way excursion.

Our city is certainly perfection from WORK FOR OUR ARCHITECTS. an excursion point of view. Yesterday there were two, one from Conway, S C., and the other from Fayetteville.

Col. W. A. Johnson and Mr. H. E. Bonitz Returned from the Burned City Yesterday-Both Praise the Push of Sampson County People.

The New Clinton, is what the county seat of old Sampson will soon be. The people of that city, while feeling keenly the loss of property sustained by last Sunday's conflagration, are not a bit discouraged or dismayed. They have already gone to work to rebuild their beautiful little city and in doing so they intend to make it by far more up-to-date than before. This well exemplifies the

pluck and push of the Clinton people. Col. W. A. Johnson returned yesterday morning from the burned city, where he has been for the past week at the bedside of his mother. In this connection it is gratifying to note that Mrs. Johnson is much better. His wife is still in Clinton.

In conversation with a STAR representative Col. Johnson said that the loss was almost \$100,000, which was covered by a meagre insurance of only about a fifth of that amount. Speaking the rebuilding of the place, he says the people are bending every energy ber. and intend to make Clinton by far better than before. Dr. A. M. Lee is alone to have erected three large handsome store buildings, which are Wednesday an excursion will reach to be constructed according to modern architectural plans.

Mr. H. E. Bonitz, the architect, returned last night from Clinton. He spent two days there and was kept busy the entire time figuring on plans for new buildings. He was given almost immediately contracts for plans for two splendid residences and six fine stores. The dwellings and stores are alike to be most up-to-date in design and construction and the latter. several of which will be three stories high, are to be fitted up with handsome plate glass fronts.

Mr. Bonitz speaks glowingly of the energetic and progressive manner in which the people of Clinton are going about the rebuilding of their city. He says they intend to enforce rigidly the law prohibiting wooden structures within a certain territory, and this will, of course, make the buildings much finer. Another sign of push, he says, is the fact that a bond issue for terfering with a policeman about to the establishment of a water works plant is already being agitated.

STATE CONVENTION.

Our Delegates Leave Tuesday Morning

for Greensboro. The Democratic State Convention will be held in Greensboro Wednesday. The delegates from this county will leave Tuesday morning and among those who will go will be Judge E. K. Bryan, Herbert Mc-Clammy, Esq., Major W. H. Bernard and Messrs. N. N. Davis, Wm. E. Worth and Frank H. Stedman. Congressman John D. Bellamy will also attend the convention and Major Bernard will go both as a New Hanover county delegate and as one of

the State Executive Committeemen. The business of the convention, which will be held in the new Opera House, will be to nominate a chief justice and two associate justices of the Supreme Court, one corporation commissioner and a superintendent of public instruction. It will also ratify the nominations of judges of the different judicial districts and consider the manner of nominating a U. S. Senator, whether by convention or primary. The State Executive Committee is also to be selected.

SUNDAY CARS.

citizens with a pistol. He was ar- The Trolley Line to Delgado Will Be le Use To-day-A Nice Ride.

The street cars ran on the Delgado line last night for the first time for the accommodation of passengers. The first car went through to the mills about 7:30 o'clock, and from then on trips were made regularly until midnight. To-day cars on that line will be operated from 8:30 o'clock this morning until 11:30 o'clock to-night, and, no doubt, the travel will be exceedingly large.

The junction point for Delgado is at Ninth and Princess streets, and from there to the mills is a mile in length and it requires about ten minutes to make the trip.

down the river Wednesday night is Wilmington the Lowest. The Weather Bureau reports tem-It will be largely attended and it is peratures lower over the greater porneedless to add that all will be given a tion of the Gulf and South Atlantic States. The maximum recorded at Wilmington, Friday, was 79 degrees; at Charleston, 88; Charlotte, 80; Savannah, 94; Jacksonville, Fla., 96; Augusta, Ga., 88; Atlanta, 90; Montgomery, Ala., 96; New Orleans, 94.

Work at the Camp.

Camp work at the Hammocks is going merrily and steadily on. Everything will be in readiness in time for the accommodation of the Georgia regiment. Another car load of lumber goes down this morning.

SCIENTISTS' CHURCH ORGANIZED LAST NIGHT

The Society in This City Move to New Quarters in the Murchison Bank Building and Form a Church.

Wilmington now has a Christian Science Church, the second one in the State, the other being located at Asheville. Heretofore the small band of earnest workers in this city have been known as the Christian Scientists' Society, but last night the organization of what is known as the First Church of God, Scientists, was perfected and all necessary officers elected. This was done at a congregational meeting held at the new quarters of the society in the Murchison Bank building, corner Front and Cheenut streets. The new quarters consist of a large hall on the first floor at the eastern end of the building and is better adapted, both as to capacity, and appointments, for the purpose desired, than the old quarters in the Masonic Temple. The new home has been richly carpeted and handsomely furnished, and will be open for the reception of visitors daily. Here, the first service of the new church will be held this morning, the

subject of the sermon being "Life." The church here will be conducted under the direction of the mother church in Boston and will have two readers in lieu of a pastor.

The membership of the church is only seventeen, but even that is large when taken into consideration that the number was only two last Octo-

THE REMAINS GO TO-DAY.

Puneral of the Late Capt. Jas. A. Smith Will Be Held This Morning-To Be Sent to Maine for Interment.

The death of Capt. James A. Smith, mentioned in the STAR yesterday morning, has brought gloom to many in Wilmington. Especially saddening was it to the numerous seamen in port. each of whom had either known Capts mith personally or had heard his praises sung by admiring friends. As a mark of respect to the memory of their late comrade, the master of every boat, whether steamer or tug, has the flag at half mast upon his vessel.

Capt. Smith was master of the schooner Gem, which was compelled to sail Friday in charge of Capt. F. A. Dix. She was consigned to Messrs. J. T. Riley & Co., who upon learning of the death of Capt. Smith immediately wired the owners of the craft, Messrs. John S. Emery & Co., of Boston, Mass., and otherwise took all necessary steps in the matter. They received an answering telegram to have the body embalmed and expressed at once to Capt. Smith's late home in Machias, Me. This will be done this morning, after an appropriate service to be held at the Marine Hospital and which will be conducted by Rev. John H. Hall, pastor of Fifth Street Methodist church. The pallbearers will be Messrs. W. N. Harriss and J. T. Riley, honorary, and Capt. J. B. Morehouse, of the Syanora, Capt. A. T. Loveland, of the John R. Fell, Capt. J. W. Bunker, of the Albert T. Stearns and Capt. H. L. Crammer, of the Harbeson Hickman. Capt. Smith was one of the most popular and whole-soul seamen who visited Wilmington and the large circle

of friends be possessed was attested by the expressions of sorrow heard on every hand yesterday. He was a man of sterling worth. A heart broken family survives him.

Carpenters Greatly Enthused.

The members and friends of Local Union No. 899 enjoyed an intellectual feast last night in the way of a lecture delivered by General Organizer Odell, of New York. He is a very fluent, forceful lecturer and entertained the meeting for nearly an hour, telling of the struggles and victories of the Carpenters in over two hundred cities where an eight hour work day has been gained since May the 1st, thereby giving the Carpenters two hours more per day for social and intellectual advancement and recreation. He says that Norfolk will win with flying colors within the coming week. The Local here donated liberal financial aid to help them hold the eighthour work day which was conceded them last September.

Mr. G. F. Irwin was unanimously elected representative to the biennial convention, which meets in Atlanta September 15th. C. E. Hall was chosen alternate.

The Petersburg, Va., correspondent of the Richmond Times says: "The light tower, built by the Petersburg Iron Works, for the United States government, to be used at the mouth of the Cape Fear i rver, North Carolina, is being prepared for shipment. The work has been examined by expert mechanical engineers, who pronounce will be one of the tallest and best constructed light towers in the service."

Death of Dr. Ward. The many friends in the city of Dr. E. W. Ward will hear with deep sorrow that he is no more. He died Thursday morning at his home in Pollocksville. His remains were taken to his old family cemetery on New River, where he was buried yesterday at 10 o'clock. He was sixty-four years

The C. W. Polvogt Co. are selling their Shirt Waists at just one-half regular price.

AT THE COAST LINE.

Rate Clerks Coming in Addition to Freight Claim Corps, Who Will Arrive To-morrow.

THE AUDITOR'S BIG FORCE.

Will Arrive About the First of Next Month-Plant System's Old Clerks in Charleston Anxious About Their Positions.

The STAR of yesterday morning published a clipping from the Savannah News giving the names of nine of the old members of the freight claim department of the Plant System who are coming to Wilmington to fill positions with the Greater Coast Line. But this doesn't by any means end the inward flow of clerks for the general offices here. These freight claim employes will arrive to morrow and will be followed Tuesday by a detachment of rate clerks from Savannah to do duty in the office of Assistant General Freight Agent Perrin. They will be Messrs. E. D. Hall, E L Parr. T. M. Henderson and O. T. Edwards.

The big force of the auditing department will not arrive until the first of August. It will number about half a hundred and will include clerks from offices in several cities. This addition will make the auditing department of gigantic proportion.

With addition of the force to come to morrow the freight claim department will possess twenty-one clerks, outside of Freight Claim Agent A. O. Kenly and Mr. G. A. Cartwell, who has been appointed chief clerk.

Now that so many more people will soon be with us and all of which will benefit Wilmington, it behooves our people to see that they get boarding | Hospital was reported yesterday as houses.

Relative to the retention of Plant System clerks, yesterday's Charleston News and Courier savs:

"Many of the employes of the Plant System who received orders to remain in office when that property was conon July 1st are anxiously awaiting news from Wilmington. It is not likey that all of the men will remain with the company, but as no news is good news they are biding their time, with the hope of holding on permanently. The work is going on as usual, and there does not appears to be any special haste in announcing changes for the minor departments. The appointment of a general agent for Charleston has not been made, but this may be settled within the next few days. Under the former administration Mr. Royall acted as general agent and superintendent. When he was promoted Captain Lynch was sent here as district superintendent, and hereafter the two offices will not be combined. The Coast Line people have shown every desire to take care of the Plant System employes wherever this could be done. is not possible, however, to retain all of the old workers in the service, and the reduction of forces was one of the natural results of the consolida-

Yesterday afternoon's Florence

Times furnishes the following: "The force of machinists at the Florence Atlantic Coast Line shops is being increased daily. It is said that all experienced men who have served their time and leave clear titles behind them are being taken on application. On the other hand, it is stated that the force in the old Plant System shops in Savannah is being gradually reduced. In Savannah, the union scale of wages is 50 cents a day higher than that in operation here, which was raised some ime ago. This has led some to think that the Coast Line will to an extent concentrate the repair work in the Florence shops, which will call for the employment of a much larger number of machinists and possibly the enlargement of the buildings. New shops for Florence have been talked of for a long time. The present buildings were erected in 75-76 and it is only a matter of time before new ones will be absolutely necessary. It is said that plans for the new shops have already been drawn and are being held in the office of the officials. When the improvement will be con-

summated, however, no one knows. "The men in the shops here have long looked for larger, cleaner and more convenient buildings to carry on the Coast Line's work. The old buildings are not in the best condition. At

this time there is said to be more repair work on hand than can be attended to by the present force, hence the taking on of new men. "The car repair force here is also being increased. It has nearly tripled since the consolidation.

COAST LINE VICTORS.

High School Team Downed in a Pretty Game Yesterday Afternoon.

There was a battle royal on Hilton diamond yesterday afternoon. The High School ball team met and were defeated by the crack team from the Atlantic Coast Line shops. The score was 10 to 7, and was close enough at all stages of the game to make it exciting.

The battling array was as follows: COAST LINE. HIGH SCHOOL. McDougall...c....King Sellers...p...Williams it a marvel of architectural metal con-struction.
