The "Dominant Issue."

On the Democratic side, in the next national campaign will be unrelenting war with the "Trusts."
There are some powerful sleepers in Reading, Pa. One of them slept last night the other night that he un-dermined his jaw, and it took a doctor an hour or so to prize 'em back.
Some men are opposed to the grip of the politician. An Indiana man was \$100,000 damages from a prominent politician because he shook his head so hard that it dislocated his shoulder-blade.
The Detroit Free Press is having an interesting time these days. Gov. Proctor has instituted a \$250,000 libel suit against it, and in addition to that there are other suits aggregating \$245,000.

Miss Farrar, of St. Louis, promises to achieve a reputation as a martyr.

She is nineteen and was married to her fifth husband a few days ago. She began as an eel-eater at the age of thirteen.
After having been located in a hotel on different States, it is said that Mrs. Lease is going west in New York. She has in-duced a new political party which she will take with her.
A Long Island church has announced that poor people are just as welcome as rich people to graves in its graveyard. With such a cheerful announcement poor people in that con-gregation may have more encouragement to die.

Mr. Chamberlain says there can be no settlement with the Boers that does not provide for the recognition of British supremacy.

That's what everybody thought when Mr. Chamberlain forced the racket. The Boers saw the game too, and called Mr. Chamberlain a little sooner than he expected.
Mr. Dawson, a clerk in the office of General Miles, didn't approve of anything the President has done, and so in some letters he wrote to officials, and got bounced. Govern-ment clerks may have opinions not complimentary to their superiors in office, but the less expression they give to them, verbally or in writing, the more apt they are to hold on to their jobs.
Delaware isn't a good State to try to sneak game out of. The one who does it without a license is liable, if caught, to a fine of \$500 for each bird or animal. The other day an officer lit on ten rabbits put up in a box marked "eggs," which was a misdemeanor, too. With \$5,000 in a fine confronting him, and a misdemeanour, also, the rabbit-egg man had better skip.
