LEAZER TURNS ON THE LIGHT.

The management of the Penitentiary under the present administration has become the subject of more or less discussion, especially since the present management refused to comply with the request of Mr. Simmons for the reports showing receipts and expenditures for the past year, reports which according to law should have been published by the 31st of last December. Among the reasons assigned by the present Superintendent, Mewborne, for declining to furnish the information asked for was that he did not have the clerical force necessary to do this extra work even if he were disposed to comply, but there were other and better reasons for the refusal. Instead of answering the questions asked they undertook to blind the public by throwing dirt, and charging that there was crookedness in the lease of the State farms by the Democratic Boards. They resorted to the old dodge of the man who doesn't want to answer of answering one question by asking another, leaving the impression that the State had lost money by unbusiness-like leases, to benefit parties who had influence enough to control the action of the

They cite the case of the Castle Hayne farm as one instance of bad if not corrupt management, the Anson farm as another, while they substantially charge that the State was buncoed in the Roanoke river farms leases. The public attaches but little importance to these charges and insinuations as coming from men who dared not submit a report of their own management, but Hon. A. Leazer, who was superintendent of the Penitentiary for the four years of Governor Carr's administration, and who had made the Penitentiary self-sustaining, and had so managed it that State Treasurer Worth, in his report, pronounced the management "good," thus answers these charges.

"The Castle Hayne Farm was rented in 1890 by the Faison Board, and from 1890 to January, 1897, the farm was rented at \$400 for 600 acres. During this period the phosphate mine was worked also by the penitentiary, for so much per cubic yard or so much per ton. During the last four years the profits on the entire Castle Hayne business, both farming and mining, were \$20,524; and if the uncollected notes, (two of them amounting to about \$9,-000 instead of \$16,000 as per Mewborne) and these secured by collateral, which carried a mortgage on the whole property, had never realized anything, ere was nevertheless a clear profit in the four years' operations of \$10,000 or

'The earnings of hired labor there for four years were \$35,000, and fully 30 per cent. of this was collected in cash, and that from an insolvent company, enough as shown above to make a nice profit of \$10,000 or \$11,000 on

The Democratic administration had entered suit, and same was pending in Superior court of Wake county, to foreclose mortgage and sell the Castle Hayne property to satisfy the peniten-titry claims, when the fusion crowd came in. The Democrats had refused to enter contract with the phosphate company for the year 1897, because it was insolvent and the pending suit would necessarily close it out of business. But so soon as the fusionists once in full knowledge of these facts as to the phosphate company above stated, to make another contract and of time, the property is sold by order of court, is bid in by fusionist board is misrepresenting the books or not, and if not to let the public know of penitentiary directors for \$16,000; why the books have been kept that

then after a time this bid is forfeited, the property is again sold, is bid in for \$8,000 by Mr. Chadborne, a member of the board at that time, I think, and by him leased to the penitentiary, nobody can say of what price, Mewborne does not seem to know; his board says they don't know, and nobody seems allowed to know. And along with Castle Hayne is taken a 'arm of highest rates ever paid for land, other tracts on the Cape Fear; so-called But-

tler's lands, etc. "The Anson Farm was leased by the Democratic board in February, 1896, It contains about 2,400 acres, and for it an annual rental of \$2,400 or \$2,500 is paid. What the taxable valuation was I am not informed, but like Mewborne's statement as to Halifax Farm never paying the rent, he greatly underestimates the product of the Anson Farm, for the year 1796. Although operations could not begin till March, f the ordinary sale of one-third of the farm products for rental be applied, it was fully met even the first What it produced or earned vear. in 1897, the people of North Carolina seem to have no right to know.

When Superintendent Smith, who succeeded Mr. Leazer, was removed by Governor Russell for gross incompetence, it was pretty broadly intimated by the Governor that there was also corruption. If he thought that, as he evidently did, it was his duty to cause an investigation to be made to learn what ground there might be for his suspicions, if they were nothing more than suspicions. But he didn't do that, but contented himself with lifting Smith out of the Penitentiary and landing him in the Department of Agriculture, where, according to the Governor, he couldn't do so much harm. Mr. Simmens asked for some information in reference to this Department, but Commissioner Smith-ex-Superintendent of the Penitentiary, is as dumb as an oyster.

In a speech at Newton, Wednesday, which appeared in the Charlotte Observer, Mr. Leazer accounted for this silence and also furnished some facts and figures which show that the charges of crookedness in the management of the Penitentiary under the transferred Superintendent are not without foundation. After referring to the fact that under the Democratic administration the books were always open and subject to the inspection of any citizen who desired to examine them, he said:

'Now I am going to give you some facts. For the last ten years I have known all about the agricultural department of the State. That department is supported by taxing fertilizers. Since the Populist-Republican crowd has come in the number of offices has office-seekers and for the purpose of spending an accumulated surplus None of the officers are farmers. In the place of a small messenger boy at \$15 or \$20 per month, an officer has been placed at a salary of \$1,000 per year. The chief of the department, who has nothing to do but sign his name occasionally, draws a salary of \$1,800. And somehow, now, he is to get \$2,500. Two weeks ago double appropriations of former years was made. Why is it so?

From 1893 to 1897 I was superintendent of the State penitentiary. ? took the place with much reluctance. as I knew it was hard to fill. We claim now that the Democratic management was wise, economical and successful. The institution fully supported itself. We made the money to run it by our own efforts. It was organized to work like a new machine. A man could have sat in-Newton and managed it. The crowd that has it now should have managed it successfully and with ease. But they were not out to manage it for the best interest of the State, but for purposes of greed and gain. I say it has been managed dishonestly by the fusionists. I can, and will, prove it. How do I know the facts? Well, it is lawful to use spies in time of war. I am able to establish facts. When the farm at Wadesboro, Anson county, was turned over by the Democratic party to the fusionists 199 bales of cotton was among the effects. That cotton was sold for \$5,838 and a fraction. It was paid for part in checks and part in cash. The hecks are accounted for and the cash is not. It has never been accounted for. Where is it? One of the Democratic officers on retiring owed \$11.57 to the penitentiary. He paid the amount in a check. He was asked to pay it in money. So he did. There is no record of the payment of the debt on the books. An ex-officer paid a debt of \$37, and the books do not show it. An officer collected a debt from the Agricultural and Mechanical College of \$197.50, and the bookkeeper of the penitentiary tried to collect it again in the year, and the

old clerk showed that it had already been paid. On being asked about the matter by the book-keeper, the officer said: 'Charge that to me." "The Roanoke farms were turned over with 632 bales of cotton on hand in 1897. In a few days the superintendent of the penitentiary sold the botton to a friend and a near neighbor for about 5½ cents a pound, when cotton was bringing about 7½ cents in Norfolk. The fact of the sale and the name of the purchaser both were concealed. But I ascertained the facts in Why should he sell it to his the case. friend at this reduced price? Later he bought large quantities of fertilizer from the same man at \$4 a ton more than other dealers asked. Why all this? What is behind it? The act of the Legislature of 1895 repealed the law of 1896, giving the directors of the penitentiary power to lease the new farms. But in 1897 the same law was re-enacted. With this change the Governor of the State and the superintendent of the penitentiary were given power to lease the lands, etc. A contract was made for the lease of the Grimes lands,

near Raleigh. Upon representation of the superintendent of the penitentiary and certain members of the board, this contract was cancelled at cost to the penitentiary, for the reason given that there were no convicts to operate this land. The Castle Hayne farm was very soon purchased by a member of the board, and at once leased to the penitentiary, together with certain rice farms on the Cape Fear, generally known as the property of the Gover-nor, though leased from one Mr. But-ters, of Wilmington. The price paid for these rice lands is about three times that paid for any other lands held by the penitentiary. I do not say that the Governor is getting the

"Populists will say that Republicans did this, but did they not help do it?" There are various ways of keeping books. Sometimes they show things and sometimes they do not, but here entered into power, they proceeded at | is a chance for Mr. Mewborne who now has charge of the books to let the public know whether Mr. Leazer

rental. But I just give what facts I am certain of. The board of directors

know nothing of the contracts.

way and why he has permitted his name to be used to screen the men who kept them.

THEY PUT LIFE IN THE HULK. Mr. John W. Atwater, one of the wheel horses of the Populist party in Chatham county, is quoted as declaring that the Populists in his county would not fuse with the Republicans. "We are tired," he said, of selling our principles, and will not do it again on anybody's say so. As silver men we cannot consistently vote for gold bugs, and will not. If there is fusion you can depend upon it there will be three tickets in the

Chairman Holton is concerned I can say to him that we Populists put life nto the dead hulk of the Repubican party once, but if he thinks we will do it again he is mistaken." Mr. Atwater evidently moves with his eyes open, and sees things as he goes. In speaking as he does he voices the sentiments of thousands of awakened Populists who have become "tired of having their principles sold" to put a lot of political deadbeats in office. They have been used, as he says, to "put life into the dead hulk of the Republican party" and all they have to show for it is a few Populist leaders in office who don't care the snap of their fingers for principle, and more negroes in office than there are n all the other States in the Union combined. Their leaders may try to play the fusion game again, because they have their eyes on the spoils of office, but the tired and disgusted masses of honest Populists, who are not working and voting for spoils, do not want it, and

MINOR MENTION.

can't be roped in nor whipped into

the fusion camp any more. They

have had the object lesson before

them and have studied it to some

That political Spaniard, Rocky Mount Butler, will betray any man or party that attempts to thwart his selfish purposes. In the Second Congressional District he has brought out J. B. Loyd as his candidate to trade on. If the Republi+ cans concede some of his demand in other districts he will keep Loyd in the field to help elect a negro Congressman. Otherwise, he will withdraw Loyd and leave the contest between a white Democrat and a negro Republican. He knows his implied threat to do this will alarm the Republicans, as the Democrats stand a fair chance of defeating the negro White in the Second district if the Populist candidate is withdrawn. Freeman, a Populist, was run in this district in 1896 for the sole purpose of electing the same negro to Congress, and all this with the approval of Rocky Mount Butler, the Weyler of North Carolina poli-

In writing on the Philippine question a few days ago we remarked that whatever Aguinaldo may be, he is not "a fool, pure and simple." The New York Journal publishes a message said to have been sent by him to our Consul-General Wildman, which concludes with the remark that he (Aguinaldo) is neither "a fool nor a rogue." Whether he is a rogue or not, the message, which was published in our press columns yesterday, shows pretty conclusively that he is not a fool, for it shows that he appreciates the situation in which he is placed and asks some very pertinent questions, as, for instance, these:

"I ask why should America expect me to outline my policy, present and future, and fight blindly for her inerests, when America will not be frank with me? Tell me this, am I fighting for annexation, protection or

independence? These are perfectly natural and entirely germane questions for him to ask, in view of the fact that he must have had some assurances from and agreement with the representatives of the United States before he became an ally, returned to the Philippines and raised an army of natives. It was he, whose soldiers were armed by the United States, who defeated the Spanish troops on the island of Luzon and hemmed the only army Spain now has on the island within the walls of Manila, which he could have taken some time ago if Admiral Dewey had said the word. Now, in view of the doubts that have arisen in consequence of the uncertain attitude of his allies and the disquieting rumers that have reached him from this country, he has a right to ask and a right to know what he is fighting for, whether for "annexation, protection or independence." Men who do not know what they are perilling their lives for cannot be expected to fight with much cheerfulness.

Mr. John Mathias, a well known stock dealer of Pulaski, Ky., says: "After suffering for over a week with flux, and my physician having failed to relieve me, I was advised to try Chamberlain's Colic, Cholera and Diarrhoea Remedy, and have the pleasure of stating that the half of one bottle cured me." honor!

- The rich man who don't give will always remain poor. - Beware of him who hates the laughing of a child.-Lavater.

- If good resolutions could furnish wings, everybody would fly. - We cannot always be doing a great work, but we can always be doing something. - The most pious church mem-

bers generally have the least to say about their piety. - He who lives in the habitual contemplation of immortality cannot get in bondage to time or enslaved by

transitory temptations. -F. W. Robert - Since the Son of Man has sufferred suffering can never be proof that life has given away beneath our

feet or that our existence has been a failure. - Wilfred Monod. - If Providence calls us to soli tude and retirement, it becomes us to acquiesce; when we cannot be useful we must be patient, and when we cannot work for God we must sit still

quietly for him .- Henry. - Be a Christian, throw yourself upon God's work and get the ability you want in it. No Christian will ever be good for anything without Christian courage, or what is the same, Christian faith.—Horace Bush-

- As ships meet at sea, a moment together, when words of greetings must be spoken and then go away into the deep, so men meet in this world; and I think we should cross no man's path ithout hailing him and if he ne giving him supplies.-Henry Ward

- To the real Christian, the peculiar doctrines of the Gospel constitutes the centre to which he gravitates; the very sun of his system; the soul of the World; the origin of all that is excellent and lovely; the source of light, and life and motion, and genial warmth, and plastic energy. - Wilberforce.

SPIRITS TURPENTINE.

- Goldsboro Argus: The watermelon crop has come to be a big thing. Several car loads are shipped every day from points along the W. & W. R. R. The sand hills on the southern side of Neuse river are better suited to this crop than, any other. Shippers have received good prices so far.

- Monroe Journal: Many of the Populists of Union county who have not returned to the Democratic party will not vote for Dockery. The boasted 5,000 majority that the old negro organizer was to get is dwindling every day in the minds of his friends as it becomes more and more apparent that Bellamy will be elected. - Monroe Enquirer: Mr. Elijah

Stancil, who lives six miles west of Monroe, was attacked by a large bull last Saturday and was almost gored to death. The animal knocked Mr. Stancil down and gored him for some time before help reached him. The injuries sustained by Mr. Stancill are a long gash on the abdomen and a number of painful bruises on the body and head. The injured man is eightythree years old and is a cripple from a dislocation of one of his hips several pears ago.

- Elizabeth City Economist: It is with sincere emotion that we chroncle the death of Mrs. Elizabeth Walker, the beloved wife of our old friend Captain Nathan Walker, who departed this life at her home on Factory avenue, on Tuesday, aged 48 years.

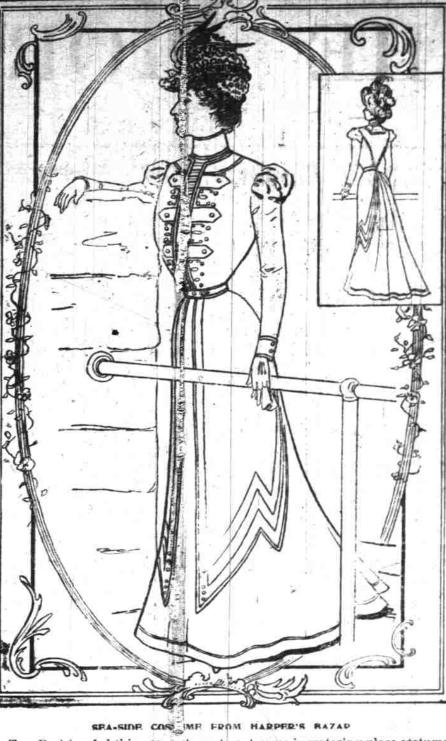

North Carolina has more colored magistrates, more colored postmasters, more colored school committeemen, more colored county commissioners, and more colored members of the legislature, and more mean white Republican leaders of these colored men

than any other State. - Wilson News: The climax all the doings of the Wilson count chain gang under our Rad-Pop. ruler was reached Thursday night. In the jail the chain gang, which is the special pet of the county commissioners, had a special cell to themselves. Last night they decided that the county food was not good enough, so they thought the best thing to do was to leave the county. No sooner said than done. A hole was quickly cut in the jail floor—a board easily knocked out of the staircase, a hole made, jail birds passed through, out the fire escape, on the roof, down a rope and away without even bidding good-bye to the kind-hearted sheriff. But one of them getting hungry came back this morning for breakfast. He said that he just wanted to see his "gal." He had seen his "gal" and now wanted some break-

- Father-"What makes you think you can earn enough to support my daughter?" Suitor—"Well, I've been engaged to her six months."—

An Enterprising Druggist. There are few men more wide awake and enterprising than R. R. BELLAMY, who spares no pains to secure the best of everything in their line for their many customers. They now have the valuable agency for Dr. King's New Discovery for Consumption, Coughs and Colds. This is the wonderful remedy that is producing such a furor all over the country by its many startling cures. It absolutely cures Asthma, Bronchitis, Hoarseness and all affections of the Throat, Chest and Lungs. Call at above drug store and get a trial bottle free, or a regular size for 50 cents and \$1.00. Guaranteed to cure or price refunded.

The Kind You Haw Always Bought

THE Parisian fad this year to go to extremes in watering-place costumes. some of which are made in the most elaborate style, beflounced and befrilled to a degree that none but an eye witness would credit, while on the other hand there are walking costumes simple to the verge of austerity. The seaside costume illustrated herewith-taken from HARPER'S BAZAR-is of the latter character. It is made of dark blue veiling mounted over black silk The skirt is of the attached flounce variety, with tiny folds of black satin outlining the front and the top of the flounce. The waist is smoothly fitted with no trace of blouse. The narrow cross-tucked vest of white taffeta is bordered with buttoned tabs and small black sating scrolls. The band collar, which is of the highest choker type, and the narrow belt are both made of the dress material with tiny black satin border lines
