The Commission Taking Testimony at St Louis Relative to Shipping Rates, Foreign and Domestic.

By Telegraph to the Merning Star. St. Louis, Mo., June 15.-To day the Interstate Commerce Commission began taking testimony here relative to shipping rates, foreign and domestic. The most important feature of the session was the statement of E. A. Drew, general freight agent of the Missouri, Kansas and Texas railroad, to the effect that negotia-

tions are now in progress for the establishment of an immense line of

steamers to run between Galveston

and all foreign points.

Mr. Drew testified that the M. K. & T. was obliged to cut rates in order to meet the competition at Atlantic Seaboard points. He said there was a slight difference between the export rates on wheat and flour, but that the domestic charge was the same. He attributed the variance to the cause

stated. "Do you export grain at a loss?" Mr. Drew was asked. "No, I can't say that: but we are not making money. "If a uniform rate instead of the cut rate now in effect on your road were introduced, could your line zfill live?" "Well, such action would drive us out of the export business." 'What," Mr Drew was asked, "is

the future of Galveston as a distribu-

tion point for grain?" "There is no

export business." What is its strongest competitor?' "New Orleans; but Galveston has been growing in importance right along. The Southern Pacific proposes to build two large elevators there and other improvements are contemplated that will make its exporting facilities un-

It is supposed that when the mob found on Wednesday morning that they were followed, they hid Patrick on Dog Island and kept him there during day-light.

It is reported that in order to save his neck the negro implicated other

parties, but the lynching party thought he was lying and gave no weight to his words.

MANILA, June 15, Noon-The Fourth regular infantry and the Wyoming regiment have been added to General Lawton's command and to-day they were towed across in cascoes to Las Pinas, preparatory to removing to Imus, five miles inland, where the rebels are reported to have an arsenal and a large quantity of sup-

The whole section is practically without food and Major General Otis has ordered the distribution of rice and beef to the inhabitants. The Assassination of Luna.

Many people still refuse to credit the story of the assassination of General Luna, by the guard at Aguinal do's headquarters, though the reports to that effect are most circumstantial and from good sources. Rumors of assassinations and disasters from the rebel camp are so frequently printed in the local papers that they have come to be regarded with indifference. The latest is that the governor of Cebu

has been killed by natives because of his friendship with America. A prominent commercial man with exceptional means of learning of the Filipinos movements, claims to know General Luna is still live, adding that if he were dead and if his death occurred. a month ago, people would have ex-pected a collapse of the revolution to follow.

The Independencia, a revolutionary organ, of May 20th, a copy of which has just been obtained, prints an inter-view with General Luna, showing the arguments he used to keep up the spirits of his followers. He represents the Filipino cause as prospering, "because the Americans have gained only a hundredth part of Luzon by hard fighting," and says the women and children tilling the fields within the American lines give proceeds of their work to support the Filipino army. He is said to have further remarked: 'More Americans will be killed by ambuscade, surprises and disease than in battles. I detest war, but we cannot accept peace at any price but independence. The Americans suffered for their own independence and in their own hearts they appreciate why we resist them.

Volunteers Ré-enlisting.

WASHINGTON, June 15.—Pursuing policy determined upon some months ago, General Otis is organizing three regiments in the Philippines, composed of officers and men of the State volunteers who desire to remain in the service. The army bill authorized this kind of enlistment in the Philip pines. If the full complement cannot be made up from discharged volun-teers in the Philippines, the regiments will be organized and officered in skeleton form until recruits can be sent from the United States to fill

General Otis and volunteer officers

in the Philippines have been consulting to see how many men will enlist. The number has not been very large, as there seems to be a desire on the part of the volunteers to return to the United States with their organizations.

The proposed regiments of regulars which will sail from San Francisco on the 22d and 24th, and those under orders for Manila, will give General Otis 33,000 fighting men. The field and staff officers and captains of the three volunteer regiments will be selected from the volunteer and regular officers who have demonstrated their special fitness to command and who have distinguished themselves in action. It is expected also that the first lieutenants will be chosen from second lieutenants in the service in the Philippines who may be especially commended by General Otis. The volunteer second lieutenants will probably go out from the United States

with the recruiting squads.

Filipino Loss in the Recent Battle. WASHINGTON, June 15 .- General Otis cabled to day as follows: "Success of Lawton's troops in Cavite province greater than reported yesterday. Enemy numbering over 4,000 lost in killed, wounded and captured; more than one-third of their number; remainder much scattered, have retreated south to Imus, their arsenal; of five pieces of artillery, three captured. Navy aided greatly in shore bay, landing forces occasionally. Inhabitants in that country reoice at deliverance and welcome with enthusiastic demonstrations arrival of

our troops. Officials Greatly Encouraged. The War Department officials feel

greatly encouraged over the dispatch from General Otis to-day and think that the heavy fighting will soon be over. Information which has been received indicates that the source of supply of ammunition and arms for the Filipinos has been located, and that this supply will now be cut off, and it is said, will result in disaster to the Filipino army.

Result of Attempted Outrage On a Young White Woman by a Negro.

By Telegraph to the Morning Star. BIRMINGHAM, ALA., June 15 .- Near Wedowee, in Randolph county, a negro, supposed to be Hays Phillips, attempted to assault Miss Sophronia Whaley. The young woman's screams attracted her father's attention and the negro made his escape. Officers followed the negro to his home. Several more negroes had gathered and they refused to open the door to the officers. The deputy sheriffs forced their way in and were met by a volley from the negroes. W. F. Carlisle's hand was shattered. Three negroes were wounded so badly that they will probably die. The Phillips negro escaped. Negroes in the neighporhood hearing the shots, a large number of them bore down on the house. The officers barricaded themselves within, but further trouble was prevented. A mob is in pursuit of Phillips and a lynching will follow his capture.

SUGAR TRUST

INVESTIGATION

A Member of the Arbuckle Firm-Before the Industrial Commission.

THE TARIFF CUT NO FIGURE!

Domestic Competition Kept Out All Foreign Sugar-The Coffee Business-Great Increase in Production Caused Decrease in Prices.

By Telegraph to the Morning Star.

WASHINGTON, June 15.—The industrial commission held only an afternoon session and heard but 1 witness today, J. N. Jarvie, of the firm of Arbuckle and Bro., and manager of the firm's sugar refining business. Mr. Jarvie's testimony was brief. He was easy and courteous in his attitude toward his inquisitors, refusing but one question, that of how much it cost his company to refine sugar. He said he did not wish to give information of that sort to his business competitor. Mr. Jarvie put the necessary margin between fifty and sixty points to allow a profit on the business. He said when his firm started business in 1898 the margin was about 20. It had dropped as low as 32 and was now

He explained the entrance of the Arbuckles into the sugar field by saying that in '93 they secured a machine for weighing and packing sugar, and undertook to sell package sugar to the wholesale trade. They bought from the American Refining Company, but found they could make no profit in that way, and so started their own refinery. He said the tariff dif-ferential of one eighth of a cent per pound on refined sugar did not figure in the business just now. Domestic competition was so sharp as to keep out all foreign sugar. Asked if the removal of the one-eighth of a cent would effect the business now, he said he did not know enough about the foreign trade to say.

Mr. Jarvie said there had been many

overtures from the Sugar Trust to set-tle the difference with the Arbuckles, but they had all been made "for stock jobbing purposes," and consequently there had been nothing in them.

Witness, in speaking of the coffee business in which the American Sugar Refinery had invaded the Arbuckles field, said that while there had been a decline in prices that it would not be fair to lay it all to competition as there had been a great increase in coffee production all over the world, last year's crop going from 11,000,000 bags to 15,000,000 bags. Asked if he could suggest any plan that would lessen the present destructive competition in the sugar business, witness said that the fight could only stop when the one big concern de-cided to be content with less than 100 per cent. of all the business in the

When asked how long the rival companies could keep on selling sugar at a loss, Mr. Jarvie replied cheerfully that he thought a concern supplying 90 per cent. of the sugar sold in this country would lose more under those conditions than the firm supplying the other 10 per cent., and that he had the 10 per cent. end of the bargain now.
