GRAIN AND PROVISIONS.

Wheat Icregular and Closed Lower-Corn and Oats Declined-Pork Products Closed Lower.

By Telegraph to the Moraing Star, CHICAGO October 14.-Wheat prices were subjected to some wild gyrations to-day, but throughout the entire session there was hesitation in the tone and lack of enthusiasm on the bull side. There was no authentic news on which to boom prices; in fact, the trend of the information was the other way. In the last fifteen minutes there was a flurry, when a sharp bulge of one cent, followed by a break of equal proportions, took place. It was said that New York had cargoes for India, but the report lacked verification. December wheat opened at 70%@70%c, sold between 71 and 69%@69%c, closing at 69%@69%c—%c

Corn showed agreement with the motion of wheat. May corn opened from 28% @28%c. declined to 27%c, closing at 2816c-%c under yesterday. Cash corn ruled easy and about 1/c lower. Oits-At the opening oats took strength and vigor from the adjoining pits, but lost it when weakness assumed control of the situation. May oats closed 16c under yesterday. Cash

oats were easy at a decline of &c. Provisions-The support was withdrawn from products right at the opening this morning and prices fell away sharply. A decline of 5c in hog values was ostensibly the immediate factor. At the close January pork was 25c under yesterday, and January lard and ribs were each 2716c lower.

SALT LAKE CITY, UTAH, October 14. -The Union Pacific train due here at 3.15 this afternoon, Wednesday morning was held up a short distance from Unintah at the mouth of Waber canon, and about eight miles from Ogden. A train was made up at Ogden and sent to the scene of the robbery and orders were given to organize a posse and run the robbers down. The passengers were not moletsed, the robbers confining, their operations to the mail and express cars. Rillway officials report that all the booty secured was a few mail bags, but whether or not these contained any valuables is not known. The robbers, two in number boarded the train at Peterson, a small station in the heart of

Weber canon. The robbers surprised the engineer by suddenly rising up from behind the tank and covering him with a gun. They gave the fireman a cotton sack and told him to put it over his head. The engineer was then told to run along until ordered to stop. A few seconds later the robber on the engine had been joined by another and the train was ordered stopped. The engineer was then ordered to point out the express car, which he did, and while the attention of the robbers was distracted, he ran to Unintah and gave the alarm. The baggage and express cars were uncoupled and ran ahead of the train for some three hundred yards and both the mail and express cars were broken open. The robbers failed, however, to get in the train was made up again and taken into

RAVELLED FOUR HUNDRED MILES AND MADE A DOZEN SPEECHES

To Mining People in the Strongest Distric in Allegiance to the Republican Party-Spoke to Large Audiences and Was Greeted With Enthusiasn at Many Places.

By Telegraph to the Morning Star. WATERSMEET, MICH., October 14 .-Candidate Bryan's special train travelled from Duluth through Minnesota and Wisconsin all night, and after laying for three hours this morning on a siding near Saxon, resumed its travels at 8 o'clock. The train consisted of four cars, one for baggage and another for the train crew, the third for the use of the party of well-known Michigan people accompanying Mr. Bryan, and the last special coach for the candidate's use. The train will remain intact until

Detroit is reached Sunday. When the train reached Ironwood, lively little town in the Michigan min- at 850. ing belt at 845, the candidate opened up his four days of Michigan campaigning. People from the surrounding country had driven in to join the Ironwood folks in welcoming the head of the Chicago ticket, and the congregation in the square where Mr. Bryan spoke numbered at least 2.500. A fifteen minutes' speech was made by the candidate from a temporary stand, and then the train moved to Bessemer. where it arrived at 915. A crowd of about the same proportions as that at Ironwood was gathered about the platform from which Mr. Bryan spoke. He made one of his short talks about free coinage, taking no new line of argument. At 940 the train pulled out for Watersmeet.

"The national bank system is what we're interested in here," shouted a man in the crowd of couple of hundred people who had gathered on the platform at Watersmeet to hear Mr. Bryan. Watersmeet is a little railroad junction in the midst of a wide expanse of burned and otherwise denuded forest, and during the five minutes spent there Mr. Bryan endeavored to answer the man whose interest lay in the national bank. "The difference between our plan and the national bank plan is this," he said, "we have greenbacks out now, and these greenbacks draw no interest and the Government pays none. When you retire these greenbacks with an issue of bonds and then let the banks issue money on the bonds, the banks will then draw from the people of the country the interest which the people now have. It is good for the banks but hard on the

The famillar sight of sixteen little girls in white and one in yellow greeted the Democratic nominee at Iron River and the pretty Miss who represented the gold standard bore a banner inscribed 16 to 1 and prosperity." About 800 people were at Iron River and McKinley badges were pinned on a goodly portion of them. The Republican contingent kept very quiet, however, and Mr. Bryan made no reference to their presence. A little farther down the road, however, he did have something to say about the supporters of his opponent. The train took a little side jump from Michigan into Wisconsin, and it was at Florence, in the candidate were called forth. He had not finished his little talk about the silver question when somebody called for three cheers for McKinley. They were given with considerable vigor, and a laugh went up from the crowd. "I have no objection," said Mr. Bryan, "to a man cheering for McKinley, but I only wish that a man who thinks ale

this country is not big em tend to its own business and put it on his nat, so the people would know who he was. We have no right to complain if a man thinks more of foreign nations than he does of America, but he ought not to be ashamed to say so."

try are demanding the opening of our mints and the restoration of free coinage at 16 to 1, and I would rather trust those

laboring men to know what is good for them than to trust the men who have

spent their lives trying to destroy labor organizations. My friends, the Bible

Four hundred of the people of Powers

features. He said: "I notice that the other day one of the Democrats who has

left the Democratic party said that we are not giving the liberty to the indi-

vidual that we ought to; that when we

say that a man cannot contract for a

particular kind of money we are taking away his personal liberty. My friends, you have usury laws. Those laws inter-

fere with personal liberty, but what kind

of liberty is it that they interfere with?

It is the liberty that the man who

loans money has to oppress those who borrow money, and the fact that

we have to have usury laws shows that there is that in human nature

which must be restrained. Our con-tention that the laws ought to prohibit

making our contracts in a particular kind of money, our contention that the

law ought to prevent a man demonetiz

ing by contract that which the Govern-

ment makes money by law, is based upon exactly the same principle. (Cheers) The dollar that is good for

Will Go to Constantinople But Has No Been Ordered to Force Passage of the Dardenelles.

By Telegraph to the Morning Star. WASHINGTON, October 14.-The ittle dispatch boat Bancroft, of the U. S. Navy, now about due at Smyrna, has not been ordered to force a passage through the Dardenelles, with or without foreign aid. This can be stated on the direct authority of the President of the United States. There is no doubt that the Bancroft is going straight to Constantinople, just as fast as her steam can carry her, or just as soon as Minister Terrell makes a request upon Admiral Selfridge for her services as a guard boat or dispatch boat, in the same capacity as similar light-draught and light-armored dispatch boats that are placed at the service of friendly nations. But that any forci-ble passage of the Dardenelles is in contemplation by the United States, with or without European support, can be set down as simply an attempt to exaggerate the news originally given in these dis-

Gladness Comes With a better understanding of the transient nature of the many physical ills, which vanish before proper ef-forts—gentle efforts—pleasant efforts— rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condi-tion of the system, which the pleasant family laxative, Syrup of Figs. prompt-ly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore ill important, in order to get its beneficial effects, to note when you pur-

chase, that you have the genuine arti-ele, which is manufactured by the Cali-fornia Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
