A sensation was caused on the Fair grounds by a number of fakirs making speeches from their ticket-stands vigorously denouncing Rev Dr. A M Simms of the Baptist Tabernacle. Dr. Simms used his influence against the Fair because Secretary Nichols went before the Aldermen asking them to take the restrictions off the saloons for this week. In stap e cottons, the market is quiet in nearly all grades. Brown goods are subject to a more brisk demand by mail than in spot trading. Bleached cottons are without features and easy to purchase. The prices asked are generally satisfactory to buyers and there is, in the main, little to prevent buvers and seliers meeting.

The Robinson shows have delighted American amusement lovers for more than three generations, and the Franklin Bros. are the founders of the new school of American showmen. In combining and organizing their shows for the season of 1897, they have spared no money to secure the best for every department. A glance at the list of celebrities under their control will convince the most skeptical that they have been amply rewarded for their lavish outlay, for they are the pest in the world in their various lines. The horses many of them imported, are models of horseflesh, while their stud of trained horses do everything but talk. They will appear at every performance with their original trainer. Twenty tions in one den are to be seen only with these great shows. A royal troupe of Japanese imported expressly for this vast enterprise, and the only double troupe ever brought to this country, is another feature. They would be a whole show in the ordinary circus, but are only a single feature with the Robinson & Franklin Bros' shows. Acres of tents are required to accommodate tors huge amusement, while the ticket admits to all the combined shows.
