CHAMBER OF COMMERCE

TAKE ACTION IN THE MATTER OF THE U. S. CRUISER RALEIGH.

Evidence to Show That the Vessel Can Safely Pass the Bar and Enter Southpert-Letters Addressed to Gov. Carr and the Secre ary of the Navy at Wash-A sp:cial meeting of the Chamber of

Commerce was held yesterday afternoon. President Chadbourn stated that the meeting was called to take action in regard to getting the cruiser Raleigh to come to Southport to receive the testimonial purchased for it by popular subscription in the State. He said that the Secretary of the Navy said that the presentation must take place at Norfolk, Va., as the water on our bar was insufficient to admit the Raleigh's passage

Mr. Geo. L. Morton of the Naval Battalion, said that he had written a letter to the Assistant Secretary of the Navy, Hon. Wm. McAdoo, ashing that the cruiser Raleigh be sent here; that the Naval Battalion had been trying for two years to get the Raleigh here, and that when he heard that the Raleigh will be kept away on account of there not being enough water on the bar to admit of her passage, that he had written this letter to correct the statement, and he had a'so enclosed one from Col. D. P. Heap in which Col. Heap stated that at mean low water it was 18 feet deep; one from Mr. S. F. Craig, an experienced pilot, in which Mr. Craig stated that from measurements taken June 16th, the water was 221/2 feet deep; and one from Messrs. Alexander Sprunt & Son, which stated that they had cleared a number of ocean steamers, which had passed over the bar, homeward bound, drawing from 1816 to 19 leet. Mr. Morton further stated that the Raleigh drew 191/2 feet, and when she was ballasted 20 feet, 4 inches; that the Raleigh had been in Charleston harbor, and that he understood that our harbor is deeper. He thought the Government had formed their opinion from the chart made last

Mr. J. W. Craig, pilot, said that the chart of the Government was correct when it was made, but since then the channel had been dredged and that now at the very lowest tide it was only 171/4 feet, but at average low tide 18 feet.

On motion, Messrs. C. E. Borden, T. F. Bagley and J. W. Craig were appointed a committee to write the Governor of the State at Raleigh and the stand that the physician only visits the Secretary of the Navy at Washington, D. C., in regard to the matter. Mr. T. F. Bagley suggested some ad-

Washington, D. C .: DEAR SIR-The undersigned committee, appointed by the Chamber of Commerce of the city of Wilmington at a special meeting held this day, respect-

ully submit: That a letter forwarded by your Department to the Governor of this State and afterwards published by the press, containing the statement that it would be impossible to send the cruiser Raleigh to Southport on account of an insufficiency of water, is entirely erroneous and has worked great harm to the commercial interests of this port.

We respectfully submit that the contrary evidence can be obtained from the engineer in charge of our river and harbor improvements and from the Cape | 22nd of last April. Fear Pilots' Association. We have forwarded, through the Governor, documentary evidence substantiating the above statements, and respectfully re- minutes he was pronounced dead. He the same when submitted, and urge that | broken. vou make some effort to correct this in-

The citizens of the State, through a popular subscription, have donated a testimonial to the cruiser Raleigh and desire that the presentation should take place in North Carolina waters. The citizens of North Carolina would be justly chagrined and humiliated should this presentation take place in waters outside of the State, to say nothing of the injury that would be done to the chief commercial seaport of the State of North Carolina. It is a well known fact that the cruiser Raleigh has recently been in the port of Charleston, a harbor well known to have less depth of water on the bar than our own, and to be more dangerous to navigation from the fact that the shoal water on the bar is fully a mile in length, while the shallowest part of our own is not more than two hun-

dred yards. We respectfully call your attention to the Government chart issued August 28, 1895, in which the least depth of water at low tide is sixteen and one-half feet, and beg to state that since its publication this channel has been dredged ou one and one-half feet, and that soundings taken on June 16th, recent date, by the Pilots' Asssociation, now show eighteen feet, making it safe for vessels drawing twenty-two and one-half feet to

cross the bar. We respectfully urge the re-consideration of your decision and request that you grant the application made by the citizens' committee through the Gov-Business Locals" department will be ernor. Very respectfully, CHAS. E. BORDEN.

WILMINGTON, N. C., June 19. To His Excellency, Elias Carr, Governor North Carolina, Raleigh, N. with a committee from the Cape Fear Pilots' Association. We had in evidence the fact that the mean depth of water on our bar at low water is eighteen feet, with a rise of tide of from four and one-half to five feet, thus making it entirely safe for a vessel drawing twentytwo and one-half feet to cross our bar.

Col. D P. Heap, Corps of Engineers, U. S A., in charge of river and harbor improvements. Learning that Lieut. Commander Morton was taking this matter up with the Navy Department through you, a request was made to him to submit his correspondence to the Chamber of Commerce before forwarding the same. Fairly was tried and convicted at the May term of the Superior Court under the name of Frank McRae. But a few days before his execution he made a confession of his crime to a colored minister who visited him regularly during his imprisonment and stated that his name was Ed. Fairly, and that he was raised near Laurinburg, in Richmond county. He made a statement on the gallows, acknowledging his guit and saying that he was ready to die. By order of the County Commissioners the execution took place in the jail enclosure and only a limited number were admitted to witness it. Upon request of Sheriff McLeod, the Governor ordered the Maxton Guards here as an extra precaution against violence. They arrived yesterday and remained on duty until this afternoon, when they returned to Maxton. A large crowd was in town and general order prevailed.

It is the general opinion that justice has been done, and that a most dastardly crime has been deservedly punished.
