The increased passenger facilities on the Wilmington Seacost Railroad and its admirable schedule, allowing one to leave or reach the camp at will, is the subject of much favorable comment here. The boys of the Wilmington Light Infantry have a barrel of fun stored in their street and they keep it on tap daily for the regiment. The company staff (incognito) headed by Colonel Whitney at undress parade to day reviewed a detachment of their com mand, known as the "Carrie Nation" brigade. The "Nationists," accompanied by a detachment from the band, paraded each company street and put on a grand finale with a sere nade of Colonel Rodman.

The rays of the sun were so intense that Colonel Whitney of the "blather skites" could not attend morning drill, so he repaired to the hospital, where he recovered in ten minutes after recall had been sounded.

# THE FIREMEN IN CHARLOTTE

Races Are Interesting and Tournament is a Success-Annual Election of Association Officers.

The firemen's tournament in Charlotte is being largely attended and the various races are proving very interesting.

The first contest on Wednesday was quick steaming and distance. There were only two entries, Winston and Charlotte. Winston won both. Time in quick steaming, 12 minutes, 5 seconds; distance throwing water, 211 feet, prize, \$50. In the quick steaming Charlotte failed to draw water at all, her engine having proved a failure. The machine is 25 years old and out of date.

In the horse hose wagon contests in the afternoon the first prize was \$100; second, \$50. Goldsboro No. 1 won first prize and Eclipse, of Goldsboro, second. Wilsom's horse balked and an accident to a member of the Ashevifie team kept both these companies from making any time. Durham's time was 44 4-5. The Winston Steam Fire Company No. 2., made a record of 45 4-5. For these contests, Mr. W. C. VonGlahn, of Wilmington, was the starter and Chief Schnibben one of the plug judges.

Greensboro Hook and Ladder Company No. 1 and Winston Hook and Ladder Company No. 1 entered for the hook and ladder race. Winston won the first prize, \$100, and Greensboro second, \$50. The records were: Winston, 49 seconds and Greensboro,

In the horse hose wagon contest that took place in the afternoon, Henry Coffee, one of the members of the Asheville company, fell from the wagon, just before the plug was reach ed and received injuries from which it is feared death will result. The The young man was taken to a private hospital and is receiving every attention. His injuries are of an internal tles until seventh inning. The happy

At the night meeting of the State Firemen's Association all the old officers were re-elected as follows: President, J. D. McNeill, of Fayetteville; first vice president, H. L. Riggins, of Winston; second vice president, W. S. Orr, of Charlotte; secretary, W. C. VonGlahn, of Wilmington; treasurer, T. A. Green, of Newbern, and statistician, L. J. Taylor, of Newbern.

ABOUT THE MAXTON GUARDS.

Why the Doctor of the Chmonny Was No Printed Tuesday Morning.

The Maxton Scottish Chief of this

"In the Wilmington STAR'S two column report of the arrival of the companies of the Second Regimen into camp Monday, there was an ab sence of the mention of an entire company, and that too not only the first company to agrive, but really the best company in the State Guard—the best officered, the best drilled, and the best fighters not only in the State STAR did not say a word about the Maxton Guards, and the conspicuous neglect of such will ever be remembered against the STAR by the friend of the company in Maxton, and w don't really believe the "Hoss Editor" will ever be permitted to hunt snipe again in this county."

The editor of the Chief should be ashamed of himself. He knows that the editor of the STAR has never been guilty of "conspicuous neglect" of Maxton or her interests. The facts are as follows:

The first sergeant of the Maxton Guards promised the "encampment editor" a complete roster of the company in time for publication Tuesday morning, but for some reason he failed to send it and the list was unobtainable until the following day, when it was published along with the roster of the Goldsboro, Wilson, Hertford and Edenton companies. The STAR quite agrees with the Chief that the Maxton boys compose one of the best officered, best drilled and most handsome body of soldiers in camp.

#### The Moonlight Excursion.

About 250 people last night enjoyed greatly the moonlight excursion on the steamer Wilmington to Carolina gles. Beach and Old Brunswick, and return. The trip proved a most delightful one and Capt. Harper announces that a repetition of the excursion will be made to night, leaving the city at 7:45 of Tartar on his team. It might raise o'clock and returning at 10:30 P. M. The fare is only fifteen cents, and three hour's delightful breeze and entertainment is in store for all who desire to take the trip.

[Special Star Telegram.] RALEIGH, N. C., July 25.—The Tur tles were unable to-day to stop the march of destruction of the Champions, and about four hundred "fans" died

As a Wilmington twirler Regan made his debut and barring slight wildness caused by a fortnight's rest he was in splendid form. For three innings he killed the Turtles before one could crawl to first. His speed was strong and his delivery quick and decidedly peculiar, which alone puzzled "Home Run" Stanley and the other sluggers. The Turtles scored a run each in the fifth and sixth innings, one of which was obtained by a couple of hits, aided by a wild pitch, and the other by a good clean two base hit and a single. The Champions kept their thunder up their sleeves, making a kind of lingering death for the Turvent transpired in this wise. After Frost had hit out to box, Allen made a beautiful two base hit and Regan and Clayton followed up his great lead with rattling singles, while Sebring added to the merriment by a long fly to Sorber, which was sufficient to clear all bases and send forth the joyful tidings. SENT OVER FOR BURGLARY.

#### Preliminary Hearing of Negro Who Entered Residence of Mr. Geo R. French

Mack Taylor, the negro who was caught Wednesday night as he was emerging from the residence of Mr. George R. French, which he had burglarized, was given a preliminary hearing in the municipal court yesterday morning, and sent to jail for the higher court in default of \$250 justified bond for his appearance. The negro confessed the burglary and talked of his deed in a matter of fact way and there seems little doubt of a conviction of burglary in the first degree when the case comes to final trial. There has been no one sleeping in the house since the departure of Mr. and Mrs. French for Europe early in the Summer, else an action would lie

against the negro for burglary in the first degree, which is a capital offence. Eddie Corner, a negro implicated by Taylor at the time of his arrest, was subsequently taken into custody by the police but at the hearing yesterday morning. Taylor refused to testify

# RAILROAD TRANSFER.

Wilmington Seacoast Road Sold Through Hugh MacRae & Co., Bankers and Brokers.

TROLLFY SYSTEM IN SIGHT.

**Details of Purchase of Controlling Interest** Not Given, But an Electric Railway to Ocean View Seems Certain. Possible Consolidation.

The STAR can state this morning with absolute certainty that a controlling interest in the Wilmington Seacoast Railroad has been purchased through the banking firm of Messrs. Hugh MacRae & Co, of this city, and that it is the present purpose of the new purchasers to convert the ystem into a trolley line and to have the same in perfect operation by the open ing of the next season at the beach.

The details of the sale and the name or names of the purchasers are not given out just yet for publication, but it is hinted that Mr. Hugh MacRae, active partner in the banking firm which consummated the sale, is the sole purchaser of the majority of the stock which is understood to approximate about four-fifths. The sale, it is understood, goes into effect at once but for the present, at least, there will be no change in the management.

A trolley line to Wrightsville Beach has long been a dream of pleasure to those interested in the welfare of the city and its summer resorts and it appears now that visions of a street car ride across the country to the ocean are about to be realized. It is not known when work will begin on the improvements to the road, but it is presumed that it will be in the early Fall. The change to a trolley system will easily make Wrightsville forge to about two months. Champions "went up against" the first | the front as one of the most popular seaside resorts on the South Atlantic

> Officers of the road yesterday declined to talk of the sale, beyond the fact that they would concede the transfer; but nothing more. Engineers have recently visited the city and made a survey of the line with a view of converting the same into a trolley system. The STAR learns that the trolley line will be run into the city and passengers to the beach may leave with as much ease and convenience as they would board a street car for their homes in the city.

In the absence of an authoritative statement of the details of the transaction, it is conjectured by many that the sale of the property is but the first step in a consolidation of the mington Gas Light Company and the Seacoast Railroad, authority for which was given by a private act of the Legislature of 1899, Mr. Hugh Mac-Rae is a large stockholder and president of the Gas Light Company and this coupled with the fact of the sale of the Seacoast railroad and the further fact that the Wilmington Street Railway Company is to be sold early in October by order of the United States Court, appears to lend credence to the surmise, which is

given only as such. At any rate the trolley line to Wrightsville will come as a welcome innovation to the people of Wilming ton and those interested at Wrights-

Mrs. Shaw also referred to her devotion to the charitable branch of the work and to the literary department, having in frequent benefit entertainments been one of the most accomplished reciters. At every meeting she was always present, except
