boro Branch. Mr. James A. Leak, of Wadesboro, arrived last evening. Mr. Leak was president of the Wadesboro bran h of the Bank of New Hanover at the time of the failure of the latter. He was afterwards appointed receiver of the bank, in which capacity he is in the city to be present at the hearing which Judge McIver will give upon the report of Col H. C. Jones, referee.

The contention of the Wadesboro oank is, as has previously been stated in these columns, that the assets of that b anch should first be applied to the payment of its individual debts instead of being turned over to Junius Davis, Esq., receiver for the Bank of New Hanover. This was the view taken by the referee, Col. H. C. Steamship Ashore. A dispatch from Southport yesterday afternoon reported a "tramp steamer" ashore on Frying Pan shoals, about six miles from Cape Fear, and that the tugs Alexander Jones and Blanche had gone to the assistance of the stranded vessel. No further information could be given, as the tugs had not returned from the steamer when the telegram was sent. Last night the following dispatch was

received by the STAR :

SOUTHPORT, N. C., Jan. 27.-This morning at daylight Cape Fear life-say ing crew discovered a tramp steamship. apparently light, on Frying-Pan shoals about six miles south of Cape Fear. Signals were set by the station crew for tugs. Cape Fear and Oak Island crews left immediately for the steamship. The revenue cutter Morrill, tugs Jones and Blanche left about nine o'clock and pulled on the steamship at high water, but did not float her. The tugs are laying by the steamer to pull again on her at high water to-night, so nothing can be learned of the steamer's name or condition. The weather is very thick, but the sea moderate, and the chances are favorable for getting the vessel off to

A later telegram from Southport says: The tugs returned at 10 p m. and report the stranded vessel as the British steamship Ardrishaig, from Hamburg to Savannah, loaded, ashore three miles from the Cape on Frying pan shoals, in sixteen feet of water, broadside to the shoal. The cargo is kainit in bags, and is being thrown overboard to lighten the ship. Tugs were unable to get her off on to-day's tide, breaking the hawser while puling. Will try again to-morrow. High water, weather thick, sea moderate, crew all well.

Bluss on the Ruser Front.

Shortly before 4 o'clock yesterday afternoon what was supposed to be a large fire was discovered along the water front in the southern portion of the city. The flames and smoke could be seen for four blocks away. A still alarm was sent in to the engine houses, and the "Adrian" and "Atlantic" reels were soon on their way to investigate the trouble. The fire was located at the foot of Church street, near Capt. S. W. Skinner's ship yard, but turned out to be only the wreckage of the Swedish barquentine Verdandi nearly consumed by flames last September, that had been purposely set on fire in order to clear away the trash.

Judge Norwood's friends have been working assiduously in his behalf for the past few days to have the resolution of impeachment held up. The Judge had given his word that he would do better and there was a possibility of his being given another trial to reform. It is said Governor Russell had conscated to let the matter rest for a while on condition that Judge Norwood send in his resignation to the Governor in such form that it could be ac cepted the first time he parted from the ways of the sober. This resignation should have reached here vesterday, but the Judge was druck and it did not come. There is no hope for the Judge now, and unless he resigns immediately he will probably be impeached this week.
