TRIFLING WITH THE PROPLE

The fusion stumpers and organs especially those of the Populist the people whom they address are deficient in common sense and that they can be gulled by any kind of a story these fakirs may see fit to invent. They struck on the fake about depriving negroes and "poor white men" of suffrage in the event the Democrats carry the State, and although that didn't have as much effect as they hoped it would, they are still playing it at cross-roads meetings, but not as much nor as boldly as they did at first. Their latest dodge is calling the Democratic party the "nigger" party, appealing to the negroes to vote the Eastern counties. It would be a cheek to tell them "has put more their attempted misrepresentation of negroes in office than any other the situation, with the intent to departy." That is intended, of course, for consumption among the white | flection upon their honesty and ve-Populists, and not the negroes, racity. the intent being to fool the Populists who believe in white supremacy into the belief that the Democratic party was and still is a "nigger" party. It is simply a conto office, and they are very little fession, that they had gone too far niggers and very few of them at in pandering to the negro element, that. After pawing in the archives for some time they found that a Democratic Legislature some years ago elected a negro door-keeper. They have also discovered some negro school committeemen (who didn't have anything to do with white schools) and a few negro road overseers who were appointed to oversee roads, principally used by negroes and in negro settlements. They thought they struck a bonanza when they discovered that the Legislature of 1877 had elected 107 negro magistrates, concealing the fact that the negroes thus elected

Be that as it may the white people of the counties for which these negroes were elected had protection because there were two white magistrates elected to one black one, or rather two white Democrats to one black Republican. So

> What do we see on the other side? The Rad-Pop. combine has been in power four years. In that time they have put into office over 300 negro magistrates, they have given the negro school committeemen control equally with the white committeemen of the white schools, and they have put into offices of various degrees a thousand or more negroes. All this within four years, against the handful that held any kind of position during the twenty-four years of Democratic ascendency.

With such records standing in contrast it is amazing that they should have the cheek to charge the Democratic party with being a negro party, and favoring putting negroes in office. The fact that they stripe, act on the assumption that are resorting to such dodges as this shows how desperate they_are be-

CONCEDING THE CHARGES.

The fusion stumpers and leaders, to break the force of protests against negro domination in Eastern North Carolina, have asserted that they were simply Democratic inventions for campaign purposes, when they know the contrary, and as intelligent, reading men must and do know the condition of the Eastern part of the State and the proportions that negro while in the same breath they are | domination has reached in some of solidly against the party which reflection upon the intelligence to Office Hunter Dockery has the supposemittee hey do not, although ceive the people, is even a greater re-

We have heretofore published several letters from Republicans who have lived or still live in other sections of the State, confirming the they have fooled any Populist with reports of the unhappy condition of this section after personal observation and inquiry among the people, regardless of politics, and these are supplemented and confirmed by the second letter of Postmaster Chadsome of the Populist organs have days ago, and by the interview with resurrected rotten eggs and are hys- | Col. It was a unique felt that it was right to put those idea of the artist to utilize the hard negroes on the police force and to a fact which they have known all along, for these protests and the expressions of public indignation are not now being made for the first

Of course it is very well understood why this action was taken at this late day, that it is simply a ruse for political effect, to fool people into the belief that they are going to give us a whiter, more decent and respectable city government. The negroes removed and others doubtless understand it too, which accounts for their failure to protest against this drawing of the color line by their own partisan city gov-

But all this, from Republican authorities, is emphatically confirmatory of the representations made by the white people of the East as to the unhappy condition of this section of the State.

CHAINING WHITE PRISONERS TO NEGROES.

We have recently published three instances where fusion sheriffs have chained to negroes white prisoners that they were taking to the penitentiary at Raleigh. One of these was from Lenoir county, another from Craven and another from them in preference to white men Sampson, an account of which was given in yesterday's STAR in a special telegram.

We do not know that any of these white convicts were particularly sensitive, or that they felt this additional humiliation and degradation that was imposed upon them, but stance where the Democrats have in | thus chaining them to negro conany convention nominated a negro | victs was not only an outrage upon to any position State, county or | them but a premeditated and delibmunicipal, or appointed one to any erate insult to the white people of the State, who believe that even convicts have rights that officers of

the law should respect. This outrage upon these prisoners and insult to the white people negro kindly, but didn't try to win of the State are intensified by the negro votes by nominating them for | fact that in one instance-Cravencounty offices, or making them be- the sheriff had publicly declared lieve that in the future the way to | that he would chain some white convict to a negro and carried out his threat at the first opportunity, Democratic party was in control of and in another-Sampson-the the Legislature for twenty-four deputy in charge of the prisoners ignored the protests of the white people of Goldsboro, and yielded only when the indignation became uncomfortable to him and a magistrate had been invoked. Then he consented to unchain the white boy from the negro convict.

There is no occasion for anything like this, but the simple truth is that these brutal and brazen officers, these prospecting fusion stumpers who long ago forfeited the respect of decent people, do it in a spirit of devilishness and defiance of public sentiment, even more callous to it than the unfortunate victims they thus abuse, whose places they would fill within prison walls if they got their deserts.

GAVE THEM MORE THAN THEY

The fusionists of Robeson county are running an unsophisticated citizen named Atlas Atkinson for the Legislature. We call him unsophisticated for it isn't often that a fusion candidate blurts out the truth as he did in a meeting recently in Allenton, that county.

He was there to announce his candidacy, as we learn from the Robesonian, and feeling the necessity of giving some reason why fusion had been made with the Republicans, he innocently exclaimed "Look at what the Republicans have done for us. They have given us more than we asked of the Democrats." The Democrats refused to give them the offices they demanded and then they toddled over to the Republicans and struck trade, on a basis of the divide of

The fellows who worked up the trade pretend that it was to keep the Populist party together, as Cv. Thompson says, so that it would be in shape to go into the campaign in 1900, but they are frauds and lack the candor and honesty of this unsophisticated aspiring Robeson statesman who thus candidly and nnocently blurted out the truth.

Another great discovery has been made, and that too, by a lady in this country. "Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her death seemed imminent. For three months she coughed necessantly, and could not sleep. She finally discovered a way to recovery, by purchasing of us a bottle of Dr. King's New Discovery for Consumption, and was so much relieved on taking first dose, bottles, has been absolutely cured. POINTS POLITICAL.

HE SAW ENOUGH OF IT. I have seen that fusion rule in North Carolina is destroying the best interests of the State and enbling the worst element to be in power. I am for white supremacy and good government and have renounced Populism and will vote the Democratic ticket in the coming election. I call upon honest Populists who love their home and native land to do likewise.-H. J. Alexander, of Meeklenburg Co., in Charlotte News.

RENEWING THEIR YOUTH. The people are everywhere aroused. Mr. G. A. Griggs, of Currituck county, in a private letter, says: "I have just caused three mames to be registered in the last few days who have not been interested enough to vote and have not done so n ten years. But they say they will vote this time for the straight Democratic ticket and White Supremacy in North Carolina." This is a sample of what is going on in all the counties. Men who have not voted in years are coming out, old men have renewed their political youth, the women are full of enthusiasm, and the Old Guard has on its war paint. Every sign points to victory for the White Man's party. -Raleigh News & Observer.

HE KEPT HIS EYES OPEN. I have been watching the political movement in North Carolina for the past two years, and I have been ocking for better government and better times, but I have failed to see either. The Populists, when they came in power, promised us great things, to-wit: Lower taxes, better government, and to decrease the number of offices in the State and decrease State expenses in general. Instead of that they have given us higher taxes, more officers and negro rule. And I for one do forever sever my connection with the fusion crowd and negro rule in North Carolina, and will vote in the coming election the Democratic ticket-the white man's ticket. appeal to all good people in good aith, to come to our rescue and help elect a white ticket. The iron bridge over Stony creek, near the North Carolina line. which was only completed a few days ago, is a very handsome structure and cost somewhere in the neighborhood of \$75,000. Along the twenty miles of this road which has just been finished there are most valuable timber lands, and already some dozen or more large saw mills have been established on the line of the road, all of which are now in active operation. The first passenger train over this road was run Wednes-day to Dinwinddie Court House.

- Dunn Union: Mrs. Kitty Ann Warren, wife of Sampson Warren of Sampson county, died very suddenly in the store of the Massengill Dry Goods Company here Monday. She with her husband and a niece, Miss Geneva West, came to town early in the morning and were shopping. They remained until about 4 o'clock in the afternoon when they were making preparations to go out home. Mrs. Warren went in the store and Mr. Massengill and his clerks being busy she stepped behind the counter to examine some goods and while there she was stricken and fell between the shelf and counter and was dead when Mr. Massengill, who was on the opposite side of the store, reached her. — We are informed that Mr. James Henry Johnson, who ives near Peacock's Cross Roads, in Johnston county, died Monday. He was about 65 years old. - A car load of sheep was shipped from this place last week to Virginia. It is probably the first car of sheep ever shipped from this county. We were surprised to know that a car load of sheep could be purchased in this county. They sold for fair prices, too.

Three Doctors in Consultation. From Benjamin Franklin.

"When you are sick, what you like best is to be chosen for a medicine in the first place; what experience tells you is best, to be chosen in the second place; what reason (i. e., Theory) says is best to be chosen in the last place. But if you can get Dr. Inclination, Dr. Experience and Dr. Reason to hold a consultation together, they will give you the best advice that can be taken."

When you have a bad cold Dr. Inclination would recommend Champerlain's Cough Remedy pleasant and safe to take. Dr. Experience would recommend it because it never fails to effect a speedy and permanent cure. Dr. Reason would recommend it because it is prepared on scientific principles, and acts on na-ture's plan in relieving the lungs, opening the secretions and restoring the system to a natural and healthy condition. BUSINESS TACT.

How to Get and Hole

In a paper entitled "How to Get and Hold Customers," read by S. Bricker of Listowell, Ont., at the annual meeting of the Ontario Hardware association, he said: "The business man who looks at deliver ing his goods and getting his money as the only thing which is related to each transaction has a very in portant lesson to learn. No doubt there are some who differ with me in this particular and say: Business is business, and friendship forms no part of it. Admitting that it is all business and that the customer gets value equal to his money, his future patronage is nevertheless to be considered and solicited apart from his money. Between the two we may not be able to make the distinction very quickly, but there is a distinction nevertheless, and he who has carefully studied the philosophy of trade can readily define it.

"A customer's money is only a matter of the moment and has reference to a particular transaction. His patronage, his good will, his influence, however, are of paramount importance, for which we should be willing to forego very much that he may be retained with the house. A customer who buys but one bill is not profitable except to the extent of his purchase. When we get a chance to sell to a party one bill, we are in duty bound to our business to treat him so well that when he leaves us he will say, 'When I require anything more in this line, I will buy it from this man.' Since we are so inevitably dependent upon each other and necessarily helpers of each other, it would be very unwise and almost certain ruin for a merchant to establish the rule that he will do inst as he pleases and not solicit the good will or favor of any one. Ability to satisfy a customer with your goods will induce him to buy. Politeness and honest treatment will induce him to buy again.

"IT IS A BLESSING."

A Physician's Frank Endorsement of Warner's Safe Cure.

"All we could do was to sit and wait. I had never inagined that the hands of the clock could move so slowly."
So says a young man who tells how he watched at the
bedside of his only brother. The doctor had frankly acknowledged that he could do nothing more, and, with
nerves stretched to a cruel tension, the friends of the invalid counted the swings of the pendulum, wondering
what the end would be. Few of us reach middle life with

KANSAS CITY, Mo., January 20th, 1898. For nearly five years my sister, Mrs. T. H. Davis, wis afflicted with cystitis and failed to find relief from physicians or their remedies. One bottle of Warner's Safe Kid ney and Liver Cure afforded great benefit and the second bottle effected complete recovery. My sister's suffering was so intense that it seemed unbearable, it being neces sary at times to give hypodermie injections of morphine to afford temporary relief.

I recommended it to sufferers from liver and kidney ubles as a blessing. JOHN R. LEWIS, M. D., troubles as a blessing.

Dr. Lewis was born in Albemarle County, Virginia, in 1831, and has lived in Missouri since he was five years old He has practised medicine in St. Joseph and Kansas City. He is descended from the first Governor of Missouri

Cystitis, from which Mrs. Davis suffered so terribly for years, is inflammation of the bladder. A peculiarity of the bladder is that it is rarely affected by a disease, originating in itself. Most so-called bladder troubles are really kidney troubles.

Kidney diseases are the most mysterious of all known troubles. The fact is that the kidneys have few ay mptoms of their own, but possess nearly all the symptoms known to suffering humanity

When physicians of the highest standing so unbesttatingly endorse a modern discovery which will certainly cure the most terrible diseases, does it not stand to reason. that those of us who realize that we are slowly drifting into a state of decline; that our kidneys, liver or urinary organs are not what they should be, should availourselves of the benefits of so great a scientific discovery, which are placed so easily within our reach?
