There will be the usual Military Parade and Music by Second Regiment Band. Ladies Invited to Contribute Flowers—Other Notes.

The Ladies of Cape Fear Chapter, Daughters of the Confederacy have completed all arrangements for the observance of Memorial Day on Friday of this week, May 10th, and the celebration this year promises to be more elaborate and appropriate than usual.

There will be the usual parade and all the military organizations and others participating will assemble at the W. L. I. armory at 8:30 o'clock P. M., on the afternoon of the observance and will proceed under direction of Col. A. M. Waddell, chief marshal, to Oakdale Cemetery, assembling at the lodge, from whence they will march in the following order:

Second Regiment Band.
W. L. I., Naval Reserves and other military organizations.
Cape Fear Camp of Veterans.
Orator and Chaplain.
Daughters of Confederacy.
Sons of Veterans.
Schools of the city.

The order of exercises will be a dirge by the Rev. Dr. A. G. Voigt. Then will come the annual oration by Capt. C. B. Denson, of Raleigh, followed by the calling of the Roll of Honor. The hymn: "Soldiers of Christ Arise" and the doxology will then be sung and after "Nearer My God to Thee," the benediction will be pronounced closing the services of the day.

Col. Waddell, the chief marshal, has upon his staff, as aides, Capt. Jesse Wilder, Lieut. Jno. A. Everett, Messrs. O. M. Fillyaw and P. H. Hayden.

The ladies of Wilmington are requested to contribute flowers for the decoration of graves at the cemetery and to bring them to the W. L. I. armory at 9:30 o'clock Friday morning, where a committee of ladies will be present to receive them.

Members of Cape Fear Chapter, Daughters of the Confederacy, are requested to meet at the Lodge at the cemetery promptly at 8 o'clock on May 9th for memorial work.

From Wilmington Capt. Denson, the orator, will go direct to Washington, D. C., having been commissioned by Governor Aycock as a delegate to the National Convention of Charities and Corrections to be held at the Capital about that time. Capt. Denson is an honored survivor of the Lost Cause and an orator of great power. The ladies are very fortunate in having him with them upon this occasion.

Dr. Green graduated with honor last May and won by his standing there an appointment in the University of Maryland Hospital, where he has been under Dr. Tiffany since his graduation. The news of his ability and success of Dr. Green in his chosen profession will be received here by his many friends with great pleasure.

LOCAL DOTS.

The Board of Aldermen meet in special session to night.

In the article which appeared in the STAR yesterday, headed "Crooked Cross Ties," 1897 should have been 1887, as the context indicates.

Mr. J. E. Davis has been appointed registrar for Fourth ward in the bond election, in place of Mr. E. W. Hewlett, who found it inconvenient to serve.

Undertaker W. E. Yopp yesterday evening sent to Rocky Point a casket for the burial of Mr. J. D. Mahn, a young man aged 18 years, who died there yesterday morning.

Capt. Jno. H. Hanby, its genial proprietor, announces that the Atlantic View Hotel, Wrightsville Sound, will be open to guests May 18th; also, that he has some convenient cottages on the grounds for rent to families for the season.

In one of the STAR's Fayetteville telegrams yesterday morning it was stated that "Senator McNeill received but little over a hundred votes." It should have been "white" votes, as his aggregate vote was much larger than that figure.

There was no meeting of the Woman's Christian Temperance Union yesterday afternoon on account of the inclement weather and the slight illness of the president, Mrs. W. P. Oldham. The next meeting will be this afternoon week, when it is hoped there will be a large attendance.

WILMINGTON PRODUCE EXCHANGE.

Meeting of Board of Managers Yesterday Morning—Ten New Members.

A number of routine matters were transacted at the regular monthly meeting of the Board of Managers of the Produce Exchange yesterday morning, the president, Mr. P. Pearl, presiding, and a goodly number of members being in attendance.

An arbitration committee was elected as follows: C. W. Worth, H. C. McQueen, E. F. Hall, Jas. H. Chabourn and J. A. Springer. Nomination of other standing committees was deferred.

Seven new members were elected and three were reinstated, making the total membership now number 87. There are also several other members in view and it is expected at the next meeting to have the number considerably increased above 40.

The membership dues were fixed at \$50 per year.

Col. Cantwell, the veteran secretary of the exchange, having served in that capacity for twenty-five years, was renominated and will be re-elected. Market reports by wire on coffee were ordered.

THE EVENING DISPATCH.

Is Out in Enlarged Form—A Simplex Typesetting Machine Installed.

The *Dispatch* appeared yesterday in an enlarged form and is now a seven column folio. It was filled with all sorts of news and made a most creditable appearance. The proprietor announces that he has added to his equipment a Simplex type-setting machine, which will materially increase his facilities for getting out the paper at an earlier hour. The *Dispatch* says:

"We are much gratified over our prosperity in the past and feel that we have received an liberal patronage as could be expected. With greatly improved facilities we expect to give better service in every particular and earnestly solicit your continued patronage."

Our evening contemporary has the best wishes of THE MORNING STAR for its continued success. In the language of Rip Van Winkle: "May you live long and prosper."

THE BASE BALL NEWS.

Richmond	5	13	.278

Ashenback says the weather Gods were extremely good to Wilmington yesterday, but everything Ashenback says about base ball doesn't go, as the public doubtless knows, or at least that part of the populace which attends the games at the park each afternoon.

Ashenback was sure of a victory for the Shipbuilders and Manager Paschua was just as confident for the Giants, who took the first game day before yesterday. But it rained, and, of course, nobody knows just how the lots would have fallen. The teams and a few—perhaps one hundred—of the more "faithful" went out to the park and between showers it looked like there was to be a game, but there wasn't.

Both teams were in good form and a contest royal would have been witnessed. All the energy and fast playing that would have gone into yesterday's game, however, has been stored away and will be injected into the team work to-day. For that reason it behooves everybody to be on hand. The Wilmington team deserves a much better patronage than it is receiving and they also deserve more encouragement from the bleacherites and grand stand while the game is in progress. To contempt Ashenback's "words of encouragement to his team," every member of a Wilmington attendance should convert himself into a rooster of the "deepest die" and get at 'em.

A Double-Header To-Day.

This afternoon there will be a double barreled game, at which only one admission will be charged. The only one of Ashenback's bargain days, and at least 1,000 people should see the contest. The first game will be called at 2 o'clock, and Foreman and Thacker will compose the battery for the home team. The second game will be called promptly at 4 o'clock as usual. Allen and Thacker will do the "grand act" for the Giants. Ashenback will have two strong batteries, and both games will be a No. 1. Ashenback is after another twirler who will come from the National League. It is expected that he may possibly arrive to-day and go in one of the games this afternoon.

The Norfolk team will be in tomorrow, and there are even odds that Wilmington will take two of the series of three games with that team. The question now is to take both of the games from Newport News this afternoon.

Seaburg, a fast left fielder of Wilmington, Pa., has been signed by Manager Paschua, and is expected this evening or to-morrow morning. The best of the three men now signed for that position will get the permanent job.

Sewerage Promoters Retain Home.
Col. J. E. Lewis, Maj. Chauncey Ives and Mr. Kiser, the gentlemen from Philadelphia who have been in Wilmington for nearly six weeks in connection with the proposed system of sewerage, left on the northbound train for Philadelphia last evening.

The STAR learns, however, that an effort will be made to induce the gentlemen to return and take up the enterprise, if the Board of Aldermen shall approve the plans at its meeting to-night.

The Rev. Dr. Calvin S. Blackwell has accepted invitations to deliver the commencement oration for the Salem High School, Sampson county, on May 24th and for the Ashpole Institute, Robeson county, on May 30th.

THE NEW REVENUE LAW.

Opinion of Leading Lawyers in That Measure is Unconstitutional on Account of Manner of Its Passage.

The STAR announces upon very good authority that able counsel have been employed by parties in this city to resist the enforcement of the revenue law passed by the last General Assembly, on the ground that it is entirely unconstitutional, as section 14 of Art. 2 of the constitution has not been complied with. This section uses the language that "no law shall be passed

to impose any tax upon the people of the State, unless the bill for the purpose shall have been read three several times, and passed three several readings, which readings shall be on three different days, and agreed to by each House respectively, and unless the year and days on the second and third readings of the bill shall have been entered on the journal."

The information comes from very good authority that when the bill came up for the second reading in the Senate, that it was weighted down with thirty six amendments, and after the bill went back to the House many of the amendments were concurred in and others rejected. That when the bill as amended came back to the Senate it was only read one time and passed one reading and was afterwards ratified.

If this information is correct, then in the opinion of our best lawyers the whole revenue act is invalid, the Supreme Court of North Carolina having several times decided that unless a bill of this character passes the three readings on separate days and the year and days are recorded in the second and third readings, the bill is utterly void. The contest will be watched with much interest, as many very important changes have been made in the new law, and many interests will be affected by the result of the decision.

It has been held, however, by the Supreme Court, that if the revenue law fails for lack of the constitutional requirements, the last preceding revenue bill holds, and the taxes must be levied under it. So our county and State governments will not be crippled for want of revenue, as the levy will undoubtedly be made under the revenue act of 1899.

BANK CONSOLIDATION.

Leading Features of the Plan by Which the Institutions Were Joined.

AUTHORITATIVE STATEMENT.

Deposits of National Bank of Wilmington Assumed Yesterday Afternoon by Atlantic National—Strength of the New Banking House.

The STAR has received for publication the following statement concerning the consolidation of the Atlantic National Bank and the National Bank of Wilmington:

The deposits of the National Bank of Wilmington were assumed by the Atlantic National Bank yesterday afternoon. The Atlantic National Bank has purchased from the National Bank of Wilmington the building formerly occupied by the latter for \$23,000 and will occupy the building on and after to-day.

The comptroller of the currency gave his consent to the immediate consolidation, upon receiving a statement signed by a sufficient number of stockholders of each bank agreeing to the consolidation.

The stockholders of the Atlantic National Bank agreed to elect all of the present Directors of the National Bank of Wilmington as Directors in the Atlantic, every stockholder in the National Bank of Wilmington having purchased stock in the Atlantic. The stock purchased by the National Bank of Wilmington stockholders was secured from non-resident stockholders of the Atlantic National Bank.

The Atlantic National Bank has a paid in capital of \$125,000 with a surplus account totaling \$175,000. The Atlantic has a great many assets which have a market value far in excess of the value as carried on the books of the bank. It is probable that no other bank stock in North Carolina will sell at as high a figure as the stock in this bank. The Atlantic has been in business nine years.

The National Bank of Wilmington has accumulated a surplus of exceeding thirty per cent. As soon as their assets are fully examined by the Atlantic National Bank, and paid for by the latter institution, the stockholders of the Atlantic National Bank of Wilmington will be paid for their stock, including the surplus assets. This will probably be effected the latter part of the week. All checks on the National Bank of Wilmington drawn by depositors having a credit with that bank will hereafter be honored by the Atlantic National Bank.

The consolidated business will be managed with a very much smaller clerical force than was employed by the two banks as separate institutions. The officers of the bank will make a point of securing desirable positions for employees whose services will not be needed by the consolidated business.

The principal officers of the bank, who are largely interested in the stock, contain a surplus of exceeding twenty per cent. in value since the business have been consolidated and have voluntarily had their salaries reduced in order to assist in enhancing the value of the stock to all shareholders.

The policy hereafter will be to continue to accumulate a surplus, but it is probable that the dividend will be increased from eight per cent. per annum to one per cent. each month. This dividend can be increased and still leave the bank a liberal amount to add to surplus each year.

The Bank Consolidation.
The authorized statement of the leading features of the consolidation of the Atlantic National Bank and the National Bank of Wilmington, printed in the STAR to-day, will be read with interest. The announcement, besides continuing to accumulate a surplus, "it is probable that the dividend will be increased from eight per cent. per year to one per cent. per month" will be very acceptable to all stockholders who need the income from their investments.

Wrightsville Beach Meeting.
The property owners of Wrightsville Beach are called to meet at the Wilmington City Hall at 8 P. M. on Friday May 10th for the purpose of considering matters of taxes, sanitation, sewerage, etc. The meeting is called by Mr. Geo. D. Parsley, city clerk and treasurer, by order of Mayor R. W. Hicks.

Clinton's Municipal Election.

DESTRUCTIVE HAIL STORMS.

Reports From East Carolina Trucking Section Are That Great Damage Has Been Wrought to Crops.

News of a destructive hail storm, which appears to have been pretty general over the trucking section of Eastern North Carolina yesterday afternoon, reached the city last evening and it is believed very great damage has been wrought to strawberries and other crops.

Mr. R. E. Stone, of the firm of Stone, Rourke & Co., who came down on a freight train from Fayetteville on the Atlantic and Yadkin road last night, brings most discouraging reports from that section. He says that the area covered by the fall of hail extends from a distance of about seven miles from Wilmington as far towards Fayetteville as a station, N. C., where there was a slight fall, which was passed through, which may have increased in violence after he left. When the train reached Montague, the first station out from Wilmington, it was found that the pelter of hail stones was phenomenal. Mr. Stone said he never saw such a fall before and in places, he believed, where the stones had rebounded together, they were as deep as three inches and of good size. People at the station at Montague regarded the storm little less than a calamity upon the truck growers, though no exact information as to the extent of the damage could be gathered at that time.

Points along the A. & Y. road were not the only sufferers by the storm. The trucking section along the W. & W. was also visited, as the following, received last night from both sections, will show:

"MOUNT OLIVE, May 7.—The heaviest hail storm for several years fell at Mount Olive this afternoon. The damage to the strawberry crop must be heavy, yet it is unknown. The hail and rain storm commenced at three minutes to 3 o'clock in the afternoon and lasted twelve minutes, literally covering the ground, the size of the stones being from that of small marbles to the size of small May apples."

"CURRIE, N. C., May 7.—This place was visited to-day by one of the heaviest hail storms seen here in twenty-five years. Truck and other crops are badly damaged. Some of the farmers think their berries are ruined. It stripped the fruit from the plants and they look as though they were beaten with brush."

It will probably be a day or two before the exact damage to all sections can be ascertained.

SALARY OF CHIEF RESTORED.
Meeting of City Board of Audit and Finance Last Night—Many Other Matters Were Considered.

At the meeting of the city Board of Audit and Finance last night, all members except Mr. McNaught having been in attendance, it was decided upon personal representation of Mayor Waddell and Alderman Harris, to restore the salary of the Chief of Police to \$1,200 per year; that of the cattle weigher to \$80 per month, and the action of the Aldermen in electing an additional sergeant to take the place of a Lieutenant of Police, which office was recently abolished, was concurred in, provided that some member of the police department perform the duties of clerk to the police court.

Alderman Johnson and Dr. C. T. Harper, city physician, also appeared before the Board and made an argument for the establishment of the new sewerage system under municipal control, recently outlined in these columns, and the board decided to appropriate an amount not exceeding \$400 for a one month's experiment with the plan as promulgated by Dr. Harper. This amount is to be used in the purchase of four carts, the salary of eight men and a collector, and the teams for the work are to come from the street force. If the plan is found to be self-sustaining it will be adopted permanently. Dr. Harper pointed out to the board that at least \$13,000 revenue could be derived each year from this source, whereas only \$6,000 was asked for its establishment. If 75 per cent. of the accounts were collected it would be a paying investment for the city.

No action was taken relative to a request for restoration of the salary of the city attorney; neither was there action in regard to increase of pay of street laborers and cart drivers. The salary of Assistant Foreman Jackson, of the Fire Department, on account of clerical error, was restored to \$45 per month.
