CONTRACT IS AWARDED FOR SOUTHPORT RAILWAY

Special from Wilmington, Del , Says Firm There Has Signed Papers and Will Begin in Two Weeks.

The Southport Standard of yesterday reprints the following special to the Baltimore American of Tues-

"WILMINGTON, DEL., May 12.—The Southport Construction Company, of which Alvin B. Morrison of this city is president and William S. Hilles is secretary, has received a contract for the construction of a railroad from Wilmington to Southport, N. C., a distance of 30 miles, with immense coal and freight piers at Southport. The contract price is \$1,450,000. The Lincoln Savings and Trust Com-pany, of Philadelphia, is trustee under the mortage, and has the money in hand for the work. Construction will begin in two weeks. The new line will be for the Cape Fear Terminal

Railroad Company.
"The Cape Fear Terminal Railroad Company owns a number of rights of way through Town Creek township over the formerly projected line between Wilmington and South-

It is known here that a deed of trust has been in course of preparation securing the proposed bond issue for the new railroad and coal pier. The amount of it is said to be \$800,000, and that a survey of the line not only includes the connection between Wilmington and Southport, but also a line of railway from the latter point via Shallotte, Brunswick county, Whiteville and Clarkton, the idea being to develop trucking through that section. While there have been many wild reports about the "Southport Railroad" in recent years, it appears now that something tangible is in sight.

BERRY MOVEMENT.

This Week Will Mark the Closing of the Shipping Season Proper for 1902.

ESTIMATES OF THE CROP

Various Opinions As to Its Profits Twenty-five Thousand Crates Wednesday--Vegetables Now Going Forward-Fine Variety.

This week will see the passing of the strawberry as a commercial factor throughout this section of the State. The prices, although a little stimulated yesterday, have now about reached the point where it is no longer profitable to ship them and truckers are beginning to turn their attention to other crops, which are more in demand. Norfolk berries have appeared on the Northern markets and the result has been to bring quotations almost uniformly 8 to 10 cents.

Although the shipment of strawberries is about over, the farmers are busy sending away to distant markets other products, such as cabbage, new potatoes, beans and cucumbers, etc., the prices for which in the main are very satisfactory.

Opinions vary as to the success of the berry season this year. In some sections there is a complaint of a short crop, while in others the yield was satisfactory, but the drop to ordinary Rebekan; J. A. Orrell, mileage and prices came too soon. Some press comments in view of the close of the season are as follows:

Whiteville Press: The strawberry shipments will end the last part of this week for the season. This year's product has netted handsome returns for the growers and many berries from the Chadbourn district have been handled—an average from 15 to 20 cars

daily.
Charleston News and Courier: The shipment of strawberries is rapidly drawing to a close and those in position to speak with knowledge declare that the season has been a most satisers had to contend with several weeks

Burgaw Chronicle: The berry se son in this section may now be said to be practically over. A few small shipments will be made after this time, out on account of the extremely low prices quite a number of our most prominent truckers have already ceased to market their berries, and are now devoting their attention to their other crops.

The berry crop in this section

short by about one-third, only 10,700 crates having been shipped from this point prior to this time, against 15,000 crates last year. On the whole, the results of the strawberry crop in this section are not as satisfactory as usual. The crop this year is short, the prices comparatively low, and perry growers, in a great many stances, have suffered severe loss account of the poor transportation facilities afforded by the express companies. The shortage in the crop is due to the combination produced by the strawberry weevil and a dry

Chief James H. Cowan will prepare the lay-out.

Accident to Capt, Richardson,

Many friends in Wilmington will read with regret the following from the Columbus Press, published at Whiteville, yesterday : "A very painful if not fatal accident happened to Capt. V. V. Richardson at his home last Saturday morning. Since his last indisposition about two months ago he has been very weak, having to be assisted to move about, but Saturday morning, becoming impatient, he atempted to step along the floor, and fell, breaking the bone of his thigh that enters the hip. Drs. Jackson and Maxwell have been attending him since. It is hardly probable that he will completely recover."
