

PUBLISHER'S ANNOUNCEMENT.

THE MORNING STAR, the oldest daily newspaper in North Carolina, is published every morning...

The Morning Star.

BY WILLIAM H. BERNARD. WILMINGTON, N. C.

TUESDAY MORNING, MARCH 14.

THE IDEAL INDUSTRIAL REGION.

The New York Financial News is a matter of fact journal not given to vagaries or fancies, and therefore we clip the following suggestion of the possibilities of the mountain region referred to:

"In the mountain region, covering the center of the States east of the Mississippi, extending from the Pennsylvania line to the Georgia and Alabama, and embracing an area of some 150,000 square miles, is more natural wealth, more basis to sustain dense population than any other region in the United States."

UPSETTING ALGER'S SCHEMES.

There has been a good deal of talk for some time about Secretary Alger resigning. Some of these reports were followed by another report that Alger had said that he would never resign "under fire," but the latest is that he has intimated a willingness to resign "if his remaining in the Cabinet embarrasses the President."

TWINKLINGS.

"He tells me that he is wedded to his business." "Yes—his wife runs a millinery store." "Puck."

LARGEST BIBLE IN THE WORLD.

Engraved on Seven Hundred Slabs of White Marble. In 1857 Minton-min, king of Burma, erected a monument near Mandalay called the 'White Marble Bible'...

The Southern side reaps the greater advantage, too, because of its greater resources in the number of minerals and in the ease and cheapness with which they are mined and delivered at the manufacturing centers...

Much of the region referred to is in the cotton belt or so close to it that transportation becomes a matter of small importance, and hence it will not now be classed among the prophecies to predict that this is destined to become the great center of the cotton manufacturing industry.

But the southern side of the slope has still another great advantage in the milder climate and in the richer soil as a general thing.

But the southern side of the slope has still another great advantage in the milder climate and in the richer soil as a general thing. The climate is much milder even within a few hundred miles because those mountains serve as barriers to protect from the fierceness of the cold waves that sweep down from the North in the Winter...

PLAYING A COMEDY.

We do not know much about the personnel of the statesmen who compose the Cuban Assembly, but they seem to be playing a comedy of errors, and are succeeding pretty well in raising a laugh.

Newbern Journal: A slight alteration on the Wilmington & New Bern railroad, between the railroad agent at Harra, and a woman named Sandlin resulted in the latter plunging a knife into the former, which but for a trifling circumstance would have been fatal.

CURRENT COMMENT.

Count Esterhazy is reported as saying that the Dreyfus affair will end in smoke and a pardon. If his assertion proves correct, shows the heart was not in the doing of an act of simple justice.

SPIRITS TURPENTINE.

High Point Enterprise: At the High Point Roller Mills there is a block of wood from ten inches diameter. In the center of this block was found a solid flint rock about as large as an orange. It is indeed a strange freak of nature.

Salisbury Sun: In a few days a lot of those splendid birds, the Mongolian pheasants will be turned loose in this State.

Salisbury Sun: In a few days a lot of those splendid birds, the Mongolian pheasants will be turned loose in this State. They are to be turned loose in this State and Oregon, there will be sport. The law protects the birds for six years. In South Carolina ten years' protection is given.

Warrenton Record: Axtell North Carolina, can boast of the champion opossum hunter of the State.

Warrenton Record: Axtell North Carolina, can boast of the champion opossum hunter of the State. Capt. Robert Allen has hunted 'possums every fall and winter for sixty years.

Greensboro Telegram: We understand that there is strong probability that the iron furnace, mentioned in our columns yesterday, will be operated by the new owners.

When this inequality of wealth becomes a part of the matrimonial problem there is likely to be a good deal of disagreeable results. It is a sad thing to see a man and a woman who have been married for many years, and who are still together, and who are still together, and who are still together.

WEALTH AND LOVE.

PENNILESS HUSBANDS OF WIVES WHO HAVE PLENTY OF MONEY. A Condition That Is Not Always Pleasant For Everybody—Real Love Doesn't Fly Out of the Window at Sight of Poverty.

In considering the relation of wealth to account the contented poor, but only speak of those whose method of life has hedged them about with artificialities which they would not remove and which they would not break down if they could.

The ideal condition for persons in this class of life is where both husband and wife are contented. But it is in the latter that this competency is adjusted and kept in harmonious running order by affection on both sides—by affection and respect.

Married people are sure sooner or later to grow in sympathy. One of the best of these is that of manufacturing "unfermented grape juice," a beverage that is recommended in the most authoritative manner in the leading medical journals.

Newton's Final Crime. At the end of a meal at Hayden's house Keats proposed a toast in these terms, "Disunion to the memory of Newton."

Bugle Calls. All the calls in the regular army are sounded by long blasts of the bugle. The latter instrument being used only in concert.

A LOCAL CATARRH. Nothing but a local remedy or change of climate will cure it. Get a well-known specific. Ely's Cream Balm.
