U. S. CRUISER CHARLESTON.

Hard and Fast Aground With Her Bottom Badly Stove-Her Crew On An Island Pive Miles Away.

By Cable to the Morning Star.

Manila, Nov. 14-The United States cruiser Charleston ran aground near Vigan, on a hidden reef, with thirty five fathoms of water on both sides, She worked her machinery for two days and nights in trying to get affoat, but a typhoon arising, the crew were compelled to take to their boats and seek refuge on a small island five miles away. The natives are friendly. Lieutenant McDonald and a number of sailors put off in a small boat and reached the Callos, which brought them to Manila.

The gunboat Helena has been dispatched to bring away the crew. Lieutenant McDonald describes the Charleston when he last saw her as hard and fast aground, with her bot-tom badly stove, and well out of

Manila, Nov. 14, 8 P. M .- Further details regarding the grounding of the United States cruiser Charleston show that she struck an unchartered coral reef ten miles east of Kamiguin island. Her s ern was almost submerged and the bow almost out of the water. A heavy sea was on and the cruiser be gan rolling violently. The water tight doors were quickly closed, but were stove in under the engine compartment, the largest of the ship. After the first efforts to right her, the officers feared she might slide off because of the heavy sea and therefore abandoned the attempt to save her. They hurried to the launch and boats and rowed away, prepared to fight for a landing with two Colt guns, 134 rifles and ten days' rations. Some of the officers and men were dressed only in pajamas and their underclothing. The breech blocks of the cannon were re moved before the boats put off. Two hours after the Charleston had struck all had gotten away. The report that the crew remained two days on the vessel is inaccurate. A party returned two days later, but found it impossible to save anything.

The first landing was made on a little island with a front of barren rocks. Next day the boats again took to the water and proceeded to Kami guin island, where a landing was made in the expectation that fighting would be necessary. So far from this being the case, however, the Charleston's men found a half-savage people, who regarded them with curiosity rather than host:lity. On the third day the storm had greatly subsided and Li-utenant John D. McDon ald with boatswain Dominick Glinn and six men started for the Gulf of Lingayen in a thirty foot sailing launch, hoping to find an American warship but entirely ignorant of Gen. Wheaton's expedi Donald was four days affoat, keeping under shelter of the hostile shore for two days on account of high seas. being most of the time in a soaking rain. Finally, flying the union jack down, clad in their underclothing and drenched to the skin, the officer and his companions overtook the transport Aztec, which carried them to the battleship Oregon. The Charleston lies practically in the open sea and there is no hope of

Four Trunks, Each Containing a Corpse. Seized in St Louis-An Undertaker

of Memphis Arrested.

By Telegraph to the Morning Star. St. Louis, Mo., November 14 - Four zinc-lined trunks, such as are used by travelling men to carry samples, each containing a cornse, were taken from the baggage room at Union station to day, and E. D. Thompson, a brother of Frank Thompson, who says he is city undertaker of Memphis, Tenn., is under arrest. Charges against Thompson are being formulated.

For some time the police have been aware that a tradic in human bodies has been going on through this city and have been on the watch for evi deuce. Recently a shipment of four bodies in trunks was made, addressed to W. H. Hamsen, at Keokuk, Iowa, to whom those captured to-day were consigned.

When taken to police headquarters Thompson made a clean breast of the whole affair. He said he had the contract for burying the city dead of Memphis. For some time he had been sell ing the bodies to medical colleges in this part of the country. His method was to pack them with excelsior in drummer's zinc-lined trunks and take them with him as baggage as far as St. Louis. From here he shipped the trunks to their destination by express. Thomp son said he had been paid all the way from \$50 to \$200 per body. He said the name W. H. Hamsen, to whom the trunks were addressed in Keokuk, is a fictitious one, but refused to state who his consignee is. In the trunks are the bodies of three negroes, two men and a boy, and a white woman. From ap pearances they all died of consumption or some other wasting disease. The white woman's features are regular and her hair black. Her front teeth are gold filled. All the bodies are preserved.

The Insurgents Make Slight Resistance. Marsh's Battalion Has a Brisk Engagement - Piliplaos Threaten te Attack Imus.

By Cable to the Morning Star

Manila, November 14, 8:40 A. M .-The whereabouts of Aguinaldo and his army and cabinet is a perfect enigma. General Otis has learned that Aguinaldo recently issued a proclamation transferring the capital to Bongabong, giving as a reason for the step the unsanitary condition of

Insurgents Surprised.

The rapid approach of the Ameri cans was a complete surprise to the insurgents, as the latter expected them o move slowly, as they did from Manils to Angeles. The Filipinos thought it impossible for the Americans to make headway in the mud, which prevailed every where, and the sudden inasion astounded the natives along the ine of General Young's march, who had been told that the Americans were confined to the suburbs of Manila.

A majority of the natives welcome the army enthusiastically, but some who have been deluded by stories of American cruelties hide in swamps. Women who are unable to flee fall upon their knees, upholding crucifixes and beg-ging to be spared. When the news spreads that the Americans intend to remain and establish order the popu ation flock to their homes, bringing with them their cattle and household

in Manila On Saturday the Filipinos attempted to entrap the marines by landing a force from canoes behind them. The searchlights of the Petrel discovered the preparations to embark and a few shots from the Monaduock and Petrel's

guns spoiled the game. A proclamation of the Filipino secretary of war was found in one of the villages, giving glowing accounts of alleged Filipino victories, saying that 7 500 Americans had been killed and 15,000 wounded during the war.

The dead and wounded were brought t Manila to day. The officers who are returning said it is impossible for Gen. Wheaton to attempt a junction with Gen. Young on account of roads Prisoners say that Aguinaldo, with an army they estimated at 20,000, (probably a great exaggeration) is retiring towards Dagupan, intending to leave by railroad for the northwest. KENTUCKY'S ELECTION.

The Fight for the Governorship-Disputes in Seven Counties-Will be Renewed Before the State Board.

By Telegraph to the Morning Star. LOUISVILLE, KY., November 14 .-

The progress of the contests in vari ous counties in the State is the point in which interest in the fight for the governorship is centered. The deter mination of these disputes may swing in either direction the result of the face of the returns as they will be made to the State board of election commissioners. These contests involve over 4 000 votes in seven counies, as follows: Christian county, 95 votes, Taylor's

plurality in one precinct at Hopkinsville, which was to day thrown out by the county election officers. Johnson county, where the 878 plu rality for Taylor is being disputed by the Democrats on the ground of alleged irregularities.

Knox county, 1,835 plurality for laylor, in contest. Under a mandaory order of Judge Brown, at Barbourville, these returns have been certified by the county election of ficers, but the contest undoubtedly will be renewed before the State Mercer county, 286 plurality for

Taylor. The Democratic chairman from the election board has filed notice of contest in three large Republican precincts, alleging various rregularities. If these precincts should be thrown out Goebel will have a safe plurality in the county The county election board has adjourned, but the contest will come efore the State board.

Nelson county, 1,198 votes are beng contested by the Democrats on the ground that they were certified for W. P. Taylor instead of W. S. Taylor. The Republicans to-day filed suit at Bardstown against the county election commissioners and the elec tion officers in the thirteenth precinct involved, seeking to obtain a manda tory injunction to compel the election officers to certify these 1,198 votes for W. S. Taylor. This matter will also come before the State board.

The State board of election commiswill meet at Frankfort Decem ber 4th. Before it the points involved n these disputed ballots will be argued y the leading counsel of the State. The official count in Jefferson county s progressing satisfactorily, with little change in the unofficial figures. Five

wards have been completed. Thirty five cases of alleged violators of election laws came up before Judge Toney to day. Each of the prisoners was held in \$500.

A MUCHLY MARRIED MAN.

Arrested in Chicago - Alleged to Have Victimized Twenty-seven Women.

By Telegraph to the Morning Star. CHICAGO, November 14.- Jas. Mon oe, the alleged bigamist and swindler, who was arrested here Sunday, left for Rochester, N. Y., to day in custody of police officers of that city, to be tried on charges of swindling and bigamy Monroe waived extradition proceedings. Mrs. Mary J. Colthar, of Bunker Hill, Iti., whom it is said Monroe married and afterward de serted in Rochester after obtaining \$4,100 from her, identified Monroe to day. According to advices received by the police, Monroe's record as a bigamist bids fair to eclipse that of candy peddler Farnsworth, who was recently arrested, charged with hav ing forty two wives in different parts of the world. The police already have the names of twenty-six women, mostly in Eastern counties, all ofwhom, it is asserted, have been mar ried, and victimized by Monroe.

Saloon Keepers Arrested in Havana for Refusing to Serve Colored People. By Cable to the Morning Star.

HAVANA, Nov. 14.-Three Ameri eans-Hanson, King and Hollandhave each been sentenced to two months imprisonment and to pay a ine of \$65 and two-thirds of the costs of the proceedings, for placing over their saloon a sign reading: "We cater to white people only." Their place had been closed January last by order of the civil government because they had refused to serve a crowd of Cuban generals, but they had been allowed to open their saloon on promising to serve the public without dis-tinction of color. The defendants have appealed the case, the costs of which already amount to \$2,000. A letter has been published in a paper of this city, written by another colored Cuban general, complaining that the wner of a barber shop had refused to cut his hair on account of his color.

Bombardment of Kimberley Continues. More Troopships From England Have Arrived at Cape Town-Movements of General Buller.

By Cable to the Morning Star.

LONDON, November 15 .- There is no additional news regarding the progress of hostilities in South Africa this morn. ing, except a dispatch from Mafeking, forwarded by a runner, dated October 31st, which says that during the afternoon General Crouje, the Boer commander, sent an envoy to Colonel Baden Powell, under a flag of truce, to declare that he did not consider the Geneva convention authorized the flag of the Red Cross Society to fly from several buildings at once in the town. and that in his opinion the employment of natives against whites and the use of dynamite mines were both op-

posed to the rules of war. Colonel Baden-Powell replied that the Geneva convention did not stipulate as to the number of Red Cross stations permissible, and that the Boers were only required to respect the con vent, the hospital and the women's laager all of which were beyond the town limits The British commander also pointed out that mines were recognized adjuncts of civilized warfare. and that the defences of Pretoria were extensively mined. Moreover, he reminded General Cronje that the Boers had fired upon natives, burned their krasis and raided their cattle, and that the natives only defended their lives and property.

Dr-pit- three warnings from Colonel Baden Powell the Boers continued d-liberately to shell the hospital and the women's laager. The sending of the Boer envoy was regarded, the dispatch says as a mere pretext for penerating the British lines at Mafeking. According to the latest reports, the town is confident of its ability to hold out until the end of the campaign. So far as Kimberly is concerned, the mental condition of the British there may be judged from the fact that three weddings have taken place since the

LESS THAN 9,000,000 BALES.

Report of the Statistician of the Agricultural Department-Smallest Yield of Cotton for Many Years.

By Telegraph to the Morning Star. WASHINGTON D. C. Nov. 14.-The statistician of the Department of Agriculture, in a report sent to the press to-day, says that the fact that the preliminary official estimate of the cotton crop several times has turned out to be an underestimate has been due in every instance to a failure to keep pace with the rapid expansion of the productive area. When, therefore, the very large crop of last year made it manifest that the acresge had increased beyond both official and almost all commercial estimates, it was determined to institute a special and a very thorough investigation into the entire crop situation this year. The productive area last found to have been 25,000,000 acres and that for the present year to be 23,500,000 acres with a probability that the final returns will show the present acreage to have been below rather than above the amount stated The investigation discloses one of the

smallest average yields per acre in many years and in estimating the total crop at a maximum of 9,500,000 pales a substantial and most amp e alowance has been made for any tend ency to take a too pessimistic view of the situation, the actual indications at the present moment pointing to a crop of less than 9,000,000 bales. The re port further says: "In his capacity as a cotton expert to the United States commission, the statistician has had the preparation of the United States cotton exhibit for the Paris Exposition, and his duties in that connection have afforded him additional facilities for ascertaining the actual condition of the crop in every part of the country. The unimpeachable evidence that has come to him in that capacity is every way confirmatory of the most unfavorable official reports."
