WEDNESDAY MORNING, Aug. 19

BRYAN AT RED HOOK Composing His Letter of Acceptance and Perfee log Plens for the Campaigo. By Telegraph to the Morning Star.

UPPER RED HOOK. N. Y., August 18, Mr. Bryan came to Upper Red Hook for quiet but he is somewhat dubious of tne prospects. He will set to work composing his letter of acceptance without delay and will probably largely perfect his plans for the campaign while

Last night he telegraphed the president of the League of Pennsylvania Democratic Clubs that he would appear at the convention of that organization on August 26th, instead of the date previously announced. An invitation from Toledo has also been received and he will probably speak there on his way home. Mr. Bryan to-day decided to emulate the example of Cleveland and Harrison in the piscatorial fields. Spring Lake, near Upper Red Hook, is said to swarm with bass and pickerel, and a fishing party for the benefit of the nominee went there this afternoon. His sporting experience never extended farther than rabbit shooting, but the visit to this quiet village, while it involves much hard work has brought about a desire to try his luck with the rod. To-morrow or next day Mr. Bryan will take a trip across the Hudson to the Catskills.

> SPOTS AND FUTURES. San's Review of the Cotto

Market. By Telegraph to the Morning Star.

NEW YORK, August 18 .- The Sun says: Cotton advanced twenty-one to thirtyone points, closing firm with sales of 314,000 bales. Liverpool advanced 1-16d

half points, closing firm. To-day's features: The market took the bit between its teeth to-day and raced up hill like a runaway horse. Under the influence of heavy purchases to cover shorts, buying for Southern and European accounts and higher cables, prices advanced sharply. Damage reports continue to be received in a steady stream, many of them taking the ground that the injury to the crop is irreparable. The Weather Bureau reported a light precipitation in Arkansas, but in Louisiana, Mississippi and Texas there was hardly any moisture at all. Every body wanted to buy while sellers were conspicuous by their absence, and accordingly prices shot upward like a rocket. And they did not come down like a stick, either, but on the contrary closed at about the best figures of the day. The Southern spot markets were higher. The receipts were liberal, but they were not a factor in the speculation. It is entirely a weather market.

GRAIN AND PROVISIONS.

Wheat, Corn and Oats Closed Higher-Pork and Lard Lower. By Telegraph to the Morning Star,

CHICAGO, August 18.-Wheat-The rise was not a great or important one this morning. September wheat opened at 54%c, sold between 511/054% and 55%c, closing at 55% @55%c-%@%c higher than yesterday. Cash wheat was firm, 1/4c higher.

Corn derived a steady tone from the strength of wheat and oats. May corn opened at 26% to 26%c, sold between 26% to 27%; closing at 26% to 26%; a shade under yesterday. Cash corn was firm and &c higher.

Oats-The sentiment in oats is bullish and those who have sold the grain short will feel more comfortable after their contracts are evened. May oats closed a shade higher than yesterday. Cash oats were steady to Mc per bushel

Provisions-Prices, under the influence of a strong hog market, opened higher. The offerings were heavier than the demand could absorb, however, and very soon a decline was noted, after which the prevailing tone was steady. January pork closed 121/2c lower. January lard 1/2c higher, January ribs 71/4c

STEAMER COMMODORE

A Sensational Story Told by the Mast r of the Little Filibuster. By Telegraph to the Morning Star.

CHARLESTON, S. C., August 18 .- Captain Thomas Morton, of the filibuster steamer Commodore, left this city for New York this afternoon after putting his little vessel on the ways here. Before leaving he told a reporter for the News and Courier a sensational story about an attempt on the part of the Spanish government to buy him. He said that the negotiations were conductsd through a spy named Benson, who had been watching the Commodore for weeks, but that the offer came from Spanish Consul Jose Congosto, at Phildelphia. He exhibits in proof of his story a typewritten document from the consul. In it Morton's name is not mentioned, but it is an offer of \$10,000 for the betrayal of any Cuban expedition. Captain Morton says that the Commodore has been kept here to detain the cutte Colfaxr from interfering with the Dauntle'ss expedition which recently left Brunswick. Ga.

CONCERNING COTTON.

WEATHER BUREAU'S WEEKLY CROP BULLETIN.

The Yi-ld Will be Much Below the Average -Effects of Continued Hot and Dry Weather.

By Telegraph to the Morning Star. WASHINGTON, Aug. 18.—The weekly crop bulletin issued by the Weather Bureau this afternoon has the following: North Carolina-Refreshing local

showers this week revived and improved crops, though not entirely breaking the drought; heat moderating; cotton picking progressing, some top crop forming; late corn badly damaged by drought; fodder being saved; seeding turnips and breaking land for winter wheat resumed. South Carolina-Continued excessive heat, with copious though scattered showers, which checked deterioration but was too late to start new growth of cotton, shedding continues, picking becoming general, condition declined greatly; late corn and fodder are poor; ninor crops materially benefitted by rain. Georgia-The protracted drought and high temperature continue and all crops are suffering seriously; cotton will be much below the average; it is opening rapidly and there is general com-plaint of bolls dropping; picking is now general; late cotton somewhat revived y showers in a few favored localities. Florida-Light and frequent showers

over portions of western districts; elsewhere crops show ill effects of continned heat and dry weather; cotton below the average and in many places the staple is turning yellow and opening prematurely. Alabama-Cotton falling fast under

continued hot and generally dry weather; rust, shedding and premature opening general; picking progressing rapidly, but top crop almost a failure and bottom crop

Mississippi-Local showers too late for cotton and corn, but benefitting minor crops. Cotton picking continues as fast as the extreme heat will allow and the crop will be gathered much earlier than usual, owing to the light yield; coton the spot, with sales of 6,000 bales; ton picking will be finished in some secfutures there advanced eight and onetions by October 1st.

Louisiana-Showers over greater portion of State, but generally too light to materially benefit crops in northern parishes, though pastures and some late cotton have revived in localities. Texas--Showers in some localities

over southern and eastern portions have improved late cotton and the top crop, while the general dry weather has been very favorable for picking, which is progressing rapidly; the cotton plant is very small and the yield light, except over the southern portion, where the crop is fair; a general rain is needed for the top crop of cotton and for fall plowing, but it would delay cotton picking and lower the grade of the staple. Arkansas-Drought and hot weather

continues; cotton continues to deteriorate through shedding and premature opening of bolls; picking will become general as soon as temperature falls. Corn almost a failure. Tennessee-Disastrous drought and heat continue and crops failing fast; cot-

STEAMER THREE FRIENDS | Undergoing Investigation by Customs Au-

thorities at Jacksonville, Florida. By Telegraph to the Morning Star.

JACKSONVILLE. FLA, August 18 .-The steamer Turee Friends, in charge of a lieutenant from the revenue cutter George S. Boutwell, was ordered up from Mayport last evening, arriving here at 1.80 o'clock this morning. The steamer was anchored in the river astern of the cutter.

This morning Captain Kilgore, of the Boutwell, Captain Broward and United States District Attorney Frank Clark held a consultation of more than an hour in the custom collector's office in the Government building. The meeting was held under instructions from the Treasury Department at Washington, which were received late last night, directing that another inspection of the steamer Three Friends

be made and that a complete report be made to the Department to-day. It was also learned before the Three Friends will be released that Captain Broward will be required to make affidavits relative to the business of his boat and the business in which she was about to embark when captured by the Boutwell Saturday, which he has agreed to do, inasmuch as the Three Friends has no arms or ammunition aboard and has violated none of the neutrality laws. Captain Frank Sollee, inspector of the

custom house in this port, will make a final inspection of the Three Friends, in pursuance of the order from Washington, and he will at once torward the same by wire to Washington, when, if the inspection results satisfactorily, it is thought that the steamer will be released from custody. The inspection will be in the presence of Captain Kilgore and his officers from the cutter, and Captain Broward and theowners of

RAILROAD RATE WAR.

Conclusion of Argument in the Injunction Case-Judge Simonton Reserves His Decision. By Telegraph to the Morning Star.

GREENVILLE, S. C., August 18,-Mr. Augustine T. Smythe was heard all this morning in the rate hearing case, arguing that the Court had jurisdiction to prevent a continuation in the rate cutting. Smythe argued that the Courts have been invoked to enjoin rates by the Railroad Commission and Legislature, and yet it is contended that the Court cannot stop railroads from destroying each other. The Courts have no higher duty than to keep such public institu-

tions as railroads going. This afternoon Mr. King will argue to have the restraining order set aside and Judge Simonton is expected to take the

case under advisement. The argument in the railroad rate hearing case was concluded this afternoon, after an all day argument. Judge Simonton, at the conclusion of the hearing, asked for the papers and will take them to Flat Rock, where he will prepare his opinion. There was no intimation through the progress of the hearing as to whether Judge Simon ton would or would not announce jurisdiction, and it is upon this alone that the issue lingers. Both sides are claiming the victory.

THE TRUCK MARKET.

By Telegraph to the Morning Star, New York, August 18 .- Pears, Southern, fancy, barrel, \$1.00 to 800; A Tucson Arizona, dispatch says!

DEMOCRATIC CAMPAIGN.

ARRANGEMENTS PERFECTED BY THE NATIONAL COMMITTEE.

No Adjustment Made With the Populists Committee as to Choice of Electors in States Where Fusion Has Been Agreed Upon - Chairman Butler Befuses to Give Any Satisfactory Answer to Chairman Jones.

By Telegraph to the Morning Star.

WASHINGTON, August 18.—Chairman lones, of the National Committee leaves for Chicago to-morrow morning at 10 o'clock over the Baltimore & Ohio Railroad. This was his last opportunity to confer with his associates and he improved almost the entire day in that work. For several hours he was closeted with Senator Faulkner, Representatives McMillin and Richardson, of Tennessee, Committeeman Johnson of Kansas, Mr. Evan P. Howell of Atlanta, who holds the proxy of his son recently appointed as a member of the Campaign Committee; Senator Roach of North Dakota, and Committeman Josephus Daniels of North Carolina. The p:ans of the chairman, so far as they were necessary, were laid before these ventlemen and the details worked out, They related chiefly to the work of the Washington branch of the National headquarters, from which office will be transacted all the literary and newspar per work, the issuance of documents and the regulation of printed matter of all kinds. This subject was carefully considered in secret session, and at its conclusion Chairman Jones announced that Mr. Clark Howell, being a newspaper man of experience and ability, would be in charge of this work. Representative Richardson will be his assistant and Mr. McMillin will edit and prepare the campaign book for the National Com-

Senator Jones was unable to come to a decision as to the personnel of his Executive Committee, owing to his failure to receive certain telegrams and letters that were expected. He will not, therefore, announce that committee until after he reaches Chicago.

While the conference was in progress, Senator Mitchell of Wisconsin, who until recently was an advocate of "sound money" and supposed to be antagonistic to the Chicago ticket and platform. called at headquarters and was invited into the inner room. While here, the Senator gave verbal assurance of his intention of going into the campaign and aiding in every way possible the success of the ticket his party had placed in nomination.

The conference between Chairman Jones and Chairman Butler of the Populist committee was not discussed very freely at this meeting, It being understood that the conference between the two chairmen was not of the most satisfactory character and threw little light upon a situation that appears to be in need of some illumination. The fact that the executive committee representing the Populist National Committee is composed of the friends of Mr. Watson, the Populist nominee for Vice Presiton greatly shortened, shedding and dent on the same ticket with Mr. Bryan, causes some annoyance to those who are endeavoring to bring about an adjustment of the question who shall be the choice of the electors to be selected in the States where fusion has been agreed upon or where such fusion is believed to be practicable. The position of some of the ultra Populist leaders, that Mr. Sewall shall withdraw, is constantly combated by the Democratic leaders, but they have thus far apparently been unable to offer any so'ution that dimin-

ishes the opposition of the Populists to It is said positively to night that Mr Butler refused to give Mr. Jones any satisfactory answer to the many queries he submitted at this interview. While Mr. Howell will be nominally in charge of the literary work of the National Committee, the real head of that important branch will be Representative Richardson. Mr. Howell will come to Washington only occasionally and give his counsel and advice, but Mr. Richardson will remain here and have charge of the headquarters for the National Committee. He will bave several of the rooms in the old Wormley Hotel now occupied by the Congressional Committee, and a sufficient force of men under him to do the large task outlined for him by Chairman Jones. Mr. Richardson's experience in the House and his extensive acquaintance with newspaper men makes him a good person for the work, and he will

Will Have Headquarters in Washington City and Chicago-Chairman Butler Talks. By Telegraph to the Morning Star.

ulist party, like the two old parties, will have two headquarters, the main office to be in Washington and the branch in Chicago. This may be reversed, but the understanding upon adjournment of the rather informal meeting of the Executive Committee of the National Committee this afternoon was as stated. The three members of the committee who were here vesterday-Messrs. Edgerton, of Nebraska, Secretary Reed, of Georgia, and Washburn, of Massachusettswere joined this morning by Senator Marion Butler, of North Carolina, chairman and J. R. Sovereign, of Arkansas, Master Workman K. of L., and Dr. C. F. Taylor, of Pennsylvania, who met shortly after noon in Senator Butler's room at the Shoreham. They were in session about an hour and after they had separated for lunch Chairman Butler detailed to the newspaper men what had been done. To a reporter for the Southern Associated Press Senator Butler said: "Our meeting this morning

was largely informal and no definite ac-"Nearly all of the session this morning was spent in hearing reports from the several members. Ever since the St. Louis Convention my time has been so taken up with affairs in my own State, that I have given attention to only such national matters as demanded instant action. Therefore, I desired before entering formally upon the transaction of business, to learn what my associates could tell me of the condition of things in their respective territories, I may say, without going into details, that the reports were far more satisfactory than I had reason to look for. Mr. Dore, the California member, has sent a written report of the condition in his State and on the Pacific coast generally, which shows that things are all right there. California is absolutely sure for the silver candidates. And the same is true of other

A COLD WAVE

In Nebraska and the Adjacent States. By Telegraph to the Morning Star. OMAHA, August 18 .- As a result of

severe rain and hail storms throughout Nebraska and adjacent States, the thermometer has fallen forty degrees in the past forty-eight hours. It stood at 60 in Nebraska last night. It is quite cloudy in the eastern portion and this is believed to be the only thing to prevent damaging frost. Corn, however, is two weeks in advance of the season.

ritating or weakening them, to dispel headaches, colds, or levers, use Syrup of figs.

The U.S. Treasury gold reserve yesterday declined to \$104.804.699, the day's withdrawals being \$155,100.

YACHTING ACCIDENT

At the London Regatts of the Royal Al ber: Club-A Collision in Which One of the Yachts Was Dismasted

and the Owner Killed. By Cable to the Morning Star, LONDON. August 18.-The Royal Albert Yacht Club regatta was continned at South sea over the forty-six mile course sailed yesterday. The starters in the big race were the Ailsa, Britannia, Satanita and Meteor. The boats were started at 10 o'clock. The yacht race for small raters started at 11 o'clock over the same course as that sailed by the big yachts, but only once rounded twenty-three miles. The starters were the Saint, Niagara, Samphire, Audrey, Penitent and Isolde. The prize war 15

pounds to the winner. While both races were in progress the Meteor came into collision with the twenty-rater Isolde, dismasting her and throwing her crew into the sea. All of the boats stopped immediately and began the rescue of the Isolde's crew. which was accomplished. The races were then abandoned. The big boats had finished the first round of the course and were just starting upon the second round when suddenly the boats of both classes seemed to have become jammed together. The Isolde, which was sandwiched between two yachts of the larger class, received a severe blow from the Meteor, causing her mast to map in two and fall overboard. The shock was a heavy one, causing

the Isolde to careen, and as she did so all on board were spilled into the sea. Her owner, Baron von Zedwitz, was struck on the head by a block or piece of broken mast. He was unconscious when he was taken out of the water and in this condition he was hurriedly conveyed on board a steam yacht to the club house of the Royal Victoria Yacht Club at Ryde, where he received every possible medical attention. It is understood that he did not regain consciousness and died soon after reaching the club house. All of the yachts and club houses at Spithead are flying flags at half-mast in consequence of the Baron's death. The crew of the Isolde experienced some narrow escapes, but fortunately all of them were rescued. A sailor belonging to the British gunboat Ant, which was lying at anchor near the scene of the collision. rescued one of the Isolde's men in a drowning condition. He could not have been revived in thirty seconds longer. The accident cast a gloom over everything and the races were abandoned for the day. The Isolde was examined after being towed to Portsmouth and it is found that besides being dismasted and having all of her gear swept from her deck, she has a large hole stove in her bow.

FELL FROM A POLE.

Madame Soroho Injured at Gwynn Oak While Giving a Mimic Life-Saving Exhibition.

The following from the Baltimore Sun will be read with interest here, where Madame Sorcho, with her husband, gave exhibitions during our last "Welcome Week:"

band, Capt. Lewis Sorcho, is giving exhibitions at Gwynn Oak of the working of a life-saving station, accidentally fell from the top of a 60-foot pole at a performance vesterday and narrowly escaped death. She was waiting at the top of the

pole to start across the boat lake at Gwynn Oak on a life-lize, such as is thrown by United States life-savers to shipwrecked vessels. The pole is kept stationary by means of three steel guylines fastened to the ground by iron rings. The tension on the wires requires wrought-iron rings to be used, and Capt. Sorcho had purchased the rings a day before under the impression they were of the proper kind. Instead the rings were cast-iron, and they snapped suddenly when the extra weight of Madame Sorcho was added to the

The rebound of the pole as the steel guylines curled around it caused Madame Sorcho to lose her balance and fall. With great presence of mind she put out her hands as she went flying off the top of the pole and clutched one of the slackened guy-lines. The impetus of her tumble, however, was too great to be overcome and she was sent flying toward the ground, turning a complete somersault.

When within twenty feet of the ground Madame Sorcho again came in contact with the pole and this time got firm hold on one of the guy-lines. There she held until Captain Sorcho climbed to her and brought her safely to the earth. In her two tumps against the pole

Madame Sorcho was severely bruised on the sides and hips by the iron steps that run from the bottom to the top of the pole. She was not seriously hurt, although the wounds made by the iron points of the steps were painful. She was able to return with assistance to her boarding-house.

AN EMPHATIC DENIAL

By Hon. Wm. J. Bryan that He Has Ever Been in the Pay of Mine Owners Or Any Bimetallie Organization. Telegraph to the Morning Star.

UPPER RED HOOK, N. Y., August 18. -Oa his return from his fishing trip tonight. Hon. Wm. J. Bryan gave out a prepared answer to the allegations made by Senator John M. Thurston that Mr. Bryan was in the pay of the mine owners. He denied the allegations without qualification, and practically invited the Republican National Committee to make the charge official, in order that he might be given a chance to show exactly what his income had been and from what sources

t was derived. Mr. Bryan's statement is as follows: I have already denied this charge on several occasions, but the reiteration of it by Senator Thurston, a distinguished resident of my own State, justifies me in answering it again. I have never at any time or under any circumstances been in the employ of any mine owners, individually or collectively. directly or indirectly, nor have I ever been in the employ or been paid by any bimetallic organization. Aside from my editorial salary of about \$150 per month, paid by the Omaha World-Herald, and a small amount derived from the legal profession, my income since I retired from Congress has been derived fromplectures before chatauquas, lyceum and lecture bureaus, which have usually paid me a fixed sum, and from contributions made by the people of the localities where I have

There are many buyers in the New York dry goods market just now, and indications are in favor of a considerable amount of business being transacted during the next few days. Drives in staple lines of prints have been the most prominent feature with jobbers.

At Philadelphia yesterday the Treasury received \$15,000 in gold in exchange for the new \$5.00 silver certificates.

Opening of the Silver Campaign There Was the Greatest Demonstration in the State's History. DULUTH, MINN., Aug. 16 .- Six thousand people took part in a street parade

and fifteen thousand listened to speeches by John Lind, a former Republican and now candidate for Governor on the Democratic ticket, and Congressman Towne last night, when the Bryan campaign was opened in Minnesota. Such a political demonstration has never been known before in the history of this State.

As the parade passed the St. Louis W Votog & Hotel, from a balcony of which Lind and Towne reviewed it, the enthusiasm was intense. Organized labor was out in full force and the banners they carried were full of silver sentiment. The union walters formed themselves into squads of seventeen, sixteen of whom were dressed in white and one in gold. Wisconsin sent a delegation of about

1,000. Among the mottoes were, "We lead, let Europe follow." 'Minnesota and Wisconsin join hands, 16 to 1," Down with Mark Hanna," and "The people, not money, shall rule." Both speakers paid high tributes to Bryan and Sewall and the mention of the silver standard-bearers was received with the greatest enthusiasm. It was a remarkable contrast to the Republicandemonstration last Saturday night, when about 4 000 heard Senator Thurston speak, and he viewed a parade consisting of 350 voters, exclusive of bands.

BOILER EXPLOSION.

Five Men Killed and Four Others Ir jared By Telegraph to the Morning Star.

RALEIGH August 18 -Low water yesterday caused the explosion of the boiler of Taft's saw-mill at Troy, Montgomery county. N. C. Five men were instantly killed-Sam Ewing, John Ellis, Ed. Dickson, Charles Morris and James Carpet. Four others were injured, three fatally. The boiler was literally torn to pieces. Some were struck by pieces and others were scalded.
