Continued Improvements at St. Paul's.

It gives the STAR pleasure to note the continued improvements in the interior of St. Paul's Episcopal church. A new choir-room has been built and handsomely furnished, and the vestibule of the church enlarged and newly carpeted. The central aisle has also been re-carpeted with the same pattern as that recently laid in the chancel. The interior of St. Paul's now presents a very attractive appearance; and it is learned that other changes are to be made, sespecially in the pews, which will render them more comfortable to the worshippers. When it is remembered the short time in which all this work of improvement has been accomplished, and the fact that not a single dollar of debt has been incurred, it is seen both the recthat the hustling newspaper man will tor and the congregation deserve great credit for their efforts.

AN EX-SALOON FOR A CHURCH.

Novel Method Agreed Upon for Breaking Up Disreputable Locality.

Carrying out a determination to break up the disreputable locality known as "Fourth and Castle streets," the building known as the "Klondike saloon," in the midst of the settlement, has been rented and will be converted into a church, where services will be held regularly each Sunday and prayer meeting during the week.

Prominent persons belonging to the First Presbyterian congregation are said to have originated the movement and in their novel effort toward a suppression of vice in the vicinity named, they have enlisted the co-operation and support of leading respectable residents near the neighborhood, who believe that the moral effect of the undertaking will be to rid the community of its undesirable residents.

The "Klondike" is at present tenanted for living apartments, but the agency from which it was rented promises to dispossess the tenant before next Sunday, when services are expected to be held by some prominent city pastor.

Mr. Johnson read from a paper, defining his position and saying the effect of the license would be to increase blind tigers, the law against which was not enforced. Mr. Sweeney took him hotly to task for the last remark and called in vain for Mr. Johnson to specify charges and call names.

Mr. Bailey had previously moved a substitute for the whole that the license remain as it is and when the question was put Messrs. Johnson, Hashagen, Sweeney, Bailey and Tiencken voted "aye," while Messrs. Cooper, Spencer, VonGlahn and Murreil voted "nay." Mr. Mann did not vote and the motion to continue the license same as now was adopted.

ALDERMAN BAILEY RESIGNS

Mr. VonGlahn Also Went Out as Mayor to Mr. L. A. Weedon.

The show.down on the part of the high license advocates came when Alderman Hashagen, of the Finance Committee, began reading the general tax ordinance for the ensuing fiscal year as agreed upon by two members of the committee. The two members, when the liquor clause was reached. recommended that the license remain at \$22 per month as now, but Mr. W. B. Cooper, the third member of the committee, submitted a minority report which in addition to the regulations of the traffic now in force, provides for a classification in the license rate according to location of bars as follows: Classification A-\$1,000 per annum,

annually in advance.

For the purposes of this section
Classification A shall be deemed to apply to all places where spirituous, malt or vinous liquors are sold in that teritory bounded on the east by the easton the north by the southern limit or west by the Cape Fear river; provided, however, and it is expressly intended that all that portion of territory within the city limits situate west of the

shall be deemed a Bar. Mr. Cooper spoke in favor of this report and Mr. Sweeney warmly attacked it. He said he didn't want to create a liquor monopoly and moved that the license remain just where it s. Mr. Spencer seconded the proposition of Mr. Cooper. Mr. Bailey opposed it and asked for an opinion as to its constitutionality from City Attorney

Mr Bellamy said he had investigated the measure and was satisfied it was all right in principle but might be defective technically in its phraseology as it was drawn hurriedly. He said the classification scheme was effective in New York and cited authorities as

Mr. Tiencken presented a majority report accepting the Fifth ward water works, and said the money for same had been paid. Mr. Bailey submitted minority report.

The city made a formal application through Hon. John D. Bellamy for wo parrot guns and balls for pyramids to be placed on the W. L. I. grounds.

Mr. VonGlahn tendered his resignaaccepted with regret. Mr. Bailey later in the meeting tendered his resignation as an Alderman and that also was accepted with regret. Mr. Z. E. Murrell was unanimously elected chairman of the Public Building Committee to succeed him, but his successor as an Alderman was not chosen last night. Mr. Bailey said a change in his business made it imperative for him to devote all his time to that. It is learned that the change in business is a dissolution of the company owning the Wilmington Iron Works, Mr. Bailey retaining the foundry and machine shops and Mr. H. A. Burr, the other member of the

company, assuming control of the mill supply business. The Bell Telephone Co. filed its acceptance of the ordinance recently adopted and a slight change at the request of Mr. Meares, attorney, was made in the ordinance passed relative

Mr. Bellamy Introduced Bill Yesterday Tending to Increase Imports Here.

Hon. J. D. Bellamy has been informed by Deputy Collector J. E. Taylor that the port of Wilmington is not a port to which dutiable merchandise may be shipped without appraisement, under the act of June 10, 1880, while Charleston, Mobile, Norfolk and Savannah have this privilege. Acting upon this information, Mr. Bellamy prepared a bill which he introduced yesterday, as follows: An act to make Wilmington, N. C., a

port through which merchandise may be imported for transportation without appraisement. Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled, that the privileges of the first section of the Act approved June 10th, 1880, governing the immediate transportation of dutiable merchandise

without appraisement, be and the same are hereby extended to the port of In talking over the matter with Mr. Chance, the supervising special agent of customs, Mr. Bellamy was further informed that Wilmington had no bonded warehouses and that when the government owns a warehouse, on application of the collector, a part of the warehouse may be used as a bonded warehouse without a regular storekeeper, a deputy doing the duty when required. It is necessary to have this done in order to make effective the bill Mr. Bellamy intends to have passed. The special agent also called Mr. Bellamy's attention to the fact that Wilmington has not even custom

storage of imported goods in bond.
