The bean and pea crops will be up to the average this year and far ahead of last season, while the potato, canteloupe and watermelon crops will be among the most important in the history of this section. The farmers under way, and the season's returns should be large and remunerative.

Mr. H. T. W. C. & A. and A. & Y. roads. This indicates an increase over last year of not exceeding 10 per cent., but the Journal yesterday differed with Mr. Bauman on that point and places the increase at fully 20 per cent. Detailing its reasons for that estimate, the Journal says that along the W. C. & A. road and connections, the increase will be fully 50 per cent. over last year, while the greatest increase along the W. & W. road is to be found south of Wallace. Above that point there will be no increase to speak of the decrease at some places offsetting any increase at others. I have travelled from Wilmington to Rocky Mount much in the past few weeks and I find have their work of cultivation well no such building boom as there is now on at Burgaw."

Speaking of the strawberry outlook Mr. Williams said that the advance guard of the small army of produce solicitors was already arriving in the strawberry belt. He also said that the disposition on the part of the growers this year seemed to be to sell their berries on the sLot and not risk consignments to parties of unknown responsibility in the North. They were badly fooled in some instances and paid for their berries in bogus checks last season and don't want a repetition of that treatment this year.

the defence in the action decided that there was no longer any use to fight the case and failed to perfect the same on appeal, which virtually amounts to a withdrawal. On Tues- yet. day, therefore, the case will be called in the Supreme Court and it will be in order for the State's attorneys, Messrs. Bellamy & Bellamy, Herbert Mc-Clammy and Wm. J. Bellamy, Esqs., to make a motion for dismissal, which disposition of the matter will, without a doubt, be made. The dismissal will] then be certified down to the Clerk of the Superior Court in New Hanover and Hauser will be sent to the penitentiary to begin a term of ten years in that institution.

The trial of Hauser lasted four days in the Superior Court and created much interest at the time from the volume and sensational character of the evidence for the prosecution. Attorneys for Hauser made every effort to get a verdict of guilty with recommendation to mercy set aside and a new esse was then annealed to the Suns Court and bond fixed at \$2,000. Hauser could not give the bond and bas since been confined in jail here, pending the result of the appeal to the Supreme Court. He has been a most exemplary prisoner and a number of friends have worked hard to secure his release. He is 51 years of age and a man of much more than ordinary intelligence. The crime of which he stands convicted was committed on August 11th, last year. He was tried in the Superior Court November following.
