THE BOOTH BUILDERS

Merchants Being Urged to Make Trade Displays for Forthcoming Carnival.

THE ELKS' WELCOME ARCH.

It Will be a Handsome Street Attraction at the Temple—Further Subscriptions Received and a Call for Collection—Fair Notes.

All the surplus energy of the Elk carnival promoters is concentrated just now in urging upon merchants and tradesmen the benefit to themselves that will accrue in the building of booths for fair week. Little argument is needed to the more enterprising storekeepers, for many of them have grasped with alacrity the opportunity offered in the carnival for displaying their goods and turning the gala affair into individual profit. There will be hundreds of visitors here during the week and, of course, every merchant who has a creditable display will receive more or less favorable comment. Mr. H. J. Gerken, chairman of the Fair Executive committee, and Mr. F. C. Huffman, the adviser, have been engaged the past several days in setting forth to the merchants the benefits to be derived from the building of business booths, and have received very substantial encouragement from most of those visited. Others are yet to be seen, however, and the indications are that front and intersecting streets will be in gala attire during the week. The fair promoters have no interest whatever in the matter of the booth building beyond that they are very desirous that the Carnival district will present a scene befitting such an occasion. Those who have thus far officially signified their intentions of erecting trade displays are as follows: J. G. Skipper, J. H. Tucker, J. Hicks Banking, J. D. Nicks, G. O. Gayland, Elks' Grocers, Elks' Store, Geo. R. French & Sons, V. E. Zellers & Co., Johnson Dry Goods Company, J. W. Murchison & Co., A. Shrier, J. M. Solky, Chesnut & Barentine, R. F. Hamme, O. P. Casaux & Co., Warren's Bakery and Cafe, Geo. Honnett, H. J. Gerken, Kress & Co., The C. W. Polvort Co., Peterson & Bula, R. B. Bellamy, A. Mavronichols, Taylor's Bazaar, E. Warren & Son, J. H. Redder & Co. One of the most handsome of the street displays will be an "arch of welcome" which will be extended across the street in front of the Elks' Temple. The contract for the wood work was yesterday let to Contractor F. A. Applegate and decorations for the same have been ordered by wire. There will be a driveway under the arch on each side of the car track and, of course, a passage for the trolleys in the center. On the arch amid the decorations will be 150 white and colored incandescent lights. The Elks are sparing no pains to make their individual contribution to the street display one of the most handsome of all.

SEACOAST RAILROAD.

Reorganization Meeting of Directors of the Company Held Yesterday Afternoon.

RESIGNATIONS AND ELECTIONS.

Vice President Morton Succeeded by Treasurer and Secretary and Banker Mr. Woolcott. Electrical Expert Arrived.

At a reorganization meeting of the Directors of the Wilmington Seacoast Railroad Company, held at 12:30 o'clock yesterday afternoon in the office of Messrs. Hugh MacRae & Co. on Front street, the resignations of Col. Geo. L. Morton, as vice president, and Mr. Frank H. Stedman as secretary and treasurer, were tendered and accepted. In their stead were elected Mr. M. F. H. Gouverneur, vice president, and Mr. Henry Woolcott, secretary and treasurer. Mr. W. W. Randolph, of New York, was elected consulting engineer and Mr. C. P. Bolles, Jr., was chosen as soliciting agent.
Col. Morton, Mr. Stedman and Mr. J. Norwood Huske also tendered their resignations as directors and Messrs. Hugh MacRae, W. W. Randolph and M. F. H. Gouverneur were chosen to succeed them.
The meeting is believed to be the first step in a thorough reorganization of the company since a majority of the stock in the same was purchased through the banking firm of Messrs. Hugh MacRae & Co. some time ago. The gentlemen who have resigned represented the Lattimer interest in the road which consisted of 741 out of 1495 of the shares of the corporation, and those elected in their stead, represent the interest of the new purchasers whose purpose it is to convert the road into an up-to-date trolley system if the present plans of the company are found to be all practicable.
At the meeting yesterday Mr. Geo. R. French, president of the company, Mr. James H. Chabourn, Jr., Mr. Oscar Pearsall, Mr. J. W. Norwood and Mr. W. H. Chabourn were present. Those absent were Messrs. C. W. Worth, F. H. Stedman, J. Norwood Huske and Col. Geo. L. Morton. Aside from the resignations and elections given above the other business transacted at the meeting was of a private and routine nature.
The people of the city are much interested in the plan of the company to convert the trolley into a road line and will welcome the change if the gentlemen behind the project find it practicable.
Dr. W. L. Robb, of Hartford, Conn., one of the most eminent authorities on electric road building in the country, reached the city last evening and will determine after investigation, the feasibility of converting the steam road into an electric line. As before stated in these columns, Capt. Walter G. McRae, of this city, has been making a survey of the road for the purpose of gathering certain data for the expert. This work has now about been completed and Capt. MacRae and Mr. Randolph, the consulting engineer, will lay the facts before Dr. Robb, who will determine for the company whether it is advisable to make the change contemplated.
