JNO. F. GARRELL & CO.

Another New and Important Industry in Sight for the City of Wilmington.

EXTENSIVE CATTLE BUSINESS

And Fertilizer Factory Will Be Established in Cape Fear Township by Incorporated Pirm--Application Made for a Charter.

News of the establishment of another practically new and an important enterprise for Wilmington came to the ears of the public yesterday by the application through Messrs. Russell & Gore for a charter for "J. F. Garrell & Co ." who have hitherto conducted two leading meat markets in the city and extensive fertilizer works at Sans Souci farm in Cape Fear township.

The capital stock of the new concera will be \$25,000 divided into 250 shares of \$100 each. The right is reserved to increase the stock at any time to \$100,000. The incorporators are Mr. J. F. Garrell, of this city Mr. Jeff D. Smith, of Charlotte, and Mrs. Jennie M. Garrell. The principal stockholders besides the incorporators are Messrs. Louis H. Skinner and J. J. Hopkins.

The principal place of business will be at the Sans Souci plantation in Cape Fear township about two miles from the city on Smith's Creek.

The business of the company will be the purchase and sale of live stock, wholesale or retail, either dressed or on foot with the privilege of manufacturing such butcher pen products as bone, blood, hoofs and the like into commercial fertilizers.

Mr. J. F. Garrell, the active member of the firm, said last night in an interview with a STAR representative. that the present fertilizer plant and butcher yards of the firm will be greatly enlarged and the business in creased. A cold storage plant will be installed with a capacity of one hundred head of dressed cattle and new the manufacture of fertilizers.

.The butcher yards will be conducted on the same plan as the larger industries, such as those of Armour and Swift in the West. BASE BALL PROSPECTS.

Manager Ashenback's Visit to the State Pails to Enthuse the Cape Fear Sporting Element.

Disappointment is expressed by many of the local base ball enthusiasts at the absence of Wilmington from the list of North Carolina cities that will go to make up the Virginia-Carolina league next season. There are a few of the more optimistic admirers of the national sport who yet believe that Wilmington will get in on the ground floor when the final meeting is held in Norfolk on next Wednesday night, but the odds appear to be in favor of the man who predicted early in the game after glancing over the profit and loss page of the ledger of the Wilmington Athletic Association at the close of last year, that it would be too costly an experiment to again confront this season. Manager Ashenback, of Newport News, who is now in the State in the nterest of the proposed league, has already granted a franchise to the Raleigh Athletic Club and spent yesteams will stay in the league until the \$1,000 is required for the maintenance

terday in Durham, interesting the "fanatics" there. He will likely not visit Wilmington at all unless he gets assurance to day or early next week that the city wants a franchise. A forfeit of \$500 is required that the finish, and besides this amount about of a successful team. Richmond and Raleigh have each organized a stock company with a capital of \$1,500, and it's up to Wilmington to do the same if she is to have any professional ball

POSSIBLE TELEPONE CONNECTION.

Believed That Goldsboro-Wilmington Line Will Be Completed Soon.

It is learned that upon the occasion of his visit to the city a few days ago. State Telephone and Telegraph Com. pany, intimated that if the people of Wilmington would manifest the proper spirit towards a liberal support of the project, it would not be a great while before his company would give the city a connection with the Raleigh and Durham system at Goldsboro. The line was originally planned to connect in this way and was extended as far in that direction as Rocky Point. President Carr will return to the city during the coming week and it is expected at that time that he will have an interesting proposition to make to the Chamber of Commerce and other

commercial organizations. The Chamber of Commerce already has a committee at work on long distance telephone service from the Bell people to connect at Charlotte and the connecting link to Goldsboro would give the city valuable communication with the remainder of the State.

LOGAL MEASURES PROPOSED

Bill to Allow Payment of Salary to Chairman of County Commissioners and to Sell Old Court House-The Governor's Salary Raised.

[Special Star Telegram.]

RALEIGH, R. C., Jan. 11.-The bill of most importance to the people of the lower Cape Fear introduced in the House of Representatives to day was by Carlton, of Duplin, to prevent obstruction to the passage of fish in Cape Fear and Northeast rivers, by the use of stationary nets. It is claimed that these nets threaten to drive out small fishermen and ultimately seriously curtail the supply of fish in the upper channels. The bill is not opposed by New Hanover's

representatives. Bill by Rountree, to prohibit the making of artificial islands in Myrtle Grove Sound, for laying off fishery claims.

Bill by Rountree, to allow Commis sioners of New Hanover to pay the chairman a stated salary, as practiced now in Mecklenburg and other counties. Also, by Rountree, a bill to empower New Hanover Commissioners to sell the old court house.

By Daughteridge, bill to allow Rocky Mount to issue bonds for electric lights and sewerage. The bill to repeal Guilford County

Dispensary law, which passed the Senate yesterday, passed the House to day. The bill to amend the Code by making the Governor's Isalary four thousand dollars, passed readings in the Senate and was referred to a special

Reapportionment May Change the Sixth District-Indifferent As to the Dockery Contest.

[Special to Raleigh Post.] So far as the figures of North Caro-

lina have been examined here as to increases in a general way by reason of the reapportionment, the Piedmont district shows the greatest increase, and it may be that a new district can be carved out of this section. Another proposition that has been advanced is to form a new district with Mecklenburg county as the backbone. This county can be taken from Con-gressman Bellamy's district and still eave him with sufficient population to form a district. As now constituted under the census of 1900 the Sixth disrict has a population of 248,000. fecklenburg county has a population of 58,000. Taken out, the district would have a population of 193,000, bout the number required under the

new apportionment bill. Chairman Weaver has been impor tuned and button-holed for the past week to call his committee together so that a report could be made to the House in the Dockery-Bellamy contest. So far he is unmoved or indifferent. It is certain that should the committee assemble and a vote be taken, the majority report would be in favor of Bellamy. There seems no present prospect that the House will have an opportunity to vote on the case this Congress. During the last few days of this Congress Mr. Weaver may report the case, so that both the contestant and contestee may receive \$2,000 each, the usual sum allowed each party y Congress for expenses in contested

lection cases. STORE BURNED IN ROBESON.
