> Virginia Won Again from Carolina, RALEIGH, N. C., April 19.-Virginia won the second game from Carolina this afternoon in a slow, tiresome contest, the score having been 9 to 7 in

The attendance was twelve hundred and the weather ideal. A late start necessitated a call of the game on account of darkness. Virginia won by timely hitting and superior base running. Both teams made nearly the same number of base hits and Virginia three more errors than Carolina. Both batteries did good work. Carolina played good ball until the fifth inning, when she went to pieces, allowing Virginia to make three runs after two men were down. The rest of the game was easy for Virginia. hours and thirty-five minutes with which to re-ice, classify, make up trains and leave South Rocky Mount on schedule time for the Northern markets each day. Should there be two or more sections of this train and the time required to move the first section does not absorb the three hours and thirty-five minutes, it will be run out ahead of time. Likewise trains to Quantico, the Southern terminus of the Pennsylvania Railroad promptly, and barring accidents, make the markets North, East and West on time—and not just any old time either as has been the case sometimes in the past. The Pennsylvania Railroad Company, with which the Atlantic Coast Line forms its northern connection at Quantico, has no train from Baltimore on Sundays upon which berries or other perishable freight can be forwarded for points on or reached via the Northern Central Railway. Owing to this fact shipments of berries forwarded on Pick-Up Train No. 18 on Fridays and shipments forwarded on Through Train No. 80 on Saturdays for a number of points, which are reached via the Northern Central Railway, will be delayed 24 hours.

Regarding the Southern Express train schedules, Mr. W. J. Crosswell, division superintendent, advises the Journal that as soon as the volume of business will justify it the Southern Express Company will put on its spe-cial train, leaving Wilmington about 8:10 A. M., stopping at all points where there is any business offered. The first express train went out last year on the 27th, but it is expected that the backward season will make it two or three days or a week later this year. Mr. Crosswell further says that the Southern Express will give the best service possible, and, as an evidence of this fact, they will put on through messengers from Charleston, 3. C., and Wilmington, N. C., to Philadelphia and Jersey City; whose duties will be to look after and guard the welfare of the fruit in transit.
