ASSOCIATED CHARITY

Y. M. C. A. Yesterday Afternoon.

OFFICERS ELECTED FOR 1900.

The Work of the Past Year Presented i Interesting Reports-The Plan for Dispensing Charity a Great Success.

The Associated Charities held it annual meeting at the Y. M. C. A. rooms yesterday afternoon at 3.30 o'clock. The president, Rev. C. S. Blackwell, D. D., presided, and the secretary, Miss Carrie L. Price, reorded the minutes.

The proceedings opened with prayer by the Rev. Robert Strange, D. D. Annual Reports.

The first business in order was the nearing of reports.

Mayor A. M. Waddell, of the board of directors, made the 1899 report for that body, giving an account of the principal matters disposed of. At the meeting of April 24th the resignation of P. B. Manning, Esq., treasurer of the association, was tendered and acsepted with regret, and Mr. J. H. Boatwright was elected as treasurer in his stead. At the meeting of October 9th, Rev. P. H. Hoge, D. D. president of the association, having resigned because of his removal to another State, the Rev. C. S. Blackwell, D. D., was elected president, and the Rev. A. D. McClure was elected a director in his stead. Col. Wadd- ll reported that the terms of the following directors expired with this meeting : Rev. Robert Strange, D. D., Rev. Father C. Dennen, Col. A. M. Waddell, and Messrs, J. H. Boatwright and W. G. MacRae. The report says:

"It will be seen from the report of the secretary that there was a small increase in the number of persons re-ceiving aid other than fuel, and an increase of about 20 per cent. of those reuted not to increasing pauperism, but to the almost upprecedented severity of the weather in February last. The board is happy in the belief that pau-perism is declining instead of increas-ing in this community, and that it will continue to decline."

Secretary's Report. The secretary, Miss Carrie L. Price read her report, from which the following is taken:

Number of superintendents, 15 number of visitors, about 30; total number of beneficiaries, 204. Number of wood tickets issued, 614. Chief causes of need, sickness, no male support, large families, lack or uncertainty of employment. Transportation has been furnished thirty-two persons, the railroad companies kindly giving charity rates.

The secretary makes the following

statement of the condition of the penny savings bank conducted by the Association: Balance January 1st, 1900, \$25.66; deposits from January 1st, to January 1st, 1900, \$9.14. Total footings, \$34.80. Amount withdrawn, \$18.17. Balance on deposit, January 1st, 1900, \$15.65 1st, 1900, \$16.63.

President's Report. The president made the following

"Yoke fellows in labors of love The duties of this honorable office have devolved upon the present incumben devolved upon the present incumbent but three months, having been elected only to fill out the unexpired term of Dr. P. H. Hoge. Five years' experience with the Associated Charities has settled it in the public mind of Wilmington that this is the best method yet devised for dealing with method yet devised for dealing with temporary distress, poverty and pauperism. This conviction finds expression: 1. In the generous and frequently unsolicited contributions for its support. 2 In the hearty co-operation of the citizens, generally regarding our suggestions—'not to give alms promise unusually at the door, but to refer promiscuously at the door, but to refer all cases to us for investigation.' 3. In the practical removal from our midst of professional beggars and impostors.

4. In the satisfaction of conscience experienced by many of the most charitably disposed, as they rest in the full assurance that our system reaches and relieves the real suffering in the city.

"The year has been characterized." "The year has been characterized by the coldest winter the community has experienced for fifty years, which tested our methods and taxed our resources, but the very trial brought friends and left us with the largest balance ever brought over. Indeed, so large a balance that we have re-lieved the community from a personal

canvass for funds to supply the current "We can see no need for change in any of our methods. We would only accentuate them by a more strenuous adherence to their details. Especially in our department of 'friendly visitation' do we need to intensify our tation' do we need to intensify our work. Our general work can only be lifted above an official and perfunctory performance by this personal touch of 'friendly visitation.' Not by proxy, but by perso, ality, is the world saved from its sin or helped in its poverty. We plead, therefore, for more 'friendly visitors,' whose hands God hath made tender to wipe away all tears.

"Our daster has promised that the poor shall ever be with us—for our good. Let us pray that He may also

good. Let us pray that He may also give us that grace of charity that shall not weary in well doing, or be content with past performances, for—

"Love ever lives beneath the cross, Ready for sacrifice or loss— Still proving by this seal divine That giving is love's only sign." "CALVIN S. BLACKWELL, "President."

Treasurer's Report. Mr. J. H. Boatwright, treasurer of the association, made the following report of the receipts and disbursements during 1899: Cash on hand Jan. 1, 1899. . . \$ 332 6. from New Hanover Co. 1,500 00 from the churches..... 215 43 from individuals...... 1,105 69

port of Miss Anna P. Savage, secre tary of the Hospital Circle of the King's Daughters, which conducted its work under the suspices of the Association. The report states that during the past year this branch of the work was hampered by the friction at the city hospital during the early part of the year. On that account the work of the Circle was temporarily suspended. The report, among other

things, says: "It is earnestly hoped that the effort now pending to secure a reasonable rate of board will prove successful, thus enabling the Circle to respond to any calls from the Associated Charities, the city physicians and other sealous workers for suffering humanity.

Punds for Charity Work. In view of the necessity of raising funds to carry on the work of the Associated Charities, Mr. J. C. Stevenson offered the following resolution, and the same was adopted:

"Warreas, This Association, repos-ing confidence in the charitable dispo-sition of this community; "Whereas, This estimate is sus-tained by the liberal and voluntary

contributions of the past;
"WHEREAS, The public have not been solicited by canvass for contributions for the present year; therefore, "Resolved, That we ask all charits bly disposed persons to send their con-

tributions voluntarily to the secretary direct." Directors Elected.

On motion the directors whose term expired with the meeting, as named above, were re elected for the current

At the request of Dr. Strange, Col. Waddell explained the act passed by the General Assembly authorizing the Mayor to arrest all vagrants and either compel them to leave the city or go to work on the chain gang. It was agreed that the enforcement of the act would keep tramps away from Wilmington, and Col. Waddell said, as Mayor, that he would certainly enforce it.

The meeting then adjourned. Officers Elected-

After the Association adjourned, the loard of directors met. Col. Roger Moore was called to the chair, and the following officers were elected to serve for the year 1900: President-Rev. C. S. Blackwell,

Vice President-Col. Roger Moore. Secretary-Miss Carrie L. Price. Treasurer-Mr. J. H. Boatwright. Executive Committee-Rev. Dr. C. . Blackwell, Rev. Dr. Robert Strange, Col. Roger Moore, Mr. J. C. Steven-

son, Mr. Philander Pearsall. It was announced that Sunday will be observed in the churches as "Charity Sunday," on which the custom prevails of taking up collections for the work of the association. The board then adjourned.

PROPOSED ANCHORAGE BASIN

Apropos of the concerted action that is now being exercised by the commercial bodies and citizens generally of Wilmington in the way of inducing Congress through Hon. Jno. D. Bellamy to make a substantial appropriation for an anchorage basin in the port of Wilmington, the following will be read with interest, which is furnished the STAR for publication through the courtesy of Mr. James Sprunt. The communication is in response to a request of Mr. Bellamy for full information on the subject of the contemplated improvement:

WILMINGTON, N. C., January 17. To the Honorable John D. Bellamy, House of Representatives, Washington, D. C .:

DEAR SIE-With further reference to the proposed anchorage basin in the port of Wilmington we respectfully ask that you will present the following outline of the scheme to the proper authorities, with a request that estimates be made in time for presentation for incorporation in the first river and harbor bill to be passed by the Con-

We believe that \$250,000 will be required for this work and other needed improvements in the dredging of har-bor shoals, but we respectfully urge in case the official estimates are not ready to be included in the first bill that you ask for \$100,000 for the anchorage basin, of which our port has pressing need; the entire scheme is as follows:
To dredge anchorage basin to depth of 28 feet, mean low water, and full width of river, from red buoy No. 30, opposite mouth of Greenfield Creek, to opposite mouth of Greenheid Creek, to opposite Queen street, Wilmington; and to dredge to 28 feet depth, mean low water, between channel and harbor lines, the two shoals on west side of the river, the first lying opposite Castle street and the second lying between Point Peter and Hilton Bridge.

We are, dear sir, yours faithfully, WM. E. WORTH, President Chamber of Commerce H. G. SMALLBONES,

President Produce Exchange. WM. A. JOHNSON. President Merchant's Association. THOMAS EVANS, Chr. Com. Navigation and Pilotage.

Young Negroes Fought.

Charlie Crawley, George Foy, Arthur Mulden and another negro youth -making in all four-engaged in a lively "scrap" yesterday afternoon at corner of Seventh and Castle streets, during the progress of which the Foy boy was stabbed with a knife in the hands of Crawley. They were soon in the arms of the law, however, and will be tried this morning at 10 o'clock before Justice Bornemann. Crawley and Foy were committed to jail, awaiting the investigation.

fier Propeller Became Dislocated and the Machinery "Ran Away With Itself." Damage Probably \$2,000.

The tug Blanche, of the Cape Fear Towing and Transportation Company, was badly disabled Wednesday night about 9 o'clock near the "Dram Tree" while proceeding up the river with the Norwegian barque F. C. Sieben and the brig Telos, which had to be anchored in the stream over night and brought up to the city yesterday morning.

The damage to the boat consists in a probable dislocation of her propeller wheel and shaft and a general "shaking up" and breaking of her machin ery in consequence of the rapid revolution incident to a sudden relief from the pull on the running gear. The damage will probably amount to \$2,000 and it will take something like a month to complete repairs. The Towing Company has marine insurance on the Blanche amounting to \$5,000.

Just how the accident occurred the cause of the same is yet unable to be determined, but the most plausible theory is that advanced by Capt. S. F. Craig, secretary of the company. He says that from the accounts given by Capt. L. J. Pepper and Engineer J.W. Copeland, who were in charge, it is probable that the propeller became desched from the shaft connecting with the engine and the machinery then "ran away" with itself, breaking the cast iron base to the engine, bending the piston rod and throwing the entire engine out of plumb, and causing other breakages in different parts. There was such a clashing in the engine room, the moment the propeller became detached that Engineer Copeland was unable to get into the engine room and he had to stop the machinery by shutting off the steam from the boiler by way of a valve in the boiler room. Capt. Craig ras waiting for the tug

with her tow at the foot of Market street, when the accident occurred, and perceiving by the lights that there was something wrong, he chartered the tug Buck and went to the Blanche's assistance. The Buck then towed the disabled tug up to Skinner's ship yard, where she will probably go on the ways to day, when the exact damage and cause of the accident can be more correctly ascertained.

"SIDE TRACKED" TO-NIGHT.

It Will Be the Offering at the Wilmington Opera House.

"Laugh and the world laughs with you" is an old and true saying, and if you want to realize a proof of it you are invited to pay a visit to the Opera House to-night. "Side Tracked" is said to be one of the most mirth-provoking comedy productions now before the public. The play abounds with the latest catchy music, bright specialities and ludicrous situations. A complete new outfit of stage effects and picturesque scenery issued this season, including the great railroad switch scene, with its manipula-

tions of the signal switch system, and

the transferring of freight cars, making them true to the title "Side Among the well known members of the company are Wilmington's old favorites E. H. O'Connor, Gertrude Barnes, Cecile Borraine, Marguerite Mayfield, Edgar R. Vance and others. Seats are now on sale.

The Hanover Seaside Club gave dance last night at VonKampen Hall, which was hugely enjoyed by the participants. Despite the down-pour o rain many couples attended.

The accustomed hospitality of the German sociables was in evidence and good cheer and harmony was the order of the evening. The music was furnished by the local

band and the participants of the dance

made merry until the wee sma' hours

of morn. A sumptuous repast was served at 12 o'clock and, when considered from a standpoint of delicious viands, was an elaborate feast.

The committee in charge was com posed of the following: Messrs. F Richter, D. McEachern, G. H. Heyer, M. G. Tiencken and G. H. Haar. The following is a partial list of those who attended: Mr. and Mrs. F. Richter, Mr. and Mrs. G. H. Heyer, Mr. and Mrs. M. C. Mahler, Mr. and Mrs. M. G. Tiencken, Mr. and Mrs. Chas. 'He Dragg'd his Eyebrow Bushes Down, and made A Snowy Penthouse for his H l low Eyes."

Tennyson's "Father Time" is not the only man of age, or man of youth, who "drags his eyebrow bushes down." We all observe these same dragged eyebrows on faces innumerable. A symptom of eye defect—an indication of glass need. Every symptom means a cause.

We adapt glasses to every defect of vision, and prescribe them in accordance with the teachings of the best authorities on the eye.
