashe, Spier Whitaker and Senator Butler. Captain Ashe's resolutions were general and declared for silver. Mr. Whitaker's resolutions recommended that none save silverites be selected for office. Mr. Butler's resoltions were stronger than any and met with some opposition, especially among Democrats. He urged that none save avowed silverites be voted for national offices, and also advised the holding of similar conventions in all other States. His idea was rather for unity among silverites in support of a national ticket. No agreement was reached, and a committee of three was appointed to consider the resolutions and report in the morning, as follows: Ashe, Smith, MacRae, Butler, Guthrie, Whitaker, Mott. Harris and Westmoreland. There is some talk of Democrats opposing

Butler's resolutions. A caucus of Democrats was held tonight. No action was taken. Governor Carr and others were present. There is some under-talk of creating a new party; but the idea does not meet with favor. LATER-The committee of reached a conclusion at 11:20 o'clock to-night, accepting Senator Butler's resolutions, with a few changes. Six members were present, and Capt. Ashe alone voted against them. They declare in favor of silver, and recommend to the people to elect as national representatives such as favor free coinage of silver at the ratio of 16 to 1; calls on sympathisers of silver in all other States to

C.; Charleston and Columbia, S. C.; Americus, Augusta, Macon, Rome and Savannah, Ga.; Jacksonville, Tampa, Fla.; Mobile, Montgomery and Selma,

Lists of routes, forms of proposals and bonds, and all other necessary information will be forwarded upon appilcation to the Second Assistant Postmaster General.

Do Not Take the Baby's Hand. How many mothers realize the injury they are doing their children by holding their hand as they walk? You see a little tot of eighteen months or two years with its little hand and arm lifted high above its head to hold the hand of some grown person, sometimes one at either hand, and the poor little creature, in this unnatural position, with a strain on the heart muscles, to say nothing of the arms, is dragged along the street, and if that were not enough, the child is obliged with its tiny feet and legs to keep up with the pace of the parents or nurse, who never realize how many steps the little feet have to take to their one. Let any grown person see how long he could walk with his arms raised higher than his head, without hurrying, and then let him try being dragged along at his own size. I am afraid few could endure the strain for more than a few minutes. And yet I daily see mothers in some instances uninsured houses scolding their little children for crying were burned, so as to hide their crime. at being dragged long distances in this walk at all should be allowed to walk alone or holding the hand of some other child near their own size. It is better for them in every way, and will save many a crying fit caused by over-strain

of the nerves and muscles .- Exchange. If there is anything you want, advertise for it. Is there anything you don't want? Advertise it in the Business Locals of the STAR. One cent a word. But, no ad. taken for ess than 20 cents.
