THE BOOM IN TIMBER

Mill Men Purchasing Large Acreages in Eastern North Carolina.

ANGOLA LUMBER COMPANY

ton, Perhaps.

The activity in the purchase of timber lands in Eastern North Carolina. which has been prevailing for the past several months, is now the subject of much interesting comment on the part of dealers and those interested in the up-building and developement of this section of the State. That Wilmington will be the seat of several new and important enterprises in this line within the next half year, seems to be a foregone conclusion. The increased prices and the active demand for lumber of all grades, which has characterized the market this year, has given an unprecedented stimulus to the timber trade in all sections and lumber men are either securing options on or buying all the available lands in the entire territory contiguous to Wilmington.

The port facilities here with other advantages for a lumber business is an item which prospectors will not be slow in discovering, when it comes to the location of their plants, and for posals for painting the roofs of the this reason Wilmington may expect other hospital buildings. some new and decided improvements in this respect, when several plans yet in their infancy are more fully matured.

The STAR has already referred to the large purchases of gum timber in Bladen county by the Acme Tea Chest Company of Glasgow, through its American representative, Mr. Will. L. Miller, and much activity is now being displayed in the purchase of other woods, including pine, cypress, oak, etc., by the home mills, notable among them being the Hilton, Cape Fear and Companies, as well as a number of outside dealers who are said to be backed by ample capital; in fact the buyers do not hesitate to pay spot cash for any desirable lands that may be

The principal buyer of Eastern North Carolina lumber at this time, outside of the local dealers, is the Angola Lumber Company, of Norfolk, Va., which has had for several weeks six buyers in Bladen, Pender and Onslow counties. They have secured options on and bought many thousand acres of yellow pine oak and cypress, and while it is not authoritatively stated, it is believed that it is the purpose of the Angola people to locate one of the large night. mills at Wilmington.

The Blade Lumber Company, of Newbern, is also said to be making extensive purchases as far down this way as the lower edge of Duplin county, but it is not probable that any mill will be located here by reason of the purchases of this concern, as it will be cheaper to ship timber to the home mill at Newbern for manu-

Lumber people say there was never such eagerness for timber before on the part of so many dealers, who are disposed to pay good prices to the land owner and at the same time make first water. terms so liberal. The past season has been a most profitable one with East ern North Carolina timber men and the future promises even greater things unless the unexpected happens.

THAT PHOENIX JUBILEE.

Probable That a Special Train Will be Run From Wilmington.

It seems that right elaborate arrangements are being made for the grand rally and basket picnic at Phoenix on next Saturday. As previously announced, there are to be several speeches by prominent citizens, and it will be a regular gala day for the people of that section.

An effort, which bids fair to suc ceed, is on foot to have a special train from Wilmington run under the auspices of the Woodmen of the World, of this city. There are fifteen candidates for initiation into the mysteries of the order of Woodmen, and a new lodge will very probably be established there.

The special object of the rally and picnic is to increase interest in the tobacco industry which is already assuming considerable proportions, and Phoenix bids fair to establish quite a market.

BOARD HOSPITAL MANAGERS. ALGONQUIN WILL BE

Regular Monthly Report of the Superintendent Received and Approved. Other Matters Considered.

The chief matter of public interest before the meeting of the Board of Hospital Managers yesterday afternoon at 2.30 o'clock was the submission and approval of the monthy statement of Dr. Bolles, superintendent of the in institution.

The report shows that 31 patients were treated during the month. Of this number 19 were white and 12 colored; 8 were pay patients and 23 charity; 22 came from the city and nine from the country. Ten patients were remaining in the Hospital August 1st, and 21 were admitted during the month. Eighteen patients were discharged during the month and 13 were left at the hospital August 31st. There were no deaths. Pay patients were treated 76 days and charity patients were treated 227 days. The verage cost per capita for sustenance of employes and patients was 16 cents per day.

The members present at the meeting were Col. Roger Moore (chairman), Dr. C. P. Bolles and Aldermen Springer and Spencer.

Aside from approving the report of the superintendent, upon motion, the chairman was instructed to have torn down an old building which is unfit for occupancy and located on the hospital grounds. He was also instructed to sell the old material of the building to best advantage, and to receive pro-

HATCH BROS.' LAST EXCURSION.

Arrived Here From Dunn Yesterday With Nearly Five Hundred Passengers.

An excursion, under the management of Messrs. Hatch Bros., from Dunn and intervening points arrived here at about 12:30 o'clock yesterday afternoon with 8 coaches. There were between 400 and 500 excursionists Bridgers and McKeithan Lumber They went through to the beach and came back to the city about 4:30 o'clock. A large number of excursionists went down to Carolina Beach on the 5 o'clock boat, the Wilmington making an extra return trip especially for the accommodation of the excursionists. When the crowd reached the Market street dock, a little past 5 o'clock, the steamer had already left the wharf and was some distance down the river, Captain Harper supposing that the Seacoast train would not reach the city in time for the excursionists to catch the boat. However, the boat was signalled and returned to take on the crowd. They returned in time to leave for Dunn on

The Weather. Wilmington continues "to lead the row" in the record for the lowest maximum temperature of any town in this district of the Weather Bureau service, despite the fact that many men "in their warmth" have been tempted during the past two or three hot, sultry days to rise up and call the big government thermometer at the top of the postoffice building a fabricator of the

The figures are against them, how ever, for here are the registers at the different points in the district for the 24 hours ending at 8 o'clock yesterday morning: Wilmington, 90; Charlotte, 94; Cheraw, 98; Florence, 92; Golds boro, 92; Greensboro, 90; Lumberton, 93; Newbern, 93; Raleigh, 92.

Receipts of Cotton.

The receipts of cotton for the week ending yesterday, which is the first of the crop year, were 4,241 bales against only 855 bales received during the corresponding period last year. The crop is forward at least ten days and parties who came to the city from the up county yesterday say the weather is very dry and hot and the bolls are opening rapidly-much faster in fact. than farmers can secure hands to have

HERE OCTOBER 15TH. Capt. O. S. Willey Will be Her Commander-Now Having Bilge Keel

Placed-The New Wharf.

Indications now are that Wilmington will have a revenue cutter for this port and district of the Atlantic coast not later than October 15th, and it is, as STAR readers are aware, settled that the cutter assigned here will be the Algonquin. In discussing the matter vester-

day afternoon with a member of the STAR staff Capt. Robt. M. Clark, of the revenue cutter service, said that he is reasonably sure that the Algonquin will be here not later than October 15th, with Captain S. O. Willey in command. The Algonquin attended the G. A. R. demonstration at Philadelphia and proved herself in a thorough sea-going condition; but it has been decided that before she is sent here for regular service it will be best for the vessel to be provided with a bilge keel to prevent her from rolling excessively in the breakers. This is now being placed. The bilge is about eighteen inches, and is about two feet

below the water line. Capt. Clark arrived here yesterday morning on business connected with the construction of the new Government wharf on Water street between Princess and Market, the contractor for which is Geo. H. Howe, colored. It is expected that there will be no further delays of consequence in the construction of the new wharf, the delay during the past few days being due to the great difficulty in securing the necessary timbers. Capt. Clark, however, now has the assurance of Howe and the timber contractor that sufficient timbers for the regular prosecution of the work will be provided daily. Capt. Clark will remain in the city inspecting the work for a week or more.

"A LADY OF QUALITY."

He is a guest of The Orton.

Advance Agent for the Eugenia Blair

Company in the City. Mr. Henri Gressitt, advance agent for the Eugenia Blair Company, presenting "A Lady of Quality," is in the city arranging for the engagement for this standard attraction at the Wilmington Opera House on next Thursday evening, September 14th. This will be the second theatrical event of the season and will certainly attract a large and fashionable audience.

Wilmington theatre goers will be glad to learn that there will be no advance in the price of tickets, despite the fact that everywhere else the price charged is \$1.50. The charge for tickets here will be \$1.00, for the reason that the Opera House management has succeeded in securing this concession since the attraction was booked.

Will Arrive To-day.

Mrs. Howard Caldwell, wife of the secretary of the Wilmington Young Men's Christian Association, will arrive here on the 12.05 S. A. L. train this afternoon from a protracted visit to relatives in Clinton, S. C. Her return to the city was delayed several weeks by the illness of her sister, who is, the STAR is glad to note, very much improved in health. Mr. and Mrs. Caldwell will reside in future with Mrs. Joe Mitchell at No. 7 South Fourth street.

The September Race. Next Friday, the 15th inst., has been selected as the date for the September race by the Carolina Yacht Club. It is not probable that there will be a dance at night, the only feature of the day being the race, which will be held probably about 4:30 o'clock.

While no official announcement has been made it is understood, and a STAR representative was so informed last night, that the club house will close for the season after the race, probably on the same day.

Target Practice With Eight Inch Disappearing Rifles, by Battery C.

[Special Star Telegram.] SOUTHPORT, September 8.—Battery C, Fourth artillery, continued their target practice to day with the eightinch disappearing rifles. Seven shots were fired, the last shot being a full charge of one hundred and thirty-five pounds of powder and a three hundred pound projectile. A floating target was used, and the firing to day was very accurate.

Assistant Engineer Groom, of Fryng Pan Shoals lightship, came in tonight and reports that the firing was heard distinctly on Wednesday and also to day at the lightship, which is over twenty miles from Fort Caswell.
