OUTLINES

The silver men, before going into the the convention, prepared themselves for every possible phase of the expected fight with the gold element over the organization and control of the convention; the National Democratic Convention was called to order by Mr. Harrity, chairman of the Democratic National Committee, who presented the name of D. B. Hill, of New York- for temporary chairman; the minority report of the National Committee was presented recommending John W. Daniel, of Virginia, for that position: after a long discassion a vote was taken and resulted in the adoption of the minority report by 556 year to 849 nays; after the appointment of committees the convention adjourned until to-day. --- George Law, the millionaire and railroad magnate, died in New York yesterday. - The New York Republican State Convention to nominate State officers will meet at Stratoga August 15 h. - At a meeting of the Committee on Permanent Organization, Senator Stephen M. When a National bank man advocates the free coinage of silver, it is pretty good proof that he is sincere, but when he resigns an \$18,000 a year position, as Mr. St. John did, rather than keep his mouth shut, there isn't much ground to doubt visitors in the city yesterday. that he is in dead earnest.

Some of the Northern doctors are quoted as saying that there is no such thing as genuine rabies from the bite of a dog, that it is purely a nervous disease and that when death results it is from brooding over the day, the case of Ed. Tinesly and John bite, and imagination does the rest. Brooding and imagination doubtless have much to do with the fatalities in such cases, but how will they account for the deaths of cattle, hogs and other animals from the bites of dogs? It may be said they do not die from these bites, but if so what is it that kills them with such horrid suffering?

The New York Times, gold organ, remarks that "the sound money Democrats at Chicago are chiefly occupied in trying to determine what is the wisest course for them to take at and after the convention." The wisest course for them to take is to take down their gold flag, go over to silver and make it unanimous like the gold fellows in the North Cleveland State convention did, and then whoop it up for the grand old De-

It is said that the reason why Charles A. Dana, of the New York Sun, is physically and mentally so vigorous is that he never permits himself to get in a hurry. He always takes his time, sharpens his darts, takes deliberate aim, lets them fly and generally hits something. And then he enjoys seeing that something wriggling around. Mr. Dana gets about as much fun out of his work as any man in America.

The free silver men lack only about 39 of having a two-thirds majority at Chicago. The gold men have been counting on solid gold delegations from the East, but with the showing the free silver men are making in those States the chances of the free silver men getting those 39 are pretty good.

Senator Gorman is drinking water (and something else) at Saratoga, while the other gold fellows are wrestling with the silver fellows at Chicago. When the convention gets through and the gold fellows find they are not "in it," Gorman will take water again and whoop it up for the ticket.

The largest sheet of tin ever made in this country was carried in a Mc-Kinley procession in Canton one day last week. Quite appropriate. Tin-plate is galvanized iron. Mc-Kinley is a galvanized candidate himself. The gold men put the color on him.

Bullstins from Chicago.

The bulletin service furnished free of charge yesterday by the Western Union and the Postal Telegraph companies was highly appreciated by the public. The brief mention of every impo:tant event in the Chicago Convention; and so deep was the interest felt in the proceedings that every item was eagerly read by hundreds of people. Through the courtesy of the Managers the STAR was supplied with the bulletins as fast as received; and the service will be continued to day. The Western Union service was very full and prompt, and was probably the most satisfactory of any ever before furnished.

A Possible Dark Horse. Congressman Amos J. Cummings, in his letter to the New York Journal on the situation at Chicago, says:

"Meantime there is a close cloud on the horizon of all the candidates. It is an effort to place in the field the name of A. H. Garland, President Cleveland's former Attorney-General. His honesty and undoubted ability, to say nothing of his recent remarkable silver letter, will make him Tormidable as a compromise candidate if the fight becomes bitter and hot."

Signals were displayed yesterday upon receipt of the following telegrams from the Chief of the Weather Bureau: WASHINGTON, July 7., 4.40 p. m .-
