WATCH THE BORDERS.

The Fusion machine managers in this State are totally unscrupulous as to the methods they employ to win the offices they are striving for, The last election was carried by fraud so palpable that no reasonable man could for a moment doubt it, and no one does doubt it. There was more money spent than was ever spent in any preceding election for it was necessery to carry the Legislature to elect a Republican Senator and a Republican Senate with the Senate as evenly divided as it was, was necessary to the Republican party. They got a Republican Governor, a mongrel Legislature, and a Republican Senator, who was elected with the aid of Populist votes. They got about all they expected, but it cost them hard work and much

Colonizing negroes has been a pretty common thing with the Republican machine managers, but their colonizing never before reached the proportions that it did in the last election, because it is a very easy matter under the present election and registry laws to utilize the colonized voter. Under the former registration and election laws there was some chance to prevent fraudulent registration, and fraudulent voting if the fraud did register, but now there is not. All he has to do is to swear that he is entitled to registration, a very easy thing for most of the imported to do, and then his vote cannot be kept out of the ballot box although it may be known to many that he has no right to vote. He registers and votes, it is true, subject to penalty for fraudulently registering and for fraudulently voting, but in the meantime before action can be taken to punish him he can pull up stakes, go to his old beat in another State and be beyond the reach of prosecution or

They are posted on all that before they attempt to register and that makes them bold. They know there will be no prosecution, and the men who import them know it, because the prosecution must be at the expense of the prosecutor, and it is rarely the case after an election that the frauds are prosecuted because the victorious party does not think it worth while and the defeated party would see little to gain by it, outside of establishing the fact that they would gain very little by that, contested election. But the frauduimporters reap the benefit.

Colonization is a very easy matter

contingent to draw from, who can be very well spared from those States, and are within convenient transportation is not necessary. Along the border counties of Virginia and South Carolina, reaching nearly the full lengh of the State on either side, with, as we have said, a large number of negroes to draw from, it would be a very easy matter to plant ten thousand of them in North Carolina, and so scatter them as to attract very little attention; and a very easy matter to register and vote them, because, under the present election laws, registering

and voting are made easy. The imported come in, of course, under the guidance of fellows who are selected for that business and know where to locate these recruits where they will attract the least attention, and can be best held on hand to be utilized on election day. They find work for them where they can if they keep them on the ground, get them registered and then turn them loose with the understanding that they will come to time on election day and earn their money. Of course they will be disextra.

Advertisements to follow reading matter, er tributed according to the requirements for votes. In close districts a few votes in each township would give aggregate votes enough to carry a close county, and these, carrying out the plan for a close district, would give votes enough to carry the district.

These managers are, generally speaking, sufficiently familiar with the political status to know about how the respective parties normally ompare, how many home votes they can reasonably depend upon, about the number of votes that can be cast against them, and they can therefore calculate pretty closely on the number that it will be necessary to import and they make their arrange-

ments and import accordingly.

It isn't easy to keep up with the olored contingent for they, especially he young men, are disposed to be nomadic in their habits and do much of their perambulating between supper and breakfast, very frequently taking supper in one county and breakfast in another. Moving around as they do, it isn't easy to identify them, or be positive that they are new importations, although eight white men out of ten who are present when they come to register feel norally certain than they are new comers. But by organization and a close watch a good deal of this importation and registration may be prevented, although all cannot be. Democrats in the border counties, at least, should put their pickets out and be on their guard so that they may follow up these importations and keep track of them.

ANOTHER OUTRAGE. We have asserted in these columns that there have been more burglaries by negroes, and more outrages and attempted outrages on white women since the present mongrel rule began than there were in all the years of Democratic rule. It is an exceptional week when some of our State exchanges do not record either burglaries or outrages, and sometimes both. The Snow Hill Standard of last week tells of a double crime of burglary and attempted outrage thus:

"Last Tuesday night about 12 o'clock John Best, a negro who lives on the place of Mr. J. R. Ham, about seven miles from Snow Hill, entered the nouse of Mr. Jesse Ham and attempted that awful crime which he will pay for with his life. Mrs. Ham was the victim. She was aroused by this devil in human form before he accomplished his purpose and screamed for her husband, who was in an adjoining room. The negro then attempted to escape, but was recognized, a warrant issued and he is now in the county jail. We have heard some indignant threats, and the hellish fiend may meet speedy justice at the hands of an

With a satanic impudence and levity the editor of the negro organ in this city, in that brutal slander on the white women of this State, reminded fathers and mothers that if they "left their goods out of doors over night" they had no right to complain if they "were taken away," an apology for rape as trifling as it was brazen. In this case "the goods were not left out of doors," but the black fiend boldly entered the sanctuary of the home under the cover of darkness to do his hellish work, in which he was happily foiled by the timely appearance of the husband of the assaulted woman.

We will not charge the white men who lead this mongrel party with direct responsibility for these frequent outrages, but there is no denying the fact that under their regime the negroes have become bolder and more lawless, until it is not safe for an unprotected white woman or girl to venture from home, and every house must have its watchdog and shot-gun. How long is this thing going to last, white men of North Carolina?

TIRED OF THE DEGRADATION. From the way in which decent Populists are leaving that party and going back to the Democratic party frauds had been committed, and there will be very little decency left tion, and was so much relieved on in it when election day comes. save perhaps in the case of a closely | A great many leave it quietly and say nothing about it, but there are lent vote, the vote of the imported many whose disgust with its managevoter is counted. With Virginia on the | white and black, that they cannot | the North and South Carolina on suppress their disgust and indigna-

Charlotte News: "I thank my Populist friends for the honor bestowed upon me in nominating me for magistrate in Paw Creek township, but as the county executive committee has agreed to fuse with the Republican party I feel compelled to decline the nomination. I have been a Populist, but never a Republican. I don't endorse fusion, and feel it my duty to vote against it and with the Democratic party in the coming election.

"GEO. L. HOOVER." Here is another from Mr. W. J. Brooks, "an old white-haired citizen of Morven township," Anson county, which we find in the Wades-

boro Messenger-Intelligencer: MR. EDITOR-Please publish my card in your paper, as I voted in the Democratic primary election at Morven, and I expect to vote with the Democrats in the future. I have been voting with the Populists until I see where we are drifting. Some of my Populist friends may think I am getting a button for writing this card, but I claim nothing, as it is my duty as an old man to warn younger people from the wrath to come. I also write this piece for the benefit of my children and grand children and generations not born. I love my Populist friends and wish they could see as I do. A great many of them I know have had their eyes opened, as I have had mine. and will vote with the good white people in the future. I thought I was right when I was a Populist, but I have got no home but with the Democratic party. I do all this by myself. No man has influenced me in any way. W. J. Brooks.

These are the utterances of an honest man, who is talking more for his "children and generations not born" than for himself, for he may soon go but they must face the inevi-

"CONTEMTIBLE PIE HUNTERS."

This Is What Butler Called Those Who Favored Co-Operation in 1897.

Here is what Marion Butler said in his paper, the Caucasian, in February, 1897:

"The co-operation of the Populists and Republicans in this State has been a dismal and disastrous failure. Only the contemptible pie-hunters see any good in it.

If you do not believe Marion Butler's paper said this, ask him whether it did or not. He dare not deny it. If "co-operation" had no "good

in it" in 1897, is there "any good in it" in 1898, when Negro Domination What Marion Butler said in the Caucasian in 1897, is exactly what

Since he has been knocked out of the Railroad Commission he has been figuring around to get some other soft snap. For some time he had been laying his wires for the congressional nomination from the Fourth District, and that's why he was so red hot for fusion with the Republicans He got the fusion, but he didn't get the nomination, for the Populist convention, at Raleigh, sat down on him, and nominated a Chatham county

Whether Governor Russell had anything to do with giving Otho this solar plexus punch does not appear but it may be incidentally noted that the Governor was deeply interested in the convention and received returns regularly." It may be pretty safely assumed that he did not send any missive of sympathy after the fracas was over. It s rough on Otho, and it begins to look as if the Pops in his district do of Gideon or the patriotic sacrifices he has made-to give them a chance to vote for him for something.

BOOK NOTICES.

The student of politics and economic matters will find Gunton's Magazine for September an interesting and instructive number. Published by the Gunton Company, Union Square. New York.

Self Culture is the title of a very interesting and valuable monthly published by The Warren Company, Akron, Ohio. The September number presents a fine list of contents, well illustrated.

The Cosmopolitan for September presents an interesting list of contents, among the articles being one on the study of the modern warship, and on Gladstone, both illustrated, as other articles are. Address Cosmopolitan, Irvington, New York.

Discovered By a Woman.

Another great discovery has been made, and that, too, by a lady in this country. "Disease fastened clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly, and could not sleep. She finally discovered a way to recovery by purchasing of us a bottle of Dr. King's New Discovery for Consumptaking the first dose that she slept all night, and with two bottles has been absolutely cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamnick & Co., of Shelby, N. C. Trial bottle free at R. R. BELLAMY'S drug store. Regular size 50 cents and \$1.00. Every bottle guaranteed. †

DIDN'T FOOL ANYBODY.

When decoy duck Norment pulled out of the mock race for Congress in this district in favor of Office Hunter Dockery, he didn't fool anybody. He certainly didn't fool the STAR. which remarked shortly after he bobbed up that he would soon bob down.

Of course there is a consideration, quid pro quo, to come in. He will hardly be satisfied with a nomination for the Legislature for there is not substance enough in that for patriots of the Doctor's build. He probably has his eye on something better, which will come on certain conditions, one of these conditions being that Office Hunter Dockery can fool men enough in this district to vote for him and elect him to Congress. In that event the Dr. may get something to his liking.

A NEW gown of light-weight cloth in black, now so stylish for autumn wear, is rendered very striking by the addition of a fancifully cut velvet vest in copper color, over which fall front and a fine pleating of shaded taffeta silk in lighter tones.

The close fitting coat-shaped bodice, which promises to be one of the dis tinguishing features of the season, rounds down from the shoulder to under the arm like a bolero, which is also edged with the finely pleated frill. The coat opens at the neck on a some plastron and a great cravat bow of coppery tinted mull, and is fastened between the ruffles of the bolero front with gold rimmed opal buttons. The coat is cut to form tiny epaulettes over the sleeves, and the divisions of the open hadk below the waist are caught together by the same linked buttons, while the parrow pointed girdle is attached in front with similar jewelled buttons. A shaped collar finishes the neck, since a coat or waist without a very high collar is the exception. The close-fitting sleeves, opening at the wrist in bell shape, are trimmed with a fan frill of taffeta and

The skirt, cut in the fashion ble three-tier mode, is attached to a foundation skirt of silk-a new model the pattern of which is furnished in connec tion with that of the skirt. The skirt has deep pleats at the back, and its width at the foot is three and three quarter yards. The only trimming employed is a double machine-stitching on the dges. The proper cut of this gown can only be obtained from the cut pattern; published by HARPER'S BAZAR, where the design of the gown appears.

POINTS POLITICAL.

SWINGING INTO THE COLUMN Mr. M. C. Austin, of New Salem township, was in town last Saturday. and told us that his township, which has always had a large Republican vote in it, is swinging into the Democratic column. On last Friday a number of men who have not goted Democratic ticket since the war participated in the Democratic prinaries and pledged themselves to the Democratic ticket in November. -Monroe Enquirer.

It is no uncommon thing to hear men who formerly affiliated with the fusionists say that they have had nough of that party; that they see the leaders are simply working forplaces for themselves, and this year they expect to vote with theil moerats. One of them is Mr. W. F. Edwards, of Lemon Springs, I He says the Populist party was rich organized to help put negroes in office.

Sanford Leader. SICK OF THE PIE EATERS. This thing of Populists returning o the Democratic party is genting to be very monotonous-to the pie eaters who have sold out to the negroes. Almost every day we hear of one or more who have returned to the white man's party. Only yesterday we were approached by Mr. J. M. Broadway, of Burnsville town. ship, who told us he wanted is to publish to the world that he wis no longer a Populist, but would wite a straight Democratic ticket at the future. Mr. Broadway also said that he was by no means the only hood who had renounced the gang that had sold out for pie. There are others," he said, "and sheir number is steadily increasing."-Wadesboro Messenger-Intelligence

A CRITICAL TIME

SICK OR WELL, A RUSH NIGHT AND DAY,

The Packers at the Battle of Southago de Cuba were all Heroes, Their Herole Efforts in Getting Ammunition and Rations to the Front Silved

P. E. Butler, of pack-train No. 3 writing from Santiago, De Cuba, on July 23d, says: "We all had digremen in more or less violent form, and when we landed we had no time to see a doctor, for it was a case of rush and rush night and day to keep the troops supplied with ammunition and rations. but thanks to Chamberlain's Calic, Cholera and Diarrhoea Remedy, we were able to keep at work and keep our health; in fact, I sincerely believe that at one critical time this medicine was the indirect saviour of our army for if the packers had been unable to work there would have been no way of getting supplies to the front. There were no roads that a wagon train could use. My comrade and myself had the good fortune to lay in a supply of this medicine for our pack train before we left Tampa, and I know in four cases it absolutely saved life. The above letter was written to the manufacturers of this medicine, the

COTTON MARKETS

NEW YORR Sept. 10.-The c market opened steady with prices ruled feverish and irregular during the first hour, the crowd entertaining conflicting ideas as the showing the government report would make. Trading was spasmodic and chiefly of a local character Few outside orders put in an appearance throughout to day's short session. Promptly at 11 o'clock the September government crop report was received by telegraph from Washington It showed a gen eral average crop condition 79 5 per cent as against 91.2 August 1st and predictions of 83 to 84 were made by the crowd. This news sent shorts to cover with a rush and prices jumped up 4 to 6 points, with trading active. Near the close realizing and a burst of bear selling caused a break of several points and at the close the market was bare y steady, with the net gain reduced to a matter of 1 to 2 points. Trading was active up to the last noment and about evenly divided between the local and foreign cle

ments. Sales 400 bales for export. Port receipts estimated for the day 4,000 bales against 5,422 last week and 23,539 last year. Port receipts estimated for the week at 70,000 against 54,079 last week and 176,114 last year At Memphis 254 against 518 last year and at Houston 10,577 against 10,516
