FRIDAY MORNING, OCT. 30, 1896 GRAIN AND PROVISIONS.

Another Flurry in Wheat-Corn Closed Ugohanged in Prices-Oats and Pork

Products Lower. By Telegraph to the Morning Star, CHICAGO, October 29.-Wheat started in to-day with a boom in full possession of the pit and prices jumping skyward with startling rapidity. For about an hour it looked as though there was to be a repetition of the action and ecenes of ten days ago, but at 78% for December, realizing began. Rumors of tightening money at New York, which later were more than verified, caused great energy in selling and a break of two cents took place. Afterwards the fluctuations were nervous and erratic, it being evident that traders could find no comfort on either the long or short side. There were a number of foreign buying orders here and at New York to day, to which great prominence was given, the early advance proving how fruitful in effect they were. Liverpool cables were 11d higher at the opening and 14d was added at the closing. Continental markets showed gains corresponding with ours of yesterday. December wheat opened from 71%c to 78c, sold between 78%c and 71%c, clos-

ing at 71%c-%@lc higher than vester-day. Cash wheat was 1@2c higher. Corn-By advancing a few fractions, corn reflected the strength of wheat. It is difficult to enthuse the trade in this grain. May corn opened from 28%c to 28%c, sold between 28%. 28% 28%c, closing at the inside, unchanged from yesterday. Cash corn was 1/2 higher. Oats-In recognition of the bullish action of wheat, oats advanced a trifle early. There was appearances of independent strength and at reactive periods of the leading market an easier feeling was exhibited. May oats closed a shade lower. Cash oats were steady and un-

Provisions-The situation was such that important advances or declines were impossible. There was no inclination to sell it short and yet nothing in the information of statistical position warranted purchases. The hog market was easy, that being the principal consideration. The close showed January pork unchanged, January lard 52 lower and January uary ribs 21/05c lower.

SPOTS AND FUTURES.

New Work's Sun's Review of the Cotton By Telegraph to the Morning Star.

NEW YORK. October 29 .- The Sun says: Spot cotton here was unchanged. Liverpool was unchanged on the spot, with sales of 19 000 bales: futures there closing firm at a net advance of one to one and a half points. The Bombay receipts for the week were 7,000 bales, shipments to the Continent 8,000; none last year. The receipts at the ports were

somewhat more active; prices opened bigher and advanced steadily, closing at about the top figure of the day. There was a slight reaction at one time on real zing sales by scalpers and the tightness of money, but the undertone of the market was firm. Ellison & Co., of Liverpool, estimate the consumption of American cotton this season at 8,800,000 bales. Colder weather, with frosts, was predicted for Eastern Texas, Indian Territory, Oklahoma, Mississippi and Louisiana, The total interior receipts for the week are now estimated at 175 -000 to 180,000 bales, against 203,925 last week. In a word the news to-day was all of a bullian nature and prices were

He arrived from New York via Richmond, and was met at the depot by a committee of "sound money" Democrats An audience of four thousand persons greeted Mr. Cockran. He arose amid applause and began his remarks. Some one yelled "Rats" and the disorder began. There was no violence offered the speaker, but there were cheers for Bryan and hisses for the speaker. "Have you read the Virginian?" was hurled at him from a hundred throats. "How about 'unreconciled slave-holders?" was also heard amid cheers

Mr. Cockran replied: "I have read the article in to day's Virginian, pur-porting to show what I said in Madison Square Garden. I never said it. That paper is the cause of this display of ruf-fianism. It publishes an untruth by not publishing all the truth. I did make remarks similar to those charged to me, but I also paid sincere tribute to the chivalry, bravery and loyalty of her sons and the courage and fidelity of her women as exemplified in Mrs. Jefferson

BRYAN IN ILLINOIS.

COMPLETED HIS CAMPAIGN THERE AND LEFT FOR WISCONS N. see Made at Many Points During the

Day-In Chicago at Night He Addrassed Large Gatherings of People at Several Places in the City.

By Telegraph to the Morning Star. CHICAGO, October 29.-Candidate Bryan was nearly two hours late in leaving Chicago this morning for his flying trip to minor Illinois points. His train was due to depart at 7 85, but Mr. Bryan requested that it be held, as he did not reach the station until 9.80. Early in the morning enthusiastic Bryanites gathered about the station, and a dense crowd awaited the coming of their favorite. When Mr. Bryan finally reached the scene, a storm of applause greeted him and the assembled multi-tude refused to be satisfied until Mr. Bryan appeared on the rear platform of

the train and spoke a few words of ac-knowledgment for the honor paid him. ELGIN, ILL. Oct. 29.—The Bryan special reached Elgin at 12.20 a m. Mr. Bryan was taken immediately to a stand erected about one hundred yards from the Northwestern station, where he made a short speech to a large audience.
No stops were made by the train between Chicago and Elgin. Owing to
the lateness of the departure for the Northwestern station, two hours be-hind the schedule originally arranged, a number of speakers were sent ahead to the various points Mr. Bryan was announced to visit to-day to entertain the crowds until the national candidate put in appearance. Mr. Bryan made an exceedingly brief speech, in which he brought out no new points and fifteen minutes after his arrival was racing on toward Belvidere, which was reached at 11.82 o'clock. Ten minutes were spent here, Mr. Bryan spoke from a platform near the railroad tracks to a large crowd. A decided opposi to a large crowd. A decided opposi-tion sentiment was manifested. Men, women and children, even babes in arms wore badges labelled "McKinley" and "Sound money." A cheer for the Repub-lican candidate went up as his Democratic opponent, Mrs. Bryan at his side, ap-peared on the stand and faced his 5,000 auditors. Some young men on the top of box cars gave a cry resembling a college yell that brought in the name of McKinley, and turning to these first after he began talking Mr. Bryan said: My friends, do not be provoked. That is the strongest argument you will hear in favor of gold during the campaign." (Cheers for Bryan followed.)

The first long stop of the morning was at Rockford, where forty minutes were spent by the candidate. He arrived at five minutes past noon, and proceeded immediately to the Fair grounds, where his address was deliv-

CHICAGO, October 39 .- Daring the hall hour spent at Freeport Mr. Bryan made two speeches. It was raining hard when he arrived there, and the meetings were held indoors. Both halls were crowded, and despite the downpour large numbers of people were at the station when the candidate were at the station when the candidate and his wife returned, and a very pretty incident happened. A grey-haired, sweet-voiced old lady, on whom the burden of years had fallen, managed to reach the car platform and, looking Mrs. Bryan in the eyes, said in trembling tones: "Madame, I have ridden twenty-three miles to see you." Then she put her arms around the candidate's

A brief stop was made at Foreston to enable Mr. Bryan to address about 500 people. Ten minutes was the time at 8 o'clock. He talked to a thousand or fifteen hundred from the rear end of he "Idler," and from there went on to Dixon, where elaborate preparations had been made for the candidate's reception. An artillery company in uni-form fired off a loud-sounding cannon close to the train as Mr. and Mrs. Bryan alighted to take a carriage for the speak-ing place, the portico of a hotel, and more than 10,000, liberally estimated at 15,000 people, were there to hear him. Some of them wore the orange, but they did not attempt any counter demonstra

Running down to Rochelle, the next stop, the train slowed down in passing the station at Ashton to enable the crowd there to hear and see Mr. Bryan and his wife. Mr. Bryan was rushed through the back door of a store at Rochelle to a platform facing the open street, where 3,000 people awaited his

About a hundred people gathered about "The Idier" and cheered the candidate as he slighted. REPUBLICANS CLAIM MISSOURI.

With the Aid of Gold-bug Democrats They Eay the State Will Go For McKinley. By Telegraph to the Morning Star.

CHICAGO, October 29.-Missouri continued to be the State most talked about and reported on at Republican headquarters to-day. The campaign managers, from Chairman Hanna down, are now settled in their convictions that there is an even chance in that State for the Republican Presidential ticket. They were cheered by the report from New York that even money was now being wagered on Missouri going for McKinley. Chas. Smith, of St. Louis, who is National Committeeman Kerius' confidential secretary, arrived bead-quarters. He places the gold Demo-cratic strength in Missouri at 50.000, 80 per cent, of which, he says, will so to McKinley, according to the open ex-pressions of those Democrats Twentyfive thousand of their votes, in the opinion of Mr. Smith, will be sufficient to give the State to the Republicans. The Populists of the State are said to be helping the Republicans by a row on account of the recent withdrawal of Jones, their candidate for Governor.

Chairman Washburne Says the Probabilities Are All in Payor of Bryan's Election.

By Telegraph to the Morning Star. CHICAGO, October 29.—Chairman Washburne, of the Western Populist headquarters, was in conference most of to-day with Senator Batler, chairman of the National Committee. Mr. Washburne sald there was nothing done by them except to go over the general situation before leaving their ticket in the hands of the voters and to attend to any details that had been overlooked. The two chairmen said they had done all that could be done now and the obstacles in the way of complete fusion would have to remain. The campaign work of the Peoples' party National Committee is practically done, and Mr. Washburne declared the probabilities were all in the direction of Bryan's election. He votes in States that were not safely for Bryan or McKinley, which would work out the salvation of the silver candi-dates, to the one combination of the Republicans, allowing them Illinois, as the decisive State. He confidently declared that Mr. Bryan could not be beaten with the gold Democratic vote offset by the silver Republican vote as admitted by the opposition and the addition of the 2,000,000 Populist votes.

EXPLANATION OF THE DELAY IN

By Telegraph to the Morning Star. BALTIMORE, October 29 .- A little inide history of the deal for the sale of the Seaboard & Roanoke Railroad to but that after a night's rest he would be the syndicate headed by Thos. F. Ryan, ready to go through the same thing of New York, came to light this morning. It explains the delay in the con-summation of the deal, and disposes of many absord rumors which have been reely circulated.

freely circulated.

When a controlling interest in the stock was negotiated for just previous to the annual meeting at Portsmouth. Va., some weeks ago, it was supposed that the deal would be closed up in a few days. A good round sum was paid in cash as a guarantee of good faith. The remainder was to be paid within a scipulated time. Upon this final payment being made, the property was to be turned over to the Ryan syndicate along with the resignations of the present directory of the Seaboard Company. It appears, however, that when the floal payment, which represented something like a round million dollars, became due, the purchasers were not ready came due, the purchasers were not ready with the cash. They found that in the present unsettled state of the money market the required sum was not so easy to raise. They offered, it is understood, to pay half of the amount in cash and easked for time on the remainder. asked for time on the remainder. To this proposition Louis McLane, who is representing the pooling committee in the deal, declined to assent, and the pur-chasers returned to New York to look for more ready money. In the meantime they secured an extension of time on the whole transaction.

Thus the matter now stands, Mr. Mc-Lane insisting that the whole amount must be paid in cash before the pooled stock is turned over to the Ryan syndicate. In this pool there is the original 4,000 shares and enough additional to make, with the 2,700 shares secured by Gen. Gill, over 9,060 shares.

Owing to the peculiar voting privi-leges which the charter of the company provides for, a big majority of the total issue is necessary to complete control.

This charter which is one of the oldest in the country, scales the vote so that stockholders have a vote for each share up to a certain number. Beyond this the number of votes is scaled, the proportion depending upon the size of the holding. This provision was put in the charter with a view to protecting minor-

Mr. McLane has issued a circular advising stockholders to pool their stock with the committee, of which he is the head. It is not stated what price those who pool their stock will receive, but it will probably be something in the neigh-borhood of \$195. This will be \$25 more per share than was received by those who joined with General Gill in selling their stock at par.

Meanwhile the air is filled with

Railroad Company is after the Seaboard system. desiring it for an outlet to the sea. Should this be true, it would not be improbable for the Ryan syndicate to sell to this company. The owner-ship of this line by the Louisville & Nashville would practically complete the latter system by giving it an entrance to the Northern seaports. Should the property pass into the hands of the Louisville & Nashville the

war of rates would be permanently ended and that line's rivalry with the Southern would be much more friendly than has been the rivalry between the Southern and Seaboard Air Line. In any event, rates will be restored on the bay and the two steamer lines will be consolidated and operated under a single management. It is not believed that there will be any further developments in the Seaboard affair until the latter part of next week.

TO DEMOCRATIC VOTERS. Call Issued from National Headquarters

Bes That Every Voter Comes to the Polls and Casts an Uapurchased Ballos. By Telegraph to the Morning Star.

WASHINGTON, October 29 .- The folowing call was issued to-night from Democratic headquarters:

To the Voters of the United States: In the preliminary battle of the people against the plutocracy, the people have ready won.

In spite of an expenditure of money so large that the civilized world stands appalled at its magnitude, to-day a large majority of the people of the United States are in open revolt against the merciless gold standard and the domination of the country by the syndicated wealth of Europe and America, interested in securing or preventing legisla-tion and in controlling the execution of the laws in their interest. All that is the laws in their interest. All that is necessary to secure the registering of the people's will is to see that every voter comes to the polls and casts an unpurchased ballot. Many of the millions collected by the syndicate have been reserved for election day. Beaten at every point, the last resort of money is to buy the ballot of the voter by purchasing his absence from the polls, or to come his vote by intimidation. To coerce his vote by intimidation. To prevent this is possible if every patriot will do his duty. Every member of a club must go to the polls early in the morning on election day, cast his ballot, and remain there until the pol's close and the result is announced. Take care that every voter gets to the polis and casts his vote. Note down the name of every voter who is absent. Let it be known that the citizen who tails to vote, unless prevented by ex-treme illness, has either been purchased by the money of the corruptionists, or is otherwise unworthy to be called a citizen. All signs indicate the overwhelming triumph of the people, and to no organizations is more credit due for this than to the clubs, the people's organiza-tions, created for no selfish purposes and battling for the liberties of the people as in the days of their founder, the illustrious author of the Declaration of Inde-

SEABOARD & ROANOKE, I NEW YORK MONEY MARKET The Ra'e for Call Loans Advanced to 100 Per Cent.

By Telegraph to the Moraing Star NEW YORK, Ontober 29,-The reiction of accommodation by banks was the chief factor in the money market flurry to-day. Loans have been called, in some instances, in preparation for possible demands for funds over Sunday. At the opening 10 per cent. was bid for call money in the Stock Exchange and, although a few loans were change and although a few loans were made at that figure, there were no offers at any rate, and borrowers became more urgent in their efforts to obtain accommodation, so that abortly after noon money gloaned at 50 per cent. In the afternoon banks that had agreed to loan money in the morning cancelled their contracts, making the ituation worse, and no money appeared om any source until the rate reached 60 per cent. Then was supplied part of the demand at that figure. This had little effect. and the rate quickly ad-vanced to 100 per cent., that rate being paid on some loans to be carried over until Wednesday. At the extreme rate money for the first time appeared in large quantities. Binks however, loaned money freely to regular customers at 6 per cent., on the basis of the volume of pusiness done, but were not disposed to urnish accommodation to outsiders. The igh rates for money had but small effect on the prices for stocks and there was no excitement on the Exchange. A leading bank president, in speaking of heladvance in money rates, said that the people most eager to have their money in hand and have it in the best money that exists, are smaller sivings bank depositors. Grave Anxiety in Diplomatic Circles Regarding the Situation in Constantinople. By Cable to the Morning Star.

LONDON, Oct. 29 -The Constantinople correspondent of the Daily News telegraphs that the situation in that city is causing the gravest anxiety in diplomatic circles, which are again discussing the deposition of the Sultan. The statement of the Porte that no forced levy has been made to procure money with which to buy arms and that the irade which was construed to be an order for such a levy was merely an appeal to Turkish subjects to voluntarily contribute to a fund that was found necessary to raise for the armament and equipment of the imperial troops, is recognized as a thinly veiled invitation to Mussulmans to prepare to attack Christians. The Railroad Gazette says: "The records of the new railroad building in the United States in 1896, which we have gathered, show that 717 miles of road have been built in the first half of the year. The total is not very different from the amount of new railroad which has been constructed in the first half of any year, since the conditions in 1898 called a sharp halt in railroad building. Last year 622 miles of new road were built up to July 1, and the record in 1894, only 495 miles between Jan. 1 and July 1, showed how decisively ex-tension work had been stopped. It will be seen how greatly railroad extension has been checked by the conditions of the last few years, and there are no substantial signs that any large relative increase is to be expected in the near fu-ture. Much the largest mileage credited to any one company, of the total given for the six months, is that built by the Kansas City, Pittsburg and Gulf—nearly 140 miles—in Arkansas, Texas and the Indian Territory. The second longest line was built by the San Francis-co and San Joaquin Valley road—55 miles—in California."

Gladness Comes With a better understanding of the transient nature of the many physical ills, which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial all important, in order to get its bene-ficial effects, to note when you pur-chase, that you have the genuine arti-cle, which is manufactured by the California Fig Syrup Co. only and sold by fornia Fig Syrup Co. only and sold by all reputable druggists.
