lotte took to-day's game from Wilmington by batting Sweeney at opportune times and on errors by the visitors in the field. The men appeared to have an off day, for they fumbled and failed to hold balls when misses meant runs. In the first inning Brandt was touched up for four hits and the grand stand began to get frightened when two runs were marked up for Wilmington.

The fears, however, were soon dissipated when the Charlotte men made five in the last half. The joke of the game was that Armstrong stole 20 bases. About 500 people saw the game. THE SCORE BY INNINGS.

Y. M. C. A. STAR COURSE FOR THE COMING SEASON.

Mr. H. E. Bonitz Chosen Manager and List of Desirable Attractions Secared--Subscription Now Open.

A committee from the Board of

Directors of the Y. M. C. A. met last week in the office of the Secretary in the Association building and partially completed the arrangements for the Star Course of entertainments next season. The committee had an abundance of material to select from and members say the course this year bids fair to break all record of excellence. Mr. H. E. Bonitz has been placed in charge of the course and his tireless energy and superior judgment will go a great way toward ensuring success. The following numbers will prob-

ably be secured : Lovett's Boston Stars. Ridgeway Concert Company. Mozart Symphony Club. Dr. A. A. Willits.

S. M. Spedon, a caricaturist. Amphion Male Quartette. Thos. Dixon, Jr., and either the "Dunbar Hand Bell Ringers" or the original "Quaker Male Quartette."

Tickets will be the same as last year -\$2 for non-members and \$1 for members, with 10 cents additional for reserved seats.

The Mozart Symphony Club is well remembered from last season and is said to be the best combination of instrumental musicians now on the road. The "Quaker Male Quartette" is also said to be another strong number and will appeal especially to the musically inclined. The Katherine Ridgeway Concert Company headed by Miss Ridgeway, is another attraction, which comes well recommended and Lovett's Boston Stars are too wellaknown here to need introduction. The Amphion Male Quartette is a concert company composed of the finest church soloists in and around New York and is sure to please. The lecture by Tom Dixon, Jr., author of "Leopards Spots" will

no doubt fill the auditorium early. The subscription list of the Star Course is now open and tickets may be secured at any time. Any one desiring further information may receive the same from Mr. H. E. Bonitz, manager of the Course.

SHORTAGE COMING IN COAL SUPPLY.

Seacoast Railroad is Peeling the Baneful Effect of the Strike.

As the result of the strike in the coal region, the black article of fuel is now very scarce and is commanding high prices. A good article of coal is simply out of the question at any figure and several local concerns are the sufferers. The Consolidated Railways, Light and Power Co. is the first to feel the effect of the shortage to any considerable extent. The company is now able to get only "coal dust" or "sweepings," and with that class of fuel the operation of the Seacoast road strictly upon schedule is

almost out of question. The best coal supply to be had now is a very poor steam generator and this, combined with the rush of the work in getting the road in order for the trolley cars, makes it very unsatisfactory for the company in the opeeration of its trains. The defect the company hopes to remedy at the earliest possible moment.

Playing Havec with Cotton Plant.

At the Produce Exchange yesterday cotton men were interested in an exhibit of the terrible destruction being wrought upon the cotton plant in Robeson county by the pest commonly known as "lice." The stalk on display was taken from a field in Robeson yesterday morning and brought to the city at noon. The top of the plant was literally covered with the insects and the gentleman who brought it to the city says there is much complaint of the pest in the section which he visited. The presence of the insects is due to the cool days and nights which the weather man has been giving us lately. In other respects the cotton crop is reported very fine.

The Excursion to Norfolk The A. C. L. excursion to Norfolk vesterday was in charge of Capt. Harvey C. Twining and the train left at 6:45 A. M. One hundred and seventy tickets were sold here, but other passengers were taken on at stations up the road as far as Magnolia. One hundred of those who left Wilmington were white. Of the seventy colored people about 50 are on their way to New York where they expect to get employment as domestic servants. The excursion will return from Norfolk to-morrow.

POSSIBLE CHANGES.

Plant System Officials and Employes Are on the Anxious Seat.

EFFECT OF CONSOLIDATION.

There Are Many Rumors in Savannah, According to the Morning News. Official Circulars Are Expected This Week.

In speaking of the various changes that are likely to be made with the going into effect of the consolidation of the Atlantic Coast Line and Plant System, the Savannah Morning News of Sunday says:

"The situation will be cleared for Plant System officials this week. The uncertainty under which most of them have labored for some weeks, in fact ever since the announcement of the acquisition of the Plant System by the Atlantic Coast Line, will be relieved. This is the view they take of it, and they are eagerly awaiting the official announcement that they expect will be made very soon by circular.

"This circular, said a Plant System official yesterday, 'will probably be issued from Wilmington, and will be dated as of July 1. We look for it, however, a little sooner than July 1. It may make it appearance here this

week.'
'In the meantime, however, information that they will be retained in the service has been reaching some of the officials. Comptroller H. C. Prince, of the Plant System, will be made comptroller of the consolidated system. This will mean the transfer of Mr. Prince's headquarters from Sayannah to Wilmington, the general headquarters of the Coast Line. Mr. Prince has many friends here. He has been comptroller of the Plant System since Mr. Morel, having come originally from the Louisville and Nashville. He is an experienced and apable railroad man. "General Superintendent W., B.

Denham, of the Plant System, will be general superintendent of the Atlanic Coast Line, which will be formed nto two divisions. The exact line of division is not yet known but it is not mprobable that it will be Charleston. The Plant System will constitute the Southern division, and the Atlantic Coast Line as it now exists, will be the Northern division. Though they will exercise supervision over diions, the authority of the general superintendents will be much greater than that of division superintendents, being, in fact, as great as it is in the present operation of the two properties.
"Mr. J. F. Divine, general superin-

tendent of the lines of the Atlantic Coast Line south of Weldon, N. C., will probably retire upon the consoli-dation, possibly being made a vice president of the company. Mr. Divine s a veteran in the service of the Coast Line and a stockholder. The authority of Mr. E. T. D. Myers, superintendent of the lines north of Weldon, will. it is thought, be extended as far south as Charleston. He and Mr. Denham, in that event, will be the two general superintendents, reporting to General

Manager J. R. Kenly. "General Freight Agent James Menzies will be general freight agent under the new regime. The Morning News published a report that Col. B. W. Wrenn, passenger traffic manager of the Plant System, would leave the service and that General Freight and Passenger Agent A. J. Craig, of the Charleston and Western Carolina, would take charge of the passenger department here. This report is still per-sistent. It is almost positively declared to be the way the event will show.

"Mr. Craig is now with a road that is owned by the Atlantic Coast Line. While it is the avowed policy of the Coast Line not to displace any officials of the Plant System that it could re-tain, it is held that Col. Wrenn was not inclined to accept what was of-fered him. This meant that an opening would be presented, so it is maintained that Mr. Craig will come to Savannah to be general passenger agent. The report is given credence among Plant System officials, who say, however, that they do not know officially that it is true. That, in fact, is their position upon all the places except those of Mr. Prince and Mr. Menzies.

"Trackage! rights of the Southern Bailway from Hardeeville to Jacksonville will be effective on and after July 1st. This will mean a changed condition in the railroad situation. The Coast Line and the Southern Railway will be warm competitors for through business. Under the present contract between the Plant System and the Southern, the Southern's trains are handled by the Plant System south of Savannah and the Plant System gets the revenues. Under the new contract the Southern will run its own trains from Hardeeville to Jacksonville, paying for the right. While the Southern will do neither local freight nor local passenger business between Hardeeville and Jacksonville. there will be plenty of thorough bus-iness over which it and the Coast Line

Those outside of official circles here who profess to know, say that Capt. N. N. Royall, now with the Coast Line at Charleston, will be one of the

general superintendents. The Savannah News of yesterday says the shops of the Plant System in that city will not be removed.

The Atlantic Coast Line has no shops at Charleston. Hts southernmost shops are at Florence. The distance from this portion of the system to Florence would be too great to admit of the removal of the shops from Savannah, so it is assert that they will remain there. Shops are located at several points on the Plant System, the most important being at Savannah, Waycross and High Springs.

CHARLES BEATTY MALLETT.

Former Resident of Wilmington and Native of Fayetteville Died Sunday at Salisbury -- Has Relatives Here.

Information reached the city yesterday of the sudden death at his home in Salisbury Sunday morning at 10:30 o'clock of Mr. Charles Beatty Mallett, a native of Fayetteville and once a resident of Wilmington. His death

was the result of a stroke of apoplexy. Mr. Mallett had made his home the past two years with Mr. H. J. Overman, his nephew, and ionitly the two conducted a brick yard near Salisbury. Mrs. Overman and children were visiting in Fayetteville at the time and Mr. Overman and Mr. Mallett occu pied the house alone. About 8:30 o'clock a servant woke Mr. Overman and told him she had heard distressed breathing in Mr. Mallett's room upstairs. Mr. Overman upon going to the room, found Mr. Mallett unconscious upon the floor. He had fallen with his head on the hearth and there was an abrasion where his cheek bone struck. The stricken man died within two hours lwithout regaining consciousness, although physicians were hastily summoned. Mr. Mallett had never exhibited signs of apoplexy and was apparently in the best of health. Immediately preceding the stroke from which he died, he had risen, dressed himself and had busied him-

self about the house. Deceased was 51 years, of age and was never married. He was superintendent of the Cape Fear Club here at one time and was also a member of the Board of Aldermen. He was an uncle of Mrs. R. Lee Holmes and a cousin of Mrs. Gabriel Holmes, both of Wilmington. He also leaves a brother, John W. Mallett, of Georgia, and three sisters, Misses Carrie, Maggie and Alice Mallett, of Fayetteville. The remains were taken yesterday to Fayetteville for interment.

BACHELOR-BENEDICTS TO-DAY.

Game That Will Be Intensely Interesting.

Bulletins from Charlotte Game. Fun and lots of it with enough good ball playing between times to make the combination palatable is what the Bachelors and Benedicts promise in this afternoon's game at the park for the benefit of the League uniform fund. The Bachelors have been at work persistently to strengthen their team, and the sport of the first game, with the objectionable features "cut out," may be looked for. After a day with "the children" at the beach, the original line-up of the Benedicts found itself vesterday poorly recovered from the first day's contest, consequently new players had to be signed. The teams will line-up this afternoon as

Mr. Hall, besides being a regularly licensed pharmacist, has had abundant experience in his chosen profession and at once enjoys the confidence and esteem of the public. While at the hospital he filled all the prescriptions for county and city as well as for the patients of the institution and at his new store will make a specialty of prescription filling. He is a Sunday morning of cholera infantum

His place at the hospital has not yet been filled.

The Atlanta Excursion.

The Atlanta excursion train which arrived Saturday with white passengers, more than half the number of which will remain at the beach a while longer, left last night at 9:30 o'clock from Tenth and Market streets. There was more than two hours delay in getting up from the Beach over the Searoad on account of the short and very inferior coal supply. The train left the Beach at 8:30 P. M., and the city about an hour later. The section

of the train carrying some four hun-

dred colored excursionists left the city

station of the S. A. L. at 6 o'clock.

The Board of Aldermen did not meet last night to pass upon applications for liquor license as was expected. The postponement was in deference to Alderman Mann, who desired to be absent on the excursion to Wilmington and all are assured a de-lightful time. Norfolk.

There was a lively game of baseball at Hilton park yesterday afternoon between colored teams from Wilmington and Atlanta, the aggregation from the latter city having arrived Saturday on the excursion. The result of the game was 11 to 9 in favor of the home team, or the "White Caps," as position at the latter institution and they chose to style themselves. The Atlanta club had things all its own way until the sixth inning, when the Wilmington team crossed the plate for eight runs. The home team was uniformed in fiery red, with tan shoes, and the effect was amusing. There were hits, errors, passed balls, muffs, balks, etc., galore, but the umpire managed to "stave off" the "scraps' until the eighth inning, when the Atlanta crowd got mad and had the game called before the score grew larger.

C , Lines. SPECIAL NOTICE.

Withdrawal Insured Bills of Lading. Beg to advise that. effective Monday, June 16th, 1902, and until further notice, the Clyde Line has cancelled its cargo policies and will only move property entirely uninsured by the steamers it may operate between New York, Wilmington, N. C., and Georgetown, S. C., and subject to the terms of the contract embodied in the Bill of Lading, which clearly relieves the carrier from marine risk, including fire and other casualty, while on land or water.

We give the merchanist this early notice in order to enable them to make such arrangements of their own as they may deem proper, to protect themselves against any losses for which, under the terms of the contract as embodied in the Bill of Lading, the carrier is in no way responsible. All property being entirely unictived while in the possession of the Clyde Line shippers must arrange for their own insurance; however, if they desire to effect insurance under the open policies held by the Clyde Line, and which insurance must be endorsed on the Bills of Lading, they can do so at rate of twenty cents per one hundred dollars valuation.
