One of the questions in Georgia
now is where Tom Watson was "at"
when that Pop convention was held.
He didn't pop up at all.

One of the curiosities in the town
of Salem, in this State, is a white
sparrow. But it has as few reden-
ging qualities as the others.

The lightning speed in the yacht
line is the Billide, which on the Had-
son river the other day made a mile
in one minute and thirty-five
seconds.

A farmer in Illinois was recently
killed by lightning. He had \$25,-
000 in his pockets. No farmer with
\$25,000 in his pockets should be
caught out in a thunder storm.

A meteorite passed over Kansas
a few nights ago and dropped a
"spark" on Wichita. The "spark"
weighed thirteen and a half pounds,
and looked like a piece of granite
sprinkled with iron.

The people of India as a rule are
not much afraid of the hereafter,
which may be somewhat accounted
for by the statement that last week
the thermometer there registered
126 degrees in the shade.

There are signs of progress in
Russia. A mob lynched a murderer
a few days ago. But they didn't go
about it in the scientific way and
hang or shoot him, but unscientifically
beat him to death with clubs and
stones.
