Route. By Telegraph to the Morning Star, NEW YORK, September 2 .- By previous arrangement Li Hung Chang, the Chinese Ambassador, this morning received a limited number of representatives of the press in his apartments at the Waldorf. Among the questions asked was this: "Was the route of your return home through Canada decided upon because of any antagonism that might assert itself among the peomoments only I shall occupy your attenple of the Pacific coast States? The Viceroy called for his official interpreter, Lo Fung Lou, to whom he made the following reply: "The choice of the Canadian route was determined for two reasons. First, while I was High Commissioner of the Northern portion of China I received many complaints from our Chinese subjects in this country that they were not in possession of the rights to which they were entitled and invoked my assistance to secure for them their full rights. Your laws here now curtail these rights and I did not care to go through the States where the people had been most instrumental in bringing about these restricting laws. Second, while I am a good sailor. I am an old man, and I have been informed that the steamers sailing from Vancouver are much more comfortable than those leaving San Francisco." ciety. [Cheers.] The question that brought the reception to an end was. "Has your visit to this country any political significance?" The Viceroy made no attempt at diplomacy in evading an answer to this question. He simply declared that he had no more time to devote to the newspaper men, and the interview was closed. says : SPOTS AND FUTURES. New York Sun's Review of the Cotton may fade. By Telegraph to the Morning Star. NORFOLK, VA, Sept. 2 .- The extensive factory of S. R. White & Sons, manufacturers of agricultural implements, located on East|Water street, was burned to-night. The flames are still raging and the entile department and fire tugs have turned their attention to saving adjacent property. At midnight the fire had spread to the Union stock yards, on Nebraska street, containing several hundred cattle and the animals were rescued, but the entire block between Water and Nebraska streets is

doomed. In this square are located the iron foundry of W. Anderson, which strenuous efforts are being made to save. Fears for the safety of the steamship wharves of the Old Dominion and Clyde Lines are entertained.

Rumors are rife that two men pershed at the stock yards, but they have not been confirmed, and no lives are believed to have been lost. The loss will easily approximate \$250,000, and the fire is not yet un. der control.

The Laurada cleared from Wilmington, Del., August 6, and met the tug Daugtless, which had slipped out of the port of Brunswick, Ga., a short time before, at Nassau. The Dauntless had embarked a party of men at Woodbine, Fia., destined for Cuba, and to this party the Laurada's expedition was added.

Another meeting will be held at the Waldorf Hotel to-morrow morning, when further plans will be considered for the annihilation of the Seaboard Air Line.

About three hundred dry goods dealers were present. representing the trade throughout the United States. The sale was character-ized by brisk bidding, and the way some of the lots were snatched up showed that the business confidence of the dry goods merchants was returning. The West and South were especially represented.

William Whitman, of the firm of Harding, Whitman & Co., by whose order the goods were sold, said, in speaking of the sale. "The goods did not bring as good prices as I expected. I am on the whole, however, satisfied with the disposition of the sale.
