The ground is in such a dry condition, the farmers are unable to prepare it for the sowing of wheat. There has not been a rain of any consequence up that way in nearly seven weeks.

- Lincoln Journal : The finest yaros ever made in the South are now being manufactured at the Lincoln mills. These mills have mand factured fine yarns exclusively, usin g the highest grade of long staple cot. ton for that purpose. They have recently added machinery for spinning still finer yarns and are now turning out as fine as 100s.

- Windsor Ledger: The colored people of this vicinity are very much alarmed by the rumor that a colored child was bora in Indian Woo s, and when three days old spoke plainly the words as reported by the Ledger Nigger. Their interpretation is that while we may have "drizzles" we will have no more rain, and gradually ail vegetation will be destroyed and life will be impossible.

- Greensboro Record: One of the big elephants with the Robinson & Franklin Bros.' circus became unruly soon after arriving here and attacked an attendant, taking him in his trunk and slamming him down on the ground hard enough to break every bone in his body. The keeper went to his assistance, but he, too, was attacked, and while he did not suffer so badly at the hands of the beast he was badly hur'. Dr. Battle was summoned at once and went out to attend the wounded man, finding him badly bruised up, with a number of broken bones.

-Goldsboro Argus: Richard John son, the forger of the \$50 draft on the National Bank of this city last November, was brought in from South Carolina yesterday afternoon and lodged in juil.
