## INJUNCTION MODIFIED

Hearing in the Sewerage Company versus Before Judge Timberlake Yesterday.

**THE ARGUMENT WAS HEATED**

Company to Give \$15,000 Bond for Restoration of Streets, But Aldermen Still Explored From Passage of Ordinance—A Compromise.

[Special Star Telegram.]

LOUISBURG, N. C., Jan. 31.—The injunction of the Sewerage Company against Mayor Waddell and the Board of Aldermen of the City of Wilmington was argued here before Judge E. W. Timberlake by Geo. L. Peschau and E. K. Bryan, Esq., for the Sewerage Company and Junius Davis and Maraden Bellamy, Esq., for the city. The arguments were spirited and occupied the entire afternoon.

The injunction, though modified, is continued and the resolution introduced recently by the Aldermen is still enjoined.

The Sewerage Company is required to give a fifteen thousand dollar bond before excavating further, however. It is considered a compromise judgment with the odds in favor of the sewerage people.

The above is the latest from the "seat of war," as Judge Timberlake's court at Louiburg was humorously dubbed by those who anxiously awaited developments in the injunction matter yesterday.

While the news is somewhat disappointing to the large number of citizens who hoped for a complete dissolution of the restraining order, it is, without a doubt, the very best that the able counsel for the city could have done under the circumstances, and it is believed that the "mediator" will be generally accepted with satisfaction by the city, which only contended for some measure that would absolutely guarantee a restoration of the streets to the same condition as they were before the excavations were made.

The movement to have the Sewerage Company give a bond was inaugurated by Alderman George Harris some time ago and he introduced several ordinances with this end in view, but each of them was turned down like a hot brick by other members of the board who feared that in the passage of an ordinance providing for a bond they would be "recognizing" the Sewerage Company, which "recognition" they claimed they had not hitherto conferred.

Yesterday Alderman Harris and other members of the Board secured signatures of a large number of business men to a telegram to Judge Timberlake stating that the streets had not been restored and the city needed relief. One such telegram as to the condition of the thoroughfares is reported to have been sent by the Superintendent of Streets. An Alderman who had hitherto given a favorable impression as to the restoration of the streets, in a communication to Judge Timberlake, is also reported to have later qualified his statement by telegraphing to the city's counsel that his knowledge of the work was solely upon information and not upon personal investigation.

All these telegrams are believed to have had great weight with Judge Timberlake and were no doubt potent factors in the modification of the injunction.

As stated in these columns yesterday morning, upon the appearance of Messrs. Bellamy and Davis before Judge Timberlake Thursday, he immediately notified the counsel of the Sewerage Company that its work must stop, pending an adjudication of the matter. This order was strictly complied with yesterday by the contractors and their large force of laborers was "laid off" with the exception of two or three squads which were employed in the work of restoration.

The Aldermen were a smile of supreme satisfaction as they greeted their constituents yesterday and news from Louiburg was eagerly awaited. It is very probable that the attorneys will return to the city this evening and a special meeting of the city council seems inevitable for tonight. However, the matter may be postponed until the regular session on Monday evening when as lively a time as ten Aldermen and four lawyers can make may be expected.

In addition to the special given above, a private telegram was received last night from Messrs. Bellamy and Davis which stated: "Judge modified injunction against defendants and enjoins plaintiff from excavations until it gives \$15,000 bond."

The telegram means that not another clod of earth can be turned until the bond is executed and duly approved by the Board of Audit and Finance.

**FAMOUS GREEN SWAMP LANDS**

Motion to Continue Restraining Order Will be Heard in Raleigh Monday.

A large number of Brunswick and Columbus county citizens are expected here Monday on their way to Raleigh to attend a hearing before Judge Purnell in reference to the famous Green Swamp land suit, which has been in the court for years. The suit is brought by the New Jersey and North Carolina Land and Lumber Company against the Gardner-Lacy Lumber Company and forty four Brunswick and Columbus real estate owners, who have sold timber to the principal defendant.

On Dec. 13th, last year, upon motion of Messrs. Meares & Burk, of this city, attorneys for the plaintiff, Judge Purnell appointed Mr. A. T. Clark, of Columbus, receiver of the property in question, and also issued a restraining order preventing the cutting of timber or trespassing upon the lands involved. The question of making this order permanent will be heard Monday. The plaintiff is under bond for \$2,000 for the prosecution of the matter and Receiver Clark has given \$2000 bond for the faithful performance of the duties imposed.

## THE POULTRY SHOW.

Many Additional Entries of Fine Birds Were Made Yesterday for the Fair.

**MANAGERS MET LAST NIGHT**

Eighty-one Fine Birds From South Carolina Will be Brought Over and Hundreds Will Come From This State—Arrangements.

"The Poultry and Pet Stock show next week is going to exceed all our expectations," said a prominent member of the Executive Committee of the Wilmington Poultry and Live Stock Association yesterday.

"The exhibits are going to be numerous and of a very fine order," he continued. "Fact is, the only question with the Association now is how it is to handle everything."

An enthusiastic meeting of the fair promoters was held last night and final details for the opening next week were arranged. Secretary Armstrong reported that entries had come in the past few days at an exceedingly lively rate and indications are that the City Hall, where the fair is to be held, will be taxed to its utmost capacity.

The show will open to the public at 8 o'clock Tuesday afternoon and will remain open each day at convenient hours until Friday at 11 P. M. The judges will begin their work early Tuesday morning, and to this end the management is insisting promptness upon the part of every exhibitor. An admission fee of ten cents will be charged the public and something interesting in poultry and pet stock is assured. The exhibit by local fanciers promise to be exceedingly good.

Yesterday Superintendent Will Bonitz spent his time in securing evergreen trees for decorating the hall and today carpenters will begin constructing skeleton benches upon which to arrange the coops.

An entry of 81 fine birds was received yesterday from South Carolina and the North State exhibit will be even larger. Some fine hounds and other dogs with a number of pet rabbits of all varieties have also been entered and this department will be watched with much interest by many.

Arrangements have been made to keep the show open until after the theatre performances next week and by this convenience many will take occasion to visit the hall adjoining before returning home.

## CAPT. JOHNSTON BLAKELY, INTREPID SEAFIGHTER, SPENT HIS CHILDHOOD HERE.

[Charlotte Observer, Sat.]

The last of the North Carolina Booklet series contains sketches of "A North Carolina Naval Hero and His Daughter," by Dr. K. P. Battle. The naval hero was Capt. Johnston Blakely, a native of Ireland, in his childhood and youth a resident of Wilmington, a student of the University of North Carolina and an officer of the United States navy. As commander of the *Wasp*, second ship of that name, in 1814, he captured and burned in the western entrance of the British Channel the British warship *Reindeer* having repelled her attempt to board his vessel and upon boarding her, after desperate hand-to-hand fighting, all her officers were killed or wounded and the captain's clerk surrendered the prize. Blakely afterwards captured the *Porpoise* and *Albatross* and otherwise distinguished himself and his ship. The *Wasp* and her crew were never afterwards heard of and their mysterious fate is still a secret of the sea.

A daughter, Maria Udny Blakely, was born in 1816, and the mystery of her father's disappearance made the life of the center of universal sympathy. The North Carolina Legislature, always economical to the point of parsimony, adopted her as the ward of the State, but she married a young Scotch land and annually voted \$600 for her education until 1839, when Mrs. Blakely married a gentleman of the Danish name of St. Croix. Maria Udny married a Danish nobleman in 1841 and died with her infant son in 1842.

Both J. Fenimore Cooper and Theodore Roosevelt accorded the highest praise to Capt. Blakely, the intrepid sea-fighter. He was only 38 years old when he met his mysterious fate.

## MR. GORE THINKS THE SEWERAGE COMPANY SHOULD GIVE BOND AND WORK GO.

Editor Wilmington Star, City.

DEAR SIR:—About the sewerage muddle here, I think if the Sewerage Company would give a bond for double the amount, it would take to put the streets in order after the excavations are made and filled up, then the city government should let them go ahead and finish their sewerage system as quiet as possible. In the meantime, the city government should have an expert looking after the work carefully to see that it is done in a first class manner. I think this is all that is necessary, and if it could be done immediately, the Sewerage Company should agree to it and be satisfied, and the city should be satisfied.

Yours truly,  
D. L. GORE.

## ENTERPRISING WILMINGTONIANS.

Improved Railway Gate Invented by Young Men Which Promises Well.

Messrs. George S. and Wm. D. Sumlin, of this city, yesterday received from their attorneys, Messrs. Evans Wilkins & Co., of Washington, D. C., letters patent for an improved railway gate, which they recently invented and which appears to be a serviceable and meritorious device. The letters patent date from Jan. 28th, 1902, and are for seventeen years.

The invention relates to railway gates adapted to serve as cattle guards and the object is to provide a pair of swinging gates adapted when closed to extend across a railway track in combination with improved mechanism so as to be operated by the flange of a car wheel, to unlock the gates and swing them open and providing means for automatically closing the same after the passage of a train.

The Messrs. Sumlin have not yet decided what they will do with their invention, but it appears very certain that they have a "good thing" and will profit largely by it.

Mr. J. R. Davis, Jr., stated the object of the visit, to which Mr. Kriner, with much feeling, responded. Mr. Kriner is just convalescing from a severe attack of la grippe, and of course, a poulticing from his shop mates was much appreciated.

## THE PEANUT SITUATION IN HALIFAX.

Roanoke News: "Halifax county grows the Spanish peanut almost exclusively and the crop last year was just about one-half of what was expected. The State farms last nearly their entire crop by frost and farmers generally report that the crop was very short. The same conditions appear to have existed in other peanut sections. Some of the Halifax county farmers who have heretofore planted peanuts say they will not plant them at all this year, while others may become discouraged by the prospect of higher prices in the future and plant increased acreage."

## THE EMPEROR OF CHINA HAS 300 MILKAS, AS REPORTED, IT IS NO WONDER THE POOR FELLOW LOOKS AS FRASIED OUT AS THE DOGS.

A bill has been introduced in the Kentucky Legislature requiring counties in that State to register. Nothing is said about requiring them to wear muzzles.

According to the millionaire census there are 4,000 of them, scattered over this country. But some of them are poor fellows, who haven't more than a million or two.

There is a variety of sweet potato grown in Louisiana which pans out 100 lbs. bushels per acre, but there is a Georgia man who steps ahead of that with a tuber which yields 1,445 bushels.

Dr. Browning, of Philadelphia, who put in a claim for \$190,000 for inventing the late C. L. Magee, of Pittsburgh, thinks he has as much money for that money as anybody, as the dead man has no further use for it.

It is said that Mr. Dryden, elected U. S. Senator from New Jersey, has been boobyhanded found recreation in figuring out mathematical conundrums, and can solve the most difficult problems offhand. He figured pretty well on that Senate problem, anyway.

The New Orleans *Picayune*, a capital paper in every respect, was started in 1837 by two printers, one from North Carolina, the other from New Hampshire. They are both dead, but the *Picayune* is very much alive.

The official statement of the business of Steel Trust last years shows a profit of \$100,000,000. It has over \$1,000,000 tons of steel rails, on which the profit will be \$10 a ton. John Hanna says the Trust must have tariff protection.

The Senate Committee on Forest Conservation has reported favorably on the bill asking for an appropriation of \$5,000,000 to purchase 500,000 acres of land, in the Appalachian regions of North and South Carolina, Virginia and Tennessee to establish an Appalachian park and care for it.

St. Louis has an Alderman scandal. The Board passed a bill granting certain franchises to a street railway to run in Forest Park, where the Exposition is to be held, for which it promised to pay \$135,000, when when it got the franchise the street car company refused to fork over.
