Fayetteville's Anti-Dispensary Bill Was Defeated in the House.

THE VOTE STOOD 50 TO 48

Bills Concerning Wilmington Passed Morton's Bill to Protect Millers and Merchants Tabled-The Impeached Judges.

RALEIGH, N. C., February 28.—The Superintendent of Public Instruction has prepared for members of the General Assembly a statement showing the length of school terms in the various counties in the State. It shows that there are twenty-eight which have as many as four months school. Of these New Hanover leads with twinty-eight and one half weeks and Durham is a close second with twenty seven and one half. The county with the shortest time is Stanley which has only eight weeks. Then there are three others—Yancey, Tyrell and Montgomery—with only nine weeks. The statement was prepared so that the members of the Assembly could vote more intelligently on the proposition to provide that in the distribution of State school appropriation the funds of those counties having less than four months schoo ishall be supplemented so as to bring the schools up to that limit and the remainder be distributed ac-

cording to the school population. The Committee on Education has decided to recommend that the seven colored normal schools of the State receiving State aid be consolidated into four. The plan is agreeable to

he leading negro educators. The committee on Superior Courts and court districts is having consider ble difficulty in the preparation of an acceptable report. The principal ob jection to the report which was re ferred to in yesterday's STAR telegram, is that it is unfair to the Eastern counties Senator Ward, Representatives Shannonhouse and Patterson, of Robe son, were the most vigorous opponents of the bill yesterday in the joint committee meeting, Mr. Patterson charged that the districts had been created for judges. The meeting to night promises to be a lively one.

It is claimed by a number of wellinformed members who are opposed to redistricting the State for Representa tives in Congress that they still have a good prospects of defeating the movement. The vote for re districting last night was 45 to 43, and there being such a wide difference of opinion in regard to the best arrangement of the new districts so as to assure their Democracy, there is a probability that the disagreement on this point will bring about a sort of reaction in opposition to redistricting at all.

**New City Charter Without** 

PETITIONS BEING SIGNED

Advices from Raleigh to Friends of th Measure Are to Present Strong Endorsement of Bill as Originally Passed-Morton's View.

It developed yesterday that strong local pressure would be brought to bear upon the State Senate to pass the new city charter, sent up from the House, without amendment submitting it to a vote of the people of the city or without other change whatever. it being the object of those who have interested themselves in this respect to secure its adoption just as it passed the House, and as it was introduced battle of Great Bends, in 1819; to perby Mr. Willard, who it is contended mit citizens of Southport to make by the other side submitted the docutitle to certain lands for the U. S. ment to the Legislature as officially sent him by the Aldermen, while personally favoring its adoption at the polls by the people and with the understanding that such amendment would be made to the bill by Mr Mor-

ton in the Senate The form of the local fight is by petitions which were circulated upon telegraphic advices from Raleigh yesterday and which were signed as fol-

"To the Senate of North Carolina: "The undersigned citizens of Wilmington earnestly petition that your honorable body pass the charter for the City of Wilmington in the form in which it passed the lower House without amendment or change. The char ter has received the most careful cons deration of the City Attorney and Board of Aldermen and is the development of practical knowledge of our municipal needs. We are informed that amendments have been introduced and others are in contemplation, which, if adopted, will seriously im pair the harmony of the whole and lower distinctively the effective force and value of the charter."

It is learned that not only will the etitions, of which there are four in Daughters will circulate them for the Lippman & Co., New York. signature of ladies, it bling contemplated, as stated by one of the promoters yesterday that one of the amendments referred to will tend to continue the practice of illegal liquor selling and that another will be the abrogation or modification from the new city charter of the provision restricting the renting or lease of buildings to immoral persons for immoral purposes, which provision is a copy of an Atlanta law on this point, and one of the best yet devised. Upon these representations of course many signatures were received to all the petitions vesterday, but it was learned that other petitions are being framed controverting these contentions, and explaining

why they are said to be unreasonable. In response to a telegram sent by the STAR to State Senator Morton last night asking if there were other contemplated amendments to the charter.

he telegraphed as follows: "There are a number of provisions which would need amendment if understood by people, but the only one I contemplate is to submit the charter to a vote of the people. The committee will consider the bill Tuesday after noon, and I will be glad to hear both sides of the question."

The fight is one which will be watched with interest, and is one which for the present promises to overshadow even the municipal cam-

FIFTH WARD VOTERS.

Meeting Last Night at Which Candidates for Aldermen Were Nominated-Indulged in General Discussion.

A well attended meeting of the Fifth Ward Democratic Club was held last night at the Hook and Ladder hall, near corner of Fifth and Castle streets. Mr. C. C. Parker, president of the club, yielded the chair for the meeting to Mr. Jas. H. Burrrus and Mr. B. F. King was made secretary.

The object of the meeting was stated by the president as that of ascertaining the concensus of opinion as to proper persons to be voted for at the primary March 18th, but it was stated in the beginning that persons participating in the meeting were not bound by its action; it was simply a gathering of voters to ascertain the crystalization of sentiment upon the various names proposed.

Nominations were then received with the following result, the persons named having received the number of votes indicated: C. C. Parker, 35; J. M. Branch, 26; W. E. Mann, 29; M. Marshburn, 27: M. G. Miss Lord will give a favor the society and the causes which brought it into existence, will be read with interest:

"It is a matter of common knowledge that the laws forbidding the sale of liquor on Sunday, selling liquor to minors, and gambling are regularly violated in Wilmington, and as these laws are recognized as both just and necessary for the moral welfare of our city, a number of citizens, unwilling that said laws should be longer violated with impunity, have organized a society to be known as the 'Wilmington Law and Order League' for the
