Another Drifting Match Between the Shamrock and Columbia-The Race Declared Off.

By Telegraph to the Morning Star.

NEW YGRK, October 5.-Again to day the sea refused to the Shamrock and Columbia a field of conflict; again to day the multitude which went out to watch the contestants for the yachting championship of the world returned disappointed and not a little disgusted. The question of supremacy of the two great yachts is still as much an open question as before they first met, as the contest to day was in some respects more of a fluke than that of Tuesday. It was a drifting match almost from

start to finish. The yachts crossed the line with breeze of five knots and the wind never blew more than six knots, most of the time less than three, and part of the time not a breath of air was stirring. After sailing four hours and forsy-three minutes, the yachts having covered only twelve miles of the course to the outer mark, the regatta committee declared the race off, as it was manifestly impossible with the breeze then blowing for the boats to round the stake before the time limit expired, much less to get back home again. During the time in which the yachts were at it, the wind which carried them dead before it over the line, had hauled around until at the finish they were beating into its teeth. While the wind held astern the Columbia steadily outfooted her rival until she was fully half a mile ahead, but in the shifting, baffling winds that followed during the last three hours, with the great single stickers tacking and beating and gybing to catch every streak of wind, with fortune helping one about as much as the other, the Sham rock gradually worked her way up

The Race Was Declared Off,

the two boats were about on even terms, the Shamrock perhaps half a length ahead, but so close was the Columbia that Captain Barr could have thrown a biscuit to the foreigner. The only lesson learned by the nautical sharps from to day's trial of the abilities of the two boats is that in light weather conditions the Columbia is the superior in running and reaching and the Shamrock slightly better in beating. There has as yet been no indication of what either boat can do in a piping whole sail breeze. The most dramatic, picturesque and interesting incident of the day oc curred just at the finish, and it repaid the thousands of sight-seers for the disappointment they were experienc Just as the regatta committee boat hung out the balloon, the triatic stay which declared the race off, the spectators, all of whom were in doubt as to which boat was ahead, were watching the yachts with intense interest. They had split tacks and now the Columbia was sailing toward the Irish boat on the port tack, with the evident intention of crossing her bow. The water between them grew nar rower and narrower until she was close enough to pass a line aboard. Everybody aboard the excursion fleet expected her to cross the Shamrock's bow, but Captain Barr found it too risky, and as the American champion rose in a queenly fashion on a heavy swell he put his helm down and came over on the starboard tack under the Shamrock's lee. It was a disappointing moment for the patriots. Although the Columbia had her nose in front, the challenger lapped her and held the weather gauge. Just at this instant the signal went up declaring the race off, and before the astonished spectators realized what had hap-

The Brooklyn, Nashville, New Orleans, Bancroft and Badger to Reinforce Watson's Fleet at Manila.

By Telegraph to the Morning Star Washington, October 5.—The Navy Department was busily engaged to-day in arranging to reinforce the fleet in the Philippines, as suggested yesterday by Admiral Dewey in the course of his conference with the President. In going over the field of available ships it was found this morning that the plan conceived last evening of sending the Marietta and the Machias with the Brooklyn would have to be modified so as to drop the two gunboats. In addition to the Brooklyn, the following ships will be added to Watson's fleet: Nashville, New Orleans, Bancroft and Badger.

It is Admiral Dewey's idea that vessels of a larger type than were first thought of should be sent to Manila. He pointed out that the smaller class of gunboats would be exposed to a good deal of unnecessary danger if they were sent out. To carry out the plans of cutting the insurgents off from their supplies these vessels must be scattered around among the islands often without consorts, and thus exposed to sudden attack. The larger vessels will not only be able to take care of themselves in such case, but may serve as parent ships, from which may be operated a number of the small launches that have been doing such

good service. By noon the department had completed the ship movement and was in position to send sailing orders to the ships chosen to go to Manila. The New Orleans was telegraphed to pro-ceed at once to the New York navy yard to have some changes made in the galley apparatus. This change can be made in six days, when the ship will start on her voyage. The Brooklyn will be turned back from Hampton Roads as soon as she comes within signalling distance and sent to New York, whence she sailed this morning before the department could reach her with orders. She will be ready to sail by the end of next week. A cable gram was sent to the Nashville at San Domingo to proceed at once to Manila. via Suez, and she is expected to get off within twenty-four hours. Orders were also telegraphed to the Badger at Mare Island to proceed to the Philippines as soon as possible. No orders have as yet been sent to the Bancroft

at Boston. It was suggested at the Navy Department that three of the four vessels now under orders for Manila will pass through the Suez canal, and so will be available to divert to South Africa should matters there take shape requiring the presence of a United States naval force.

GUNBOATS SHELL FILIPINO TOWNS.

Return of the Expedition Sent to Recover the Sunken Gunboat Urdaneta.

TOWN OF ORANI BOMBARDED:

Plot Discovered in Manila to Burn Government Buildings and Banks-Reports of Affair at Paranaque Exaggerated-Aguinaldo's Orders.

By Cable to the Morning Star.

Manila, October 5.—The expedition sent to the Orani river under the command of Captain Cornwell, to recover the sunken gunboat Urdaneta, se turned to Cavite yesterday with the hull of the boat, after bombarding Orani and landing a force. Captain Cornwell brought one prisoner. Lieutenant Franklin, of the army gunboat Laguna de Bay, guided the expedition. There were no casualties.

On Monday morning the expedition entered the river and anchored above Orani, near the Urdaneta, the inhabitants of the town simultaneously evacuating it and carrying their be-longings with them. The gunboats bombarded Orani, the beaches, and the surrounding country for half an hour, receiving a Mauser volley in reply. The Urdaneta was towed off the bar about 10 o'clock that evening, the operations of the Americans being unmolested. The following morning the bombardment was renewed to cover a landing of one hundred and eighty blue-jackets and marines about half a mile above the town. On entering Orani the Americans experienced a slight rifle fire from the Filipino trenches. They found the town untenanted and that the shells had ignited a few huts.

Plot to Fire Manila.

The archbishop of Manila notified General Otis that there was a plot on foot to burn the residences of the governor general and the archbishop, to gether with several government build ings and banks, but the plot failed to materialize, possibly because of a dis-

play of force. The first reports regarding the affair at Paranaque last night seem to have been much exaggerated. The facts are that a small band of insurgents, following the bay road, poured a volley into the village and later another into Las Pinas, with the result that two or three houses were burned. The cracking of the bamboo caused it to be telegraphed to Manila that there had been much shooting. The United States transport Warren,

from San Francisco, with 1,200 recruits, has arrived. The United States gunboat Wheeling, from Vancouver March 3, via Honolulu, while passing St. Vincent, in Northern Luzon, shot down a Fili pino flag. The Filipinos fired a volley at the Wheeling's men who were

sleeping on deck and the Wheeling

bombarded the settlement.

Aguinaldo Issues Orders. Aguinaldo, according to a report brought to Manila to-day by a Dominican friar from the north, has issued orders to the Filipino soldiers in the northern provinces to return to their towns and to resume farming. This story lacks confirmation; but the rumor may be in accordance with Aguinaldo's policy of keeping the country as productive as possible by using his men in alternate shifts on the farms or under arms. Dagupan, San Fernan-do and Delicinit, which are under the guns of the United States warships, are supposed to be evacuated. It is aleged that the evacuation order calls upon the male inhabitants to be ordery in case of the arrival of the troops and expresses the hope that the Americans will protect the towns.

SCHOONER CARRIE A. LANE.

Water-Logged and Abandoned-Crew Rescued by British Steamer Rhodesia and Landed at Norfolk.

By Telegraph to the Morning Star. NORFOLK, Va., October 5.-The British steamship Rhodesia, Captain Bates, from New Orleans to Hamburg, arrived at Lambert's Point this morning, having on board the crew of the schooner Carrie A. Lane, of Bath, Me., who were picked up in the Gulf stream, shipwrecked. Tuesday. The crew is composed of Captain J. Frank Skofield, whose wife is with him, and eight men. Their experience was a

most thrilling one.

The Lane, which was a three-masted schooner, sailed from Apalachicola for Noank, Conn., on September 16th, with a load of lumber, and had good weather up to about Tuesday of last week, when northeast winds set in. She labored heavily afterward, but had no accident until Sunday afternoon All hands were at dinner when the vessel suddenly shipped a heavy sea and shifted her deck load of lumber. She immediately began to leak and when the pumps were first put to work she had eleven inches of water in her hold. At 9 o'clock Sunday night there were seven and a half feet of water, and the crew took to the deck house. Here they remained until Tuesday morning, when a life-boat was sent out from the Rhodesia in charge of chief officer Jewell, and they were taken on board the British ship. In the attempt to hoist the life-boat to the deck, after the party had been rescued, it was smashed by the heavy rolling sea and lost. Captain Bates says that the wreck of the Lane is right in the track of vessels plying slong this coast, and is very danger-ous to navigation. Most of the Lane's

MALLORY STEAMER LEONA.

Burned and Sunk at Her Wharf in New York-Cargo Worth Over \$250,000 a Total Loss.

By Telegraph to the Morning Star. NEW YORK, October 5. - The Mallory Line steamer Leona was burned and sunk at her wharf in East river tonight. The cargo, consisting of tobacco and 8,000 bales of cotton, and valued at \$250,000 to \$300,000, is a total loss and the boat is little better than

It is believed that the Leona, which sailed from Galveston, September 27th, caught fire at sea several days ago, since which time she had proceeded at full speed, with battened hatches, for this port. At 3.30 this afternoon the Leona came racing up East river to her pier, where haste was made to debark the passengers and open the hatches. An hour later an army of men was vainly fighting a fire in the steamer's hold. Finally the

ship was scuttled. About half a dozen men who were on the starboard side of the boat were un able to get to the pier, and kept working as if nothing was happening to endanger their lives. They continued until the ship was partially submerged beside her pier. The men were thrown into the water. Deputy Chief Duane and fireman Thos. McFarland, of engine No. 12, had to battle for life and were rescued with difficulty. Several of the fire boats engaged in the work of rescuing the firemen were nearly car

ried down by the sinking of the Leona. At 7.30 o'clock to-night a report that shook the deck plates forward showed the presence of gas and possibly pow der in the forward hold. Another report came about fifteen minutes later, and a third in about ten minutes. The explosions were not serious enough to cause a further inflow of water.

At about 8 15 the flames were under control at the main hatchway and the entire work was confined to the forward hatch. The flames were so per sistent that they were not under control for a long time and the New Yorker was kept at the boat playing on her all night.

The cause of the fire is a mystery. The boat left Galveston on Wednesday, September 27th. It was said by one of the passengers that three days ago the hatches were battened down and upon questions being put to the captain he said the cause was the high seas. From that time the ship was kept at full speed. The passengers said that on several occasions they had detected smoke, but had not thought particularly about it as the captain said all was well.

Captain Wilber denies that the ship was on fire at sea, and says that the first he knew of the fire was when the hatches were lifted to-day after ar-

MR. H. B. PLANT'S WILL.

Proceedings to be lustituted by the Widow to Set Aside Its Provisions.

NEW YORK, October 5.- The Times to morrow will say:

The statement is made on the authorwidow of the founder of the Plant system of railroads and steamers, that legal proceedings will be instituted soon to set aside the provisions of Mr. Plant's will and obtain for the widow and her son a portion of the dead millionaire's estate. The will provided only for the payment of a stated income to Mrs. Plant and her son, the entire estate being held in trust for the bene fit of the grandson.

Mrs. Plant, who is still compara young, was the second wife of Plant, and her son was a stepson of the financier. It is asserted that Mr. Plant desired that his estate should grow to large proportions, and therefore he refrained from dividing it among the members of his family. His own son, Mortimer, receives merely an income.

No member of the family was in the city yesterday and at the office of the Plant system nothing was known of any contest of the will.

DEWEY IN WASHINGTON.

At the McLean Mansion-Received Few Callers Yesterday. By Telegraph to the morning Star

WASHINGTON, October 5.-Admiral Dewey spent the greater portion of to-day in the McLean mansion, on Farragut square, He received no callers during the morning and only a few during the afternoon, although hundreds of cards were sent up by the servants in blue and silver livery at the door.

Admiral Dewey will meet the members of the Dewey home fund committee at 11 o'clock to-morrow morning, in the office of Assistant Secretary Allen of the navy, when the first conerence regarding the gift of a house to him will be held. It is believed that the fund will amount to \$60,000, and that in view of the fact that a large marble concern of the Green Moun tain State has agreed to donate marble for the construction of a house, it is altogether likely that one will now be built and not purchased, as was at first

EFFORTS TO PRESERVE PEACE

Neither Side Shows Anxiety to Precipitate a Conflict-Rumors of Interference by Some of the Powers-British Position Strengthening.

By Cable to the Morning Star.

LONDON, Oct. 6.-While there is no diminution in the flood of dispatches from South Africa, recording with almost tiresome iteration the military preparations and movements of both sides, with all kinds of accurate and inaccurate rumors and speculations, the real situation remains unchanged It is evident that strong efforts are still being made to preserve peace, simultaneously with determined energy to be prepared for any emergency. It is expected that five thousand reserves will be called out to morrow and that an army corps will be mobilized on the 15th or the 20th of the month. In the meantime it is interest ing to note that neither side shows anxiety to precipitate a conlict; but is rather inclined to give opportunity for the play of peace in luences that the mysterious visit of Count Muravieff, the Russian minister of foreign affairs to San Sebastian, where he saw the Queen regent and the King of Spain and had long conferences with Senor Silvela, the Spanish premier, occupies political minds. MARRIAGE AT BURGAW.

Beautiful Ceremony Uniting in Matrimony Miss Sankie Bowden and Mr. E. A. Armstrong Wednesday Evening.

[Special Star Correspondence.] BURGAW, N. C., October 5 .- The work of Cupid and Hymen was never more agreeably crowned than in the Armstrong-Bowden marriage, which took place at Pike Presbyterian Church, Pender county, Wednesday

evening at 8.30 o'clock. The groom, Mr. E. A. Armstrong, is one of the most popular and enterpris-ing youg men in this community, having a growing mercantile and trucking business at Ashton, on the Wilmington and Weldon railroad.

Miss Sankie Bowden, the beautiful bride, is the daughter of Mrs. Lizzie Bowden, and is well known for her many social and intellectual qualities. She was a favorite pupil last year in the Kenansville College. The church was filled at an early hour by a crowd of interested friends

and relatives. Mrs. Sidbury and Mrs. Pullen, of the Rocky Point neighborhood, had transformed the sacred edifice into a veritable bower of beauty, and into this at the appointed hour marched the bridal party, consisting of Misses Eula Bordeaux, Berta Wil liams, Carrie Shaw, Delia Bordeaux and Gussie King, accompanied by Messrs. Frank King, Allie Bowden, Alva Cowan, Eugene Schulken and J B. Black. Following these came Miss Bowden and her sister, Miss Florence Bowden, while Mr. Armstrong appeared in the opposite aisle with his brother, Mr. J. B. Armstrong. The party grouped just before the flower embowered pulpit, where the ceremony was performed by Rev. D. P. McGeachy. The happy couple, fol lowed by their attendants, left at once for a reception given at Mrs. Bowden's. The array of presents displayed at the home was but an evidence of the popularity of the two hearts so happily made one.

Thanks are due Miss Maggie Williams, of Mt. Williams Presbyterian Church, for the skillfully rendered marches which added so greatly to the pleasure of the marriage ceremony. Mr. and Mrs. Armstrong will make Ashton their home for the future.

PLAIDS! PLAIDS! PLAIDS! They're to Be, According to Authority, Fashion's Favorite the Coming Season. We have as fine a showing as can be found in Wilmington of both foreign and domest c makes, the department teeming with extremes, plaids, of the most subdued shadings, plaids of the most brilliant colorings, with all the varying go-betweens, plaids small, and plaids large. Big variety, rare qualities, and moderate prices are the distinguishing marks of our Plaid Dress Goods exhibit. To try to describe them would be to trade in classic niceties. Come see for yourself what we have to show.
