ORDER OF HEPTASOPHS.

Public Installation of Officers of Oriental Conclave-Address by Mr. R. W. Jowell-Music-An Amusing Parce-Collation.

The public installation of officers of Oriental Conclave No. 1, Order of Heptasophs or Seven Wise Men, took place last night at their hall on South Front street, where a very fine programme of music, etc., was rendered. At 8 o'clock the exercises began with the "opening ode," by the Lodge, which was followed by prayer by the Prelate Miss Minnie Jones then delighted her hearers with a piano solo. The next number was the installation of the offi cers of the Conclave by the Grand Inspector General, Thos. J. Gore, and the Deputy Supreme Archon, K. W. Jewell. The following were the officers installed,

Deluge of Selling Orders Caused by the

Political Situation - Wheat Strong on War Rumors. [Special Star Telegram.] New York, Jan. 7 .- The cotton market experienced a perfect deluge of selling orders to-day, owing to the critical state of affairs involving England, Germany and the United States. Those who once believed in cotton are penitent to-night and scarcely know what the near future will bring forth. The end of the session registers a net decline of nine points as compared with vesterday's quotations, the March option selling as low as 7.91. The tone is weak, but should invite

legitimate speculation. The port receipts to-day will aggregate 25,000 bales, and heavy receipts predicted at New Orleans to-morrow and free offerings from the South, figured conspicuously in the forced equidation of a large line of cotton for Southern account. The Ch cago wheat market simply boiled with strength to-day, closing at 50% for May option on war rumors. The readers of the STAR will recall our

'chine Companies Are in Business.

[New York Sun.] Reports that the large sewing machine manufacturing companies are about to produce bicycles on a large scale have been denied from time to time, and only one Western concern is reported to have started in the business. It was learned on Saturday, however, that Eastern sewing machine manufacturers have been at work for some months preparing for a sharp fight with the regular bicycle manufacturers. The Singer Company has denied repeatedly that it was engaged in manufacturing bicycles and officials of the company denied yesterday that it is engaged in such a project. But, as a matter of fact, it is stated that large Eastern concerns have been manufacturing bicycles and will throw a million machines on the market at \$25 apiece. Agencies are being established and it is assested that, as no large commissions will be paid, the companies engaged will make money, although the actual cost of any standard bicycle at first hands has been stated to be \$34. Agents familar with the trade are being engaged.
