WHERE ARE THEY GOING? Ten Regiments of the Regular Army Or-

dered to Prepare for Immediate Transportation Abroad.

By Telegraph to the Morning Star. Washington, November 16.—There has been remarkable activity about the War De ay of preparing troops for in lands beyond the United order has been issued directing at he ten regiments of the regular army he stationed in North-western forts and he to hold themselves in readiness for mediate transrecting at portation and service 1 mediate transmates. Most of these red sent to the Northern and West in posts a few weeks ago for recuperation their Cuban campaign. While their Cuban campaign. ing themselves ready for service the regiments will now be recruited their full strength. Nothing is said officially as to what the present activity means, but there are several reasons for believing that an early movement to Cuba is intended somewhat sooner than has been generally believed heretofore. Another belief entertained is that the United States government desires to be in a position to meet any conditions that may grow out of the pending peace negotiations, and to be in readiness if Spain refuses to accept the terms the American peace commissioners offer. In this connection an intimation has got out to the effect that during the delay which has occurred Spain has been able to form some sort of a coalition with European powers to back up the pretentions she has been making in the nego iations. Another reason given for proposed movement of the regulars to Cuba is that they are to replace the regiments which have

in Santiago province. It may be that some of the regular regiments are lestined to replace volunteers who have been pleading to be sent home. An interesting feature of the matter is the refusal of the United States authorities to order the muster out of the volunteers who recently returned from Porto Rico. These regiments were sent to their homes and given sixty days furlough, but contrary to the plans heretofore followed, they were not allowed to be mustered out of the service. As to the ten regular regiments, every department of the government has been directed to prepare supplies for them, and to arrange | to give any offence whatever to any | tempt on the part of the Spanish com transportation as soon as they are or-

Government Will Make No Further Effort to Save the Vessel-The Colon May be Raised.

By Telegraph to the Morning Star. WASHINGTON, Nov. 19 -The armored cruiser Maria Teresa has been abandoned by this time and lies a wreck off the coast of Cat island. The department has wired Capt. McCalla as follows: "If you are satisfied after consultation with the officers named that the Teresa cannot be saved, you are authorized to abandon the wreck. As to any other matters exercise your own judgment. Notify the British authorities. When you have done all you can return to Norfolk." The captain was subsequently directed to bring the wrecking tug Potom to Norfolk with him, when

The Navy Department has not yet abandoned the effort to secure at least one of the vessels of Cervera's fleet as a trophy to be placed on the American naval list, although somewhat discouraged by the result of the venture in the case of the Teresa. As sistant Secretary Allen, who has been directly charged with the matter, has been in correspondence with the representative of the Neptune Company, a Swedish corpo ration which has remarkable success in floating the largest type of warships when sunken. The company has made a tentative proposition to wreck the Colon for a salvage, to be arranged in advance be ween itself and the department. Mr. Allen believes that some arrangement may be made on this basis, and meanwhile has authorized representatives of the Neptune Company to visit the scene of the wrecks near Santiago in order that they may secure the basis for a definite

U.S. Attorney Instructed to Look Into the Recent South Carolina Trouble.

AS TO POSTMASTER TOLBERT

Gov. Ellerbee Promises Protection But Does Not Think It Prudent for Him to Return While Excitement Exists-McLaurin's Views.

By Telegraph to the Morning Star. WASHINGTON, November 16.-The government has decided to investigate the circumstances under which James W. Tolbert, assistant postmaster at McCormick, S. C., was compelled by the threats of an armed nob to abandon his office and home. With that view the matter has been placed in the hands of U. S. Attorney Lathrop, with instructions to look iato the case with a view to the proseautions of any violations of the Federal statutes in this or any other cases growing out of the recent troubles in that locality.

As a preliminary step Mr. Tolbert has sent a telegram to Governor Ellerbee at Columbia, asking to know whether, as Governor of South Caroina, he can and will afford him protection in returning to his family and office. Following is the text of the telegram, to which no answer had been received when Mr. Tolbert was seen by a representative of the Associated Press to-day:
"Washington, Nov. 15.—To the Gov-

ernor of South Carolina, Columbia, S. I am a citizen of South Carolina, where I was born and raised and have always resided. My home is at Mc-Cormack, in the county of Abbeville. My wife is postmaster there, and I am assistant and conduct the business of the office for her, she being a deligiven some trouble and have caused cate woman. On Thursday, the tenth disturbance, the last now being re-ported from Gen Wood's command instant, I was forced by an organized and armed mob of a hundred men to leave my family and my home under the threat that if I remained there I would be killed. I therefore fled for safety because I I was unable to reside this mob. I am large land owner in the county of Abbeville and also the owner of valuable houses and other real estate in the town of McCormick. My wife is there with our only child, a girl four years old, without my presence and my protection, on account of the action of an armed mob, and my property is without proper care. I have man or set of men save that I am member of the Republican party and believe in the doctrines of that party. rived here to day from Washington, in an interview about the recent election riots in this State said: "Any interference at this time on the part of the Federal authorities, in my opinion, would be most unwise. The excitement at the seat of the trouble has not yet calmed, and any move looking to interference would only make bad matters worse. A con-

servative course on the part of the administration would be of incalculable value in restoring things to their right conditions. The State administration is doing all that is necessary at this time and it will be most unfortunate for the Federal power to take any action. "Since I have arrived in Columbia

and have heard a full statement of the facts of the Greenwood trouble, want to go back to Washington, where I am satisfied, if I can see the proper authorities, I can make them see the unwisdom of Federal interference. The people of Greenwood county are conservative, quiet and aw-abiding, and never would have adopted such a radical course if there had not been exasperating conditions of long standing." The Governor is using all the means

in his power to restore things to their normal conditions.

No Ground for Interference.

WASHINGTON, Nov. 15 .- Concern ing claims of interference with the postal service, it is stated at the Postoffice Department that there is no evidence that the postal service has been interfered with; that officially the department has no knowledge of Tolbert, who is only assistant postmaster at a fourth class postoffice, and there-fore appointed and employed by the postmaster and not by the department. The postmaster is the wife of Tolbert and as she is not interfeved with, the department officials say there is nothing to show that the department should act in the matter. PEACE COMMISSION AGAIN ADJOURNED

Long Document Presented by Spaniards. The United States Willing to Pay for Pacific Expenditures.

By Cable to the Morning Star Paris, Nov. 16.—The meeting today of the Spanish-American commissioners began at 2.15 P. M. and ended at 3 P. M. The Spanish commissioners presented a long document in answer to the American argument which was submitted last week. By mutual consent, the memorandum of to day was handed to the Americans without being read and the meeting adjourned to Saturday next. The Spanish communication will be translated this evening and its contents will be discussed by the United States commissioners to-morrow at their daily

The Spaniards, in their communication to-day, reaffirmed the position which they have assumed against the discussion here of Spain's Philippine sovereignty. They insist that the words "shall determine the control, disposition and government of the Philippines," as article three of the peace protocol, did not warrant any reference to Spain's withdrawal from the Philippines, except on her own terms, and therefore the Spaniards propose arbitration on the construction to be placed on the words "the control, disposition and government. Willing to Pay for Pacific Expenditures.

WASHINGTON, November 16.-Up to this point, the discussion at Paris having touched on principle, there has been no attempt to name exact figures in relation to the amount of money that might be paid to Spain by the United States on account of the Philippines, such, for instance, as the statement that the United States would reimburse Spain "for pacific expendi tures" made on account of the Philippines, for no one here at the time had an exact knowledge of what these expenditures amounted to in the aggre

This has been ascertained, however, to the satisfaction of the American commissioners at least, and they will name the exact amount of money the United States is willing to pay over to Spain on this account. What is proposed is a cash payment to the Spanish government, for the United States does not propose to enter into any relations whatever with any of the holders of any of the bonds issued by Spain, notwithstanding the efforts of some of the foreign powers to bring this result about. As to the amount which will be offered to Spain the officials here are mute, but it is be lieved to lie somewhere between \$20. 000,000 and \$40,000,000.

Our commissioners do not look for committed no crime against the laws of my country and have done nothing but believe that there will be an atthe amount named. The American commissioners are under instructions to inform the Spanish commissioners that there can be no further delay in the final conclusion of the work of the commission, so that it is expected that a conclusion, one way or the other, will be reached before long to the peace ne-

gotiations. The Spanish Argument.

Paris, November 16.—In signifying their willingness to submit the Philip pine article of the protocol to a third party for construction, the Spanish commissioners to-day urged that as there is obviously a difference of opinion regarding the phrase "the control, disposition and government of the Philippines," possibly the result of a misunderstanding, the Spaniards should no more be asked to surren

der their view than the Americans to surrender theirs. The memorandum points out that a dead lock exists, which might be broken by arbitration on the contending views, but to which the Spanish commisioners are quite ready to submit. The latter declare that they have no idea of suggesting arbitration as to the main issue, which touches national honor on both sides, but they are will ing to accept exterior aid to clear the path of negotiation.

commissioners will not consent to invoke exterior aid to construe the terms of their own protocol. Another part of to-day's Spanish nemorandum flatly asserts, upon the authority of M. Cambon's reports of the protocol negotiations between Washington and Madrid, through him, that President McKinley at no time objected to Spain's reservation of her overeignty in the Philippines. This llegation is directly opposed to the American record on the same subject

It is safe to say that the American

The American commissioners now hold that the protocol itself was born of Spain's attempt to reserve her Philppine sovereignty, though the Span h memorandum to-day squarely chalenges the contention.

Moreover, the Spanish commissioners to-day have alleged that President McKinley's objection to Spain's phraseology in accepting the peace terms was based solely, so far as was made known, upon this sentence in the Spanish acceptance: "They accept the proffered terms subject to the approval of the Cortes of the kingdom

is required by their duties." The Spanish memorandum to-day holds that M. Cambon answered the American objection to this by point ing out that the Americans' terms were eferred, subject to the approval of the Americans, but that President McKinley replied that he did not desire to involve the internal affairs of Spain in the proceedings in hand. The Spanish memorandum asks,

also, why, if the United States ob jected to Spain's reservation of sovereignty, they did not plainly say so in the protocol and leave no room for argument. It asks why Judge Day's note of August 10th did not clearly declare that the United States would not recognize such reservation, and that the protocol was necessary to prevent a misunderstanding on that point. It also asks why did Judge Day's note practically ascribe the in explicit form of Spain's acceptance of the peace terms to telegraphic errors, while the exact terms of Spain's reservation of sovereignty, as had in Washington before the protocol, are

now being quoted in the proceedings This portion of the Spanish memorandum is based upon letters written by M. Cambon at the time, purporting to describe interviews and transact

tions attending the peace terms and protocol. On Saturday, the date fixed for the next meeting, the Americans will make their response, in the course of which it is not unlikely that the exact terms and precise time limit of their acceptance will be communicated.

REPORTS FROM GEN. OTIS.

Situation Beyond Control of the United States Forces in Manila-Gen. Merritt's Views as to Filipinos and Their Leader, Aguinaldo.

By Telegraph to the Morning Star. WASHINGTON, November 16 .- Reoorts of a somewhat disquieting nature have been received from Gen. Otis, in command at Manila. He says that the province of Ilollo, in the island of Panay, which is technically occupied by the Spaniards, is surrounded by he insurgents and that fears are enertained that the Spanish population and garrison will be massacred by the nsurgents. The capital of the province is 355 miles from Manila, but this and the other islands, with the exception of Manila and its adjacent country, is not under the control of Americans. Heretofore the United States officers have tried

to prevent disturbances between insurgents and the Spaniards, through good offices and counsel. The indications are, however, that the present situation in Iloilo cannot be controlled by the United States army at Manila or the insurgent leaders there, and if serious consequences are averted some other method will have to be adopted. The troops under Gen. Otis are not available for any such duty, and under the terms of the protocol, pending peace negotia tions, it is not desirable to send a orce from the army to the island of Panay. There is no intention at present of sending additional troops to Gen. Otis, but the situation is such as to strengthen the determination of the administration not to reduce the available force now under his com

'It was impossible to recognize the insurgents and I made it a point not to do so, as I knew it would lead to complications. Admiral Dewey, after my arrival, pursued the same course. What was done before is not for me to comment on I, purposely, did not ecognize Aguinaldo or his troops, nor did I use them in any way. Aguinaldo did not ask to see me until ten days after my arrival. After that, I was too much occupied to see him.

"In talking with leading Filipinos told them the United States had no promises to make, that they might be assured that the United States would treat them fairly. This was because the United States is in the habit of dealing fairly with all struggling peoples, and not because I had been authorized to say anything of the kind.

We purposely did not give the insurgents notice of our attack on Maila because we did not need their cooperation and did not propose to have it. We were moved by fear that they might loot and plunder and possibly murder. Aguinaldo's subordinate leaders, in conversing with American officers, frequently said they intended to cut the throats of all the Spaniards

n Manila. 'Aguinaldo himself wrote a complaining letter, saying the insurgents had been denied 'their share of the booty,' whatever he may have meant by that. I took no notice of this letter nor do I think the subject now raised is a matter for discussion between Aguinaldo and any representalive of the American government.

Faulkner tells of the troubles the white officers have had. The soldiers, while obeying their white officers in a sort of perfunctory way, are sullen and make things very unleasant for their officers. Col. Every person who coughs should not alarm himself with the idea that he is in a bad way. Experience has convinced us of a fact that there are two distinct kinds of coughs-one proceeding from an affection of the lungs and air tubes, as in a cold, the other proceeding from efferves-cence in the stomach. The lungs cough is a symptom which all know to require attention, lest serious consequences ensue. The stomach cough is a much more simple matter and may easily be got quit of. It is caused by the food and drink which are put into the stomach effervescing and producing an irritation.
