The czar didn't visit Paris when
he went to France. The man who
goes to France without taking in
Paris doesn't see much of France.

Some fellow is trying to inveigle
English capitalists into investing a
lot of money in a scheme to extract
gold from sea water. But as yet
they can't see it.

The number of deaths in Havana
in August was 480, the smallest
since 1889. The death rate per
1,000 is 22.24, less than in Phila-
delphia, New York or Liverpool.

The mosquitoes have had their
biting inning, and it will soon be
Jack Frost's turn to get a bite at
them. A bite or two by Jack would
do more to knock the mosquito out
than a Texas oil gusher.

Some English capitalists propose
to fight the American Steel Trust,
by organizing a big steel trust to
work the iron at Balboa, Spain,
which is said to be the finest in the
world, and inexhaustible.

The Boers haven't treated Kitch-
ener with even a semblance of cour-
tesy. They entirely ignore his in-
junction to come in and lay down
their arms, but keep laying for the
Britons and "bagging" them at
every opportunity.

In Melbourne the Duke of York
shook hands with 30,000 people, and
it about paralyzed his arm, which was
useless for more than a week. He
didn't understand the art of shaking
as our American shakers do. But he
doesn't shake any more.

Fall River, Mass., is a hummer.
She has one-seventh of the cotton
spindles in the country and more
than twice as many as any other
city in it. She weaves cloth, not
by the yard, but by the mile and
turns out about 1,500 miles a day.

Some fellows up North have
formed a combine to corner the
lobster market. They are having
a big pond constructed in Maine,
capable of holding 500,000 lobsters,
where they propose to corral the
lobsters in sight, create a famine
and then run prices up.

It was Miss Ethel Claire Barke-
dale, a handsome Augusta, Ga., girl,
who taught Minister Wu to dance.
The surprising thing to us is not
that a staid Oriental learned to dance
American fashion, but that having
such a charming looking instruc-
tress he learned it so quickly.

Floods in the Yellow River in
China mean trouble for lots of
people. The Yentse valley is one
of the most densely populated in
that country. As a result of the
recent flood 10,000,000 of people
were left homeless, their houses,
most of them huts, being swept
away by the waters.

THE OPERA HOUSE LAST NIGHT.

Very Clever Presentation of a Very Clever
and Refined Comedy by Leroye.
Those who braved the wind and
rain last night to witness Mr. Hennessy
vs. Leroye's clever production of
"Other People's Money," were amply
recompensed for their inconvenience.
The play received a cordial recep-
tion here last season and it was none
the less warmly welcome again last
night; fact is, it appears to be the gen-
eral opinion that, if anything, it had
improved with age. The crowd which
witnessed the presentation last night
was necessarily not large on account
of the weather, but the number was
altogether very complimentary to the
clever company that interpreted a
clever production.
Hennessy Leroye was decidedly
"great" in the leading role and Mr.
Ernest Schayer, as the "scheming
clerk" was all that could be desired.
Miss Sargent was also clever in the
role of "Innocence Abroad."

NEW STEAMBOAT OFFICE.

Mr. T. D. Love Will Soon be in Convenient
Quarters Near Market House.
Handsome and commodious quar-
ters for the Merchants' and Farmers'
Transportation Company, likewise for
Mr. T. D. Love, its enterprising gen-
eral manager and wholesale grocer,
are being built on the wharf next
north of the market house wharf on
South Water street.
The building will be completed in
about ten days and will afford Mr.
Love and the steamboat company
every facility for handling freight and
selling groceries. In addition to the
steamer Driver, now being operated
by the company on its Fayetteville
line, a new craft admirably adapted
to the river trade is nearing comple-
tion. Its name is the Highlander which
will be on the river in a very short
time.

High Tides Prevailing.

Very high tides prevailed in the
river and tributaries yesterday as a
result of the northeast gales. On the
Brunswick side of the river many of
the rice fields are covered with water
and much inconvenience is being ex-
perienced by rice planters, who are just
now engaged in harvesting the crops.
The bulk of the rice, however, this
year is said to be already housed.

COUNTY ROAD BONDS

Case Involving Constitutionality
of Act Authorizing Issue Ar-
gued in Supreme Court.

DECISION IN A FEW DAYS.

Commissioners Confident They Can Absolu-
tely Establish Validity of Securi-
ties and Compel Maintenance
of Contract for Their Sale.

County Attorney W. B. McCoy re-
turned last evening from Raleigh,
where he went to argue the case be-
fore the Supreme Court involving the
validity of the act authorizing the
New Hanover county bond issue.
It will be remembered that a few
months ago the bonds were sold to W.
J. Hays & Sons, of Cleveland, Ohio,
at par, and that the purchasers a few
weeks later refused to accept the cer-
tificates on the ground that the act
authorizing the issue, was not passed
constitutionally by the Legislature.
Messrs. Hays & Sons were released
from their contract and a sale was
later made to Capt. A. L. DeRoset, of
this city, who offered to negotiate the
securities. Capt. DeRoset later re-
fused the bonds on the grounds of un-
constitutionality and a suit was
brought to compel him to take the
bonds. It went immediately to the
higher court and County Attorney
McCoy appeared for the Commission-
ers of New Hanover and Bellamy &
Feschau appeared for the defendant.
The alleged unconstitutionality of
the act is that the act and any vote
thereon is not recorded on the first read-
ing. This proceeding the county authori-
ties claim was not essential, according
to Article 2nd, Section 14 of the Con-
stitution.
The controversy is one without ac-
tion, submitted under section 507 of
the Code and a decision is expected to
be handed down in a day or two. The
questions submitted are as follows:
"1st. Is the act authorizing the issue
of the bonds to-wit an act entitled
"An act to issue bonds for road im-
provement in New Hanover county,"
ratified the first day of March, 1901,
Chapter 314, Public Laws of North
Carolina, 1901, Constitutional and
valid."
"2nd. If constitutional and valid, is
the defendant bound to comply with
his contract?"
The Commissioners claim that if
passed according to the requirements
of the Constitution it is valid; that the
act having passed its three readings
on three different days in each House,
and the yeas and nays being recorded
in the journal of each House on its
passage on its second and third read-
ing, the bill is constitutional and
valid. This then being established
that the act has been passed, accord-
ing to the constitutional requirements,
(no point is made that the election
was not held in accordance with the
requirements of the law, but was valid
in all respects) it follows: That the
bonds issued under said act are valid;
that the defendant is required in law
and equity to accept the same.

DEATH OF A LITTLE BOY.

Samuel Davis, Jr., Died Yesterday From
Injuries Sustained in Recent Accident.
At 1 o'clock yesterday afternoon, at
the family residence, 214 Market
street, death came to relieve the suf-
fering of little Samuel Davis, Jr., son
of Mr. and Mrs. S. J. Davis, who had
very severely injured himself in the
little fellow fell from a step-ladder on
the front piazza of his house to the
ground below and sustained several
fractures and dislocations of his arm.
At first it was thought the boy
would recover, and anxious friends
and parents prayed for that result in
vain. Lockjaw set in and the best
medical skill could not relieve the
suffering or stay the hand of the
Death Angel.
Samuel was aged six years, eight
months and twenty-one days. He was
a bright boy for his age and was loved
by all.
The funeral will be held this after-
noon at 4:30 o'clock from the resi-
dence, and the interment will be in
Oakdale cemetery.

THE "NORTHEASTER" YESTERDAY.

Wind and Rain Came, But Was Not Dan-
gerous—At the Beaches.
A brisk northeast wind and rain
storm visited the city yesterday, in-
creasing in violence until about 10
o'clock last night, after which time it
subsided without damage.
There was much anxious inquiry as
to the conditions on the different
beaches, but from best information
there was no damage whatever. At
Wrightsville the tide was unusually
high and sections of the railroad track
were inundated but there was no
damage. In the kitchen of Mr. Powers'
cottage the water rose to a slight depth
early in the night but very soon sub-
sided. The train went down as usual
but there was no cause for alarm, and
no one left the beach.

Moore Case in Hearing.

Brunswick Superior Court at South-
port was engaged for the entire day
yesterday in the hearing of testimony
for plaintiff in the \$30,000 damage
suit of F. M. Moore vs. Navassa Guano
Co. Only two witnesses were exam-
ined during the day. They were Mr.
Moore, the plaintiff, and his superin-
tendent, Mr. Hilburn. The case will
likely consume all of next week in
trial.

ELECTRA, THE BEAUTIFUL, COMING TO THE CARNIVAL

The Lady Who Flies Winging Her Way
Here—Hotel and Boarding House
Facilities Are Ample.

Probably the most fascinating as
well as the most interesting of the
many shows that will visit the Elks'
carnival and street fair in October is
the one known as Electra.
This exhibition first attained great
prominence at the Omaha Exposition,
that being its initial production in this
country. It is an old world idea and
originated in Vienna. This, like other
mystifying exhibitions, has the black
canvas surroundings and darkened
interior to give it proper presentation.
The lady impersonating Electra is
by unseen means caused to arise from
the stage and float in the air above
the entire audience. Many weak imi-
tations of this particular performance
have been given throughout the coun-
try, but the management positively
assures their patrons that they have
expended a small fortune in obtain-
ing the original now famous paying
entertainment. The light was said to
be similar. Electra does not merely
rise from the stage to a certain height,
and then back to terra firma, but is
suspended directly in front of the
audience; then turns several revolu-
tions in mid-air and gracefully floats
out into space above the delighted
visitors.
During the big carnivals given last
season in Richmond Electra was an
absolute novelty and thousands could
be heard daily enthusiastically prais-
ing the merits of her exhibitions. In
connection with Electra there is pre-
sented Prof. Seaman's Prismatic Fan-
tasia, a \$5,000 collection of beautiful
dissolving colored views manufactured
in Europe. They are within them-
selves a meritorious and satisfying
entertainment. The light effects and
storm scenes never fail to bring forth
rounds of applause. They will virtu-
ally give the visitors to Electra two
shows for one price of admission. A
failure to visit them will cause after
regrets, for your friends are sure to
ask you, did you see the beautiful
Electra?
"Electra" will be only one of the
many attractions that will be here
during the Carnival week, and the
crowds will be large each day if the
weather will permit. Every accom-
modation in the way of board and
lodging will be available, and the
Public Comfort Committee assures
every one contemplating a visit to the
fair that there will be no inconve-
nience. He absented himself
centrally located in the Carnival dis-
trict, and will take pleasure in direct-
ing visitors to suitable homes while in
the city.

BATTLE-POWELL EPISODE.

R. L. Gray Arrested as a Party to the As-
sault on the Mayor—Gave Bond for
Appearance—Supreme Court.

RALEIGH, N. C., Sept. 27.—There
was another sensational development
in the Battle-Powell episode to-day.
The grand jury returned a true bill
against R. L. Gray, Esq., as party to
the assault on Mayor Powell, in that
he sent a decoy telephone message to
Mayor Powell's house to get him on
Hillsboro street for the affray. A
capias was issued for Gray's imme-
diate appearance before Judge Robin-
son, but he could not be found, hav-
ing left the city the evening before.
The court had completed its work and
had adjourned this afternoon. Mr.
Gray returned to the city to-night and
gave bond for his appearance at the
January term. He absented himself
to avoid trial before Judge Robinson.
S. T. Smith, bar keeper, testified that
Gray sent a telephone message from
his bar-room.
The Supreme Court.
Appeals were argued in the Supreme
Court to-day as follows: Carter vs.
Lumber Company, by Bellamy and
Feschau for plaintiff; Iredell Meares for
defendant. Porter vs. Armstrong, by
Stevens, Beasley and Weeks for plain-
tiff; Bland and McNeill for defendant.
Smith vs. Railroad, by Cooper, Kerr
and Butler, by brief, for plaintiff;
Davis and Stevens for defendant.
Peterson vs. Wilmington, submitted
on briefs under rule 10, by Stevens for
plaintiff, and Meares for defendant.

THE NATIONAL LEAGUE PENNANT.

It Went to Pittsburg is a Final Game With
Brooklyn Yesterday.
(By Associated Press.)

PITTSBURG, Sept. 27.—Pittsburg
won the league pennant to-day by
winning victory from Brooklyn in
the eighth inning, when the ex-cham-
pions seemed to have the game prac-
tically won. Wagner has the honor of
scoring the first and last runs in the
game and in batting in the two runs
that tied the score. The game
throughout was a splendid exhibition
of scientific ball playing, with only
enough mis-play to spice the general
work. The enthusiasm of the crowd
when the winning run came over the
plate was intense. Attendance, 4,000.
The standing of the clubs at the
close of the season is as follows:
Pittsburg, 65; Philadelphia, 50;
Brooklyn, 56; St. Louis, 53; Boston,
50; New York, 40; Chicago, 37;
Cincinnati, 37.

As the STAR employs no trav- eling agents, bills are sent direct to subscribers. These bills should re- ceive prompt attention.

A SUPERIOR DAIRY.

Messrs. E. Warren & Son Make
Important Announcement to
Consumers of Milk.

BUSINESS OF THEIR OWN.

Firm Has Leased for Five Years Prod-
uct of the Celebrated Belleville Cream-
ery in Brunswick County—Be-
ginning October 1st.

An important announcement to
householders and all consumers of
milk and cream in Wilmington is that
a contract has just been signed for five
years beginning Tuesday, October 1st,
by which Messrs. E. Warren & Son,
of this city, will control the entire
output of the Belleville Dairy on ex-
clusive terms. The Belleville Dairy
in Brunswick County—beginning
October 1st.
In company with Mr. Archie War-
ren, the clever managing member of
the firm, a STAR representative yester-
day had the pleasure of a visit to
the celebrated dairy and was most
courteously shown through every
branch of the enterprise by Mr. F. M.
Pridgen, the superintendent. It is
located on a high plateau, with excel-
lent drainage and may well be termed
one of the most model institutions of
its kind in the State. The buildings
are all newly constructed, nicely white-
washed and conveniently arranged
with a view both to cleanliness and
despatch in handling the product. At
milking time yesterday a dozen or
more tidily dressed employes were
busy about their duties. Thirty-five
well fed cows were arranged in their
stalls and as many more were enjoying
grazing on 200 acres of luxuriant pas-
ture, including both lowland and
upland. The capacity of the dairy is
175 quarts per day, but Mrs. Russell,
who gives every detail of the business
her personal supervision, assures Mr.
Warren that this will be greatly in-
creased in the very near future.
Aside from the pasturage the cows,
including Holsteins, Jerseys, Alder-
neys, Guineas and several other fine
breeds, are stall fed with meal, cotton
seed hulls and bran three times each
day and are watered with many times
from clear, cool water from a wind
mill pump in their stables.
From the dairy proper, the milk is
transferred to an aerator in an adjoin-
ing building where, by a clever pro-
cess, the product is freed from all
animal heat so that it will keep for at
least 36 hours longer than by the old
process. By this process the milk is
also purified to a large extent and is
ready for transfer to cans or bottles in
a pure, rich color.
Adjoining the barns and feed rooms
inside the neat inclosure, are two
mammoth boilers of 20 barrels capacity
each, where feed of pumpkins, turnips
and potatoes, are boiled for the cows
in winter. There is also a steam feed
knife and corn crusher where much
forage is prepared for the milkers.
In every way the dairy is a up-to-date
and the best methods are employed in
handling the product. Mr. Warren
says that in the past 25 years his firm
has been a very large consumer of
milk, and that in the product of the
Belleville Dairy, he finds the best milk
ever offered on this market.
In the city two deliveries will be
made each day, and the milk will also
be on sale at the store, where it will
be stored in a 30 gallon creamery can-
net, porcelain lined, with silver
trimmings. Cream will also be served
to customers from porcelain jars kept
in a large refrigerator.
Messrs. Warren & Son and the
milk consuming public are to be con-
gratulated upon the deal just closed.
