SOUSA AND HIS BAND.

At Opera House To-morrow Night -An Immense Audience Expected.

Sousa has returned from his triumphal tour of Great Britain, load ed with honors, and met with an enthusiastic recept on from his admirers on his recent re-sperarance in New Y rk. This British tour occupied exactly three months and was, in fact, the most successful ever accomplished by any foreign organization in that country. The Sousa Band created a new record for rece pts and attenda c . wher ver it appeared. After a bilist vacation spent in shooting in North Carolina, the "March King" has once more embarked upon his customary winter concert tour, in the course of which the great band will give a concert at the Opera House to-morrow night. The soloists accompanying the organization this year are those who shared in the British successes-Maud Rese-Davies, soprane; Dorothy Hoyle, violenist; Arthur Pryor, trombone, and Walter B. Rigers, cornet.

Celebrated 80 h Birthday.

Wilmington's esteemed townsman, Mr. Richard J. Jones, was celebrating the 80th anniversary of his birth yesterday. He is the oldest male citizen of prominence residing here, and was therefore receiving many congratulations from friends. Mr. Jones' children and grandchildren were assembled at his home yesterday, and last night many friends called to ex tend to him their compliments. Mr. Jones is in excellent health, is actively engaged every working day in the year, and no one enjoys a joke better or has a keener sense of humor than he. He has been Grand Treasurer of the Grand Lodge of Odd Fellows for twenty years, and is also a Past Grand Master and Past Grand Representative of the order.

The show Last Night. "Railroad Jack," a very sensational comedy drama, was seen by a fairly large-sized audience at the theatre last night. It was not as bad as one or two shows that have been to Wilmington this season, and several features that were really amusing crept in during the progress of the perform ance. The "real live lion" was on hand according to promise, but it was a disappointment to many that he did not appear until the last act. They should have been allowed to have seen him sooner. For several years past the Bethel building, which was presented to the society nearly 50 years ago by the late Captain Gilbert Potter, has been unsafe for use on account of its dilandated condition, and it has been the d sire of the trustees for a long time to repair this useful place of worship in a substantial and attractive form. Those of us who began this excellent work in the prime of life are growing gray in the service and cannot expect to continue much longer in this field of usefulness; it therefore behooves us to repair without further delay the damage to the Betrel building, using such means as we have and can obtain from others interested in the cause and in order that we may, if spar-d, enjoy the privilege of celebrating our 50th anniversary in a new building dedicated to this holy cause. To this end I would especially recommend that a building committee be appointed by our new Board of Trustees to obtain plans and estimates for the building, the lower flor of which may be rented for commercial purposes, and the second floor fittingly neautified for the service and glory of

Many people are commenting upon the exc-liency of the display and the very admirable manner in every repect in which the fair is being managed. The hall is as neat as a new pin and the specimens in the hundreds of coops certainly appeal to those with an eye for the beautiful. Condition Pavorable. [Winston Sentinel, 4th] Lawyer McClammy, of Wilming-

Mr. McClam my had a talk with the prisoner and he expressed delight over the information that the wounded man had a rod showing for getting well. Mr. McClammy stated to a reporter that he had known Pruett for several years and he had never heard of him being in any trouble before—except in family affairs, a suit being now pending for divorce. The lawyer was quite confident that Pruett was only jesting if he told any one that he shot a man a few years sg). Mr. McClammy left last evening for home. He will return

here for the trial. Dr. Spencer, who performed the operation upon Mr. Gass, reports that the wound healed nicely. This morning the physician . removed all but about two of the stitches. The patient began eating soft boiled eggs yesterday. To-day the nurses began acreasing the solid food. Mr. Gass rests well and says he suffers from no pain whatever. He was allowed to turn over this morning. He has been lying upon his back ever since the operation, except on the second night, when he unthoughtedly turned over himself.
