BOARD OF ALDERMEN.

pecial Meeting Held to Consider Permission Granted the Carolina Central to Build a New Bridge Over the Cut on Fourth Street.

The Board of Aldermen met in special session at 12 o'clock m. Present Mayor Harriss, Aldermen Northrop, VonGlahn, Cameron, Meares, Nixon and Walker.

After the reading of the minutes of the previous meeting, Mayor Harriss stated that the object of the meeting was in regard to the tearing down of the bridge of the Carolina Central Railroad over the cut near Hilton, on Fourth street; permission granted the railroad company to build a new bridge and to raise the grade of the same.

the new bridge was being built, would it obstruct the street? Alderman Meares replied that would, for about two or three days; that a new bridge had to be built or passage-

way over the old one stopped, as it was unsafe. Protests were read from the Hilton Lumber Company and from the Peregoy Jenkins Lumber Company, in which they stated that the raising of the bridge was solely a convenience for the C. C. R. R.; that the bridge is now on a level

with the street, and if the road wanted to do anything, why don't they lower their track. Protest was read from Mr. W. L. Parsley, in which he stated that he owned property on both sides of the bridge

which would be injured. A communication was read from Messrs Willard & Giles, insurance agents, in which they informed the lumber company that the tearing down of the old bridge, thereby making a delay - Dr. Wright Hall don't like the of passage, would result in a higher rate of insurance, and that some of the companies would probably cancel their insurance policies, as the fire engines

wauld be unable to get across the cut

Alderman Springer said he understood that the fire engines could not now cross the bridge. Alderman Von Glahn said the en-

gines could not cross the bridge in its present condition. Mr. M F., Gouverneur, superintendent of the Street Railway Company, who was present stated that he thought the bridge could be repaired: that they had some theatrical performances to be given at Hilton Park next week, and if the passage over the bridge was going to be stopped, they would hold somebody responsible for their loss.

Mr. W. L. Parsley (who was also present) said that the C. C. R. R. ought to be compelled to keep the road in good condition. Alderman Meares said the bridge mas-

ter of the road said that he would have to put in larger timbers to repair it. which would necessitate obstructing passige for a few days. Alderman Northrop said if the raising

of the bridge was going to injure any one's property, he would make a motion to rescind the permission granted the Alderman Meares said that the eleva-

tion will be so slight that it will hardly be perceptible; that there was no established street grade. Mr. Parsley said the bridge covered

twenty feet of his land on both sides of the cut.

Alderman Meares said that raising the track fifteen inches on each side and thirty inches in the middle was a matter of human life with the road, as their brakemen's lives were endangered by

the present height of the bridge. In response to a question, Alderman Meares said there was a great difference in vehicles going over a high grade and locomotives going down grade.

It was then stated that in the Carolina Central Railroad's petition they stated that they would assume all responsibility.

Mr. Parsley said it was a hard matter to get damages out of corporations. Alderman Meares said the road would agree to fill in Mr. Parsley's lots if they damaged them any. Mr. Parsley responded that he would pay for the brakemen killed.

Mr. A. F. Aydlett, bridge builder of the road, who was present, stated that the established height of their bridges was twenty-one feet six inches. The bridge was one hundred and twenty feet long, and the grading would be about three feet, or thirty inches to one

Alderman Cameron said that the road could put in drainage pipes to carry off the water.

Alderman Springer said that the petition had been granted, and there would have to be a motion to rescind it before they could act. Mr. Gouverneue said he would like to

know if Mr. Parsley would stop the erection of a new bridge by legal process, and Mr. Parsley replied that he didn't know. Carolina Central Railroad Company was

required to furnish a guarantee that the city will not be responsible for damage incurred by the raising and erection of a new bridge. A communication was read from the Board of Audit and Finance, in regard

to the bill of E. H. Freeman, against the city for shells. The communication stated that while the mayor approved the bill, Mr. L. H. Bryant, superintendent of streets, did not approve it, saying that the shells were not of good quality. Mayor Harriss stated that he had examined the shells and found them all

right. On motion of Alderman Meares, the bill was ordered returned, with the stateDO YOU TAKE IT?
