The Morning Star

BY WILLIAM H. BERNARD.

WILMINGTON, N. C. THURSDAY MORNING, SEPT.

NATIONAL DEMOCRATIC TICKET

For President: WILLIAM J. BRYAN, of Nebraska. For Vice-President:

ADLAI E. STEVENSON, of Illinois. For Congress, Sixth District:

JOHN D. BELLAMY, of New Hanover.

THE PACIFIED FILIPINOS.

It is about time for the Philippines to be "pacified" again, for the election is coming on and it is quite important that the pacification job Judge Taft, of Ohio, at its head, to go to the islands and establish civil organizations, the members of which practicable to do so. The commission arrived there some time ago, but did not follow the course pursued by the commission which preceded it-by giving grand balls in Manila and trying to dance the people into submission to the United States. It didn't do that, for the ball scheme fizzled out before the second ball came off, and it showed its good sense by not trying the ball game, although these mercurial people are said to be passionately fond troops there is really need for more. of the giddy dance.

As far as the public knows the present commission hasn't done anything, for the simple reason that it couldn't. The reason why it couldn't is given in the following censored Associated Press dispatch from Manila, which being censored of course comes with official sanction. It is lengthy but as it covers the situation more completely than anything we have seen lately we give it entire, thus : We quote from the Washington Post, a non-partisan, expansion

"Manila, September 2.—The Filipinos seem incapable of realizing the scope and purpose of the legislative functions of the commission of peace. There is no possibility of separating the legislative from the executive branches of the government, and, therefore, the commission's announcement of its assumption of power yesterday has met with childish comment at the hands of the Spaniards and foreigners, who jealously sneer at the new arrangement, as they are apt to do at every beneficial innovation on the part of the United States authorities.

"The commission enters upon the governmental field under the following conditions: A majority of the slanders desire peace and the resumption of business under the Americans, but they are so cowed by a long series of murderous atrocities and destruction of property by their armed countrymen that they dare not actively show their feelings, especially because experience has taught them what such an expression of sentiment will bring upon them from the mercilessly revengeful rebels. A genuine reign of terror is exercised by insurgents and ladrones over peaceful country folk in order to collect the revenue and recruits their operations require, and widespread vengeance is wreaked in the vicinity of garrisoned towns.

"For example, the insurgent Gen. Cailles, in the province of Laguna, put to death the president and officeholders of the town of Bay, on Laguna de Bay, officials who had been in-stalled by the Americans, and gave orders that a similar fate should be meted out to other adherents of the American cause. He also ordered that all Filipino soldiers who sold their rifles to the Americans should

"Any change of policy involving the withdrawal of the United States troops without substituting for them to result in fearful retaliation at the expense of the friendlies. The approaching, re-patriation of the volunteers tends to influence the situation

unfavorably.
"In Northern Luzon the status quo is fairly well maintained and the people in that quarter are quiet and engaged in planting, except in the provinces of Nueva Ecija and Bulacan, where there has been a recent outburst of rebel and ladrone activity. But in Southern Luzon conditions are far from satisfactory. Life there is not safe outside the garrisoned towns. Travellers are subject to ambush by guerillas. Rarely does a day pass without an encounter between the United States troops and the insurgents or ladrones, resulting in casualties. There are 18,000 troops in that district, Gen. Bates commanding, and in three regiments over a third of and in three regiments over a third of the men are sick. The activity of the enemy increased last month. There

is evidence that the insurgents have

come into possession of new rifles and

that they wish to annihilate some small American garrison.

tinue virtually unchanged. The lack of troops in Samar prevents aggression. Negros, Romblon, Masbate, Sibuyan, Tablas and Bohol are tranquil, all desiring civil government. Mindanao is also tranquil, excepting the districts of Teagayan and Surigam, where occasional encounters with the Filipinos occur. The enemy's fightng force there is limited, but it has number of rifles. The surrenders, although they have noticeably decreased since May, continue.

"The experience of Northern Luzon shows that the American occupation of any locality tends to its pacification and well-being. An unsettled Ameri-can policy retards the investment of capital. Nevertheless the imports for the last quarter and a half were greater than during any equal period of the Spanish regime. No doubt the needs of the army of occupation are respon-sible for a very considerable fraction of the present commerce. The inter-nal revenue collections are a third greater than those made by Spain. This is due to an honest system of accounts, to a lack of favoritism, and to mpartial enforcement of the law.

"The military authorities will turn over \$6,000,000 (Mexican) to the com mittee, and this will probably be expended in public improvements, noably in harbor developments, the need of which is to-day greatly hamp-

ering the shipping industry.
"The commission will first organize municipalities in the provinces, notably in Pampanga province. Subsequently it will turn its attention to need reforms in the civil and criminal codes, passing in due time to other features of its instructions, with the idea of establishing a central civil government during the next eighteen

"Twelve Americans, including two captains and two lieutenants, have been killed during the past two weeks. The official reports of the encounters in which these casualties occurred are

This repeats the old sterotyped rot that the masses of the people are loyal, that they are friendly to the Americans but are afraid to show their friendship though terror of the armed "ladrones" and "brigands" who wreak vengeance upon them if they do, and although we have 65,000 troops on the islands, located in 275 garrisons, they are not able to protect their friends from the vengeance of these hostile bands. This comes through a semi-official report, but does not tally with other reports which come to us from unofficial sources, and represent the people as a body as treacherous, pretending friendship while ever ready should at least be nearing comple- | to shoot our soldiers in the back at tion as the election approaches. the first opportunity and always Realizing the importance of this secretly aiding the "insurgents." Mr. McKinley some time ago ap- supplying them with food and other pointed another commission, with | necessaries and collecting money to aid them. This is done by secret governments where they thought it profess friendship to the United States, and in the city of Manila right under the eyes of the General in command. It is even said that the Filipinos employed as spies spy upon our troops and supply the enemy with much valuable informa-

> But without any testimony of that kind there is enough in this "censored" dispatch to show that the work of pacification has hardly begun, and that instead of fewer These people have no confidence in Americans, but they showed that before when the other commission which tried the big ball scheme was

> If 65,000 troops are not enough to pacify those people when the masses of them as alleged are friendly and the trouble comes only from the "guerillas" and "brigands" how are we going to get along with less and what will we do to supply the places of those whose terms expired in July? Will we keep them there by appeals and other methods as Gen. Otis did the volunteers whose terms had expired while he was in command? Doesn't it look as if we had made a queer mess of it when after two years and a quarter of occupation the lives of people suspected of sympathy with the United States are not safe when outside of the protection of American guns? And these are the islands that were "pacified" more than twelve months ago.

Contradicting the published report that Senator Jones, of Nevada, will support McKinley, Mr. H. M. Gorham, a relative of the Senator, writes that he is in full accord with the Democratic party on every question but the tariff, and as he regards that as practically settled, for the present at least, he will heartily support Bryan and Stevenson. Jones, like Stewart, was once a Republican, but unlike Stewart he refuses to go back to the wallow.

His Life Was Saved.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from a frightful death. In telling of it he says: "I was taken with Typhoid Fever, that ran into Pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of Consumption, when I heard of Dr. King's New Discovery. One bottle gave great am well and strong. I can't say too much in its praise." This marvellous medicine is the surest and quickest cure in the world for all Throat and Lung Trouble. Regular size 50 cents and \$1.00. Trial bottles 10 cents at R.

R. BELLAMY'S drug store.

FOR Over Fifty Years MRS. WINSLOW'S SOOTHING SYRUP MRS. WIRELOW'S SOOTHING SYRUP has been used for over fifty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrheea. It will relieve the poor little sufferer immediately. Sold by druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other.

HOW CAN THEY DO IT?

We take it for granted that the men in this State now called "Mc-Kinley Democrats," who voted for white supremacy at the August election, were sincere and really desired white supremacy. Not a single one of them, we take it, would admit that he is in favor of negroes holding office in North Carolina, and yet, because the Democratic platform does not meet his approbation in every particular, he rejects that, opposes its candidates, accepts the Republican platform and supports its candidates. That party believes in putting negroes in office (in the South, but not in the North), and candidate McKinley, for whom they say they will vote and for whom they ask the white voters of North Carolina to vote, has appointed scores of negroes to office in this and other Southern States, and sometimes in the face of the protests of nearly every white person in the community.

These, too, were mainly offices in which the negroes came into direct contact with the white people. With what show of consistency, then, can a man who professes to believe in white supremacy, and votes for it, support a party which declares that politically the negro is the equal of the white man, vote to perpetuate it in power and to elect to office the man who has appointed scores of negroes to office in spite of the protests of white people? The only possible excuse for such self-contradiction would be a pledge by the candidate voted for that he would cease to appoint negroes to office, a pledge, it is needless to say, that Mr. McKinley would not make if he were asked to do so, and which he could not make without virtually repudiating the declarations of the

party to which he belongs. When a so-called "McKinley Democrat" casts his vote for Mc-Kinley he substantially says to the Republican party: "Give us legislation that will put money in my pocket and you can put all the nengroes you want to in office in North Carolina. When it comes to black, had evidently engaged in a battle to the death. The king sprang deciding between the profits I make and white supremacy, I vote for the open mouth, in which it landed fairly. profits and let white supremacy go The black was by luck given the upper by the board. As between dollars in things in such battles, and began the my pocket and negroes in office, I'll take the dollars, and let the negroes go in, however repugnant that may be to other white people."

EXIT HOLTON, ENTER PRITCH-

A Raleigh dispatch informs us that at a meeting of the Republican State Executive Committee held in Raleigh, Monday, Chairman Holton tendered his resignation, "to attend to official business," and that at his suggestion Senator Pritchard was chosen his successor.

There is nothing surprising in Holton's resignation, for the probabilities are that he was given to understand that his resignation would be acceptable if he hadn't discovered that by the loud complaint at what was called his "bungling management" in the last campaign, to which was attributed the overwhelming defeat of the fusionists. And then, perhaps, it was thought that Senator Pritchard would have a stronger pull on Hanna's barrel than the discredited Holton, weighted down with a couple of overwhelming defeats, and they were probably

The dispatch further announces that "there was a strong sentiment manifested in the committee in favor of giving the business men of the State who are in sympathy with. the policies of the McKinley administration the right of way in several Congressional districts." This is cute, so to speak, and is virtually a bribe, a bid to so called "McKinley Democrats" who may hanker for congressional honors to step in with the assurance of Republican backing. It will be noted that they say "several districts" which means that they will invite those "business men" who may be in politics for business, to try their luck in the districts which are Democratic or in their estimation doubtful, while they will reserve the districts which they consider safely

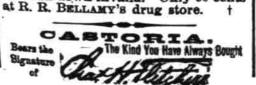

A short one c'n eat just ez much."

Parablican for some of the Republi
Philadelphia Telegraph. can patriots.

It remains to be seen what socalled Democratic "business man" will bite at this bait. The "business man" that does will be so evidently on "business" intent, that he will find it uphill tramping among people who put their own estimate on men who are so easily tempted and bribed.

'Sending coal to Newcastle" an antiquated phrase now, in the sense in which it was used. We are now shipping coal to that town.

No Right to Ugliness. The woman who is lovely in face, form and temper will always have friends, but one who would be attractive must keep her health. If she is weak, sickly and all run down, she will be nervous and irritable. If she has constipation or kidney trouble, her impure blood will cause pimples. blotches, skin eruptions and a wretched complexion. Electric Bitters is the best medicine in the world to regulate the stomach, liver and kidneys and to purify the blood. It gives strong nerves, bright eyes, smooth, velvety skin, rich complexion. It will make a good-looking, charming woman of a run-down invalid. Only 50 cents

SPIRITS TURPENTINE.

- Greenville Reflector: On last Friday night the store of J. J. Satter hwaite & Bro., at Pactolus, was broken into by robbers. The entrance was made by prizing open the back door. The robbers got no money, and only about \$20 worth of goods, consisting mainly of liquor, pistols and shoes, has been missed.

- Kinston Free Press: Mr. Hoge Irvine brought a party of negro stem mers from Danville, Va., to work in his stemmery. After paying their way here he was very much chagrined to find that 14 of them had skipped. He went over to Greenville in search of his stemming tourists and returned last night with eight of them, as happy as distillery hogs and in nowise ashamed of seeking to leave him in

- Salisbury Sun: At Mr. Albert Miller's, in Davie county, squirrels are very plentiful. Mr. Miller allows them to go into his corn cribs whenever they please and they have eaten about 10 bushels of his corn this year. He counted 15 making for his crib one day and got after them and killed sev-eral, but he usually lets them have their way and one can see them in his yard almost any time. Mr. Miller seems very much attached to his wild ts and he hardly ever kills any of

- Clarkton Express: Mr. Henry Cromartie, of Garland, died last week after a long and painful illness. A horrible double murder was perpetrated in a section called Crusoe, in Columbus county, last Wednesday. Iwo men by the name of Register, father and son, and a man by the name of Lewis were surveying land. A dispute arose between them, when Lewis whipped out his knife and cut young Register to death. Where-upon Register, senior, rushed up with a limb, striking Lewis to the earth and killing him. Thus, according to a spectator, was presented the ghastly sight of two slaughtered men lying within a few feet of each other. - Asheville Citizen: Only a few

days ago Benj. M. Collins, keeper of the Swannanoa lodge on the Biltmore estate, while going about his work on the big farm discovered what at once struck him as being the longest snake he had ever seen, heard or read about. More than this, its color did not mate exactly. Mr. Collins knows snakes when he sees them, but in this instance he rubbed his eyes and looked again to be sure that he was making no mistake. The second look only confirmed him in his belief and he proceeded to make it hot for the snake. When the reptile had been dispatched Mr. Collins made a closer inspection, and was startled to find that what he supposed was one snake was really two. The reptiles, one a king snake and the other a at the black, which received it with hand, reversing the usual order of task of swallowing its enemy. It had partially succeded, when Mr. Collins appeared and put an end to the strug gle. When killed the king snake's head was fitted in the black's mouth as tightly as a lady's hand in a new

The Peculiar Toucan. The most amusing thing about that him preparing to roost, and he began quite early, while other birds were still wide awake. The first thing was to carefully cock up-for it was a slow and cautious proceeding-his absurd little scut of a tail, which was only about three or four inches long. This must in some way have affected his balance, for he never moved on the perch after the tail had been laid carefully back. Then, later in the evening, he gently turned the huge, unwieldy bill around by degrees until it. too, was laid along his back and buried in feathers in the usual bird fashion. By the way, I have always wonder-

ed how and why the myth arose that birds sleep with their heads under their wings. A moment's thought or observation would show that it is quite as impossible a feat for a bird as for a human being.

However, the toucan's sleeping arrangements resulted in producing an oval mass of feathers supported on one leg, looking as unlike a bird as it is possible to imagine. When he was ruthlessly awakened by a sudden poke or noise, which, I grieve to state, was often done-in my absence, needless to say-I heard that he invariably tumbled down in a sprawling heap, being unable to adjust the balance required by the popderous bill all in a moment.

His Roundabout Way. A man was going home to his wife and family. It was growing dark. His road from the station was a lonely one, and he was getting along as fast as he could when he suddenly suspected that a man behind him was following him purposely. The faster he went the faster the man went until they came to a graveyard.

"Now," he said to himself, "I'll find if he's after me." And he entered the The man followed him. Vague visions offrevolvers and garroters grew upon him. He made a detour of a splendid

mausoleum. Still the man was after him, round and round. At last he turned and faced the fellow and asked: "What the dickens do you want? What are you following

"Well, sir, do you always go home like this? I am going up to Mr. Brown's house with a parcel, and the the ration told me that if T'd follow you I should find the place, as home at all tonight?"-Columbian.

ABBEYS MEDICAL TALKS

Headaches

are Nature's warning. Something is wrong with the digestion. Constipation is present. There are many reasons for this condition, but there is only one absolute, immediate cure-Abbey's Salt. To cure headache effectively the cause must be removed. The system must be cleaned out. The hard, discarded matter in the bowels must be disposed of. ABBEY'S EFFERVESCENT SALT does this. It does it mildly and thoroughly. It relieves the pressure of the blood upon the brain. This cures the headache. It keeps the bowels and liver active. This gives good digestion and good blood; and prevents other headaches, The regular use of Abbey's Salt will put you on the road to good health and will keep you there.

If a bottle of Abbey's Salt prepents only one attack of headache, its cost is repaid with interest.

Sold by most druggists, or sent by mail. 25c., 50c. and \$1 per bottle.

COTTON MARKETS.

or Telegraph to the Morning Star.

NEW YORK, September 5.-It was

another trying day for the bears in all cotton markets, though notably in Liverpool and New York. The bulls were merciless in their attacks upon the shorts and eventually drove the latter into a frenzy. Nearly every thing favored a continuance of the sensational bull movement started yesterday morning here and on Saturday in the English market. The cables were amazingly strong. There were buying orders in great numbers from all quarters, the print cloth and cotton goods situation changed from one of gloom to an exceptionally bright outlook, while Southern spot markets were reported to be thriving upon heavy demands from exporters. At the time of our open ing Liverpool was five to nine points higher, or far above an expected fair response to yesterday's great improvement there. This at once caused de moralization in the bear ranks and in duced leading bulls to aggressively operate on the long side. First sales showed an advance of five to thirteen points, with the market officially re ported steady. In the face of a tem porary reaction in Liverpool our market continued to move in an upward direction during the first hour. Near mid day the retreat of the bears developed into a complete rout and the demand from this branch of trade, in connection with the investment buying, gave the market an exceedingly strong undertone. After a brief period of inactivity the market once more took an upward direction in the early afternoon and soon surpassed the high point of the morning. Prices advanced with remarkable ease, there being practical ly no opposition offered and profit taking being light. The announcement that 500,000 pieces of print cloths had been sold in Fall River and that the cloth market situation was the brightest in many weeks, together with the announcement that he American spinners were compet- Cavalier, (Br) 234 tons, Dean, J T ing for supplies with the foreign manufacturing element in Southern markets, added to the woes of oversold operators and act d as a fresh incentive to a higher market. It was known that Manchester spinners were in desperate straits for cotton, that Liverpool stocks were at an extraordinary low mark, and that ocean freight room was abnormally scarce at all Southern ports, thus making it al-

most impossible to replenish depleted

stores of European spinners readily.

The market was very feverish during the last half hour with profit taking

prominent though not sufficiently heavy to undermine the market. The

public was a conspicuous buyer all the afternoon, on the belief that Liverpool

would show further improvement to-

morrow. The close was firm at a net rise of thirty-one to thirty-six points.
